#	ARTICLE	IF	CITATIONS
1	The gut microbiota in anxiety and depression – A systematic review. <i>Clinical Psychology Review</i> , 2021, 83, 101943.	6.0	375
2	Positive parenting predicts the development of adolescent brain structure: A longitudinal study. <i>Developmental Cognitive Neuroscience</i> , 2014, 8, 7-17.	1.9	197
3	Structural Brain Development and Depression Onset During Adolescence: A Prospective Longitudinal Study. <i>American Journal of Psychiatry</i> , 2014, 171, 564-571.	4.0	184
4	The relationship between duration of untreated psychosis and outcome: An eight-year prospective study. <i>Schizophrenia Research</i> , 2005, 79, 85-93.	1.1	173
5	The EPPIC Follow-Up Study of First-Episode Psychosis. <i>Journal of Clinical Psychiatry</i> , 2010, 71, 716-728.	1.1	169
6	Role of Positive Parenting in the Association Between Neighborhood Social Disadvantage and Brain Development Across Adolescence. <i>JAMA Psychiatry</i> , 2017, 74, 824.	6.0	126
7	Parental Behaviors During Family Interactions Predict Changes in Depression and Anxiety Symptoms During Adolescence. <i>Journal of Abnormal Child Psychology</i> , 2012, 40, 59-71.	3.5	108
8	Factor structure and psychometric properties of the Pittsburgh Sleep Quality Index in community-based adolescents. <i>Sleep</i> , 2018, 41, .	0.6	100
9	Feeling down? A systematic review of the gut microbiota in anxiety/depression and irritable bowel syndrome. <i>Journal of Affective Disorders</i> , 2020, 266, 429-446.	2.0	97
10	Observed Measures of Negative Parenting Predict Brain Development during Adolescence. <i>PLoS ONE</i> , 2016, 11, e0147774.	1.1	92
11	The SENSE study: Post intervention effects of a randomized controlled trial of a cognitive-behavioral and mindfulness-based group sleep improvement intervention among at-risk adolescents. <i>Journal of Consulting and Clinical Psychology</i> , 2016, 84, 1039-1051.	1.6	82
12	Maternal Positive and Negative Interaction Behaviors and Early Adolescents' Depressive Symptoms: Adolescent Emotion Regulation as a Mediator. <i>Journal of Research on Adolescence</i> , 2010, 20, 1014-1043.	1.9	79
13	Sleep Duration and Sleep Quality: Associations With Depressive Symptoms Across Adolescence. <i>Behavioral Sleep Medicine</i> , 2017, 15, 198-215.	1.1	77
14	Emotion socialization within the family environment and adolescent depression. <i>Clinical Psychology Review</i> , 2012, 32, 447-453.	6.0	73
15	Parenting During Early Adolescence and Adolescent-Onset Major Depression. <i>Clinical Psychological Science</i> , 2014, 2, 272-286.	2.4	65
16	Longitudinal Trajectories of Depression Symptoms in Adolescence: Psychosocial Risk Factors and Outcomes. <i>Child Psychiatry and Human Development</i> , 2017, 48, 554-571.	1.1	64
17	Oral microbiome composition, but not diversity, is associated with adolescent anxiety and depression symptoms. <i>Physiology and Behavior</i> , 2020, 226, 113126.	1.0	51
18	Maternal Parenting Behaviors and Adolescent Depression: The Mediating Role of Rumination. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2013, 42, 348-357.	2.2	45

#	ARTICLE	IF	CITATIONS
19	A cognitive-behavioral and mindfulness-based group sleep intervention improves behavior problems in at-risk adolescents by improving perceived sleep quality. <i>Behaviour Research and Therapy</i> , 2017, 99, 147-156.	1.6	44
20	The Influence of Maternal Parenting Style on the Neural Correlates of Emotion Processing in Children. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2020, 59, 274-282.	0.3	44
21	Affective Parenting Behaviors, Adolescent Depression, and Brain Development: A Review of Findings From the Orygen Adolescent Development Study. <i>Child Development Perspectives</i> , 2017, 11, 90-96.	2.1	42
22	The SENSE Study: Treatment Mechanisms of a Cognitive Behavioral and Mindfulness-Based Group Sleep Improvement Intervention for At-Risk Adolescents. <i>Sleep</i> , 2017, 40, .	0.6	38
23	Observed maternal responses to adolescent behaviour predict the onset of major depression. <i>Behaviour Research and Therapy</i> , 2011, 49, 331-338.	1.6	36
24	Who benefits from adolescent sleep interventions? Moderators of treatment efficacy in a randomized controlled trial of a cognitive-behavioral and mindfulness-based group sleep intervention for at-risk adolescents. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2018, 59, 637-649.	3.1	36
25	Mapping the relationship between subgenual cingulate cortex functional connectivity and depressive symptoms across adolescence. <i>Social Cognitive and Affective Neuroscience</i> , 2015, 10, 961-968.	1.5	32
26	Dual-axis hormonal covariation in adolescence and the moderating influence of prior trauma and aversive maternal parenting. <i>Developmental Psychobiology</i> , 2015, 57, 670-687.	0.9	31
