

Elizabeth R Selig

List of Publications by Citations

Source: <https://exaly.com/author-pdf/11688696/elizabeth-r-selig-publications-by-citations.pdf>

Version: 2024-04-23

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
28	A global map of human impact on marine ecosystems. <i>Science</i> , 2008 , 319, 948-52	33.3	4071
27	Regional decline of coral cover in the Indo-Pacific: timing, extent, and subregional comparisons. <i>PLoS ONE</i> , 2007 , 2, e711	3.7	781
26	Spatial and temporal changes in cumulative human impacts on the world's ocean. <i>Nature Communications</i> , 2015 , 6, 7615	17.4	697
25	An index to assess the health and benefits of the global ocean. <i>Nature</i> , 2012 , 488, 615-20	50.4	578
24	Thermal stress and coral cover as drivers of coral disease outbreaks. <i>PLoS Biology</i> , 2007 , 5, e124	9.7	535
23	Assessing evidence of phase shifts from coral to macroalgal dominance on coral reefs. <i>Ecology</i> , 2009 , 90, 1478-84	4.6	304
22	A global analysis of the effectiveness of marine protected areas in preventing coral loss. <i>PLoS ONE</i> , 2010 , 5, e9278	3.7	222
21	Prioritizing key resilience indicators to support coral reef management in a changing climate. <i>PLoS ONE</i> , 2012 , 7, e42884	3.7	160
20	GEOGRAPHIC VARIATION IN POSITIVE AND NEGATIVE INTERACTIONS AMONG SALT MARSH PLANTS. <i>Ecology</i> , 2003 , 84, 1527-1538	4.6	134
19	Global priorities for marine biodiversity conservation. <i>PLoS ONE</i> , 2014 , 9, e82898	3.7	125
18	Global Biodiversity Conservation and the Alleviation of Poverty. <i>BioScience</i> , 2012 , 62, 85-92	5.7	114
17	New insights into global patterns of ocean temperature anomalies: implications for coral reef health and management. <i>Global Ecology and Biogeography</i> , 2010 , 19, 397-411	6.1	89
16	Temperature-driven coral decline: the role of marine protected areas. <i>Global Change Biology</i> , 2012 , 18, 1561-1570	11.4	88
15	Sea sick? Setting targets to assess ocean health and ecosystem services. <i>Ecosphere</i> , 2012 , 3, art41	3.1	73
14	Patterns and emerging trends in global ocean health. <i>PLoS ONE</i> , 2015 , 10, e0117863	3.7	70
13	Warming Seas in the Coral Triangle: Coral Reef Vulnerability and Management Implications. <i>Coastal Management</i> , 2010 , 38, 518-539	3.3	65
12	Forest conservation delivers highly variable coral reef conservation outcomes 2012 , 22, 1246-56		55

11	The distribution of the thermally tolerant symbiont lineage (Symbiodinium clade D) in corals from Hawaii: correlations with host and the history of ocean thermal stress. <i>Ecology and Evolution</i> , 2013 , 3, 1317-29	2.8	51
10	Global targets that reveal the social-ecological interdependencies of sustainable development. <i>Nature Ecology and Evolution</i> , 2020 , 4, 1011-1019	12.3	45
9	Analyzing the relationship between ocean temperature anomalies and coral disease outbreaks at broad spatial scales. <i>Coastal and Estuarine Studies</i> , 2006 , 111-128		43
8	A typology of fisheries management tools: using experience to catalyse greater success. <i>Fish and Fisheries</i> , 2017 , 18, 543-570	6	24
7	Measuring indicators of ocean health for an island nation: The ocean health index for Fiji. <i>Ecosystem Services</i> , 2015 , 16, 403-412	6.1	19
6	Assessing global marine biodiversity status within a coupled socio-ecological perspective. <i>PLoS ONE</i> , 2013 , 8, e60284	3.7	18
5	Is coral richness related to community resistance to and recovery from disturbance?. <i>PeerJ</i> , 2014 , 2, e3081	3.1	17
4	Empirical models of transitions between coral reef states: effects of region, protection, and environmental change. <i>PLoS ONE</i> , 2011 , 6, e26339	3.7	8
3	Evolving Perspectives of Stewardship in the Seafood Industry. <i>Frontiers in Marine Science</i> , 2021 , 8,	4.5	4
2	Sharing the seas: a review and analysis of ocean sector interactions. <i>Environmental Research Letters</i> , 2021 , 16, 063005	6.2	3
1	The Potential, Realised and Essential Ecosystem Service Benefits of Biodiversity Conservation	21-35	0
