citing authors

#	ARTICLE	IF	CITATIONS
1	Evaluation of gross- β , gross- β^2 , U, Th and K values in groundwater and related health hazards: a case study, Arslanlar mineralization area and its surroundings, Ayvacik, Anakkale, Turkey. Journal of Radioanalytical and Nuclear Chemistry, 2022, 331, 65-78.	1.5	0
2	DETERMINATION OF RA-226, TH-232, K-40 AND CS-137 ACTIVITIES IN SOILS AND BEACH SANDS AND RELATED EXTERNAL GAMMA DOSES IN ARIKLI MINERALIZATION AREA (AYVACIK/TURKEY). Radiation Protection Dosimetry, 2021, 193, 137-154.	0.8	5
3	^{40}Ar - ^{39}Ar ages and petrogenesis of middle Eocene post-collisional volcanic rocks along the Izmir-Ankara-Erzincan suture zone, NE Turkey. Journal of Asian Earth Sciences, 2019, 173, 121-142.	2.3	8
4	A case study of compression to escape tectonic transition: Tectonic evolution of the Nallihan Wedge and comparison with the Tercan Wedge (Eastern Mediterranean, Turkey). Journal of Asian Earth Sciences, 2019, 174, 311-331.	2.3	12
5	^{40}Ar - ^{39}Ar geochronology and petrogenesis of postcollisional trachytic volcanism along the Izmir-Ankara-Erzincan Suture Zone (NE, Turkey)*. Turkish Journal of Earth Sciences, 2018, 27, 1-31.	1.0	18
6	Differentiating Styles of Alteration within Kaolin-Alunite Hydrothermal Deposits of Anakkale, NW Turkey. Clays and Clay Minerals, 2016, 64, 245-274.	1.3	16
7	Ultrapotassic Volcanism from the Waning Stage of the Neotethyan Subduction: a Key Study from the Izmir-Ankara-Erzincan Suture Belt, Central Northern Turkey. Journal of Petrology, 2016, 57, 561-593.	2.8	45
8	Volcano-stratigraphy of the extension-related silicic volcanism of the Zubukluda Graben, western Turkey: an example of generation of pyroclastic density currents. Geological Magazine, 2014, 151, 492-516.	1.5	4
9	Petrochemical features of Miocene volcanism around the Zubukluda graben and Karaburun peninsula, western Turkey: Implications for crustal melting related silicic volcanism. Journal of Asian Earth Sciences, 2013, 73, 199-217.	2.3	17
10	Source contamination and tectonomagmatic signals of overlapping Early to Middle Miocene orogenic magmas associated with shallow continental subduction and asthenospheric mantle flows in Western Anatolia: A record from Simav (Kütahya) region. Lithos, 2012, 140-141, 119-141.	1.4	39
11	Petrogenesis of the Late Cretaceous Demirköy Igneous Complex in the NW Turkey: Implications for magma genesis in the Strandja Zone. Lithos, 2010, 114, 369-384.	1.4	23
12	Petrochemistry of the south Marmara granitoids, northwest Anatolia, Turkey. International Journal of Earth Sciences, 2008, 97, 1181-1200.	1.8	74
13	Natural and anthropogenic radionuclides in rocks and beach sands from Ezine region (Anakkale), Western Anatolia, Turkey. Applied Radiation and Isotopes, 2007, 65, 739-747.	1.5	196
14	Stratigraphy and volcanology of the Arkbak volcanics: products of a stratovolcano in the Bodrum Peninsula, SW Anatolia. Geological Journal, 2006, 41, 145-162.	1.3	8
15	Two contrasting magmatic associations of NW Anatolia and their tectonic significance. Journal of Geodynamics, 2001, 31, 243-271.	1.6	170
16	Geology of the northern side of the Gulf of Edremit and its tectonic significance for the development of the Aegean grabens. Geodinamica Acta, 2001, 14, 31-43.	2.2	26
17	The Zubukludag graben, south of Izmir: its tectonic significance in the Neogene geological evolution of the western Anatolia. Geodinamica Acta, 2001, 14, 45-55.	2.2	44
18	Geology of the northern side of the Gulf of Edremit and its tectonic significance for the development of the Aegean grabens. Geodinamica Acta, 2001, 14, 31-43.	2.2	55

#	ARTICLE	IF	CITATIONS
19	The Å±ubukludaÄŸ graben, south of Å°zmir: its tectonic significance in the Neogene geological evolution of the western Anatolia. <i>Geodinamica Acta</i> , 2001, 14, 45-55.	2.2	62
20	When Did the Western Anatolian Grabens Begin to Develop?. <i>Geological Society Special Publication</i> , 2000, 173, 353-384.	1.3	250
21	Geology of the ignimbrites and the associated volcanoâ€“plutonic complex of the Ezine area, northwestern Anatolia. <i>Journal of Volcanology and Geothermal Research</i> , 1998, 85, 251-264.	2.1	92
22	Å°zmir-Ankara-Erzincan SÄ±4tur Zonu (KD, TÄ±4rkiye) Boyunca GeliÅŸen Å±arpÄ±ÅŸma SonrasÄ± Orta Eosen MagmatizmasÄ±nÄ±n Volkano-Stratigrafik Olarak AraÅŸtÄ±rÄ±lmasÄ±. <i>TÄ±4rkiye Jeoloji BÄ±4lteni / Geological Bulletin of Turkey</i> , 0, , 131-162.		5
