

# Yvan Jamilloux

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/119335/yvan-jamilloux-publications-by-year.pdf>

**Version:** 2024-04-17

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

101  
papers

2,324

| #   | Paper                                                                                                                                                                                                                                                  | IF   | Citations |
|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------|
| 101 | Mortality associated with Behçet's disease in France assessed by multiple-cause-of-death analysis.. <i>Clinical Rheumatology</i> , <b>2022</b> , 1                                                                                                     | 3.9  | 1         |
| 100 | Diagnostic value of lumbar puncture for the etiological assessment of uveitis: a retrospective cohort of 188 patients.. <i>Graefes Archive for Clinical and Experimental Ophthalmology</i> , <b>2022</b> , 1                                           | 3.8  |           |
| 99  | Functional Assessment of Disease-Associated Pyrin Variants. <i>Methods in Molecular Biology</i> , <b>2022</b> , 179-195                                                                                                                                | 5.4  | 1         |
| 98  | Sarcoidosis diagnosed in the elderly: a case-control study. <i>QJM - Monthly Journal of the Association of Physicians</i> , <b>2021</b> , 114, 238-245                                                                                                 | 2.7  | 2         |
| 97  | Further characterization of clinical and laboratory features in VEXAS syndrome: large-scale analysis of a multicentre case series of 116 French patients. <i>British Journal of Dermatology</i> , <b>2021</b> ,                                        | 4    | 17        |
| 96  | Quality of life in patients with uveitis: data from the ULISSE study (Uveitis: cLinical and medico-economic evaluation of a Standardised Strategy for the Etiological diagnosis). <i>British Journal of Ophthalmology</i> , <b>2021</b> , 105, 935-940 | 5.5  | 3         |
| 95  | Diagnostic value of lymphopaenia and elevated serum ACE in patients with uveitis. <i>British Journal of Ophthalmology</i> , <b>2021</b> , 105, 1399-1404                                                                                               | 5.5  | 2         |
| 94  | Sarcoidosis: A Clinical Overview from Symptoms to Diagnosis. <i>Cells</i> , <b>2021</b> , 10,                                                                                                                                                          | 7.9  | 20        |
| 93  | Therapeutic drug monitoring guides the management of patients with chronic non-infectious uveitis treated with adalimumab: a retrospective study. <i>British Journal of Ophthalmology</i> , <b>2021</b> ,                                              | 5.5  | 2         |
| 92  | Relevance of Brain MRI in Patients with Uveitis: Retrospective Cohort on 402 Patients. <i>Ocular Immunology and Inflammation</i> , <b>2021</b> , 1-7                                                                                                   | 2.8  |           |
| 91  | Cardiac Sarcoidosis Is Uncommon in Patients with Isolated Sarcoid Uveitis: Outcome of 294 Cases. <i>Journal of Clinical Medicine</i> , <b>2021</b> , 10,                                                                                               | 5.1  | 1         |
| 90  | ALPK1 Gene Mutations Drive Autoinflammation with Ectodermal Dysplasia and Progressive Vision Loss. <i>Journal of Clinical Immunology</i> , <b>2021</b> , 41, 1671-1673                                                                                 | 5.7  | 1         |
| 89  | State of the art: approved and emerging JAK inhibitors for rheumatoid arthritis. <i>Expert Opinion on Pharmacotherapy</i> , <b>2021</b> , 22, 205-218                                                                                                  | 4    | 6         |
| 88  | Fast diagnostic test for familial Mediterranean fever based on a kinase inhibitor. <i>Annals of the Rheumatic Diseases</i> , <b>2021</b> , 80, 128-132                                                                                                 | 2.4  | 6         |
| 87  | Uveitis as an Open Window to Systemic Inflammatory Diseases. <i>Journal of Clinical Medicine</i> , <b>2021</b> , 10,                                                                                                                                   | 5.1  | 2         |
| 86  | LACC1 deficiency links juvenile arthritis with autophagy and metabolism in macrophages. <i>Journal of Experimental Medicine</i> , <b>2021</b> , 218,                                                                                                   | 16.6 | 3         |
| 85  | Therapeutic options in VEXAS syndrome: insights from a retrospective series. <i>Blood</i> , <b>2021</b> , 137, 3682-3684                                                                                                                               | 4.4  | 46        |

