#	ARTICLE	IF	CITATIONS
1	Severe Contrast-Induced Nephropathy Leading to Dialysis Occurring in a Patient with Near-Normal Baseline Creatinine Undergoing CT Angiography Using Intravenous Contrast Only. International Journal of Angiology, 2023, 32, 277-279.	0.6	1
2	Distal administration of very high doses of adenosine using over-the-wire balloon or export catheter should be the first choice for treatment of patients with resistant no-reflow. Catheterization and Cardiovascular Interventions, 2022, 99, .	1.7	1
3	Variceal Veins Embolization and Left Renal Vein Stenting in a Patient with Combined Nutcracker and May-Thurner Syndrome. International Journal of Angiology, 2022, 31, 138-142.	0.6	1
4	Successful distal administration of high doses of adenosine and nicardipine using export catheter for treatment of resistant no-reflow in a vein graft.. American Journal of Cardiovascular Disease, 2022, 12, 53-55.	0.5	0
5	Left ventricular hypertrophy is independently associated with all-cause mortality.. American Journal of Cardiovascular Disease, 2022, 12, 38-41.	0.5	0
6	A Comprehensive Review of PCSK9 Inhibitors. Journal of Cardiovascular Pharmacology and Therapeutics, 2022, 27, 107424842211001.	2.0	27
7	Wellens Syndrome or Inverted U Waves: A Serious Clinical Condition Needing Immediate Attention Regardless of Symptoms. American Journal of Medicine, 2021, 134, 1365-1367.	1.5	1
8	The presence of idiopathic thrombocytopenic purpura correlates with lower rate of acute ST-elevation myocardial infarction. Future Cardiology, 2021, 17, 1327-1333.	1.2	4
9	The presence of idiopathic thrombocytopenic purpura and incidence of acute non-ST elevation myocardial infarction. Annals of Hematology, 2021, , 1.	1.8	2
10	Screening of the Abdominal Aorta During Routine Echocardiographic Examination Is Cost-effective and Leads to Increase in Statin Utilization by Detecting Subclinical Atherosclerosis. Critical Pathways in Cardiology, 2021, 20, 1-3.	0.5	2
11	Evaluating association between idiopathic thrombocytopenic purpura and hypertension. American Journal of Blood Research, 2021, 11, 405-409.	0.6	0
12	Early prediction of ventricular functional recovery after myocardial infarction by longitudinal strain study. American Journal of Cardiovascular Disease, 2021, 11, 471-477.	0.5	0
13	Efficacy and Safety of Perioperative Bridging Anticoagulation in Patients with Atrial Fibrillation Undergoing Elective Surgical Procedures: A Meta-analysis. Clinical Medicine and Research, 2021, 19, 19-25.	0.8	6
14	High-Density Lipoprotein Cholesterol (HDL-C) Levels Independently Correlates With Cardiac Arrhythmias and Atrial Fibrillation. Journal of Intensive Care Medicine, 2020, 35, 438-444.	2.8	5
15	Facilitating Stent Advancement by Using the Reverse Movahed's Maneuver (Maximal Expiration) During Tortuous Vein Graft Intervention. JACC: Cardiovascular Interventions, 2020, 13, 139-140.	2.9	2
16	Outcomes of Percutaneous Coronary Intervention in Atrial Fibrillation Patients Presenting With Acute Myocardial Infarction: Analysis of Nationwide Inpatient Sample Database. Cardiovascular Revascularization Medicine, 2020, 21, 851-854.	0.8	2
17	Evaluating Association Between Coronary Calcifications Visualized During Invasive Coronary Angiography With Total Mortality. Critical Pathways in Cardiology, 2020, 19, 30-32.	0.5	0
18	Coronary dissection with ST elevation myocardial infarction responding to thrombolytic and conservative therapy alone. Future Cardiology, 2020, 16, 271-274.	1.2	0

#	ARTICLE	IF	CITATIONS
19	Idiopathic thrombocytopenic purpura is strongly associated with higher prevalence of aortic valve disease. <i>Annals of Hematology</i> , 2020, 99, 2081-2084.	1.8	6
20	Statin Controversies: Response to the Letter from Tomlinson et al.. <i>Cardiovascular Drugs and Therapy</i> , 2020, 34, 437-438.	2.6	0
21	Differences in right ventricular dysfunction in patients with idiopathic pulmonary hypertension versus secondary pulmonary hypertension. <i>Advances in Respiratory Medicine</i> , 2020, 88, 1-5.	1.0	2
