## Shannon Ringenbach

List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/1158745/publications.pdf Version: 2024-02-01

#	Article	IF	CITATIONS
1	The Effects of Music on Physiological and Affective Responses to Treadmill Walking in Adults with Down Syndrome: a Pilot Study. Journal of Developmental and Physical Disabilities, 2022, 34, 57-66.	1.6	3
2	Stationary Cycling Exercise Improved Manual Dexterity in Older Adults with Down Syndrome. Journal of Developmental and Physical Disabilities, 2022, 34, 705-716.	1.6	1
3	Assisted Cycling Therapy (ACT) Improves Adaptive Behaviors in Adolescents with Down Syndrome. Journal of Developmental and Physical Disabilities, 2020, 32, 535-552.	1.6	5
4	Dose-Response Association between Exercise Intensity and Manual Motor Performance in Individuals with Down Syndrome: a Preliminary Study. Journal of Developmental and Physical Disabilities, 2019, 31, 299-311.	1.6	2
5	The effect of acute exercise on the performance of verbal fluency in adolescents and young adults with Down syndrome: a pilot study. Journal of Intellectual Disability Research, 2019, 63, 614-623.	2.0	9
6	Examination of participation and performance of dancing movement in individuals with Down syndrome. International Journal of Developmental Disabilities, 2019, 65, 58-63.	2.0	4
7	Walking performance in adolescents and young adults with Down syndrome: the role of obesity and sleep problems. Journal of Intellectual Disability Research, 2018, 62, 339-348.	2.0	13
8	Exploring Associations with 6-Minute Walk Test Performance in Adolescents and Young Adults with Down Syndrome: a Pilot Study. Journal of Developmental and Physical Disabilities, 2018, 30, 783-792.	1.6	4
9	The effects of assisted cycling therapy (ACT) and voluntary cycling on reaction time and measures of executive function in adolescents with Down syndrome. Journal of Intellectual Disability Research, 2016, 60, 1073-1085.	2.0	30
10	Dose–response relationship between intensity of exercise and cognitive performance in individuals with Down syndrome: a preliminary study. Journal of Intellectual Disability Research, 2016, 60, 606-614.	2.0	33
11	The association between a single bout of moderate physical activity and executive function in young adults with <scp>D</scp> own syndrome: a preliminary study. Journal of Intellectual Disability Research, 2015, 59, 589-598.	2.0	25
12	Assisted Cycling Exercise Improves Fine Manual Dexterity in Persons with Down's syndrome. Journal of Applied Research in Intellectual Disabilities, 2014, 27, 264-272.	2.0	23
13	Unimanual and Bimanual Continuous Movements Benefit From Visual Instructions in Persons With Down Syndrome. Journal of Motor Behavior, 2012, 44, 233-239.	0.9	8
14	Reversal of handedness effects on bimanual coordination in adults with Down syndrome. Journal of Intellectual Disability Research, 2011, 55, 998-1007.	2.0	7
15	Auditory instructional cues benefit unimanual and bimanual drawing in Parkinson's disease patients. Human Movement Science, 2011, 30, 770-782.	1.4	22
16	Torso Movement Constraint in Stability of Bimanual Coordination. Perceptual and Motor Skills, 2008, 107, 231-245.	1.3	1
17	Persons with and without Down syndrome use similar strategies when using visual instructions for bimanual drumming. Journal of Intellectual Disability Research, 2007, 51, 953-961.	2.0	3
18	Specific instructions are important for continuous bimanual drumming in adults with Down syndrome. Down Syndrome Research and Practice, 2006, 11, 29-36.	0.3	4