|    |                                                                                                                                                                                                       |      |     |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----|
| 84 | Development and Validation of a Bayesian Network for Supporting the Etiological Diagnosis of Uveitis. <i>Journal of Clinical Medicine</i> , <b>2021</b> , 10,                                         | 5.1  | 1   |
| 83 | Challenging Mimickers in the Diagnosis of Sarcoidosis: A Case Study. <i>Diagnostics</i> , <b>2021</b> , 11,                                                                                           | 3.8  | 1   |
| 82 | Resolution of ocular and mediastinal sarcoidosis after Janus kinase inhibitor therapy for concomitant rheumatoid arthritis. <i>Clinical and Experimental Rheumatology</i> , <b>2021</b> , 39, 225-226 | 2.2  | 1   |
| 81 | Detection and Prediction of Macrophage Activation Syndrome in Still's Disease.. <i>Journal of Clinical Medicine</i> , <b>2021</b> , 11,                                                               | 5.1  | 2   |
| 80 | Resolution of ocular and mediastinal sarcoidosis after Janus kinase inhibitor therapy for concomitant rheumatoid arthritis. <i>Clinical and Experimental Rheumatology</i> , <b>2021</b> , 39, 225-226 | 2.2  | 2   |
| 79 | Should we stimulate or suppress immune responses in COVID-19? Cytokine and anti-cytokine interventions. <i>Autoimmunity Reviews</i> , <b>2020</b> , 19, 102567                                        | 13.6 | 375 |
| 78 | Refractory Sarcoidosis: A Review. <i>Therapeutics and Clinical Risk Management</i> , <b>2020</b> , 16, 323-345                                                                                        | 2.9  | 25  |
| 77 | Evaluating the cost-consequence of a standardized strategy for the etiological diagnosis of uveitis (ULISSE study). <i>PLoS ONE</i> , <b>2020</b> , 15, e0228918                                      | 3.7  | 3   |
| 76 | Inhibiteurs de la signalisation JAK/STAT au cours des maladies rhumatologiques : un spectre grandissant. <i>Revue Du Rhumatisme (Edition Francaise)</i> , <b>2020</b> , 87, 261-272                   | 0.1  | 1   |
| 75 | Comment on: Improvement of MEFV gene variants classification to aid treatment decision making in familial Mediterranean fever. <i>Rheumatology</i> , <b>2020</b> , 59, 910-911                        | 3.9  | 2   |
| 74 | Kaposi's sarcoma associated with Good syndrome. <i>Medicine Et Maladies Infectieuses</i> , <b>2020</b> , 50, 752-754                                                                                  | 4    | 1   |
| 73 | Valeur du QuantiFERON, implication dans le diagnostic, la réponse au traitement au sein d'une cohorte d'adultes. <i>Revue De Medecine Interne</i> , <b>2020</b> , 41, A80-A81                         | 0.1  |     |
| 72 | Sarcoidosis and Cancer: A Complex Relationship. <i>Frontiers in Medicine</i> , <b>2020</b> , 7, 594118                                                                                                | 4.9  | 12  |
| 71 | Intravenous anakinra for cytokine storm syndromes. <i>Lancet Rheumatology, The</i> , <b>2020</b> , 2, e521-e522                                                                                       | 14.2 | 1   |
| 70 | Ocular Sarcoidosis. <i>Seminars in Respiratory and Critical Care Medicine</i> , <b>2020</b> , 41, 673-688                                                                                             | 3.9  | 7   |
| 69 | Low glycosylated ferritin is a sensitive biomarker of severe COVID-19. <i>Cellular and Molecular Immunology</i> , <b>2020</b> , 17, 1183-1185                                                         | 15.4 | 4   |
| 68 | Sarcoidosis after breast implant rupture: Looking beyond granulomas. <i>Autoimmunity Reviews</i> , <b>2020</b> , 19, 102673                                                                           | 13.6 | 1   |
| 67 | Inhibition of JAK/STAT signaling in rheumatologic disorders: The expanding spectrum. <i>Joint Bone Spine</i> , <b>2020</b> , 87, 119-129                                                              | 2.9  | 16  |

