#	ARTICLE	IF	CITATIONS
1	Effects of corn grain endosperm type and conservation method on feed intake, feeding behavior, and productive performance of lactating dairy cows. <i>Journal of Dairy Science</i> , 2021, 104, 7604-7616.	1.4	6
2	Effects of corn grain endosperm type and fineness of grind on feed intake, feeding behavior, and productive performance of lactating dairy cows. <i>Journal of Dairy Science</i> , 2021, 104, 7630-7640.	1.4	4
3	Effects of propionate concentration on short-term metabolism in liver explants from dairy cows in the postpartum period. <i>Journal of Dairy Science</i> , 2020, 103, 11449-11460.	1.4	8
4	Hepatic metabolism of propionate relative to meals for cows in the postpartum period. <i>Journal of Dairy Science</i> , 2019, 102, 7997-8010.	1.4	10
5	Effects of rate and amount of propionic acid infused into the rumen on feeding behavior of Holstein cows in the postpartum period. <i>Journal of Dairy Science</i> , 2019, 102, 8120-8126.	1.4	5
6	Temporal effects of ruminal infusion of propionic acid on hepatic metabolism in cows in the postpartum period. <i>Journal of Dairy Science</i> , 2019, 102, 9781-9790.	1.4	6
7	Do more mechanistic models increase accuracy of prediction of metabolisable protein supply in ruminants?. <i>Animal Production Science</i> , 2019, 59, 1991.	0.6	3
8	Fuels derived from starch digestion have different effects on energy intake and metabolic responses of cows in the postpartum period. <i>Journal of Dairy Science</i> , 2018, 101, 5082-5091.	1.4	16
9	Temporal effects of ruminal propionic acid infusion on feeding behavior of Holstein cows in the postpartum period. <i>Journal of Dairy Science</i> , 2018, 101, 3077-3084.	1.4	16
10	Highly fermentable starch at different diet starch concentrations decreased feed intake and milk yield of cows in the early postpartum period. <i>Journal of Dairy Science</i> , 2018, 101, 8902-8915.	1.4	20
11	The effects of fructose and phosphate infusions on dry matter intake of lactating cows. <i>Journal of Dairy Science</i> , 2017, 100, 2651-2659.	1.4	3
12	Increased anaplerosis of the tricarboxylic acid cycle decreased meal size and energy intake of cows in the postpartum period. <i>Journal of Dairy Science</i> , 2017, 100, 4425-4434.	1.4	18
13	Carbohydrate Nutrition. <i>Veterinary Clinics of North America - Food Animal Practice</i> , 2014, 30, 577-597.	0.5	34
14	Drives and limits to feed intake in ruminants. <i>Animal Production Science</i> , 2014, 54, 1513.	0.6	117
15	Metabolic Control of Feed Intake. <i>Veterinary Clinics of North America - Food Animal Practice</i> , 2013, 29, 279-297.	0.5	65
16	Control of food intake by metabolism of fuels: a comparison across species. <i>Proceedings of the Nutrition Society</i> , 2012, 71, 401-409.	0.4	21
17	Modification of native grasses for biofuel production may increase virus susceptibility. <i>GCB Bioenergy</i> , 2011, 3, 360-374.	2.5	30
18	Phlorizin Administration Does Not Attenuate Hypophagia Induced by Intraruminal Propionate Infusion in Lactating Dairy Cattle. <i>Journal of Nutrition</i> , 2007, 137, 326-330.	1.3	15

#	ARTICLE	IF	CITATIONS
19	Propionate is not an important regulator of plasma leptin concentration in dairy cattle. Domestic Animal Endocrinology, 2006, 30, 65-75.	0.8	20
20	Propionate Challenge Tests Have Limited Value for Investigating Bovine Metabolism. Journal of Nutrition, 2006, 136, 1915-1920.	1.3	20
21	Fat Supplements Affect Fractional Rates of Ruminal Fatty Acid Biohydrogenation and Passage in Dairy Cows. Journal of Nutrition, 2006, 136, 677-685.	1.3	51
22	Phlorizin Administration Increases Hepatic Gluconeogenic Enzyme mRNA Abundance but Not Feed Intake in Late-Lactation Dairy Cows <sup>1-3</sup> . Journal of Nutrition, 2005, 135, 2206-2211.	1.3	40
23	THE COW AS A MODEL TO STUDY FOOD INTAKE REGULATION. Annual Review of Nutrition, 2005, 25, 523-547.	4.3	128
24	Intraruminal Infusion of Propionate Alters Feeding Behavior and Decreases Energy Intake of Lactating Dairy Cows. Journal of Nutrition, 2003, 133, 1094-1099.	1.3	73
25	Hypophagic Effects of Ammonium Are Greater When Infused with Propionate Compared with Acetate in Lactating Dairy Cows. Journal of Nutrition, 2003, 133, 1100-1104.	1.3	12
26	Extent of Hypophagia Caused by Propionate Infusion Is Related to Plasma Glucose Concentration in Lactating Dairy Cows. Journal of Nutrition, 2003, 133, 1105-1112.	1.3	36
27	Effects of Diet on Short-Term Regulation of Feed Intake by Lactating Dairy Cattle. Journal of Dairy Science, 2000, 83, 1598-1624.	1.4	1,064
28	Sodium Mercaptoacetate Is Not a Useful Probe to Study the Role of Fat in Regulation of Feed Intake in Dairy Cattle. Journal of Nutrition, 1997, 127, 171-176.	1.3	9
29	Relationship Between Fermentation Acid Production in the Rumen and the Requirement for Physically Effective Fiber. Journal of Dairy Science, 1997, 80, 1447-1462.	1.4	600
30	Physical constraints on voluntary intake of forages by ruminants. Journal of Animal Science, 1996, 74, 3063.	0.2	379
31	Corn Silage. Agronomy, 0, , 547-608.	0.2	16
