

Joseph D Mosca

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/12128474/joseph-d-mosca-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

18
papers

19,020
citations

#	Paper	IF	Citations
18	Comparison of drug and cell-based delivery: engineered adult mesenchymal stem cells expressing soluble tumor necrosis factor receptor II prevent arthritis in mouse and rat animal models. <i>Stem Cells Translational Medicine</i> , 2013 , 2, 362-75	6.9	27
17	Development of a highly efficacious vaccinia-based dual vaccine against smallpox and anthrax, two important bioterror entities. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2010 , 107, 18091-6	11.5	21
16	Antigen-presenting particle technology using inactivated surface-engineered viruses: induction of immune responses against infectious agents. <i>Retrovirology</i> , 2007 , 4, 32	3.6	3
15	Development of smallpox vaccine candidates with integrated interleukin-15 that demonstrate superior immunogenicity, efficacy, and safety in mice. <i>Journal of Virology</i> , 2007 , 81, 8774-83	6.6	35
14	T cell responses to allogeneic human mesenchymal stem cells: immunogenicity, tolerance, and suppression. <i>Journal of Biomedical Science</i> , 2005 , 12, 47-57	13.3	442
13	Characterization and functionality of cell surface molecules on human mesenchymal stem cells. <i>Journal of Biomedical Science</i> , 2003 , 10, 228-41	13.3	385
12	Mesenchymal Stem Cells 2001 , 189-207		6
11	Human mesenchymal stem cells maintain transgene expression during expansion and differentiation. <i>Molecular Therapy</i> , 2001 , 3, 857-66	11.7	142
10	Mesenchymal stem cells as vehicles for gene delivery. <i>Clinical Orthopaedics and Related Research</i> , 2000 , S71-90	2.2	89
9	Multilineage potential of adult human mesenchymal stem cells. <i>Science</i> , 1999 , 284, 143-7	33.3	16828
8	Phenotypic and functional comparison of cultures of marrow-derived mesenchymal stem cells (MSCs) and stromal cells. <i>Journal of Cellular Physiology</i> , 1998 , 176, 57-66	7	644
7	Mesenchymal stem cells in osteobiology and applied bone regeneration. <i>Clinical Orthopaedics and Related Research</i> , 1998 , S247-56	2.2	333
6	Transcriptional effects of superinfection in HIV chronically infected T cells: studies in dually infected clones. <i>Journal of Acquired Immune Deficiency Syndromes</i> , 1996 , 12, 329-42		9
5	Inhibition of HIV replication by sense and antisense rev response elements in HIV-based retroviral vectors. <i>Journal of Acquired Immune Deficiency Syndromes</i> , 1996 , 12, 343-51		19
4	Consequences of stable transduction and antigen-inducible expression of the human interleukin-7 gene on tetanus-toxoid-specific T cells. <i>Human Gene Therapy</i> , 1994 , 5, 1457-66	4.8	7
3	Consequences of human immunodeficiency virus type 1 superinfection of chronically infected cells. <i>AIDS Research and Human Retroviruses</i> , 1993 , 9, 875-82	1.6	20
2	Increased 2L,5L-oligoadenylate synthetase activity in blood mononuclear leukocytes from patients with advanced cutaneous T-cell lymphoma. <i>Clinical Immunology and Immunopathology</i> , 1984 , 31, 138-50		2

- 1 2l,5l-oligoadenylate synthetase from cutaneous T-cell lymphoma: biosynthesis, identification, quantitation, molecular size of the 2l,5l-oligoadenylates, and inhibition of protein synthesis. *Biochemistry*, **1983**, 22, 4153-8 3.2 8
