

Paul D Stein

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/12127626/paul-d-stein-publications-by-year.pdf>

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
156	Inferior Vena Cava Filters in Patients with Acute Pulmonary Embolism and Cancer. <i>American Journal of Medicine</i> , 2018 , 131, 442.e9-442.e12	2.4	2
155	Diagnostic accuracy of magnetic resonance imaging in patients with suspected pulmonary embolism: A bivariate meta-analysis. <i>Thrombosis Research</i> , 2017 , 154, 64-72	8.2	8
154	Pulmonary embolism and deep venous thrombosis at autopsy 2016 , 3-17		
153	Case fatality rate and population mortality rate from pulmonary embolism and deep venous thrombosis 2016 , 24-30		
152	Diagnosis of pulmonary embolism in the coronary care unit 2016 , 501-505		
151	Diagnostic approach to acute pulmonary embolism 2016 , 516-520		
150	Thrombolytic therapy for treatment of acute pulmonary embolism 2016 , 574-588		
149	Venous thromboembolism according to age and in the elderly 2016 , 78-94		
148	Incidence of pulmonary embolism and deep venous thrombosis in hospitalized patients and in emergency departments 2016 , 18-23		
147	Obesity as a risk factor in venous thromboembolism 2016 , 133-138		
146	Pulmonary embolism and deep venous thrombosis in hospitalized adults with chronic obstructive pulmonary disease 2016 , 149-155		
145	Deep venous thrombosis and pulmonary embolism in hospitalized patients with sickle cell disease 2016 , 158-161		
144	Hypercoagulable syndrome 2016 , 204-212		
143	D-dimer for the exclusion of acute deep venous thrombosis 2016 , 225-233		
142	D-dimer combined with clinical probability assessment for exclusion of acute deep venous thrombosis 2016 , 234-235		
141	Compression ultrasound for the diagnosis of deep venous thrombosis 2016 , 240-246		
140	Ascending CT venography and venous phase CT venography for diagnosis of deep venous thrombosis 2016 , 250-254		1

139 Magnetic resonance venography for diagnosis of deep venous thrombosis **2016**, 255-259

138 Clinical characteristics of patients with no prior cardiopulmonary disease **2016**, 263-271

137 The history and physical examination in all patients irrespective of prior cardiopulmonary disease **2016**, 275-279

136 Clinical characteristics of patients with acute pulmonary embolism stratified according to their presenting syndromes **2016**, 280-285