22	Persistent reduction in the age adjusted mortality rate from aortic valve surgery in the United State with elimination of gender gap in recent years. <i>American Journal of Cardiovascular Disease</i> , 2020, 10, 522-527.	0.5	0
23	Initial Intravascular Ultrasound Without a Routine Early Baseline Study in the Evaluation of Cardiac Transplant Vasculopathy has Prognostic Value. <i>Cardiovascular Revascularization Medicine</i> , 2019, 20, 1105-1109.	0.8	2
24	Obesity is strongly and independently associated with a higher prevalence of pulmonary embolism. <i>Respiratory Investigation</i> , 2019, 57, 376-379.	1.8	36
25	State of the Art Comprehensive Review of Individual Statins, Their Differences, Pharmacology, and Clinical Implications. <i>Cardiovascular Drugs and Therapy</i> , 2019, 33, 625-639.	2.6	27
26	Higher Prevalence of Abnormal Electrocardiograms (ECG) in African Americans Undergoing Screening ECG and Echocardiography. <i>Critical Pathways in Cardiology</i> , 2019, 18, 86-88.	0.5	3
27	Effect of Age on Procedural Success, Complications, and Clinical Outcome From a Large Angioplasty Registry. <i>Critical Pathways in Cardiology</i> , 2019, 18, 23-31.	0.5	1
28	It is time to have better oversight and accountability in performing too many not indicated percutaneous coronary interventions in patients with chronic total occlusions. <i>International Journal of Cardiology</i> , 2019, 278, 38-39.	1.7	4
29	Vascular Perforation Occurring During Transradial Cardiac Catheterization is More Common Than Thought and Could Be Fatal. <i>Journal of Invasive Cardiology</i> , 2019, 31, E256.	0.4	0
30	Successful percutaneous closure of a large symptomatic AV fistula using an amplatzer occluder device. <i>Cardiovascular Revascularization Medicine</i> , 2018, 19, 23-24.	0.8	0
31	Successful Retrieval of embolized atrial septal defect occluder and patent foramen ovale closure device using novel coronary wire trap technique. <i>Catheterization and Cardiovascular Interventions</i> , 2018, 92, 189-192.	1.7	4
32	Strong Bias Toward Performing Percutaneous Coronary Intervention in Patients With Chronic Total Occlusion Despite Lack of Important Benefit at a Very High Cost and Risk to the Patient. <i>JACC: Cardiovascular Interventions</i> , 2018, 11, 1540-1541.	2.9	1
33	CRT-100.22 Outcomes of Percutaneous Coronary Intervention in Patients with Atrial Fibrillation Presenting With Acute Myocardial Infarction. <i>JACC: Cardiovascular Interventions</i> , 2018, 11, S8.	2.9	0
34	Impact of Sex on Long-term Clinical Outcomes After Percutaneous Coronary Intervention. <i>Critical Pathways in Cardiology</i> , 2017, 16, 161-166.	0.5	2
35	Complete isolation of right subclavian artery supplied by the thoracic aorta and bilateral patent ductus arteriosus. <i>Future Cardiology</i> , 2017, 13, 337-344.	1.2	3
36	A Novel Risk Score in Predicting Failure or Success for Antegrade Approach to Percutaneous Coronary Intervention of Chronic Total Occlusion: Antegrade CTO Score. <i>International Journal of Angiology</i> , 2017, 26, 089-094.	0.6	10

#	ARTICLE	IF	CITATIONS
37	Strong independent association between obesity and essential hypertension. <i>Clinical Obesity</i> , 2016, 6, 189-192.	2.0	14
38	The Safety of Using Large Amount (30 cc) of Onyx (Ethylene-vinyl Alcohol Copolymer) for the Treatment of Large Type II Endoleak after Endovascular Repair of Abdominal Aortic Aneurysm. <i>International Journal of Angiology</i> , 2016, 25, e169-e172.	0.6	6
39	Spontaneous Resolution of Catheter-Induced Iatrogenic Vein Graft Dissection: First Case Report and Review of Literature. <i>International Journal of Angiology</i> , 2016, 25, e123-e125.	0.6	0
40	Visual-Functional Mismatch Between Coronary Angiography, Fractional Flow Reserve, and Quantitative Coronary Angiography. <i>International Journal of Angiology</i> , 2016, 25, 229-234.	0.6	7
