#	ARTICLE	IF	CITATIONS
1	Involuntary cough is superior to voluntary cough for identifying stress urinary incontinence. Central European Journal of Urology, 2019, 72, 378-383.	0.3	0
2	Inspiration closure reflex: The effect of respiration on intrinsic sphincters. Muscle and Nerve, 2013, 47, 424-431.	2.2	4
3	Intra-abdominal Pressures during Voluntary and Reflex Cough. Cough, 2008, 4, 2.	2.7	52
4	Effect of stroke location on the laryngeal cough reflex and pneumonia risk. Cough, 2005, 1, 4.	2.7	38
5	Electrophysiologic Latency to the External Obliques of the Laryngeal Cough Expiration Reflex in Humans. American Journal of Physical Medicine and Rehabilitation, 2003, 82, 370-373.	1.4	17
6	Effect of Acute Unilateral Middle Cerebral Artery Infarcts on Voluntary Cough and the Laryngeal Cough Reflex. American Journal of Physical Medicine and Rehabilitation, 2003, 82, 379-383.	1.4	31
7	Effect of Tartaric Acid-Induced Cough on Pulmonary Function in Normal and Asthmatic Humans. American Journal of Physical Medicine and Rehabilitation, 2003, 82, 374-378.	1.4	9
8	Assessing the Laryngeal Cough Reflex and the Risk of Developing Pneumonia After Stroke. Stroke, 1999, 30, 1203-1207.	2.0	148
9	Anatomy of the internal branch of the superior laryngeal nerve. Clinical Anatomy, 1999, 12, 79-83.	2.7	40
10	Assessing the laryngeal cough reflex and the risk of developing pneumonia after stroke. Archives of Physical Medicine and Rehabilitation, 1999, 80, 150-154.	0.9	103
11	Anesthesia of the superior laryngeal nerves and tartaric acid-Induced cough. Archives of Physical Medicine and Rehabilitation, 1999, 80, 1584-1586.	0.9	19
12	TARTARIC ACID-INDUCED COUGH AND THE SUPERIOR LARYNGEAL NERVE EVOKED POTENTIAL1. American Journal of Physical Medicine and Rehabilitation, 1998, 77, 523-526.	1.4	20
