#	Article	IF	Citations
1	Association of sedentary work with colon and rectal cancer: systematic review and meta-analysis. Occupational and Environmental Medicine, 2022, 79, 277-286.	2.8	10
2	Long Working Hours and Risk of Depression by Household Income Level. Journal of Occupational and Environmental Medicine, 2022, 64, 99-104.	1.7	2
3	Cross-Sectional Association of Urinary Bisphenol A and Vaccine-Induced Immunity against Hepatitis B Virus: Data from the 2003–2014 National Health and Nutrition Examination Survey. International Journal of Environmental Research and Public Health, 2022, 19, 1103.	2.6	2
4	Poor worker's long working hours paradox: evidence from the Korea National Health and Nutrition Examination Survey, 2013-2018. Annals of Occupational and Environmental Medicine, 2022, 34, e2.	1.0	2
5	Comparative analyses of occupational injuries among temporary agency worker and direct contract workers: Findings from the Korea Health Panel 2009–2018. Journal of Occupational Health, 2022, 64, e12326.	2.1	2
6	Working for Long Hours Is Associated With Dietary Fiber Insufficiency. Frontiers in Nutrition, 2022, 9, 786569.	3.7	6
7	Association between long working hours and liver enzymes: evidence from the Korea National Health and Nutrition Examination Survey, 2007–2017. Annals of Occupational and Environmental Medicine, 2022, 34, .	1.0	2
8	The combined effect of long working hours and individual risk factors on cardiovascular disease: An interaction analysis. Journal of Occupational Health, 2021, 63, e12204.	2.1	9
9	Interaction between occupational physical burdens and low job control on musculoskeletal pain: Analysis of the 5th Korean Working Environment Survey. Journal of Occupational Health, 2021, 63, e12244.	2.1	4
10	The relationship between working hours and lifestyle behaviors: Evidence from a population-based panel study in Korea. Journal of Occupational Health, 2021, 63, e12280.	2.1	22
11	Sedentary work and breast cancer risk: A systematic review and meta-analysis. Journal of Occupational Health, 2021, 63, e12239.	2.1	9
12	Variability in daily or weekly working hours and self-reported mental health problems in Korea, Korean working condition survey, 2017. Archives of Public Health, 2021, 79, 25.	2.4	8
13	Increased risk of gastric cancer in workers with occupational dust exposure. Korean Journal of Internal Medicine, 2021, 36, S18-S26.	1.7	5
14	Shift Work and Dry Eye Disease in the Korean Working Population: A Population-Based Cross-Sectional Study. International Journal of Environmental Research and Public Health, 2021, 18, 5492.	2.6	5
15	Health-Related Productivity Loss According to Health Conditions among Workers in South Korea. International Journal of Environmental Research and Public Health, 2021, 18, 7589.	2.6	11
16	A Longitudinal Study of the Relationship between Shift Work and Prostate-Specific Antigen in Healthy Male Workers. International Journal of Environmental Research and Public Health, 2021, 18, 7458.	2.6	1
17	Trends in Obesity Prevalence by Occupation Based on Korean National Health and Nutrition Examination Survey From 1998 to 2015. Safety and Health at Work, 2020, 11, 97-102.	0.6	6
18	The Mediating Effects of Marital Intimacy and Work Satisfaction in the Relationship between Husbands' Domestic Labor and Depressive Mood of Married Working Women. International Journal of Environmental Research and Public Health, 2020, 17, 4547.	2.6	2

#	Article	IF	Citations
19	Impact of Decreased Night Work on Workers' Musculoskeletal Symptoms: A Quasi-Experimental Intervention Study. International Journal of Environmental Research and Public Health, 2020, 17, 9092.	2.6	2
20	Characteristics of Occupational Exposure to Diesel Engine Exhaust for Shipyard Transporter Signal Workers. International Journal of Environmental Research and Public Health, 2020, 17, 4398.	2.6	2
21	Occupational Lead Exposure and Brain Tumors: Systematic Review and Meta-Analysis. International Journal of Environmental Research and Public Health, 2020, 17, 3975.	2.6	18
22	Rate of inappropriate energy and micronutrient intake among the Korean working population. Public Health Nutrition, 2020, 23, 3356-3367.	2.2	2
23	Long work hours and decreased glomerular filtration rate in the Korean working population. Occupational and Environmental Medicine, 2020, 77, 699-705.	2.8	10