41	Reverse Movahed Maneuver: Maximal Expiration Maneuver during Saphenous Vein Graft Intervention for Facilitated Balloon and Stent Delivery in Tortuous Vein Grafts – A Novel Technique. <i>International Journal of Angiology</i> , 2016, 25, e66-e69.	0.6	2
42	Comparison of fractional flow reserve measurements using intracoronary adenosine versus intracoronary sodium nitroprusside infusions in moderately stenotic coronary artery lesions. <i>Cardiovascular Revascularization Medicine</i> , 2016, 17, 441-443.	0.8	1
43	Acute ST-segment elevation myocardial infarction as the first manifestation of essential thrombocytosis successfully treated with thrombectomy alone. <i>Cardiovascular Intervention and Therapeutics</i> , 2016, 31, 275-278.	2.3	4
44	Any Degree of Mitral Regurgitation Found during Invasive Ventriculography is Associated with All-Cause Mortality. <i>International Journal of Angiology</i> , 2015, 24, 275-277.	0.6	0
45	Age adjusted nationwide trends in the incidence of all cause and ST elevation myocardial infarction associated cardiogenic shock based on gender and race in the United States. <i>Cardiovascular Revascularization Medicine</i> , 2015, 16, 2-5.	0.8	8
46	Resistant hypertension due to unilateral renal artery occlusion as the first presentation of antiphospholipid syndrome. <i>Cardiovascular Revascularization Medicine</i> , 2015, 16, 190-191.	0.8	2
47	Thrombolytic Therapy for Right-Sided Mechanical Pulmonic and Tricuspid Valves: The Largest Survival Analysis to Date. <i>Texas Heart Institute Journal</i> , 2015, 42, 543-547.	0.3	19
48	A Novel Inhibitor of Protease-activated Receptor 1: A Review of Chemical Structure and Mode of Action. <i>Reviews in Cardiovascular Medicine</i> , 2015, 16, 68-73.	1.4	9
49	Anomalous Origin of the Right Coronary Artery From the Left Anterior Descending Artery With Anomalous Course Between the Great Vessels: A Case for Conservative Management With Review of the Literature. <i>Reviews in Cardiovascular Medicine</i> , 2015, 16, 221-224.	1.4	3
50	Presence of Anomalous Coronary Seen on Angiogram Is Not Associated with Increased Risk of Significant Coronary Artery Disease. <i>International Journal of Angiology</i> , 2014, 23, 243-246.	0.6	9
51	D-Shaped Left Ventricle Seen on Gated Single-photon Emission Computed Tomography Is Suggestive of Right Ventricular Overload: The So-called Movahed's Sign. <i>American Journal of Medicine</i> , 2014, 127, e37.	1.5	3
52	Successful management of acute massive pulmonary embolism using Angiovac suction catheter technique in a hemodynamically unstable patient. <i>Cardiovascular Revascularization Medicine</i> , 2014, 15, 240-243.	0.8	44
53	Symptomatic radial artery thrombosis successfully treated with endovascular approach via femoral access route. <i>Cardiovascular Revascularization Medicine</i> , 2014, 15, 357-359.	0.8	5
54	Gradual decline in the age-adjusted in-hospital mortality rate from STEMI-related cardiogenic shock irrespective of cause, race or gender with persistent higher mortality rates in women despite multivariate adjustment. <i>Journal of Invasive Cardiology</i> , 2014, 26, 7-12.	0.4	19

#	ARTICLE	IF	CITATIONS
55	The use of micropuncture technique for vascular or body cavity access. Reviews in Cardiovascular Medicine, 2014, 15, 245-51.	1.4	5
56	The Use of Micropuncture Technique for Vascular or Body Cavity Access. Reviews in Cardiovascular Medicine, 2014, 15, 245-251.	1.4	10
57	The Value of ß-blockers Administration during Recovery Phase of Dobutamine Stress Echocardiography: A Review. Echocardiography, 2013, 30, 723-729.	0.9	2
58	Cardiac paraganglioma: Clinical presentation, diagnostic approach and factors affecting short and long-term outcomes. International Journal of Cardiology, 2013, 166, 315-320.	1.7	37
59	Prevention of Post-Coronary Artery Bypass Grafting (CABG) Atrial Fibrillation: Efficacy of Prophylactic Beta-blockers in the Modern Era. Annals of Noninvasive Electrocardiology, 2013, 18, 58-68.	1.1	58
