

Justyna Czech-Kowalska

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/1227227/justyna-czech-kowalska-publications-by-year.pdf>
Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

27 papers	632 citations	10 h-index	25 g-index
40 ext. papers	805 ext. citations	3.4 avg, IF	2.77 L-index

#	Paper	IF	Citations
27	The Limitations of Cytomegalovirus DNA Detection in Cerebrospinal Fluid of Newborn Infants With Congenital CMV Infection: A Tertiary Care Neonatal Center Experience. <i>Pediatric Infectious Disease Journal</i> , 2021 , 40, 838-845	3.4	0
26	Association between single nucleotide polymorphisms and viral load in congenital cytomegalovirus infection. <i>Medycyna Wieku Rozwojowego</i> , 2021 , 24, 9-17	0.4	0
25	Association between single nucleotide polymorphisms (SNPs) of IL1, IL12, IL28 and TLR4 and symptoms of congenital cytomegalovirus infection. <i>PLoS ONE</i> , 2020 , 15, e0233096	3.7	2
24	Antiviral treatment in congenital HCMV infection: The six-year experience of a single neonatal center in Poland. <i>Advances in Clinical and Experimental Medicine</i> , 2020 , 29, 1161-1167	1.8	1
23	Mineral and nutritional requirements of preterm infant. <i>Seminars in Fetal and Neonatal Medicine</i> , 2020 , 25, 101071	3.7	1
22	Association between single nucleotide polymorphisms (SNPs) of IL1, IL12, IL28 and TLR4 and symptoms of congenital cytomegalovirus infection 2020 , 15, e0233096		
21	Association between single nucleotide polymorphisms (SNPs) of IL1, IL12, IL28 and TLR4 and symptoms of congenital cytomegalovirus infection 2020 , 15, e0233096		
20	Association between single nucleotide polymorphisms (SNPs) of IL1, IL12, IL28 and TLR4 and symptoms of congenital cytomegalovirus infection 2020 , 15, e0233096		
19	Association between single nucleotide polymorphisms (SNPs) of IL1, IL12, IL28 and TLR4 and symptoms of congenital cytomegalovirus infection 2020 , 15, e0233096		
18	Association between single nucleotide polymorphisms (SNPs) of IL1, IL12, IL28 and TLR4 and symptoms of congenital cytomegalovirus infection 2020 , 15, e0233096		
17	Association between single nucleotide polymorphisms (SNPs) of IL1, IL12, IL28 and TLR4 and symptoms of congenital cytomegalovirus infection 2020 , 15, e0233096		
16	Distribution of the CMV glycoprotein gH/gL/gO and gH/gL/pUL128/pUL130/pUL131A complex variants and associated clinical manifestations in infants infected congenitally or postnatally. <i>Scientific Reports</i> , 2019 , 9, 16352	4.9	7
15	Vitamin D Supplementation Guidelines for General Population and Groups at Risk of Vitamin D Deficiency in Poland. <i>Bol? Sustawy, Pozwono?ik</i> , 2019 , 9, 2-27	0.3	2
14	Vitamin D Supplementation Guidelines for General Population and Groups at Risk of Vitamin D Deficiency in Poland-Recommendations of the Polish Society of Pediatric Endocrinology and Diabetes and the Expert Panel With Participation of National Specialist Consultants and Representatives of Scientific Societies-2018 Update. <i>Frontiers in Endocrinology</i> , 2018 , 9, 246	5.7	85
13	Cytokine gene polymorphism associations with congenital cytomegalovirus infection and sensorineural hearing loss. <i>European Journal of Clinical Microbiology and Infectious Diseases</i> , 2017 , 36, 1811-1818	5.3	12
12	R?norodno?brazu klinicznego oraz trudno?i w diagnostyce zespo?u Beckwitha i Wiedemanna w okresie noworodkowym. <i>Pediatrica Polska</i> , 2016 , 91, 350-358	0.1	
11	10. Vitamin D in preterm infants. <i>Human Health Handbooks</i> , 2016 , 233-246		1

10	The Clinical and Biochemical Predictors of Bone Mass in Preterm Infants. <i>PLoS ONE</i> , 2016 , 11, e0165727	3.7	12
9	Fish consumption in mid-childhood and its relationship to neuropsychological outcomes measured in 7-9 year old children using a NUTRIMENTHE neuropsychological battery. <i>Clinical Nutrition</i> , 2016 , 35, 1301-1307	5.9	15
8	Determinants of Postpartum Vitamin D Status in the Caucasian Mother-Offspring Pairs at a Latitude of 52°N: A Cross-Sectional Study. <i>Annals of Nutrition and Metabolism</i> , 2015 , 67, 33-41	4.5	10
7	Vitamin D in childhood and adolescence: an expert position statement. <i>European Journal of Pediatrics</i> , 2015 , 174, 565-76	4.1	90
6	Impact of vitamin D supplementation during lactation on vitamin D status and body composition of mother-infant pairs: a MAVID randomized controlled trial. <i>PLoS ONE</i> , 2014 , 9, e107708	3.7	26
5	Vitamin d status in central europe. <i>International Journal of Endocrinology</i> , 2014 , 2014, 589587	2.7	72
4	Distribution of cytomegalovirus gN variants and associated clinical sequelae in infants. <i>Journal of Clinical Virology</i> , 2013 , 58, 271-5	14.5	21
3	Impact of vitamin D supplementation on markers of bone mineral metabolism in term infants. <i>Bone</i> , 2012 , 51, 781-6	4.7	13
2	Vitamin D status in premature infants at term. <i>Bone</i> , 2009 , 45, S107	4.7	3
1	Trisomy 22pter-q12.3 presenting with hepatic dysfunction variability of cat-eye syndrome. <i>Clinical Dysmorphology</i> , 2009 , 18, 13-17	0.9	5