27	Early life stress alters pituitary growth during adolescence—A longitudinal study. <i>Psychoneuroendocrinology</i> , 2015, 53, 185-194.	1.3	31
28	Amygdala Resting Connectivity Mediates Association Between Maternal Aggression and Adolescent Major Depression: A 7-Year Longitudinal Study. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2017, 56, 983-991.e3.	0.3	31
29	The SENSE Study (Sleep and Education: learning New Skills Early): a community cognitive-behavioural therapy and mindfulness-based sleep intervention to prevent depression and improve cardiac health in adolescence. <i>BMC Psychology</i> , 2015, 3, 39.	0.9	27
30	Impaired Maturation of Cognitive Control in Adolescents Who Develop Major Depressive Disorder. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2016, 45, 31-43.	2.2	22
31	The human gut microbiota and depression: widely reviewed, yet poorly understood. <i>Journal of Affective Disorders</i> , 2020, 274, 73-75.	2.0	21
32	The influence of sex, temperament, risk-taking and mental health on the emergence of gambling: a longitudinal study of young people. <i>International Gambling Studies</i> , 2015, 15, 108-123.	1.3	20
33	Parenting – Brain Development interactions as predictors of adolescent depressive symptoms and well-being: Differential susceptibility or diathesis-stress?. <i>Development and Psychopathology</i> , 2020, 32, 139-150.	1.4	19
34	Associations between cognitive and affective empathy and internalizing symptoms in late childhood. <i>Journal of Affective Disorders</i> , 2021, 290, 245-253.	2.0	12
35	Early adolescent drinking and cannabis use predicts later sleep-quality problems.. <i>Psychology of Addictive Behaviors</i> , 2019, 33, 266-273.	1.4	12
36	Associations between observed parenting behavior and adolescent inflammation two and a half years later in a community sample.. <i>Health Psychology</i> , 2017, 36, 641-651.	1.3	12

#	ARTICLE	IF	CITATIONS
37	Trait positive affect is associated with hippocampal volume and change in caudate volume across adolescence. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2015, 15, 80-94.	1.0	11
38	Adolescent temperament dimensions as stable prospective risk and protective factors for salivary C-reactive protein. <i>British Journal of Health Psychology</i> , 2018, 23, 186-207.	1.9	11
39	Affective behavior and temperament predict the onset of smoking in adolescence.. <i>Psychology of Addictive Behaviors</i> , 2015, 29, 347-354.	1.4	10
40	Factor Structure of the Early Adolescent Temperament Questionnaireâ€“Revised. <i>Assessment</i> , 2020, 27, 1547-1561.	1.9	10
41	Physiological correlates of emotional reactivity and regulation in early adolescents. <i>Biological Psychology</i> , 2017, 127, 229-238.	1.1	8
42	Family meta-emotion and the onset of major depressive disorder in adolescence: A prospective longitudinal study. <i>Social Development</i> , 2018, 27, 526-542.	0.8	8
43	Interaction between hypothalamic-pituitary-adrenal axis genetic variation and maternal behavior in the prediction of amygdala connectivity in children. <i>NeuroImage</i> , 2019, 197, 493-501.	2.1	8
44	Exploratory Factor Analysis of Observational Parentâ€“Child Interaction Data. <i>Assessment</i> , 2020, 27, 1758-1776.	1.9	8
45	Adolescent sympathetic activity and salivary C-reactive protein: The effects of parental behavior.. <i>Health Psychology</i> , 2017, 36, 955-965.	1.3	8
46	Duration of Breastfeeding and Subsequent Adolescent Obesity: Effects of Maternal Behavior and Socioeconomic Status. <i>Journal of Adolescent Health</i> , 2018, 62, 471-479.	1.2	6
47	Associations between early life stress and anterior pituitary gland volume development during late childhood. <i>Psychoneuroendocrinology</i> , 2020, 122, 104868.	1.3	6
48	Temperament and Symptom Pathways to the Development of Adolescent Depression. <i>Journal of Abnormal Child Psychology</i> , 2020, 48, 839-849.	3.5	6
49	Bugs and Brains, the Gut and Mental Health Study: a mixed-methods study investigating microbiota composition and function in anxiety, depression and irritable bowel syndrome. <i>BMJ Open</i> , 2021, 11, e043221.	0.8	5
50	The long-term associations between parental behaviors, cognitive function and brain activation in adolescence. <i>Scientific Reports</i> , 2021, 11, 11120.	1.6	4
51	Harsh and Inconsistent Parental Discipline Is Associated With Altered Cortical Development in Children. <i>Biological Psychiatry: Cognitive Neuroscience and Neuroimaging</i> , 2022, 7, 989-997.	1.1	4
52	Associations between early life stress and anterior pituitary gland volume development â€“ A novel index of long-term hypothalamicâ€“pituitaryâ€“adrenal axis functioning. <i>Developmental Psychobiology</i> , 2021, 63, 808-816.	0.9	2