24	Is Educational Level Linked to Unable to Work Due to Ill-health?. Safety and Health at Work, 2020, 11, 159-164.	0.6	2
25	Association of long working hours and health-related productivity loss, and its differential impact by income level: A cross-sectional study of the Korean workers. Journal of Occupational Health, 2020, 62, e12190.	2.1	7
26	Effects of Particulate Respirator Use on Cardiopulmonary Function in Elderly Women: a Quasi-Experimental Study. Journal of Korean Medical Science, 2020, 35, e64.	2.5	9
27	Poor glycemic control in workers with diabetes mellitus in relation to long working hours: a cross-sectional study. Industrial Health, 2020, 58, 451-459.	1.0	7
28	Does working long hours increase the risk of cardiovascular disease for everyone?. Journal of Occupational Health, 2019, 61, 431-441.	2.1	10
29	Fixed night workers and failed smoking cessation. Journal of Occupational Medicine and Toxicology, 2019, 14, 23.	2.2	6
30	Association Between Occupational Physicochemical Exposures and Headache/Eyestrain Symptoms Among Korean Indoor/Outdoor Construction Workers. Safety and Health at Work, 2019, 10, 437-444.	0.6	6
31	Pesticides as a risk factor for metabolic syndrome: Population-based longitudinal study in Korea. Molecular and Cellular Toxicology, 2019, 15, 431-441.	1.7	10
32	Job characteristics as risk factors for early retirement due to ill health: The Korean Longitudinal Study of Aging (2006â€2014). Journal of Occupational Health, 2019, 61, 63-72.	2.1	5
33	P.1.20â€Trends in prevalence of obesity according to occupational group: the korean national health and nutrition examination survey. Occupational and Environmental Medicine, 2019, 76, A82.3-A82.	2.8	0
34	Comparison of work environment and occupational injury in direct and indirect employment in Korea and Europe. Annals of Occupational and Environmental Medicine, 2019, 31, e24.	1.0	9
35	Presenting Differences in Smoking Rates among Working Groups for Smoking Cessation Policies. Journal of Korean Medical Science, 2019, 34, e216.	2.5	0
36	Silica exposure and work-relatedness evaluation for occupational cancer in Korea. Annals of Occupational and Environmental Medicine, 2018, 30, 4.	1.0	8

#	Article	IF	CITATIONS
37	1128â€Silica exposure and work-relatedness evaluation for occupational cancer in korea. , 2018, , .		O
38	Evaluation for Fatigue and Accident Risk of Korean Commercial Bus Drivers. Tohoku Journal of Experimental Medicine, 2018, 246, 191-197.	1.2	13
39	The association between shift work and chronic kidney disease in manual labor workers using data from the Korea National Health and Nutrition Examination Survey (KNHANES 2011–2014). Annals of Occupational and Environmental Medicine, 2018, 30, 69.	1.0	23
40	Impacts of Return-to-Work Type and Period on Job Retention in Workers with Occupational Injuries and Diseases. Journal of Korean Medical Science, 2018, 33, e2.	2.5	13
41	Prediction of Return-to-original-work after an Industrial Accident Using Machine Learning and Comparison of Techniques. Journal of Korean Medical Science, 2018, 33, e144.	2.5	8
42	Effect of teacher's working conditions on voice disorder in Korea: a nationwide survey. Annals of Occupational and Environmental Medicine, 2018, 30, 43.	1.0	20
43	Reference Values for Spirometry Derived Using Lambda, Mu, Sigma (LMS) Method in Korean Adults: in Comparison with Previous References. Journal of Korean Medical Science, 2018, 33, e16.	2.5	6
44	Overview of occupational cancer in painters in Korea. Annals of Occupational and Environmental Medicine, 2018, 30, 10.	1.0	8
45	0098â€Evaluation of sleep problems and sleep hygiene for shift workers in korean steel manufacturing company. , 2017, , .		0
46	High-normal levels of hs-CRP predict the development of non-alcoholic fatty liver in healthy men. PLoS ONE, 2017, 12, e0172666.	2.5	51
47	Sleepiness while driving and shiftwork patterns among Korean bus drivers. Annals of Occupational and Environmental Medicine, 2017, 29, 48.	1.0	14
48	Service and sales workers, are they vulnerable to smoking cessation?. Industrial Health, 2017, 55, 406-415.	1.0	3
49	Mortality rates by occupation in Korea: a nationwide, 13-year follow-up study. Occupational and Environmental Medicine, 2016, 73, 329-335.	2.8	40
