

Zhengde Xie

List of Publications by Citations

Source: <https://exaly.com/author-pdf/1261542/zhengde-xie-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

41
papers

862

#	Paper	IF	Citations
41	Diagnosis, treatment, and prevention of 2019 novel coronavirus infection in children: experts[consensus statement. <i>World Journal of Pediatrics</i> , 2020 , 16, 223-231	4.6	317
40	Angiotensin-converting enzyme 2 inhibits lung injury induced by respiratory syncytial virus. <i>Scientific Reports</i> , 2016 , 6, 19840	4.9	164
39	Etiology and prognosis of acute viral encephalitis and meningitis in Chinese children: a multicentre prospective study. <i>BMC Infectious Diseases</i> , 2017 , 17, 494	4	48
38	Adenovirus infection in children with acute lower respiratory tract infections in Beijing, China, 2007 to 2012. <i>BMC Infectious Diseases</i> , 2015 , 15, 408	4	40
37	Human Neonatal Fc Receptor Is the Cellular Uncoating Receptor for Enterovirus B. <i>Cell</i> , 2019 , 177, 1553-1565.e16	36.65	34
36	Dynamic expression of viral and cellular microRNAs in infectious mononucleosis caused by primary Epstein-Barr virus infection in children. <i>Virology Journal</i> , 2015 , 12, 208	6.1	26
35	Comparison of the prevalence of respiratory viruses in patients with acute respiratory infections at different hospital settings in North China, 2012-2015. <i>BMC Infectious Diseases</i> , 2018 , 18, 72	4	19
34	Phylogenetic evidence for intratypic recombinant events in a novel human adenovirus C that causes severe acute respiratory infection in children. <i>Scientific Reports</i> , 2016 , 6, 23014	4.9	19
33	Human metapneumovirus associated with community-acquired pneumonia in children in Beijing, China. <i>Journal of Medical Virology</i> , 2013 , 85, 138-43	19.7	18
32	Emergence of ON1 genotype of human respiratory syncytial virus subgroup A in China between 2011 and 2015. <i>Scientific Reports</i> , 2017 , 7, 5501	4.9	18
31	Comparison of viral and epidemiological profiles of hospitalized children with severe acute respiratory infection in Beijing and Shanghai, China. <i>BMC Infectious Diseases</i> , 2019 , 19, 729	4	17
30	A novel human coronavirus OC43 genotype detected in mainland China. <i>Emerging Microbes and Infections</i> , 2018 , 7, 173	18.9	17
29	Characterization of the nasopharyngeal viral microbiome from children with community-acquired pneumonia but negative for Luminex xTAG respiratory viral panel assay detection. <i>Journal of Medical Virology</i> , 2017 , 89, 2098-2107	19.7	16
28	An outbreak of echovirus 18 encephalitis/meningitis in children in Hebei Province, China, 2015. <i>Emerging Microbes and Infections</i> , 2017 , 6, e54	18.9	13
27	A fatal case associated with respiratory syncytial virus infection in a young child. <i>BMC Infectious Diseases</i> , 2018 , 18, 217	4	12
26	Case-control study of the epidemiological and clinical features of human adenovirus 55 and human adenovirus 7 infection in children with acute lower respiratory tract infections in Beijing, China, 2008-2013. <i>BMC Infectious Diseases</i> , 2018 , 18, 634	4	10
25	Simultaneous Detection of Key Bacterial Pathogens Related to Pneumonia and Meningitis Using Multiplex PCR Coupled With Mass Spectrometry. <i>Frontiers in Cellular and Infection Microbiology</i> , 2018 , 8, 107	5.9	9

