#	ARTICLE	IF	CITATIONS
1	High-normal levels of hs-CRP predict the development of non-alcoholic fatty liver in healthy men. PLoS ONE, 2017, 12, e0172666.	2.5	51
2	Overview of Asbestos Issues in Korea. Journal of Korean Medical Science, 2009, 24, 363.	2.5	47
3	Mortality rates by occupation in Korea: a nationwide, 13-year follow-up study. Occupational and Environmental Medicine, 2016, 73, 329-335.	2.8	40
4	Association between Blood Cadmium Levels and 10-Year Coronary Heart Disease Risk in the General Korean Population: The Korean National Health and Nutrition Examination Survey 2008-2010. PLoS ONE, 2014, 9, e111909.	2.5	33
5	A decade of malignant mesothelioma surveillance in Korea. American Journal of Industrial Medicine, 2012, 55, 869-875.	2.1	30
6	Blood cadmium and moderate-to-severe glomerular dysfunction in Korean adults: analysis of KNHANES 2005-2008 data. International Archives of Occupational and Environmental Health, 2012, 85, 885-893.	2.3	29
7	Association Between Work Conditions and Smoking in South Korea. Safety and Health at Work, 2013, 4, 197-200.	0.6	29
8	Work-related Risk Factors for Workplace Violence among Korean Employees. Journal of Occupational Health, 2014, 56, 12-20.	2.1	28
9	The relationship between chronic rhinosinusitis and occupation: The 1998, 2001, and 2005 Korea National health and nutrition examination survey (KNHANES). American Journal of Industrial Medicine, 2009, 52, 179-184.	2.1	25
10	Association between Voluntary/Involuntary Job Loss and the Development of Stroke or Cardiovascular Disease: A Prospective Study of Middle-Aged to Older Workers in a Rapidly Developing Asian Country. PLoS ONE, 2014, 9, e113495.	2.5	24
11	The association between shift work and chronic kidney disease in manual labor workers using data from the Korea National Health and Nutrition Examination Survey (KNHANES 2011-2014). Annals of Occupational and Environmental Medicine, 2018, 30, 69.	1.0	23
12	Major depressive disorder, panic disorder, and post-traumatic stress disorder in Korean subway drivers. International Archives of Occupational and Environmental Health, 2013, 86, 471-477.	2.3	22
13	The relationship between working hours and lifestyle behaviors: Evidence from a population-based panel study in Korea. Journal of Occupational Health, 2021, 63, e12280.	2.1	22
14	Effect of teacher's working conditions on voice disorder in Korea: a nationwide survey. Annals of Occupational and Environmental Medicine, 2018, 30, 43.	1.0	20
15	Occupational Lead Exposure and Brain Tumors: Systematic Review and Meta-Analysis. International Journal of Environmental Research and Public Health, 2020, 17, 3975.	2.6	18
16	Smoking Rate Trends in Korean Occupational Groups: Analysis of KNHANES 1998-2009 Data. Journal of Occupational Health, 2012, 54, 452-458.	2.1	16
17	The Effect of Socioeconomic Position on Bone Health Among Koreans by Gender and Menopausal Status. Calcified Tissue International, 2012, 90, 488-495.	3.1	16
18	The Korean guideline for hepatocellular carcinoma surveillance. Journal of the Korean Medical Association, 2015, 58, 385.	0.3	14

#	ARTICLE	IF	CITATIONS
19	Sleepiness while driving and shiftwork patterns among Korean bus drivers. <i>Annals of Occupational and Environmental Medicine</i> , 2017, 29, 48.	1.0	14
20	Occupational Hepatic Disorders in Korea. <i>Journal of Korean Medical Science</i> , 2010, 25, S36.	2.5	13
21	The association between psychiatric disorders and work-related problems among subway drivers in Korea. <i>Annals of Occupational and Environmental Medicine</i> , 2014, 26, 39.	1.0	13
22	Evaluation for Fatigue and Accident Risk of Korean Commercial Bus Drivers. <i>Tohoku Journal of Experimental Medicine</i> , 2018, 246, 191-197.	1.2	13
23	Impacts of Return-to-Work Type and Period on Job Retention in Workers with Occupational Injuries and Diseases. <i>Journal of Korean Medical Science</i> , 2018, 33, e2.	2.5	13
24	Heavy smoking rate trends and related factors in Korean occupational groups: analysis of KNHANES 2007-2012 data. <i>BMJ Open</i> , 2015, 5, e008229-e008229.	1.9	12
25	Work-related COPD after years of occupational exposure. <i>Annals of Occupational and Environmental Medicine</i> , 2015, 27, 6.	1.0	11
