

# Jeffrey N Weatherly

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/11647260/jeffrey-n-weatherly-publications-by-year.pdf>

**Version:** 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

116 papers	1,237 citations	18 h-index	27 g-index
118 ext. papers	1,292 ext. citations	1.6 avg, IF	4.47 L-index

#	Paper	IF	Citations
116	Is Endorsing Gambling as an Escape More a Trait or a State?. <i>Current Psychology</i> , <b>2018</b> , 37, 38-44	1.4	1
115	Differences in the Gambling Behavior of Online and Non-online Student Gamblers in a Controlled Laboratory Environment. <i>Journal of Gambling Studies</i> , <b>2017</b> , 33, 85-97	3	9
114	Investigating Possible Effects of Ethnicity and Age on Gambling as an Escape. <i>Journal of Gambling Studies</i> , <b>2016</b> , 32, 499-509	3	7
113	Texting Dependence, iPod Dependence, and Delay Discounting. <i>American Journal of Psychology</i> , <b>2016</b> , 129, 161-8	0.5	3
112	Probability Alters Delay Discounting, but Delay Does Not Alter Probability Discounting. <i>Psychological Record</i> , <b>2015</b> , 65, 267-275	1.1	12
111	Delay and probability discounting in the context of gambling function and expectancies. <i>Journal of Gambling Issues</i> , <b>2015</b> , 35	1	3
110	Magnitude Effects in Delay and Probability Discounting When Monetary and Medical Treatment Outcomes Are Discounted. <i>Psychological Record</i> , <b>2014</b> , 64, 433-440	1.1	9
109	Investigating Several Factors Potentially Related to Endorsing Gambling as an Escape. <i>Current Psychology</i> , <b>2014</b> , 33, 422-433	1.4	10
108	Comparing Rates of Probability Discounting Using Paper-Pencil or Online Versions of the Fill-in-the-Blank or Multiple-Choice Methods of Data Collection. <i>Psychological Record</i> , <b>2014</b> , 64, 271-286	1.1	
107	On several factors that control rates of discounting. <i>Behavioural Processes</i> , <b>2014</b> , 104, 84-90	1.6	16
106	Exploratory and confirmatory factor analyses of probability discounting of different outcomes across different methods of measurement. <i>American Journal of Psychology</i> , <b>2014</b> , 127, 215-31	0.5	4
105	Validating the gambling functional assessment--revised in a United kingdom sample. <i>Journal of Gambling Studies</i> , <b>2014</b> , 30, 335-47	3	8
104	Do Measures of Executive Functioning and Manipulation of Ego Depletion Predict How University Students Discount Probabilistic Gains and Losses?. <i>Current Psychology</i> , <b>2014</b> , 33, 98-112	1.4	1
103	Comparing the Japanese Version of the Gambling Functional Assessment -Revised to an American Sample. <i>Journal of Gambling Issues</i> , <b>2014</b> , 1	1	4
102	Degree of Delay Discounting as a Function of Who Receives the Outcome and the Discounter's Perceived Level of Social Support. <i>Current Psychology</i> , <b>2013</b> , 32, 1-17	1.4	3
101	Understanding the relationships between body esteem, risk for anorexia nervosa, and domain-dependent decision-making impulsivity in a college sample. <i>Body Image</i> , <b>2013</b> , 10, 558-65	7.4	1
100	Probabilistic discounting of hypothetical monetary gains: University students differ in how they discount won and owed money. <i>Learning and Motivation</i> , <b>2013</b> , 44, 72-80	1.3	3

