#	ARTICLE	IF	CITATIONS
1	International values for haemoglobin distributions in healthy pregnant women. EClinicalMedicine, 2020, 29-30, 100660.	7.1	16
2	National, regional, and worldwide estimates of low birthweight in 2015, with trends from 2000: a systematic analysis. The Lancet Global Health, 2019, 7, e849-e860.	6.3	557
3	Prevalence thresholds for wasting, overweight and stunting in children under 5 years. Public Health Nutrition, 2019, 22, 175-179.	2.2	179
4	Growth Status, Inflammation, and Enteropathy in Young Children in Northern Tanzania. American Journal of Tropical Medicine and Hygiene, 2019, 100, 192-201.	1.4	6
5	Assessment of the WHO Stunting Framework using Ethiopia as a case study. Maternal and Child Nutrition, 2017, 13, .	3.0	31
6	Child Growth and Development. , 2017, , 119-141.		28
7	World Health Organization Child Growth Standards. , 2017, , 17-32.		3
8	Iodine Status of Women of Reproductive Age in Sierra Leone and Its Association with Household Coverage with Adequately Iodized Salt. Nutrients, 2016, 8, 74.	4.1	15
9	Nutritional disorders in the proposed 11th revision of the International Classification of Diseases: feedback from a survey of stakeholders. Public Health Nutrition, 2016, 19, 3135-3141.	2.2	6
10	Childhood stunting: a global perspective. Maternal and Child Nutrition, 2016, 12, 12-26.	3.0	698
11	Anemia, Micronutrient Deficiencies, and Malaria in Children and Women in Sierra Leone Prior to the Ebola Outbreak - Findings of a Cross-Sectional Study. PLoS ONE, 2016, 11, e0155031.	2.5	53
12	Successive 1-Month Weight Increments in Infancy Can Be Used to Screen for Faltering Linear Growth. Journal of Nutrition, 2015, 145, 2725-2731.	2.9	6
13	The Global Nutrition Report 2014: Actions and Accountability to Accelerate the World's Progress on Nutrition. Journal of Nutrition, 2015, 145, 663-671.	2.9	105
14	Preventing childhood overweight and obesity. Jornal De Pediatria (Versão Em Português), 2015, 91, 105-107.	0.2	1
15	4.1 The WHO Child Growth Standards. World Review of Nutrition and Dietetics, 2015, 113, 278-294.	0.3	75
16	Preventing childhood overweight and obesity. Jornal De Pediatria, 2015, 91, 105-107.	2.0	35
17	Indicators linking health and sustainability in the post-2015 development agenda. Lancet, The, 2015, 385, 380-391.	13.7	119
18	Linear Growth Faltering Should Be Assessed in Absolute and Relative Terms. Journal of Nutrition, 2014, 144, 2092-2093.	2.9	8

#	ARTICLE	IF	CITATIONS
19	Complementary feeding and attained linear growth among 6â€“23-month-old children. Public Health Nutrition, 2014, 17, 1975-1983.	2.2	65
20	Managing children with severe acute malnutrition â€“ whatâ€™s new?. Indian Pediatrics, 2014, 51, 17-18.	0.4	3
21	Maternal and child undernutrition and overweight in low-income and middle-income countries. Lancet, The, 2013, 382, 427-451.	13.7	5,719
22	Update on the Implementation of the WHO Child Growth Standards. World Review of Nutrition and Dietetics, 2013, 106, 75-82.	0.3	40
23	Association between WHO cut-offs for childhood overweight and obesity and cardiometabolic risk. Public Health Nutrition, 2013, 16, 625-630.	2.2	54
24	Introducing infant and young child feeding indicators into national nutrition surveillance systems: lessons from Vietnam. Maternal and Child Nutrition, 2013, 9, 131-149.	3.0	5
25	Parental height and child growth from birth to 2 years in the <scp>WHO M</scp>ulticentre <scp>G</scp>rowth <scp>R</scp>eference <scp>S</scp>tudy. Maternal and Child Nutrition, 2013, 9, 58-68.	3.0	44
26	The <scp>W</scp>orld <scp>H</scp>ealth <scp>O</scp>rganization's global target for reducing childhood stunting by 2025: rationale and proposed actions. Maternal and Child Nutrition, 2013, 9, 6-26.	3.0	295
27	Commentary: Foetal growth, preterm birth and childhood undernutrition. International Journal of Epidemiology, 2013, 42, 1355-1357.	1.9	1
28	Worldwide implementation of the WHO Child Growth Standards. Public Health Nutrition, 2012, 15, 1603-1610.	2.2	311
29	Prevalence and trends of stunting among pre-school children, 1990â€“2020. Public Health Nutrition, 2012, 15, 142-148.	2.2	390
30	Community-based supplementary feeding for promoting the growth of children under five years of age in low and middle income countries. The Cochrane Library, 2012, , CD005039.	2.8	41
31	The nutritional status of children in Bhutan: results from the 2008 National nutrition survey and trends over time. BMC Pediatrics, 2012, 12, 151.	1.7	16
32	Postâ€partum weight change patterns in the WHO Multicentre Growth Reference Study. Maternal and Child Nutrition, 2011, 7, 228-240.	3.0	35