1

135 Clinical assessment in the critically ill **2016**, 286-288

134 The electrocardiogram **2016**, 289-302

133 Pulmonary embolism following deep venous thrombosis and outcome with untreated pulmonary embolism **2016**, 49-53

132 Arterial blood gases and the alveolar-arterial oxygen difference in acute pulmonary embolism **2016**, 308-315

131 Fever in acute pulmonary embolism **2016**, 316-318

130 D-dimer for the exclusion of acute pulmonary embolism **2016**, 335-345

129 D-dimer combined with clinical probability for exclusion of acute pulmonary embolism **2016**, 346-348

128 Trends in the use of diagnostic imaging in patients hospitalized with acute pulmonary embolism **2016**, 356-357

127 Perfusion lung scans alone in acute pulmonary embolism **2016**, 376-378

126 Pulmonary scintigraphy scans since PIOPED **2016**, 407-411

2

125 Standard and augmented techniques in pulmonary angiography **2016**, 427-434

124 Subsegmental pulmonary embolism **2016**, 435-439

123 Methods of PIOPED II **2016**, 458-466

122 Multidetector spiral CT of the chest for acute pulmonary embolism: results of the PIOPED II trial **2016**, 467-472

121	Multidetector CT pulmonary angiography since PIOPED II 2016 , 473-477		
120	Outcome studies of pulmonary embolism versus accuracy 2016 , 478-479		
119	Contrast-induced nephropathy 2016 , 480-482		
118	Radiation exposure and risk 2016 , 483-489		
117	Magnetic resonance angiography for the diagnosis of acute pulmonary embolism 2016 , 490-498		
116	Venous thromboembolism in patients with cancer 2016 , 118-127		
115	The plain chest radiograph 2016 , 303-307		
114	Noninvasive imaging in pulmonary embolism according to age and gender. <i>Clinical and Applied Thrombosis/Hemostasis</i> , 2014 , 20, 143-6	3.3	4
113	Pulmonary embolism and deep venous thrombosis following laparoscopic cholecystectomy. <i>Clinical and Applied Thrombosis/Hemostasis</i> , 2014 , 20, 233-7	3.3	5
112	Specificity of quantitative latex agglutination assay for D-dimer in exclusion of pulmonary embolism in the emergency department. <i>Clinical and Applied Thrombosis/Hemostasis</i> , 2014 , 20, 807-12	3.3	3
111	Perfusion SPECT in patients with suspected pulmonary embolism. <i>European Journal of Nuclear Medicine and Molecular Imaging</i> , 2013 , 40, 1432-7	8.8	18
110	Pulmonary embolism and deep venous thrombosis following bariatric surgery. <i>Obesity Surgery</i> , 2013 , 23, 663-8	3.7	63
109	Case fatality rate with vena cava filters in hospitalized stable patients with cancer and pulmonary embolism. <i>American Journal of Medicine</i> , 2013 , 126, 819-24	2.4	18
108	Treatment of unstable pulmonary embolism in the elderly and those with comorbid conditions. <i>American Journal of Medicine</i> , 2013 , 126, 304-10	2.4	22
107	Relation of electrocardiographic changes in pulmonary embolism to right ventricular enlargement. <i>American Journal of Cardiology</i> , 2013 , 112, 1958-61	3	16
106	Case fatality rate in pulmonary embolism according to age and stability. <i>Clinical and Applied Thrombosis/Hemostasis</i> , 2013 , 19, 668-72	3.3	6
105	Diagnosis and management of isolated subsegmental pulmonary embolism: review and assessment of the options. <i>Clinical and Applied Thrombosis/Hemostasis</i> , 2012 , 18, 20-6	3.3	103
104	Impact of vena cava filters on in-hospital case fatality rate from pulmonary embolism. <i>American Journal of Medicine</i> , 2012 , 125, 478-84	2.4	129

103	Intracerebral hemorrhage with thrombolytic therapy for acute pulmonary embolism. <i>American Journal of Medicine</i> , 2012 , 125, 50-6	2.4	37
102	Case fatality rate with pulmonary embolectomy for acute pulmonary embolism. <i>American Journal of Medicine</i> , 2012 , 125, 471-7	2.4	40
101	Electrocardiogram in pneumonia. <i>American Journal of Cardiology</i> , 2012 , 110, 1836-40	3	17
100	Trends in case fatality rate in pulmonary embolism according to stability and treatment. <i>Thrombosis Research</i> , 2012 , 130, 841-6	8.2	40
99	Factors in the technical quality of gadolinium enhanced magnetic resonance angiography for pulmonary embolism in PIOPED III. <i>International Journal of Cardiovascular Imaging</i> , 2012 , 28, 303-12	2.5	19
98	Signal quality of single dose gadobenate dimeglumine pulmonary MRA examinations exceeds quality of MRA performed with double dose gadopentetate dimeglumine. <i>International Journal of Cardiovascular Imaging</i> , 2012 , 28, 295-301	2.5	21
97	Ancillary findings on CT pulmonary angiograms and abnormalities on chest radiographs in patients in whom pulmonary embolism was excluded. <i>Clinical and Applied Thrombosis/Hemostasis</i> , 2012 , 18, 201-5 ^{3.3}	3.3	13
96	Comparison of 1.5 and 3.0 T for contrast-enhanced pulmonary magnetic resonance angiography. <i>Clinical and Applied Thrombosis/Hemostasis</i> , 2012 , 18, 134-9	3.3	14
95	Epidemiology and incidence: the scope of the problem and risk factors for development of venous thromboembolism. <i>Critical Care Clinics</i> , 2011 , 27, 907-32, vii	4.5	19
94	Venous thromboembolism with chronic liver disease. <i>American Journal of Medicine</i> , 2011 , 124, 64-8	2.4	30
93	Obesity and pulmonary embolism: the mounting evidence of risk and the mortality paradox. <i>Thrombosis Research</i> , 2011 , 128, 518-23	8.2	52
92	Is the campaign to prevent VTE in hospitalized patients working?. <i>Chest</i> , 2011 , 139, 1317-1321	5.3	30
91	Risk of venous thromboembolism with inflammatory bowel disease. <i>Clinical and Applied Thrombosis/Hemostasis</i> , 2011 , 17, 254-8	3.3	38
90	Controversies in diagnosis of pulmonary embolism. <i>Clinical and Applied Thrombosis/Hemostasis</i> , 2011 , 17, 140-9	3.3	21
89	CT venous phase venography with 64-detector CT angiography in the diagnosis of acute pulmonary embolism. <i>Clinical and Applied Thrombosis/Hemostasis</i> , 2010 , 16, 422-9	3.3	13
88	Early discharge of patients with venous thromboembolism: implications regarding therapy. <i>Clinical and Applied Thrombosis/Hemostasis</i> , 2010 , 16, 141-5	3.3	12
87	Resolution of pulmonary embolism on CT pulmonary angiography. <i>American Journal of Roentgenology</i> , 2010 , 194, 1263-8	5.4	36
86	Epidemiology and incidence: the scope of the problem and risk factors for development of venous thromboembolism. <i>Clinics in Chest Medicine</i> , 2010 , 31, 611-28	5.3	56