99	Probability and Delayed Discounting of Gains and Losses Using the Multiple-Choice Method. <i>Psychological Record</i> , <b>2013</b> , 63, 563-582	1.1	8
98	Delay and probability discounting of multiple commodities in smokers and never-smokers using multiple-choice tasks. <i>Behavioural Pharmacology</i> , <b>2013</b> , 24, 659-67	2.4	11
97	Decision-making impulsivity in disordered eating: outcomes from a discounting task. <i>Advances in Eating Disorders (Abingdon, England)</i> , <b>2013</b> , 1, 148-160		3
96	Exploring the factors related to endorsing gambling as an escape. <i>International Gambling Studies</i> , <b>2013</b> , 13, 52-64	1.8	17
95	The Relationship between Endorsing Gambling as an Escape and the Display of Gambling Problems. <i>Journal of Addiction</i> , <b>2013</b> , 2013, 156365	2.2	7
94	Probability Discounting of Legal and non-Legal Scenarios: Discounting Varies as a Function of the Outcome, the Recipient's Race, and the Discounter's Sex. <i>Behavior and Social Issues</i> , <b>2013</b> , 22, 74-86	0.7	3
93	Altering participants' hypothetical annual income can alter their rates of discounting the same delayed monetary outcome. <i>Journal of General Psychology</i> , <b>2012</b> , 139, 42-54	1	3
92	Delay discounting as a function of intrinsic/extrinsic religiousness, religious fundamentalism, and regular church attendance. <i>Journal of General Psychology</i> , <b>2012</b> , 139, 117-33	1	6
91	Probability Discounting of Legal and Non-Legal Outcomes. <i>Behavior and Social Issues</i> , <b>2012</b> , 21, 165-187	0.7	4
90	Choose your words Wisely: Delay Discounting of Differently titled Social Policy Issues. <i>Behavior and Social Issues</i> , <b>2012</b> , 21, 26-48	0.7	8
89	Assessing the reliability of the Gambling Functional Assessment: Revised. <i>Journal of Gambling Studies</i> , <b>2012</b> , 28, 217-23	3	14
88	Investigating the Relationship Between the Contingencies That Maintain Gambling and Probability Discounting of Gains and Losses. <i>European Journal of Behavior Analysis</i> , <b>2012</b> , 13, 39-46	1	11
87	The Association Between Delay Discounting and Schizotypal Personality Characteristics in a Nonclinical Sample. <i>Psychological Record</i> , <b>2012</b> , 62, 529-540	1.1	2
86	Delay Discounting and Social Policy Issues. <i>Psychological Record</i> , <b>2011</b> , 61, 527-546	1.1	17
85	The Effect of Male Confederate Presence, Betting, and Accuracy of Play on Males' Gambling on Blackjack. <i>Psychological Record</i> , <b>2011</b> , 61, 411-424	1.1	4
84	Testing the Reliability of Delay Discounting of Ten Commodities Using the Fill-in-the-Blank Method. <i>Psychological Record</i> , <b>2011</b> , 61, 113-126	1.1	17
83	Executive Functioning and Delay Discounting of Four Different Outcomes in University Students. <i>Personality and Individual Differences</i> , <b>2011</b> , 51, 183-187	3.3	20
82	Differences in Delay Discounting of Some Commodities as a Function of Church Attendance. <i>Current Psychology</i> , <b>2011</b> , 30, 258-267	1.4	4

81	Delay discounting of different commodities II: confirmatory analyses. <i>Journal of General Psychology</i> , <b>2011</b> , 138, 35-48	1	16
80	Comparing delay discounting rates when using the fill-in-the-blank and multiple-choice methods. <i>Journal of General Psychology</i> , <b>2011</b> , 138, 300-18	1	29
79	Testing the construct validity of the gambling functional assessment-revised. <i>Behavior Modification</i> , <b>2011</b> , 35, 553-69	2.5	20
78	Delay Discounting of Different Commodities Varies as a Function of Political Party Affiliation in a College Sample. <i>Behavior and Social Issues</i> , <b>2010</b> , 19, 167-178	0.7	4
77	Delay discounting of different commodities. <i>Journal of General Psychology</i> , <b>2010</b> , 137, 273-86	1	52
76	College Students Discount Money Won More than Money Owed. <i>Psychological Record</i> , <b>2010</b> , 60, 463-471	1.1	24
75	Associations Between Impulsivity and Body Dissatisfaction in Females at Risk for Developing Eating Disorders. <i>Current Psychology</i> , <b>2010</b> , 29, 297-306	1.4	6
74	Choice behavior of nonpathological women playing concurrently available slot machines: effect of changes in payback percentages. <i>Journal of Applied Behavior Analysis</i> , <b>2009</b> , 42, 895-900	2.6	12
73	Testing the construct validity of Dixon and Johnson's (2007) Gambling Functional Assessment. <i>Behavior Modification</i> , <b>2009</b> , 33, 156-74	2.5	16
72	Assessing the reliability of the Gambling Functional Assessment. <i>Journal of Gambling Studies</i> , <b>2009</b> , 25, 121-9	3	7
71	Three factors that promote positive induction when rats respond for 1% sucrose. <i>Learning and Motivation</i> , <b>2008</b> , 39, 209-220	1.3	
70	The gambling behavior of American Indian and non-Indian participants: effects of the actions and ethnicity of a confederate. <i>American Indian and Alaska Native Mental Health Research</i> , <b>2008</b> , 14, 59-74	1.9	2
69	American Indians and non-Indians playing a slot-machine simulation: effects of sensation seeking and payback percentage. <i>American Indian and Alaska Native Mental Health Research</i> , <b>2008</b> , 15, 18-32	1.9	3
68	The influence of upcoming food-pellet delivery on subjects' responding for 1% sucrose reinforcement delivered by concurrent random-interval schedules. <i>Journal of General Psychology</i> , <b>2007</b> , 134, 121-31	1	
67	Investigating the illusion of control in mildly depressed and nondepressed individuals during video-poker play. <i>Journal of Psychology: Interdisciplinary and Applied</i> , <b>2007</b> , 141, 307-19	2.7	11
66	Pursuing the Pavlovian Contributions to Induction in Rats Responding for 1% Sucrose Reinforcement. <i>Psychological Record</i> , <b>2007</b> , 57, 577-592	1.1	2
65	The effect of visual complexity when playing a slot-machine simulation: the role of computer experience, computer anxiety, and optimism. <i>Computers in Human Behavior</i> , <b>2006</b> , 22, 1072-1079	7.7	11
64	Making the sour sweet? Upcoming food-pellet reinforcement produces positive induction when rats press a lever for unsweetened lemon juice. <i>Learning and Motivation</i> , <b>2006</b> , 37, 379-390	1.3	1

