

Jian Yan

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/11949180/jian-yan-publications-by-year.pdf>

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

29
papers

#	Paper	IF	Citations
29	Maternal Choline Supplementation Modulates Placental Markers of Inflammation, Angiogenesis, and Apoptosis in a Mouse Model of Placental Insufficiency. <i>Nutrients</i> , 2019 , 11,	6.7	7
28	Maternal choline supplementation alters vitamin B-12 status in human and murine pregnancy. <i>Journal of Nutritional Biochemistry</i> , 2019 , 72, 108210	6.3	2
27	Maternal Choline Supplementation during Normal Murine Pregnancy Alters the Placental Epigenome: Results of an Exploratory Study. <i>Nutrients</i> , 2018 , 10,	6.7	17
26	The metabolic fate of isotopically labeled trimethylamine-N-oxide (TMAO) in humans. <i>Journal of Nutritional Biochemistry</i> , 2017 , 45, 77-82	6.3	31
25	Maternal choline supplementation during murine pregnancy modulates placental markers of inflammation, apoptosis and vascularization in a fetal sex-dependent manner. <i>Placenta</i> , 2017 , 53, 57-65	3.4	27
24	Maternal vitamin D biomarkers are associated with maternal and fetal bone turnover among pregnant women consuming controlled amounts of vitamin D, calcium, and phosphorus. <i>Bone</i> , 2017 , 95, 183-191	4.7	12
23	Maternal Choline Supplementation Modulates Placental Nutrient Transport and Metabolism in Late Gestation of Mouse Pregnancy. <i>Journal of Nutrition</i> , 2017 , 147, 2083-2092	4.1	26
22	Trimethylamine-N-oxide (TMAO) response to animal source foods varies among healthy young men and is influenced by their gut microbiota composition: A randomized controlled trial. <i>Molecular Nutrition and Food Research</i> , 2017 , 61, 1600324	5.9	194
21	Growth of Infants Fed Formula with Evolving Nutrition Composition: A Single-Arm Non-Inferiority Study. <i>Nutrients</i> , 2017 , 9,	6.7	9
20	Maternal Choline Supplementation Alters Fetal Growth Patterns in a Mouse Model of Placental Insufficiency. <i>Nutrients</i> , 2017 , 9,	6.7	16
19	Growth of infants consuming whey-predominant term infant formulas with a protein content of 1.8 g/100 kcal: a multicenter pooled analysis of individual participant data. <i>American Journal of Clinical Nutrition</i> , 2016 , 104, 1083-1092	7	20
18	Vitamin D Metabolism Varies among Women in Different Reproductive States Consuming the Same Intakes of Vitamin D and Related Nutrients. <i>Journal of Nutrition</i> , 2016 , 146, 1537-45	4.1	22
17	Genetic impairments in folate enzymes increase dependence on dietary choline for phosphatidylcholine production at the expense of betaine synthesis. <i>FASEB Journal</i> , 2016 , 30, 3321-3333	0.9	27
16	Choline and one-carbon metabolite response to egg, beef and fish among healthy young men: A short-term randomized clinical study. <i>Clinical Nutrition Experimental</i> , 2016 , 10, 1-11	2	10
15	Choline intakes exceeding recommendations during human lactation improve breast milk choline content by increasing PEMT pathway metabolites. <i>Journal of Nutritional Biochemistry</i> , 2015 , 26, 903-11	6.3	40
14	Maternal obesity disrupts the methionine cycle in baboon pregnancy. <i>Physiological Reports</i> , 2015 , 3, e12564	1.6	18
13	Vitamin B-12 Status Differs among Pregnant, Lactating, and Control Women with Equivalent Nutrient Intakes. <i>Journal of Nutrition</i> , 2015 , 145, 1507-14	4.1	23

12	Maternal choline supplementation programs greater activity of the phosphatidylethanolamine N-methyltransferase (PEMT) pathway in adult Ts65Dn trisomic mice. <i>FASEB Journal</i> , 2014 , 28, 4312-23	0.9	14
11	Pregnancy and lactation alter biomarkers of biotin metabolism in women consuming a controlled diet. <i>Journal of Nutrition</i> , 2014 , 144, 1977-84	4.1	19
10	Choline intake influences phosphatidylcholine DHA enrichment in nonpregnant women but not in pregnant women in the third trimester. <i>American Journal of Clinical Nutrition</i> , 2013 , 97, 718-27	7	27
9	A higher maternal choline intake among third-trimester pregnant women lowers placental and circulating concentrations of the antiangiogenic factor fms-like tyrosine kinase-1 (sFLT1). <i>FASEB Journal</i> , 2013 , 27, 1245-53	0.9	65
8	Pregnancy alters choline dynamics: results of a randomized trial using stable isotope methodology in pregnant and nonpregnant women. <i>American Journal of Clinical Nutrition</i> , 2013 , 98, 1459-67	7	69
7	Folate-status response to a controlled folate intake in nonpregnant, pregnant, and lactating women. <i>American Journal of Clinical Nutrition</i> , 2012 , 96, 789-800	7	36
6	Maternal choline intake alters the epigenetic state of fetal cortisol-regulating genes in humans. <i>FASEB Journal</i> , 2012 , 26, 3563-74	0.9	160
5	Maternal choline intake modulates maternal and fetal biomarkers of choline metabolism in humans. <i>American Journal of Clinical Nutrition</i> , 2012 , 95, 1060-71	7	117
4	Pregnancy induces transcriptional activation of the peripheral innate immune system and increases oxidative DNA damage among healthy third trimester pregnant women. <i>PLoS ONE</i> , 2012 , 7, e46736	3.7	6
3	Folate intake, MTHFR genotype, and sex modulate choline metabolism in mice. <i>Journal of Nutrition</i> , 2011 , 141, 1475-81	4.1	44
2	MTHFR C677T genotype influences the isotopic enrichment of one-carbon metabolites in folate-compromised men consuming d9-choline. <i>American Journal of Clinical Nutrition</i> , 2011 , 93, 348-55	7	60
1	Choline intake exceeding current dietary recommendations preserves markers of cellular methylation in a genetic subgroup of folate-compromised men. <i>Journal of Nutrition</i> , 2010 , 140, 975-80	4.1	31
