#	ARTICLE	IF	CITATIONS
1	Patients with Multiple Sclerosis with Structural Venous Abnormalities on MR Imaging Exhibit an Abnormal Flow Distribution of the Internal Jugular Veins. <i>Journal of Vascular and Interventional Radiology</i> , 2012, 23, 60-68.e3.	0.5	61
2	A dual propagation contours technique for semi-automated assessment of systolic and diastolic cardiac function by CMR. <i>Journal of Cardiovascular Magnetic Resonance</i> , 2009, 11, 30.	3.3	44
3	Catalytic multiecho phase unwrapping scheme (CAMPUS) in multiecho gradient echo imaging: Removing phase wraps on a voxel-by-voxel basis. <i>Magnetic Resonance in Medicine</i> , 2013, 70, 117-126.	3.0	35
4	Characteristics of flow through the internal jugular veins at cervical C2/C3 and C5/C6 levels for multiple sclerosis patients using MR phase contrast imaging. <i>Neurological Research</i> , 2012, 34, 802-809.	1.3	32
5	Quantitative Flow Measurements in the Internal Jugular Veins of Multiple Sclerosis Patients Using Magnetic Resonance Imaging. <i>Reviews on Recent Clinical Trials</i> , 2012, 7, 117-126.	0.8	27
6	Magnetic resonance imaging signatures of vascular pathology in multiple sclerosis. <i>Neurological Research</i> , 2012, 34, 780-792.	1.3	26
7	Jugular Venous Flow Abnormalities in Multiple Sclerosis Patients Compared to Normal Controls. <i>Journal of Neuroimaging</i> , 2015, 25, 600-607.	2.0	25
8	Using Magnetic Resonance Imaging as a Means to Study Chronic Cerebral Spinal Venous Insufficiency in Multiple Sclerosis Patients. <i>Techniques in Vascular and Interventional Radiology</i> , 2012, 15, 101-112.	1.0	23
9	Improved Right Ventricular Performance with Increased Tricuspid Annular Excursion in Athlete's Heart. <i>Frontiers in Cardiovascular Medicine</i> , 2015, 2, 8.	2.4	3
10	The average cerebral perfusion in patients with multiple sclerosis (MS) using MRI. , 2012, , .		1