63	A bird in hand: discouraging gambling on a slot machine simulation. <i>Journal of Psychology: Interdisciplinary and Applied</i> , <b>2006</b> , 140, 347-61	2.7	6
62	Induction when rats lick for 1% liquid-sucrose reinforcement. <i>Quarterly Journal of Experimental Psychology</i> , <b>2006</b> , 59, 654-66	1.8	7
61	Investigating retrospective influences on induction in rats' responding for 1% sucrose when food-pellet reinforcement is upcoming. <i>Journal of General Psychology</i> , <b>2006</b> , 133, 81-95	1	2
60	Is induction produced by upcoming food-pellet reinforcement the outcome of an increase in overall activity or in operant responding?. <i>Journal of General Psychology</i> , <b>2006</b> , 133, 97-111	1	2
59	The role of place of reinforcer delivery in the appearance of positive induction when rats respond for 1% sucrose. <i>Behavioural Processes</i> , <b>2006</b> , 73, 156-63	1.6	5
58	Investigating the devaluation explanation for negative anticipatory contrast. <i>Journal of Experimental Psychology</i> , <b>2006</b> , 32, 102-7		5
57	Induction When Rats Respond for Liquid-Sucrose Reinforcement as a Function of Amount of Upcoming Work. <i>Psychological Record</i> , <b>2006</b> , 56, 429-446	1.1	
56	Investigating the procedural variables that determine whether rats will display negative anticipatory contrast or positive induction. <i>Behavioural Processes</i> , <b>2005</b> , 70, 10-8	1.6	12
55	Duration, response, and location: the influence of upcoming 32% sucrose on rats' licking or lever pressing for 1% liquid sucrose. <i>Behavioural Processes</i> , <b>2005</b> , 70, 80-90	1.6	3
54	Positive Induction is not a Function of Timing. <i>Psychological Record</i> , <b>2005</b> , 55, 279-295	1.1	
53	Participants' Sensitivity to Percentage Payback and Credit Value When Playing a Slot-Machine Simulation. <i>Behavior and Social Issues</i> , <b>2004</b> , 13, 33-51	0.7	36
52	Within-session rates of responding when reinforcer magnitude is changed within the session. <i>Journal of General Psychology</i> , <b>2004</b> , 131, 5-16	1	3
51	Induction produced by upcoming food-pellet reinforcement: Effects on subsequent operant responding. <i>Learning and Motivation</i> , <b>2004</b> , 35, 189-207	1.3	16
50	The "big win" and resistance to extinction when gambling. <i>Journal of Psychology: Interdisciplinary and Applied</i> , <b>2004</b> , 138, 495-504	2.7	40
49	Effect of upcoming reward type when rats press a lever for ethanol. <i>Journal of General Psychology</i> , <b>2004</b> , 131, 181-92	1	2
48	Does The Temporal Placement of Food-Pellet Reinforcement Alter Induction When Rats Respond on A Three-Component Multiple Schedule?. <i>Psychological Record</i> , <b>2004</b> , 54, 319-332	1.1	3
47	On books. <i>The Behavior Analyst</i> , <b>2004</b> , 27, 119-124		2
46	Positive Induction Produced by Food-Pellet Reinforcement: Component Variations Have Little Effect. <i>Psychological Record</i> , <b>2003</b> , 53, 269-285	1.1	1