26	Factors associated with suicide ideation among subway drivers in Korea. <i>Annals of Occupational and Environmental Medicine</i> , 2016, 28, 31.	1.0	11
27	Health-Related Productivity Loss According to Health Conditions among Workers in South Korea. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 7589.	2.6	11
28	The association between blood cadmium level and airflow obstruction in Korean men. <i>Annals of Human Biology</i> , 2015, 42, 569-575.	1.0	10
29	Does working long hours increase the risk of cardiovascular disease for everyone?. <i>Journal of Occupational Health</i> , 2019, 61, 431-441.	2.1	10
30	Pesticides as a risk factor for metabolic syndrome: Population-based longitudinal study in Korea. <i>Molecular and Cellular Toxicology</i> , 2019, 15, 431-441.	1.7	10
31	Long work hours and decreased glomerular filtration rate in the Korean working population. <i>Occupational and Environmental Medicine</i> , 2020, 77, 699-705.	2.8	10
32	Association of sedentary work with colon and rectal cancer: systematic review and meta-analysis. <i>Occupational and Environmental Medicine</i> , 2022, 79, 277-286.	2.8	10
33	Occupational Respiratory Cancer in Korea. <i>Journal of Korean Medical Science</i> , 2010, 25, S94.	2.5	9
34	Mothers' Working Hours and Children's Obesity: Data from the Korean National Health and Nutrition Examination Survey, 2008-2010. <i>Annals of Occupational and Environmental Medicine</i> , 2013, 25, 28.	1.0	9
35	The combined effect of long working hours and individual risk factors on cardiovascular disease: An interaction analysis. <i>Journal of Occupational Health</i> , 2021, 63, e12204.	2.1	9
36	Sedentary work and breast cancer risk: A systematic review and meta-analysis. <i>Journal of Occupational Health</i> , 2021, 63, e12239.	2.1	9

#	ARTICLE	IF	CITATIONS
37	Effects of Particulate Respirator Use on Cardiopulmonary Function in Elderly Women: a Quasi-Experimental Study. <i>Journal of Korean Medical Science</i> , 2020, 35, e64.	2.5	9
38	Comparison of work environment and occupational injury in direct and indirect employment in Korea and Europe. <i>Annals of Occupational and Environmental Medicine</i> , 2019, 31, e24.	1.0	9
39	The Administrative Process for Recognition and Compensation for Occupational Diseases in Korea. <i>Journal of Korean Medical Science</i> , 2014, 29, S3.	2.5	8
40	Silica exposure and work-relatedness evaluation for occupational cancer in Korea. <i>Annals of Occupational and Environmental Medicine</i> , 2018, 30, 4.	1.0	8
41	Prediction of Return-to-original-work after an Industrial Accident Using Machine Learning and Comparison of Techniques. <i>Journal of Korean Medical Science</i> , 2018, 33, e144.	2.5	8
42	Overview of occupational cancer in painters in Korea. <i>Annals of Occupational and Environmental Medicine</i> , 2018, 30, 10.	1.0	8
43	Variability in daily or weekly working hours and self-reported mental health problems in Korea, Korean working condition survey, 2017. <i>Archives of Public Health</i> , 2021, 79, 25.	2.4	8
44	Association of long working hours and health-related productivity loss, and its differential impact by income level: A cross-sectional study of the Korean workers. <i>Journal of Occupational Health</i> , 2020, 62, e12190.	2.1	7
45	Poor glycemic control in workers with diabetes mellitus in relation to long working hours: a cross-sectional study. <i>Industrial Health</i> , 2020, 58, 451-459.	1.0	7
46	Reference Values for Spirometry Derived Using Lambda, Mu, Sigma (LMS) Method in Korean Adults: in Comparison with Previous References. <i>Journal of Korean Medical Science</i> , 2018, 33, e16.	2.5	6
47	Fixed night workers and failed smoking cessation. <i>Journal of Occupational Medicine and Toxicology</i> , 2019, 14, 23.	2.2	6
48	Association Between Occupational Physicochemical Exposures and Headache/Eyestrain Symptoms Among Korean Indoor/Outdoor Construction Workers. <i>Safety and Health at Work</i> , 2019, 10, 437-444.	0.6	6
49	Trends in Obesity Prevalence by Occupation Based on Korean National Health and Nutrition Examination Survey From 1998 to 2015. <i>Safety and Health at Work</i> , 2020, 11, 97-102.	0.6	6
