

Hendrik Enders

List of Publications by Citations

Source: <https://exaly.com/author-pdf/11951163/hendrik-enders-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
10	Changes in cortical activity measured with EEG during a high-intensity cycling exercise. <i>Journal of Neurophysiology</i> , 2016 , 115, 379-88	3.2	38
9	Neuromuscular Strategies during Cycling at Different Muscular Demands. <i>Medicine and Science in Sports and Exercise</i> , 2015 , 47, 1450-9	1.2	25
8	Analysis of damped tissue vibrations in time-frequency space: a wavelet-based approach. <i>Journal of Biomechanics</i> , 2012 , 45, 2855-9	2.9	25
7	Measuring human locomotor control using EMG and EEG: Current knowledge, limitations and future considerations. <i>European Journal of Sport Science</i> , 2016 , 16, 416-26	3.9	23
6	Barefoot running – Some critical considerations. <i>Footwear Science</i> , 2013 , 5, 1-7	1.4	23
5	The effects of preferred and non-preferred running strike patterns on tissue vibration properties. <i>Journal of Science and Medicine in Sport</i> , 2014 , 17, 218-22	4.4	19
4	Task-oriented control of muscle coordination during cycling. <i>Medicine and Science in Sports and Exercise</i> , 2013 , 45, 2298-305	1.2	15
3	Damping and energy dissipation in soft tissue vibrations during running. <i>Journal of Biomechanics</i> , 2015 , 48, 204-9	2.9	13
2	Soccer shoe bending stiffness significantly alters game-specific physiology in a 25-minute continuous field-based protocol. <i>Footwear Science</i> , 2016 , 8, 83-90	1.4	7
1	Ankle muscle strength influence on muscle activation during dynamic and static ankle training modalities. <i>Journal of Sports Sciences</i> , 2016 , 34, 803-10	3.6	6