45	Altering "motivational" variables alters induction produced by upcoming food-pellet reinforcement. <i>Animal Cognition</i> , <b>2003</b> , 6, 17-26	3.1	6
44	The effect of type of behavior on behavior change caused by type of upcoming food substance. <i>Learning and Motivation</i> , <b>2003</b> , 34, 325-340	1.3	6
43	Upcoming food-pellet reinforcement alters rats' lever pressing for liquid sucrose delivered by a progressive-ratio schedule. <i>Behavioural Processes</i> , <b>2003</b> , 63, 73-86	1.6	15
42	Stimulus control over induction produced by upcoming food-pellet reinforcement. <i>Behavioural Processes</i> , <b>2003</b> , 64, 113-120	1.6	5
41	On the determinants of induction in responding for sucrose when food pellet reinforcement is upcoming. <i>Learning and Behavior</i> , <b>2002</b> , 30, 315-29		20
40	Animal Behavior: What's in It for Me? Guest Editor's Introduction. <i>Journal of General Psychology</i> , <b>2002</b> , 129, 325-327	1	
39	Rats'Lever Pressing For 1% Sucrose and Food-Pellet Reinforcement: In Search of Negative Behavioral Contrast. <i>Psychological Record</i> , <b>2002</b> , 52, 507-529	1.1	5
38	Rats'Response Rates for 1 % Sucrose When Food-Pellet Reinforcement is Upcoming: Effect Of Upcoming Reinforcement Contingency. <i>Psychological Record</i> , <b>2002</b> , 52, 221-240	1.1	8
37	Up or down: the influence of upcoming reinforcement on consummatory and operant behavior. <i>Journal of General Psychology</i> , <b>2002</b> , 129, 443-61	1	10
36	The Effect of Food-Pellet Reinforcement on Rats' Rates of Lever Pressing for 1% Sucrose Reinforcers across Several ContrastProcedures. <i>Learning and Motivation</i> , <b>2001</b> , 32, 193-218	1.3	21
35	Three tests of 'anticipatory responding' as an account for induction produced by upcoming food-pellet reinforcement. <i>Behavioural Processes</i> , <b>2001</b> , 56, 49-66	1.6	21
34	Effect of Unsignaled Delay to Reinforcement on Within-Session Responding. <i>Psychological Record</i> , <b>2000</b> , 50, 355-371	1.1	1
33	Delivering Different Reinforcers in Each Half of the Session: Effect of Reinforcement Rate. <i>Psychological Record</i> , <b>2000</b> , 50, 543-556	1.1	10
32	Induction with Upcoming Food-Pellet Reinforcement. <i>Learning and Motivation</i> , <b>2000</b> , 31, 180-199	1.3	16
31	The effect of second-half reinforcer type on responding for sucrose in the first half of the session. <i>Behavioural Processes</i> , <b>2000</b> , 49, 43-60	1.6	14
30	Social Influence as Stimulus Control. <i>Behavior and Social Issues</i> , <b>1999</b> , 9, 25-45	0.7	8
29	Within-Session Response Patterns during Variable Interval, Random Reinforcement, and Extinction Procedures. <i>Learning and Motivation</i> , <b>1999</b> , 30, 221-240	1.3	14
28	Within-session changes in responding during concurrent fixed interval variable interval schedules. <i>Learning and Behavior</i> , <b>1999</b> , 27, 236-248		3