50	The Relationship between the Experience of an Accident and Post Traumatic Stress Disorder in Bus Drivers. <i>Korean Journal of Occupational and Environmental Medicine</i> , 2011, 23, 139.	0.4	6
51	Working for Long Hours Is Associated With Dietary Fiber Insufficiency. <i>Frontiers in Nutrition</i> , 2022, 9, 786569.	3.7	6
52	Risk factors associated with mortality from pneumonia among patients with pneumoconiosis. <i>Annals of Occupational and Environmental Medicine</i> , 2016, 28, 19.	1.0	5
53	Job characteristics as risk factors for early retirement due to ill health: The Korean Longitudinal Study of Aging (2006-2014). <i>Journal of Occupational Health</i> , 2019, 61, 63-72.	2.1	5
54	Increased risk of gastric cancer in workers with occupational dust exposure. <i>Korean Journal of Internal Medicine</i> , 2021, 36, S18-S26.	1.7	5

#	ARTICLE	IF	CITATIONS
55	Shift Work and Dry Eye Disease in the Korean Working Population: A Population-Based Cross-Sectional Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 5492.	2.6	5
56	Workers' Compensation for Occupational Respiratory Diseases. <i>Journal of Korean Medical Science</i> , 2014, 29, S47.	2.5	4
57	Workers'™ experiences with compensated sick leave due to musculoskeletal disorder: a qualitative study. <i>Annals of Occupational and Environmental Medicine</i> , 2014, 26, 33.	1.0	4
58	The effects of individual, occupational, and supportive factors on successful return to work using a structural equation model. <i>Annals of Occupational and Environmental Medicine</i> , 2015, 27, 21.	1.0	4
59	Interaction between occupational physical burdens and low job control on musculoskeletal pain: Analysis of the 5th Korean Working Environment Survey. <i>Journal of Occupational Health</i> , 2021, 63, e12244.	2.1	4
60	Work-related infectious diseases among Korean workers compensated under the Industrial Accident Compensation Insurance Law, 2006–2011. <i>International Journal of Occupational and Environmental Health</i> , 2013, 19, 344-351.	1.2	3
61	Service and sales workers, are they vulnerable to smoking cessation?. <i>Industrial Health</i> , 2017, 55, 406-415.	1.0	3
62	The Mediating Effects of Marital Intimacy and Work Satisfaction in the Relationship between Husbands'™ Domestic Labor and Depressive Mood of Married Working Women. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 4547.	2.6	2
63	Impact of Decreased Night Work on Workers'™ Musculoskeletal Symptoms: A Quasi-Experimental Intervention Study. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 9092.	2.6	2
64	Characteristics of Occupational Exposure to Diesel Engine Exhaust for Shipyard Transporter Signal Workers. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 4398.	2.6	2
65	Rate of inappropriate energy and micronutrient intake among the Korean working population. <i>Public Health Nutrition</i> , 2020, 23, 3356-3367.	2.2	2
66	Is Educational Level Linked to Unable to Work Due to Ill-health?. <i>Safety and Health at Work</i> , 2020, 11, 159-164.	0.6	2
67	Long Working Hours and Risk of Depression by Household Income Level. <i>Journal of Occupational and Environmental Medicine</i> , 2022, 64, 99-104.	1.7	2
68	Cross-Sectional Association of Urinary Bisphenol A and Vaccine-Induced Immunity against Hepatitis B Virus: Data from the 2003–2014 National Health and Nutrition Examination Survey. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 1103.	2.6	2
69	Poor worker'™s long working hours paradox: evidence from the Korea National Health and Nutrition Examination Survey, 2013-2018. <i>Annals of Occupational and Environmental Medicine</i> , 2022, 34, e2.	1.0	2
70	Comparative analyses of occupational injuries among temporary agency worker and direct contract workers: Findings from the Korea Health Panel 2009–2018. <i>Journal of Occupational Health</i> , 2022, 64, e12326.	2.1	2
71	Association between long working hours and liver enzymes: evidence from the Korea National Health and Nutrition Examination Survey, 2007–2017. <i>Annals of Occupational and Environmental Medicine</i> , 2022, 34, .	1.0	2
72	A Longitudinal Study of the Relationship between Shift Work and Prostate-Specific Antigen in Healthy Male Workers. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 7458.	2.6	1