85	Gadolinium-enhanced magnetic resonance angiography for pulmonary embolism: a multicenter prospective study (PIOPED III). <i>Annals of Internal Medicine</i> , 2010 , 152, 434-43, W142-3	8	260
84	Acute pulmonary embolism. <i>Current Problems in Cardiology</i> , 2010 , 35, 314-76	17.1	41
83	Risk of venous thromboembolism with rheumatoid arthritis. <i>Thrombosis and Haemostasis</i> , 2009 , 101, 134-138	7	103
82	CT venography: a necessary adjunct to CT pulmonary angiography or a waste of time, money, and radiation?. <i>Radiology</i> , 2009 , 250, 327-30	20.5	22
81	Result categories for ventilation-perfusion scintigraphy. <i>Radiology</i> , 2009 , 253, 575; author reply 575	20.5	
80	Diagnosis of pulmonary embolism in the coronary care unit. <i>American Journal of Cardiology</i> , 2009 , 103, 881-6	3	16
79	Reconstructed 4-chamber views compared with axial imaging for assessment of right ventricular enlargement on CT pulmonary angiograms. <i>Journal of Thrombosis and Thrombolysis</i> , 2009 , 28, 342-7	5.1	24
78	Incidence of thrombocytopenia in hospitalized patients with venous thromboembolism. <i>American Journal of Medicine</i> , 2009 , 122, 919-30	2.4	48
77	Venous thromboembolism in patients hospitalized with thyroid dysfunction. <i>Clinical and Applied Thrombosis/Hemostasis</i> , 2009 , 15, 676-80	3.3	34
76	Obesity and thromboembolic disease. <i>Clinics in Chest Medicine</i> , 2009 , 30, 489-93, viii	5.3	57
75	Diabetes mellitus and risk of venous thromboembolism. <i>American Journal of the Medical Sciences</i> , 2009 , 337, 259-64	2.2	53
74	Incidence of vena cava thrombosis in the United States. <i>American Journal of Cardiology</i> , 2008 , 102, 927-93		46
73	Enlarged right ventricle without shock in acute pulmonary embolism: prognosis. <i>American Journal of Medicine</i> , 2008 , 121, 34-42	2.4	79
72	Challenges in the diagnosis of acute pulmonary embolism. <i>American Journal of Medicine</i> , 2008 , 121, 565-71		43
71	Methods of Prospective Investigation of Pulmonary Embolism Diagnosis III (PIOPED III). <i>Seminars in Nuclear Medicine</i> , 2008 , 38, 462-70	5.4	42
70	Acute pulmonary embolism: sensitivity and specificity of ventilation-perfusion scintigraphy in PIOPED II study. <i>Radiology</i> , 2008 , 246, 941-6	20.5	160
69	In the era of multislice CT, do we still need leg ultrasonography to diagnose pulmonary embolism?. <i>Nature Clinical Practice Cardiovascular Medicine</i> , 2008 , 5, 688-9		
68	Sensitivity and specificity of perfusion scintigraphy combined with chest radiography for acute pulmonary embolism in PIOPED II. <i>Journal of Nuclear Medicine</i> , 2008 , 49, 1741-8	8.9	129