33	Timing of growth faltering: A critical window for healthy growth. Indian Pediatrics, 2011, 48, 851-852.	0.4	5
34	Comparison of the World Health Organization Growth Velocity Standards With Existing US Reference Data. Pediatrics, 2011, 128, e18-e26.	2.1	33
35	Undernutrition, Poor Feeding Practices, and Low Coverage of Key Nutrition Interventions. Pediatrics, 2011, 128, e1418-e1427.	2.1	165
36	Global prevalence and trends of overweight and obesity among preschool children. American Journal of Clinical Nutrition, 2010, 92, 1257-1264.	4.7	1,651

#	ARTICLE	IF	CITATIONS
37	Worldwide Timing of Growth Faltering: Revisiting Implications for Interventions. <i>Pediatrics</i> , 2010, 125, e473-e480.	2.1	1,369
38	Growth curves for school age children and adolescents. <i>Indian Pediatrics</i> , 2009, 46, 463-5.	0.4	18
39	Algorithms for converting estimates of child malnutrition based on the NCHS reference into estimates based on the WHO Child Growth Standards. <i>BMC Pediatrics</i> , 2008, 8, 19.	1.7	43
40	Child Growth and Development. , 2008, , 113-137.		20
41	Maternal and child undernutrition: global and regional exposures and health consequences. <i>Lancet</i> , The, 2008, 371, 243-260.	13.7	4,719
42	WHO child growth standards. <i>Lancet</i> , The, 2008, 371, 204.	13.7	161
43	Development of a WHO growth reference for school-aged children and adolescents. <i>Bulletin of the World Health Organization</i> , 2007, 85, 660-667.	3.3	5,825
44	Evaluation of the Feasibility of International Growth Standards for School-Aged Children and Adolescents. <i>Journal of Nutrition</i> , 2007, 137, 153-157.	2.9	159
45	Comparison of the WHO Child Growth Standards and the CDC 2000 Growth Charts. <i>Journal of Nutrition</i> , 2007, 137, 144-148.	2.9	356
46	Field-Testing the WHO Child Growth Standards in Four Countries. <i>Journal of Nutrition</i> , 2007, 137, 149-152.	2.9	47
47	Evaluation of the Feasibility of International Growth Standards for School-Aged Children and Adolescents. <i>Food and Nutrition Bulletin</i> , 2006, 27, S169-S174.	1.4	30
48	Deaths and years of life lost due to suboptimal breast-feeding among children in the developing world: a global ecological risk assessment. <i>Public Health Nutrition</i> , 2006, 9, 673-685.	2.2	94
49	The Association between Stunting and Overweight in Latin American and Caribbean Preschool Children. <i>Food and Nutrition Bulletin</i> , 2006, 27, 300-305.	1.4	49
50	Comparison of the World Health Organization (WHO) Child Growth Standards and the National Center for Health Statistics/WHO international growth reference: implications for child health programmes. <i>Public Health Nutrition</i> , 2006, 9, 942-947.	2.2	506
51	Enrolment and baseline characteristics in the WHO Multicentre Growth Reference Study. <i>Acta Paediatrica</i> , <i>International Journal of Paediatrics</i> , 2006, 95, 7-15.	1.5	74
52	Breastfeeding in the WHO Multicentre Growth Reference Study. <i>Acta Paediatrica</i> , <i>International Journal of Paediatrics</i> , 2006, 95, 16-26.	1.5	34
53	Complementary feeding in the WHO Multicentre Growth Reference Study. <i>Acta Paediatrica</i> , <i>International Journal of Paediatrics</i> , 2006, 95, 27-37.	1.5	25
54	Reliability of motor development data in the WHO Multicentre Growth Reference Study. <i>Acta Paediatrica</i> , <i>International Journal of Paediatrics</i> , 2006, 95, 47-55.	1.5	6

#	ARTICLE	IF	CITATIONS
55	Assessment of differences in linear growth among populations in the WHO Multicentre Growth Reference Study. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2006, 95, 56-65.	1.5	191
56	Assessment of sex differences and heterogeneity in motor milestone attainment among populations in the WHO Multicentre Growth Reference Study. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2006, 95, 66-75.	1.5	33
57	WHO Child Growth Standards based on length/height, weight and age. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2006, 95, 76-85.	1.5	2,040
58	WHO Motor Development Study: Windows of achievement for six gross motor development milestones. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2006, 95, 86-95.	1.5	358
59	Relationship between physical growth and motor development in the WHO Child Growth Standards. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2006, 95, 96-101.	1.5	34
60	Differential Improvement among Countries in Child Stunting Is Associated with Long-Term Development and Specific Interventions. <i>Journal of Nutrition</i> , 2005, 135, 1415-1422.	2.9	74
61	Estimates of Global Prevalence of Childhood Underweight in 1990 and 2015. <i>JAMA - Journal of the American Medical Association</i> , 2004, 291, 2600.	7.4	204