24	Profiling of EBV-Encoded microRNAs in EBV-Associated Hemophagocytic Lymphohistiocytosis. <i>Tohoku Journal of Experimental Medicine</i> , 2015 , 237, 117-26	2.4	9
23	Human adenovirus Coinfection aggravates the severity of Mycoplasma pneumoniae pneumonia in children. <i>BMC Infectious Diseases</i> , 2020 , 20, 420	4	7
22	Genetic characterization of human bocavirus among children with severe acute respiratory infection in China. <i>Journal of Infection</i> , 2016 , 73, 155-63	18.9	7
21	The Oncogenic Role of miR-BART19-3p in Epstein-Barr Virus-Associated Diseases. <i>BioMed Research International</i> , 2020 , 2020, 5217039	3	7
20	Molecular Epidemiology of Echovirus 18 Circulating in Mainland China from 2015 to 2016. <i>Virologica Sinica</i> , 2019 , 34, 50-58	6.4	5
19	IL-10-592 A/C polymorphisms is associated with EBV-HLH in Chinese children. <i>Hematology</i> , 2016 , 21, 95-8	2.2	5
18	A Multiplex Asymmetric Reverse Transcription-PCR Assay Combined With an Electrochemical DNA Sensor for Simultaneously Detecting and Subtyping Influenza A Viruses. <i>Frontiers in Microbiology</i> , 2018 , 9, 1405	5.7	3
17	Epstein-Barr Virus-Positive T/NK-Cell Lymphoproliferative Diseases in Chinese Mainland. <i>Frontiers in Pediatrics</i> , 2018 , 6, 289	3.4	3
16	Comparison of clinical features of acute lower respiratory tract infections in infants with RSV/HRV infection, and incidences of subsequent wheezing or asthma in childhood. <i>BMC Infectious Diseases</i> , 2020 , 20, 387	4	2
15	Genetic Analysis of Human Adenovirus Type 7 Strains Circulating in Different Parts of China. <i>Virologica Sinica</i> , 2021 , 36, 382-392	6.4	2
14	N6-Methyladenosine Modification and Its Regulation of Respiratory Viruses. <i>Frontiers in Cell and Developmental Biology</i> , 2021 , 9, 699997	5.7	2
13	A multi-center study on Molecular Epidemiology of Human Respiratory Syncytial Virus from Children with Acute Lower Respiratory Tract Infections in the Mainland of China between 2015 and 2019. <i>Virologica Sinica</i> , 2021 , 1	6.4	2
12	Viral etiology of life-threatening pediatric pneumonia: A matched case-control study. <i>Influenza and Other Respiratory Viruses</i> , 2020 , 14, 452-459	5.6	1
11	A resequencing pathogen microarray method for high-throughput molecular diagnosis of multiple etiologies associated with central nervous system infection. <i>Archives of Virology</i> , 2017 , 162, 3769-3778	2.6	1
10	The burden of respiratory syncytial virus associated with acute lower respiratory tract infections in Chinese children: a meta-analysis. <i>Translational Pediatrics</i> , 2020 , 9, 496-506	4.2	1
9	Molecular Characteristics of Human Adenovirus Type 3 Circulating in Parts of China During 2014-2018. <i>Frontiers in Microbiology</i> , 2021 , 12, 688661	5.7	1
8	Complete Genome Sequences of Two WU Polyomaviruses Detected in Pediatric Patients with Fatal Respiratory Infection. <i>Microbiology Resource Announcements</i> , 2021 , 10, e0005221	1.3	1
7	Receptors for Respiratory Syncytial Virus Infection and Host Factors Regulating the Life Cycle of Respiratory Syncytial Virus.. <i>Frontiers in Cellular and Infection Microbiology</i> , 2022 , 12, 858629	5.9	1

6	Recombinant GII.4[P31] Was Predominant Norovirus Circulating in Beijing Area, China, 2018-2020. <i>Virologica Sinica</i> , 2021 , 36, 1245-1247	6.4	o
5	Comprehensive Description of Pathogens and Antibiotic Treatment Guidance in Children With Community-Acquired Pneumonia Using Combined Mass Spectrometry Methods. <i>Frontiers in Cellular and Infection Microbiology</i> , 2021 , 11, 695134	5.9	o
4	A Multicenter Study of Viral Aetiology of Community-Acquired Pneumonia in Hospitalized Children in Chinese Mainland. <i>Virologica Sinica</i> , 2021 , 1	6.4	o
3	WU Polyomavirus Infection in Children With Acute Lower Respiratory Tract Infections in China, 2017 to 2019: Case Reports and Multicentre Epidemiological Survey.. <i>Frontiers in Cellular and Infection Microbiology</i> , 2021 , 11, 835946	5.9	
2	Meta-Analysis of Whole Blood Transcriptome Datasets Characterizes the Immune Response of Respiratory Syncytial Virus Infection in Children.. <i>Frontiers in Cellular and Infection Microbiology</i> , 2022 , 12, 878430	5.9	
1	A severe case of human rhinovirus A45 with central nervous system involvement and viral sepsis.. <i>Virology Journal</i> , 2022 , 19, 72	6.1