67	Acute Pulmonary Embolism in the Elderly. <i>Fundamental and Clinical Cardiology</i> , 2008 , 731-748		
66	Human immunodeficiency virus infection and risk of venous thromboembolism. <i>American Journal of the Medical Sciences</i> , 2008 , 336, 402-6	2.2	50
65	Diagnostic pathways in acute pulmonary embolism: recommendations of the PIOPED II Investigators. <i>Radiology</i> , 2007 , 242, 15-21	20.5	210
64	Usefulness of multidetector spiral computed tomography according to age and gender for diagnosis of acute pulmonary embolism. <i>American Journal of Cardiology</i> , 2007 , 99, 1303-5	3	17
63	CT venography and compression sonography are diagnostically equivalent: data from PIOPED II. <i>American Journal of Roentgenology</i> , 2007 , 189, 1071-6	5.4	103
62	CT venography for deep venous thrombosis: continuous images versus reformatted discontinuous images using PIOPED II data. <i>American Journal of Roentgenology</i> , 2007 , 189, 409-12	5.4	34
61	Very low probability interpretation of V/Q lung scans in combination with low probability objective clinical assessment reliably excludes pulmonary embolism: data from PIOPED II. <i>Journal of Nuclear Medicine</i> , 2007 , 48, 1411-5	8.9	40
60	Multidetector computed tomography for the diagnosis of acute pulmonary embolism. <i>Current Opinion in Pulmonary Medicine</i> , 2007 , 13, 384-8	3	15
59	Pulmonary embolism and deep venous thrombosis in hospitalized adults with chronic obstructive pulmonary disease. <i>Journal of Cardiovascular Medicine</i> , 2007 , 8, 253-7	1.9	34
58	Clinical characteristics of patients with acute pulmonary embolism: data from PIOPED II. <i>American Journal of Medicine</i> , 2007 , 120, 871-9	2.4	286
57	Multidetector computed tomography for acute pulmonary embolism. <i>New England Journal of Medicine</i> , 2006 , 354, 2317-27	59.2	1175
56	Pulmonary embolism as a cause of death in patients who died with cancer. <i>American Journal of Medicine</i> , 2006 , 119, 163-5	2.4	31
55	Incidence of venous thromboembolism in patients hospitalized with cancer. <i>American Journal of Medicine</i> , 2006 , 119, 60-8	2.4	407
54	Diagnostic pathways in acute pulmonary embolism: recommendations of the PIOPED II investigators. <i>American Journal of Medicine</i> , 2006 , 119, 1048-55	2.4	173
53	Deep venous thrombosis and pulmonary embolism in hospitalized patients with sickle cell disease. <i>American Journal of Medicine</i> , 2006 , 119, 897.e7-11	2.4	129
52	Obesity as a risk factor in venous thromboembolism. <i>American Journal of Medicine</i> , 2005 , 118, 978-80	2.4	406
51	Trends in the incidence of pulmonary embolism and deep venous thrombosis in hospitalized patients. <i>American Journal of Cardiology</i> , 2005 , 95, 1525-6	3	111
50	Venous thromboembolism in patients with ischemic and hemorrhagic stroke. <i>American Journal of Cardiology</i> , 2005 , 96, 1731-3	3	95