|    |                                                                                                                                                                                                                                          |      |     |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----|
| 66 | Development of Vitreoretinal Lymphoma in a Patient with Sarcoid Uveitis. <i>Ocular Immunology and Inflammation</i> , <b>2020</b> , 28, 647-650                                                                                           | 2.8  | 4   |
| 65 | Enfermedad de Still del adulto. <i>EMC - Tratado De Medicina</i> , <b>2020</b> , 24, 1-10                                                                                                                                                | 0    |     |
| 64 | Impact of systemic treatments on the course of HLA-B27-associated uveitis: A retrospective study of 101 patients. <i>PLoS ONE</i> , <b>2020</b> , 15, e0230560                                                                           | 3.7  | 7   |
| 63 | Apremilast in Refractory Behçet's Syndrome: A Multicenter Observational Study. <i>Frontiers in Immunology</i> , <b>2020</b> , 11, 626792                                                                                                 | 8.4  | 4   |
| 62 | JAK inhibitors for the treatment of autoimmune and inflammatory diseases. <i>Autoimmunity Reviews</i> , <b>2019</b> , 18, 102390                                                                                                         | 13.6 | 118 |
| 61 | F-fluorodeoxyglucose positron emission tomography is useful for the diagnosis of intraocular sarcoidosis in patients with a normal CT scan. <i>British Journal of Ophthalmology</i> , <b>2019</b> , 103, 1650-1655                       | 5.5  | 6   |
| 60 | Sodium valproate and dysmegakaryocytopoiesis. <i>British Journal of Haematology</i> , <b>2019</b> , 186, 204                                                                                                                             | 4.5  | 0   |
| 59 | Orbital mass in ANCA-associated vasculitides: data on clinical, biological, radiological and histological presentation, therapeutic management, and outcome from 59 patients. <i>Rheumatology</i> , <b>2019</b> , 58, 1565-1573          | 3.9  | 15  |
| 58 | BTNL2 gene polymorphism and sarcoid uveitis. <i>British Journal of Ophthalmology</i> , <b>2019</b> , 103, 1690-1694                                                                                                                      | 5.5  | 4   |
| 57 | Simultaneous occurrence of giant cell arteritis and cerebral amyloid angiopathy. <i>Rheumatology</i> , <b>2019</b> , 58, 1503-1505                                                                                                       | 3.9  |     |
| 56 | Eosinophilic Fasciitis and Common Variable Immunodeficiency: An Unusual Association and Literature Review. <i>Journal of Allergy and Clinical Immunology: in Practice</i> , <b>2019</b> , 7, 2848-2849.e1                                | 5.4  | 1   |
| 55 | Ethnicity and association with ocular, systemic manifestations and prognosis in 194 patients with sarcoid uveitis. <i>Graefes Archive for Clinical and Experimental Ophthalmology</i> , <b>2019</b> , 257, 2495-2503                     | 3.8  | 12  |
| 54 | Uveitis: Autoimmunity and beyond. <i>Autoimmunity Reviews</i> , <b>2019</b> , 18, 102351                                                                                                                                                 | 13.6 | 30  |
| 53 | Clinical and etiologic characteristics of de novo uveitis in patients aged 60 years and above: experience of a French tertiary center. <i>Graefes Archive for Clinical and Experimental Ophthalmology</i> , <b>2019</b> , 257, 1971-1979 | 3.8  | 6   |
| 52 | Pyrin dephosphorylation is sufficient to trigger inflammasome activation in familial Mediterranean fever patients. <i>EMBO Molecular Medicine</i> , <b>2019</b> , 11, e10547                                                             | 12   | 24  |