62	Methodology for estimating regional and global trends of child malnutrition. <i>International Journal of Epidemiology</i> , 2004, 33, 1260-1270.	1.9	114
63	The who Multicentre Growth Reference Study: Planning, Study Design, and Methodology. <i>Food and Nutrition Bulletin</i> , 2004, 25, S15-S26.	1.4	725
64	Rationale for Developing a New International Growth Reference. <i>Food and Nutrition Bulletin</i> , 2004, 25, S5-S13.	1.4	183
65	Breastfeeding patterns and exposure to suboptimal breastfeeding among children in developing countries: review and analysis of nationally representative surveys. <i>BMC Medicine</i> , 2004, 2, 26.	5.5	74
66	Worldwide practices in child growth monitoring. <i>Journal of Pediatrics</i> , 2004, 144, 461-465.	1.8	173
67	Undernutrition as an underlying cause of child deaths associated with diarrhea, pneumonia, malaria, and measles. <i>American Journal of Clinical Nutrition</i> , 2004, 80, 193-198.	4.7	743
68	Assessment of Gross Motor Development in the who Multicentre Growth Reference Study. <i>Food and Nutrition Bulletin</i> , 2004, 25, S37-S45.	1.4	133
69	Measurement and Standardization Protocols for Anthropometry Used in the Construction of a New International Growth Reference. <i>Food and Nutrition Bulletin</i> , 2004, 25, S27-S36.	1.4	446
70	Managing Data for a Multicountry Longitudinal Study: Experience from the who Multicentre Growth Reference Study. <i>Food and Nutrition Bulletin</i> , 2004, 25, S46-S52.	1.4	27
71	Members of the who Multicentre Growth Reference Study Group. <i>Food and Nutrition Bulletin</i> , 2004, 25, S13-S14.	1.4	419
72	The World Health Organization Global Database on Child Growth and Malnutrition: methodology and applications. <i>International Journal of Epidemiology</i> , 2003, 32, 518-526.	1.9	388

#	ARTICLE	IF	CITATIONS
73	Commentary: Socioeconomic inequalities and child growth. International Journal of Epidemiology, 2003, 32, 503-505.	1.9	11
74	Nutritional Interventions during Pregnancy for the Prevention or Treatment of Maternal Morbidity and Preterm Delivery: An Overview of Randomized Controlled Trials. Journal of Nutrition, 2003, 133, 1606S-1625S.	2.9	170
75	Nutritional Interventions during Pregnancy for the Prevention or Treatment of Impaired Fetal Growth: An Overview of Randomized Controlled Trials. Journal of Nutrition, 2003, 133, 1626S-1631S.	2.9	93
76	Characteristics of Randomized Controlled Trials Included in Systematic Reviews of Nutritional Interventions Reporting Maternal Morbidity, Mortality, Preterm Delivery, Intrauterine Growth Restriction and Small for Gestational Age and Birth Weight Outcomes. Journal of Nutrition, 2003, 133, 1632S-1639S.	2.9	20
77	The WHO Multicentre Growth Reference Study: strategy for developing a new international growth reference. Forum of Nutrition, 2003, 56, 238-40.	3.7	30
78	Growth performance of affluent Indian children is similar to that in developed countries. Bulletin of the World Health Organization, 2002, 80, 189-95.	3.3	49
79	The National Center for Health Statistics reference and the growth of Indian adolescent boys. American Journal of Clinical Nutrition, 2001, 74, 248-253.	4.7	61
80	Ecological study of effect of breast feeding on infant mortality in Latin America. BMJ: British Medical Journal, 2001, 323, 303-303.	2.3	93
81	Prevalence and trends of overweight among preschool children in developing countries. American Journal of Clinical Nutrition, 2000, 72, 1032-1039.	4.7	520
82	A new international growth reference for young children. American Journal of Clinical Nutrition, 1999, 70, 169S-172S.	4.7	69
83	Effectiveness of Interventions to Prevent or Treat Impaired Fetal Growth. Obstetrical and Gynecological Survey, 1999, 54, 58-68.	0.4	1
84	The NCHS Reference and the Growth of Breast- and Bottle-Fed Infants. Journal of Nutrition, 1998, 128, 1134-1138.	2.9	92
85	Nutritional and Antimicrobial Interventions to Prevent Preterm Birth. Obstetrical and Gynecological Survey, 1998, 53, 575-585.	0.4	69
86	Socioeconomic and Demographic Factors Are Associated with Worldwide Patterns of Stunting and Wasting of Children. Journal of Nutrition, 1997, 127, 2302-2309.	2.9	202
87	Effectiveness of Interventions to Prevent or Treat Impaired Fetal Growth. Obstetrical and Gynecological Survey, 1997, 52, 139-148.	0.4	104
88	The WHO Growth Chart: Historical Considerations and Current Scientific Issues. Forum of Nutrition, 1996, 53, 74-89.	3.7	62
89	The differential neonatal morbidity of the intrauterine growth retardation syndrome. American Journal of Obstetrics and Gynecology, 1990, 163, 151-157.	1.3	133