60	Obesity cardiomyopathy and systolic function: Obesity is not independently associated with dilated cardiomyopathy. Heart Failure Reviews, 2013, 18, 207-217.	3.9	33
61	Risk Factors for Post-Coronary Artery Bypass Grafting (CABG) Atrial Fibrillation and the Role of Aspirin and Beta Blockers in its Prevention. Journal of Atrial Fibrillation, 2013, 5, 800.	0.5	3
62	The optimal treatment of STEMI: new pharmacological and device approaches. Panminerva Medica, 2013, 55, 339-43.	0.8	1
63	Traumatic Coronary Artery Fistula Closure With Stent Graft. Methodist DeBakey Cardiovascular Journal, 2012, 8, 59-60.	1.0	4
64	Optimal visualization of five different stent layers during and after percutaneous coronary intervention for recurrent in-stent restenosis using optical coherence tomography (OCT). Cardiovascular Revascularization Medicine, 2012, 13, 292-294.	0.8	0
65	Declining In-Hospital Mortality in Patients Undergoing Coronary Bypass Surgery in the United States Irrespective of Presence of Type 2 Diabetes or Congestive Heart Failure. Clinical Cardiology, 2012, 35, 297-300.	1.8	14
66	Successful removal of an entrapped and kinked catheter during right transradial cardiac catheterization by snaring and unwinding the catheter via femoral access. Cardiovascular Revascularization Medicine, 2012, 13, 202.e1-202.e3.	0.8	16
67	Unusual Combination of Holt-Oram Syndrome and Persistent Left Superior Vena Cava. Congenital Heart Disease, 2012, 7, E46-E49.	0.2	7
68	Pasteurella multocida endocarditis. Journal of Heart Valve Disease, 2012, 21, 260-2.	0.5	13
69	Asymptomatic pediatric pulmonic valve myxoma involving the right ventricular outflow tract: a case report and review of the literature. Journal of Heart Valve Disease, 2012, 21, 398-400.	0.5	3
70	Successful coil embolization of pericardiophrenic artery perforation occurring during transradial cardiac catheterization via right radial artery. Journal of Invasive Cardiology, 2012, 24, 671-4.	0.4	6
71	A Runaway Clot. Acute Cardiac Care, 2011, 13, 189-189.	0.2	0
72	Obesity in Adolescence is Associated with Left Ventricular Hypertrophy and Hypertension. Echocardiography, 2011, 28, 150-153.	0.9	28

#	ARTICLE	IF	CITATIONS
73	Novel Antiplatelet Agent Ticagrelor in the Management of Acute Coronary Syndrome. Journal of Interventional Cardiology, 2011, 24, 199-207.	1.2	8
74	Major Limitations of Randomized Clinical Trials Involving Coronary Artery Bifurcation Interventions: Time for Redesigning Clinical Trials by Involving Only True Bifurcation Lesions and Using Appropriate Bifurcation Classification. Journal of Interventional Cardiology, 2011, 24, 295-301.	1.2	20
75	The use of gadolinium in patients with contrast allergy or renal failure requiring coronary angiography, coronary intervention, or vascular procedure. Catheterization and Cardiovascular Interventions, 2011, 78, 747-754.	1.7	29
76	Letter by Movahed Regarding Article, "Simple or Complex Stenting for Bifurcation Coronary Lesions: A Patient-Level Pooled Analysis of the Nordic Bifurcation Study and the British Bifurcation Coronary Study" Circulation: Cardiovascular Interventions, 2011, 4, e20.	3.9	3
77	Acute Myocardial Infarction Secondary to Suspected Paradoxical Emboli through Patent Foramen Ovale in a Young Woman. The American Heart Hospital Journal, 2011, 9, 122.	0.2	1
78	Going around the bend: deep inspiration facilitates difficult stent delivery in the native coronary arteries. Texas Heart Institute Journal, 2011, 38, 270-4.	0.3	8
79	Transient Cardiac Ballooning is Not Best Nomenclature for Takotsubo Cardiomyopathy as it does Not Capture all Variants of This Syndrome. Stress Cardiomyopathy is a Much Better Term for this Syndrome. Clinical Cardiology, 2010, 33, 241-242.	1.8	5
80	Review of Movahed's sign (D shaped left ventricle seen on gated SPECT) suggestive of right ventricular overload. International Journal of Cardiovascular Imaging, 2010, 26, 553-557.	1.5	11
81	Sex- and ethnic group-specific nationwide trends in the use of coronary artery bypass grafting in the United States. Journal of Thoracic and Cardiovascular Surgery, 2010, 139, 1545-1547.	0.8	3
