#	Paper	IF	Citations
21	Variation in SARS-CoV-2 outbreaks across sub-Saharan Africa. <i>Nature Medicine</i> , 2021 , 27, 447-453	50.5	43
20	Spatial distribution of emergency obstetric and newborn care services in Ghana: Using the evidence to plan interventions. <i>International Journal of Gynecology and Obstetrics</i> , 2016 , 132, 130-4	4	16
19	The influence of distance and quality on utilisation of birthing services at health facilities in Eastern Region, Ghana. <i>BMJ Global Health</i> , 2019 , 4, e002020	6.6	14
18	Sachet water quality and product registration: a cross-sectional study in Accra, Ghana. <i>Journal of Water and Health</i> , 2018 , 16, 646-656	2.2	8
17	A cross-sectional ecological analysis of international and sub-national health inequalities in commercial geospatial resource availability. <i>International Journal of Health Geographics</i> , 2018 , 17, 14	3.5	5
16	Geographic Distribution of Registered Packaged Water Production in Ghana: Implications for Piped Supplies, Groundwater Management and Product Transportation. <i>Water (Switzerland)</i> , 2017 , 9, 142	3	5
15	Characteristics of packaged water production facilities in Greater Accra, Ghana: implications for water safety and associated environmental impacts. <i>Journal of Water Sanitation and Hygiene for Development</i> , 2020 , 10, 146-156	1.5	4
14	Use of a spatial scan statistic to identify clusters of births occurring outside Ghanaian health facilities for targeted intervention. <i>International Journal of Gynecology and Obstetrics</i> , 2016 , 135, 221-224		3
13	High variation expected in the pace and burden of SARS-CoV-2 outbreaks across sub-Saharan Africa 2020 ,		3
12	The influence of travel time to health facilities on stillbirths: A geospatial case-control analysis of facility-based data in Gombe, Nigeria. <i>PLoS ONE</i> , 2021 , 16, e0245297	3.7	3
11	Spatial inequalities in skilled attendance at birth in Ghana: a multilevel analysis integrating health facility databases with household survey data. <i>Tropical Medicine and International Health</i> , 2020 , 25, 1044-1054	2.3	2
10	Prevalence and factors associated with overweight and obesity in selected health areas in a rural health district in Cameroon: a cross-sectional analysis. <i>BMC Public Health</i> , 2021 , 21, 475	4.1	2
9	District-level estimation of vaccination coverage: Discrete vs continuous spatial models. <i>Statistics in Medicine</i> , 2021 , 40, 2197-2211	2.3	2
8	Mapping access to basic hygiene services in low- and middle-income countries: A cross-sectional case study of geospatial disparities. <i>Applied Geography</i> , 2021 , 135, 102549	4.4	2
7	Multilevel analysis of predictors of multiple indicators of childhood vaccination in Nigeria. <i>PLoS ONE</i> , 2022 , 17, e0269066	3.7	1
6	The influence of travel time to health facilities on stillbirths: A geospatial case-control analysis of facility-based data in Gombe, Nigeria 2021 , 16, e0245297		
5	The influence of travel time to health facilities on stillbirths: A geospatial case-control analysis of facility-based data in Gombe, Nigeria 2021 , 16, e0245297		

- 4 The influence of travel time to health facilities on stillbirths: A geospatial case-control analysis of facility-based data in Gombe, Nigeria **2021**, 16, e0245297
- 3 The influence of travel time to health facilities on stillbirths: A geospatial case-control analysis of facility-based data in Gombe, Nigeria **2021**, 16, e0245297
- 2 The influence of travel time to health facilities on stillbirths: A geospatial case-control analysis of facility-based data in Gombe, Nigeria **2021**, 16, e0245297
- 1 The influence of travel time to health facilities on stillbirths: A geospatial case-control analysis of facility-based data in Gombe, Nigeria **2021**, 16, e0245297
