#	ARTICLE	IF	CITATIONS
1	Influence of season, habitat, temperature, and invertebrate availability on nocturnal activity of the New Zealand long-tailed bat (<i>Chalinolobus tuberculatus</i>). <i>New Zealand Journal of Zoology</i> , 2000, 27, 207-221.	1.1	87
2	Cryptic local populations in a temperate rainforest bat <i>Chalinolobus tuberculatus</i> in New Zealand. <i>Animal Conservation</i> , 2000, 3, 287-297.	2.9	74
3	Factors influencing the selection of roost cavities by a temperate rainforest bat (<i>Vespertilionidae</i> : <i>Tj ETQq1 1 0.784314 rgBT/Overlo</i>	1.7	70
4	Home range and use of space by <i>Chalinolobus tuberculatus</i> , a temperate rainforest bat from New Zealand. <i>Journal of Zoology</i> , 2001, 253, 253-264.	1.7	61
5	Control of a stoat (<i>Mustela erminea</i>) population irruption to enhance mohua (yellowhead) (<i>Mohoua ochrocephala</i>) breeding success in New Zealand. <i>New Zealand Journal of Zoology</i> , 1996, 23, 279-286.	1.1	60
6	Mysterious <i>Mystacina</i> : how the New Zealand short-tailed bat (<i>Mystacina tuberculata</i>) locates insect prey. <i>Journal of Experimental Biology</i> , 2003, 206, 4209-4216.	1.7	46
7	Predicting the incidence of mohua predation from the seedfall, mouse, and predator fluctuations in beech forests. <i>New Zealand Journal of Zoology</i> , 1996, 23, 287-293.	1.1	43
8	Timing of breeding, productivity and survival of long-tailed bats <i>Chalinolobus tuberculatus</i> (<i>Chiroptera: Vespertilionidae</i>) in cold-temperate rainforest in New Zealand. <i>Journal of Zoology</i> , 2002, 257, 311-323.	1.7	29
9	Survivorship in two populations of long-tailed bats (<i>Chalinolobus tuberculatus</i>) in New Zealand. <i>New Zealand Journal of Zoology</i> , 2006, 33, 85-95.	1.1	18
10	Variability in numbers of long-tailed bats (<i>Chalinolobus tuberculatus</i>) roosting in Grand Canyon Cave, New Zealand: Implications for monitoring population trends. <i>New Zealand Journal of Zoology</i> , 2002, 29, 273-284.	1.1	17
11	INFLUENCE OF SEX AND REPRODUCTIVE STATUS ON NOCTURNAL ACTIVITY OF LONG-TAILED BATS (<i>CHALINOLOBUS TUBERCULATUS</i>). <i>Journal of Mammalogy</i> , 2002, 83, 794-803.	1.3	16
12	Habitat use and nocturnal activity of lesser short-tailed bats (<i>Mystacina tuberculata</i>) in comparison with long-tailed bats (<i>Chalinolobus tuberculatus</i>) in temperate rainforest. <i>New Zealand Journal of Zoology</i> , 2006, 33, 113-124.	1.1	16
13	Can correlated population trends among forest bird species be predicted by similarity in traits?. <i>Wildlife Research</i> , 2012, 39, 469.	1.4	6
14	Large Home Range Size in the Ground Foraging Bat, <i>Mystacina tuberculata</i> , in Cold Temperate Rainforest, New Zealand. <i>Acta Chiropterologica</i> , 2014, 16, 369-377.	0.6	5
15	Factors influencing the selection of roost cavities by a temperate rainforest bat (<i>Vespertilionidae</i> : <i>Tj ETQq1 1 0.784314 rgBT/Overlo</i>	1.7	5
16	Cryptic local populations in a temperate rainforest bat <i>Chalinolobus tuberculatus</i> in New Zealand. <i>Animal Conservation</i> , 2000, 3, 287-297.	2.9	2