82	Studies Involving Coronary Bifurcation Interventions Should Utilize the Most Comprehensive and Technically Relevant Movahed Coronary Bifurcation Classification for Better Communication and Accuracy. American Journal of Cardiology, 2010, 105, 1204-1205.	1.6	6
83	Low ejection fraction documented during cardiac catheterization is significantly associated with long-term, all-cause mortality. Cardiovascular Revascularization Medicine, 2010, 11, 163-166.	0.8	1
84	Reverse or Inverted Takotsubo Cardiomyopathy (Reverse Left Ventricular Apical Ballooning Syndrome) Presents at a Younger Age Compared With the Mid or Apical Variant and Is Always Associated With Triggering Stress. Congestive Heart Failure, 2010, 16, 284-286.	2.0	118
85	Prevalence of suspected hypertrophic cardiomyopathy or left ventricular hypertrophy based on race and gender in teenagers using screening echocardiography. Cardiovascular Ultrasound, 2010, 8, 54.	1.6	15
86	Clinical Characteristics and Prognosis of Pulmonary Vein Leiomyosarcoma: A Review and Survival Analysis. Echocardiography, 2010, 27, 210-214.	0.9	0
87	Outcomes of Patients with Coronary Artery Perforation Complicating Percutaneous Coronary Intervention and Correlations with the Type of Adjunctive Antithrombotic Therapy: Pooled Analysis from REPLACE-2, ACUITY, and HORIZONS-AMI Trials. Heparin Only Should be Considered for Lesions at High Risk For Perforation. Journal of Interventional Cardiology, 2010, 23, 203-203.	1.2	0
88	Difficult pacemaker implantation. Detection of a wrong course due to sinus venosus type atrial septal defect. Congenital Anomalies (discontinued), 2010, 50, 203-204.	0.6	0
89	Independent Association Between Type 2 Diabetes Mellitus and Hypertension Over a Period of 10 Years in a Large Inpatient Population. Clinical and Experimental Hypertension, 2010, 32, 198-201.	1.3	17
90	Important Echocardiographic Features of Takotsubo or Stress-Induced Cardiomyopathy That Can Aid Early Diagnosis. JACC: Cardiovascular Imaging, 2010, 3, 1200-1201.	5.3	6

#	ARTICLE	IF	CITATIONS
91	Diabetic Cardiomyopathy. Journal of Cardiac Failure, 2010, 16, 971-979.	1.7	104
92	Nationwide trends in the age adjusted prevalence of non-ST elevation myocardial infarction (NSTEMI) across various races and gender in the USA. Acute Cardiac Care, 2010, 12, 58-62.	0.2	7
93	Angina Induced by 5-Fluorouracil Infusion in a Patient with Normal Coronaries. The American Heart Hospital Journal, 2010, 8, 111.	0.2	17
94	Decreasing in-hospital mortality of patients undergoing percutaneous coronary intervention with persistent higher mortality rates in women and minorities in the United States. Journal of Invasive Cardiology, 2010, 22, 58-60.	0.4	9
95	Re.: Provisional vs. complex stenting strategy for coronary bifurcation lesions: meta-analysis of randomized trials. Journal of Invasive Cardiology, 2010, 22, 148-9.	0.4	1
96	B2 lesions are true bifurcation lesions simply categorized as one group according to the Movahed bifurcation classification. Journal of Invasive Cardiology, 2010, 22, 252.	0.4	0
97	Correlation between estimated ejection fraction measured by echocardiography with ejection fraction estimated by cardiac catheterization in patients awaiting cardiac transplantation. Journal of Invasive Cardiology, 2010, 22, 571-3.	0.4	3
98	Coronary Stenting in Patients With Medically Resistant Vasospasm. Reviews in Cardiovascular Medicine, 2010, 11, 264-270.	1.4	7
99	Perioperative Management of Patients on Adenosine Diphosphate Inhibitors in the Era of Drug-Eluting Stents: Review of the Literature and Clinical Implications. Current Medicinal Chemistry, 2009, 16, 591-598.	2.4	3
100	Percutaneous treatment of spontaneous left main coronary artery dissection extending to the left anterior descending and circumflex arteries possibly triggered by thrombolytic therapy. International Journal of Angiology, 2009, 18, 151-154.	0.6	4