49	Venous thromboembolism according to age: the impact of an aging population. <i>Archives of Internal Medicine</i> , 2004 , 164, 2260-5		152
48	Antithrombotic therapy in valvular heart disease--native and prosthetic: the Seventh ACCP Conference on Antithrombotic and Thrombolytic Therapy. <i>Chest</i> , 2004 , 126, 457S-482S	5.3	267
47	Pulmonary thromboembolism in American Indians and Alaskan Natives. <i>Archives of Internal Medicine</i> , 2004 , 164, 1804-6		26
46	Estimated case fatality rate of pulmonary embolism, 1979 to 1998. <i>American Journal of Cardiology</i> , 2004 , 93, 1197-9	3	104
45	Pulmonary thromboembolism in Asians/Pacific Islanders in the United States: analysis of data from the National Hospital Discharge Survey and the United States Bureau of the Census. <i>American Journal of Medicine</i> , 2004 , 116, 435-42	2.4	157
44	D-dimer for the exclusion of acute venous thrombosis and pulmonary embolism: a systematic review. <i>Annals of Internal Medicine</i> , 2004 , 140, 589-602	8	530
43	Venous thromboembolic disease: comparison of the diagnostic process in blacks and whites. <i>Archives of Internal Medicine</i> , 2003 , 163, 1843-8		35
42	Gadolinium-enhanced magnetic resonance angiography for detection of acute pulmonary embolism: an in-depth review. <i>Chest</i> , 2003 , 124, 2324-8	5.3	53
41	Venous thromboembolic disease: comparison of the diagnostic process in men and women. <i>Archives of Internal Medicine</i> , 2003 , 163, 1689-94		29
40	Tracking the uptake of evidence: two decades of hospital practice trends for diagnosing deep vein thrombosis and pulmonary embolism. <i>Archives of Internal Medicine</i> , 2003 , 163, 1213-9		52
39	Estimated incidence of acute pulmonary embolism in a community/teaching general hospital. <i>Chest</i> , 2002 , 121, 802-5	5.3	51
38	Deep venous thrombosis in a general hospital. <i>Chest</i> , 2002 , 122, 960-2	5.3	40
37	Overview of Prospective Investigation of Pulmonary Embolism Diagnosis II. <i>Seminars in Nuclear Medicine</i> , 2002 , 32, 173-82	5.4	106
36	Antithrombotic therapy in patients with mechanical and biological prosthetic heart valves. <i>Chest</i> , 2001 , 119, 220S-227S	5.3	192
35	Extended out-of-hospital low-molecular-weight heparin prophylaxis against deep venous thrombosis in patients after elective hip arthroplasty: a systematic review. <i>Annals of Internal Medicine</i> , 2001 , 135, 858-69	8	223
34	Cost-effectiveness of currently accepted strategies for pulmonary embolism diagnosis. <i>Seminars in Thrombosis and Hemostasis</i> , 2001 , 27, 15-23	5.3	13
33	Fever in acute pulmonary embolism. <i>Chest</i> , 2000 , 117, 39-42	5.3	62
32	Incidence of acute pulmonary embolism in a general hospital: relation to age, sex, and race. <i>Chest</i> , 1999 , 116, 909-13	5.3	64