27	The effect of food deprivation on within-session patterns of wheel running. <i>Behavioural Processes</i> , <b>1999</b> , 46, 121-9	1.6	1
26	Within-session responding when different reinforcers are delivered in each half of the session. <i>Behavioural Processes</i> , <b>1999</b> , 46, 227-43	1.6	29
25	Within-Session Patterns of Pigeons' General Activity. <i>Learning and Motivation</i> , <b>1998</b> , 29, 444-460	1.3	4
24	Exposure to context may contribute to within-session changes in responding. <i>Behavioural Processes</i> , <b>1998</b> , 43, 315-28	1.6	7
23	Behavioral contrast using different reinforcers: effect of baseline rate of reinforcement. <i>Behavioural Processes</i> , <b>1998</b> , 44, 11-7	1.6	3
22	Habituation To The Reinforcer May Contribute To Multiple-schedule Behavioral Contrast. <i>Journal of the Experimental Analysis of Behavior</i> , <b>1998</b> , 69, 199-221	2.1	43
21	Within-session patterns of responding with changes in the variability and probability of food delivery. <i>Behavioural Processes</i> , <b>1997</b> , 39, 279-89	1.6	6
20	Behavioral contrast with changes in duration and rate of reinforcement. <i>Behavioural Processes</i> , <b>1997</b> , 40, 61-73	1.6	3
19	Altering Reinforcer Variety or Intensity Changes the Within-Session Decrease in Responding. <i>Learning and Motivation</i> , <b>1997</b> , 28, 609-621	1.3	30
18	Within-session changes in responding during variable interval schedules. <i>Behavioural Processes</i> , <b>1996</b> , 36, 67-75	1.6	15
17	Within-session patterns of responding when rats run in a T-maze. <i>Behavioural Processes</i> , <b>1996</b> , 38, 89-102	1.6	6
16	Within-session Changes In Responding During Autoshaping And Automaintenance Procedures. <i>Journal of the Experimental Analysis of Behavior</i> , <b>1996</b> , 66, 51-61	2.1	12
15	Within-session Response Patterns On Conjoint Variable-interval Variable-time Schedules. <i>Journal of the Experimental Analysis of Behavior</i> , <b>1996</b> , 66, 205-18	2.1	9
14	Within-session Changes In Responding During Concurrent Variable-interval Schedules. <i>Journal of the Experimental Analysis of Behavior</i> , <b>1996</b> , 66, 75-95	2.1	11
13	Within-session changes in responding during concurrent schedules with different reinforcers in the components. <i>Journal of the Experimental Analysis of Behavior</i> , <b>1996</b> , 66, 369-90	2.1	26
12	Within-session changes in responding during delayed matching-to-sample and discrimination procedures. <i>Learning and Behavior</i> , <b>1996</b> , 24, 290-299		12
11	Reinforcer value may change within experimental sessions. <i>Psychonomic Bulletin and Review</i> , <b>1996</b> , 3, 372-5	4.1	23
10	Within-Session Changes in Adjunctive and Instrumental Responding. <i>Learning and Motivation</i> , <b>1996</b> , 27, 408-27	1.3	8

9	Satiety contributes little to within-session decreases in responding. <i>Learning and Motivation</i> , <b>1995</b> , 26, 323-341	1.3	41
8	Within-session changes in responding during concurrent schedules that employ two different operanda. <i>Learning and Behavior</i> , <b>1995</b> , 23, 237-244		17
7	Prospective factors contribute little to within-session changes in responding. <i>Psychonomic Bulletin and Review</i> , <b>1995</b> , 2, 234-8	4.1	18
6	Within-session response rates when reinforcement rate is changed within each session. <i>Journal of the Experimental Analysis of Behavior</i> , <b>1995</b> , 64, 237-46	2.1	7
5	Within-session changes in key and lever pressing for water during several multiple variable-interval schedules. <i>Journal of the Experimental Analysis of Behavior</i> , <b>1995</b> , 64, 75-94	2.1	12
4	Within-session response patterns when rats press levers for water: Effects of component stimuli and experimental environment. <i>Behavioural Processes</i> , <b>1995</b> , 34, 141-52	1.6	7
3	Within-session patterns of responding when the operandum changes during the session. <i>Learning and Motivation</i> , <b>1995</b> , 26, 403-420	1.3	18
2	On the contributions of responding and reinforcement to within-session patterns of responding. <i>Learning and Motivation</i> , <b>1995</b> , 26, 421-432	1.3	27
1	Within-session changes in responding during several simple schedules. <i>Journal of the Experimental Analysis of Behavior</i> , <b>1994</b> , 62, 109-32	2.1	43