31	Clinical characteristics of patients with acute pulmonary embolism stratified according to their presenting syndromes. <i>Chest</i> , 1997 , 112, 974-9	5:3	162
30	Prevalence of acute pulmonary embolism in central and subsegmental pulmonary arteries and relation to probability interpretation of ventilation/perfusion lung scans. <i>Chest</i> , 1997 , 111, 1246-8	5:3	112
29	Arterial blood gas analysis in the assessment of suspected acute pulmonary embolism. <i>Chest</i> , 1996 , 109, 78-81	5:3	129
28	Strategy That Includes Serial Noninvasive Leg Tests for Diagnosis of Thromboembolic Disease in Patients With Suspected Acute Pulmonary Embolism Based on Data From PIOPED. <i>Archives of Internal Medicine</i> , 1995 , 155, 2101		39
27	Untreated patients with pulmonary embolism. Outcome, clinical, and laboratory assessment. <i>Chest</i> , 1995 , 107, 931-5	5:3	121
26	Prevalence of acute pulmonary embolism among patients in a general hospital and at autopsy. <i>Chest</i> , 1995 , 108, 978-81	5:3	477
25	Alveolar-arterial oxygen gradient in the assessment of acute pulmonary embolism. <i>Chest</i> , 1995 , 107, 139-43	5:3	132
24	Continuing risk of thromboemboli among patients with normal pulmonary angiograms. <i>Chest</i> , 1995 , 107, 1375-8	5:3	120
23	Asymmetry of the calves in the assessment of patients with suspected acute pulmonary embolism. <i>Chest</i> , 1995 , 107, 936-9	5:3	19
22	DIAGNOSIS AND MANAGEMENT OF ACUTE PULMONARY EMBOLISM: Past, Present, and Future. <i>Clinics in Chest Medicine</i> , 1995 , 16, 229-233	5:3	2
21	Neural network in the clinical diagnosis of acute pulmonary embolism. <i>Chest</i> , 1993 , 104, 1685-9	5:3	78
20	The diagnosis of acute pulmonary embolism in patients with chronic obstructive pulmonary disease. <i>Chest</i> , 1992 , 102, 17-22	5:3	113
19	Relation of plain chest radiographic findings to pulmonary arterial pressure and arterial blood oxygen levels in patients with acute pulmonary embolism. <i>American Journal of Cardiology</i> , 1992 , 69, 394-6		19
18	Value of ventilation/perfusion scans versus perfusion scans alone in acute pulmonary embolism. <i>American Journal of Cardiology</i> , 1992 , 69, 1239-41	3	75
17	Clinical characteristics of patients with acute pulmonary embolism. <i>American Journal of Cardiology</i> , 1991 , 68, 1723-4	3	113
16	Usefulness of noninvasive diagnostic tools for diagnosis of acute pulmonary embolism in patients with a normal chest radiograph. <i>American Journal of Cardiology</i> , 1991 , 67, 1117-20	3	52
15	Clinical, laboratory, roentgenographic, and electrocardiographic findings in patients with acute pulmonary embolism and no pre-existing cardiac or pulmonary disease. <i>Chest</i> , 1991 , 100, 598-603	5:3	556
14	Diagnosis of acute pulmonary embolism in the elderly. <i>Journal of the American College of Cardiology</i> , 1991 , 18, 1452-7	15:1	66

13	Plain Chest Roentgenogram in Patients with Acute Pulmonary Embolism and No Preexisting Cardiac or Pulmonary Disease. <i>American Journal of Noninvasive Cardiology</i> , 1987 , 1, 171-176		20
12	Evaluation of platelet reactivity in patients with valvular heart disease. <i>Journal of the American College of Cardiology</i> , 1983 , 1, 1381-4	15.1	19
11	Diagnosis, Prophylaxis, and Treatment of Acute Pulmonary Embolism. <i>Archives of Internal Medicine</i> , 1983 , 143, 991		7
10	History and physical examination in acute pulmonary embolism in patients without preexisting cardiac or pulmonary disease. <i>American Journal of Cardiology</i> , 1981 , 47, 218-23	3	122
9	Blood Flow Disturbances in the Cardiovascular System: Significance in Health and Disease 1980 , 211-241		
8	Role of blood viscosity in the production of innocent ejection murmurs. <i>American Journal of Cardiology</i> , 1979 , 43, 753-6	3	4
7	Continuing disease process of calcific aortic stenosis. Role of microthrombi and turbulent flow. <i>American Journal of Cardiology</i> , 1977 , 39, 159-63	3	89
6	The electrocardiogram in acute pulmonary embolism. <i>Progress in Cardiovascular Diseases</i> , 1975 , 17, 247-575		202
5	Turbulent blood flow and the effects of erythrocytes. <i>Cardiovascular Research</i> , 1974 , 8, 338-46	9.9	8
4	Measured turbulence and its effect on thrombus formation. <i>Circulation Research</i> , 1974 , 35, 608-14	15.7	223
3	Left axis deviation as an electrocardiographic manifestation of acute pulmonary embolism. <i>Journal of Electrocardiology</i> , 1971 , 4, 67-9	1.4	4
2	New functional concept of valvular mechanics in normal and diseased aortic valves. <i>Circulation</i> , 1971 , 44, 101-8	16.7	28
1	Thrombolytic Therapy in Acute Pulmonary Embolism 425-436
