#	ARTICLE	IF	CITATIONS
1	Relapse insomnia increases greater risk of anxiety and depression: evidence from a population-based 4-year cohort study. <i>Sleep Medicine</i> , 2017, 38, 122-129.	1.6	57
2	Predicting Cause-Specific Mortality of Older Men Living in the Veterans Home by Handgrip Strength and Walking Speed: A 3-Year, Prospective Cohort Study in Taiwan. <i>Journal of the American Medical Directors Association</i> , 2012, 13, 517-521.	2.5	56
3	Hip fracture and risk of acute myocardial infarction: A nationwide study. <i>Journal of Bone and Mineral Research</i> , 2013, 28, 404-411.	2.8	54
4	Methodological Factors in Determining Rates of Dementia in Transient Ischemic Attack and Stroke. <i>Stroke</i> , 2015, 46, 641-646.	2.0	53
5	Methodological Factors in Determining Risk of Dementia After Transient Ischemic Attack and Stroke. <i>Stroke</i> , 2015, 46, 1494-1500.	2.0	48
6	Long-term Mortality Risk After Hyperglycemic Crisis Episodes in Geriatric Patients With Diabetes: A National Population-Based Cohort Study. <i>Diabetes Care</i> , 2015, 38, 746-751.	8.6	36
7	Communication and Behavior of Palliative Care Physicians of Patients With Cancer Near End of Life in Three East Asian Countries. <i>Journal of Pain and Symptom Management</i> , 2021, 61, 315-322.e1.	1.2	36
8	Implementing a novel model for hospice and palliative care in the emergency department. <i>Medicine (United States)</i> , 2017, 96, e6943.	1.0	26
9	Advance Care Planning for Older People with Cancer and Its Implications in Asia: Highlighting the Mental Capacity and Relational Autonomy. <i>Geriatrics (Switzerland)</i> , 2018, 3, 43.	1.7	26
10	Primary Sjögren's syndrome and risk of ischemic stroke: a nationwide study. <i>Clinical Rheumatology</i> , 2014, 33, 931-937.	2.2	25
11	Lower Urinary Tract Symptoms Are Associated with Increased Risk of Dementia among the Elderly: A Nationwide Study. <i>BioMed Research International</i> , 2015, 2015, 1-7.	1.9	25
12	Comparison of healthcare utilization and life-sustaining interventions between elderly patients with dementia and those with cancer near the end of life: A nationwide, population-based study in Taiwan. <i>Geriatrics and Gerontology International</i> , 2017, 17, 2545-2551.	1.5	25
13	Association between palliative care and life-sustaining treatments for patients with dementia: A nationwide 5-year cohort study. <i>Palliative Medicine</i> , 2018, 32, 622-630.	3.1	25
14	2019 Taipei Declaration on Advance Care Planning: A Cultural Adaptation of End-of-Life Care Discussion. <i>Journal of Palliative Medicine</i> , 2019, 22, 1175-1177.	1.1	22
15	Cumulative use of therapeutic bladder anticholinergics and the risk of dementia in patients with lower urinary tract symptoms: a nationwide 12-year cohort study. <i>BMC Geriatrics</i> , 2019, 19, 380.	2.7	21
16	Feasibility and acceptability of a culturally adapted advance care planning intervention for people living with advanced cancer and their families: A mixed methods study. <i>Palliative Medicine</i> , 2020, 34, 651-666.	3.1	18
17	Emergency geriatric assessment: A novel comprehensive screen tool for geriatric patients in the emergency department. <i>American Journal of Emergency Medicine</i> , 2018, 36, 143-146.	1.6	15
18	Primary Sjögren's Syndrome and the Risk of Acute Myocardial Infarction: A Nationwide Study. <i>Acta Cardiologica Sinica</i> , 2013, 29, 124-31.	0.2	15

#	ARTICLE	IF	CITATIONS
19	Septic arthritis significantly increased the long-term mortality in geriatric patients. <i>BMC Geriatrics</i> , 2017, 17, 178.	2.7	13
20	Prevalence of Geriatric Syndromes and the Need for Hospice Care in Older Patients of the Emergency Department: A Study in an Asian Medical Center. <i>Emergency Medicine International</i> , 2020, 2020, 1-9.	0.8	11
21	To hydrate or not to hydrate? The effect of hydration on survival, symptoms and quality of dying among terminally ill cancer patients. <i>BMC Palliative Care</i> , 2021, 20, 13.	1.8	11
22	Cognitively-Related Basic Activities of Daily Living Impairment Greatly Increases the Risk of Death in Alzheimers Disease. <i>PLoS ONE</i> , 2016, 11, e0160671.	2.5	10
23	Depression is a major risk factor for the development of dementia in people with lower urinary tract symptoms: A nationwide population-based study. <i>PLoS ONE</i> , 2019, 14, e0217984.	2.5	9
24	The Association between Home Healthcare and Burdensome Transitions at the End-of-Life in People with Dementia: A 12-Year Nationwide Population-Based Cohort Study. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 9255.	2.6	8
25	End-of-life care in cancer and dementia: a nationwide population-based study of palliative care policy changes. <i>BMJ Supportive and Palliative Care</i> , 2022, 12, e384-e392.	1.6	7
26	HOme-based Longitudinal Investigation of the multiDiSciplinary Team Integrated Care (HOLISTIC): protocol of a prospective nationwide cohort study. <i>BMC Geriatrics</i> , 2020, 20, 511.	2.7	7
27	Preferences on the Timing of Initiating Advance Care Planning and Withdrawing Life-Sustaining Treatment between Terminally-Ill Cancer Patients and Their Main Family Caregivers: A Prospective Study. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 7954.	2.6	7
28	Burden of Healthcare Utilization among Chronic Obstructive Pulmonary Disease Patients with and without Cancer Receiving Palliative Care: A Population-Based Study in Taiwan. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 4980.	2.6	6
29	Prevalence and severity of symptoms and signs in patients with advanced cancer in the last days of life: the East Asian collaborative cross-cultural study to elucidate the dying process (EASED). <i>Supportive Care in Cancer</i> , 2022, 30, 5499-5508.	2.2	6
30	Comparison of the accuracy of cliniciansâ€™ prediction of survival and Palliative Prognostic Score: an East Asian cross-cultural study. <i>Supportive Care in Cancer</i> , 2022, 30, 2367-2374.	2.2	5
31	Impact of home healthcare on end-of-life outcomes for people with dementia: a systematic review. <i>BMC Geriatrics</i> , 2022, 22, 80.	2.7	5
32	Increased risk of chronic kidney disease in patients with rosacea: A nationwide population-based matched cohort study. <i>PLoS ONE</i> , 2017, 12, e0180446.	2.5	4
33	Assessment of Changes in Symptoms Is Feasible and Prognostic in the Last Weeks of Life: An International Multicenter Cohort Study. <i>Journal of Palliative Medicine</i> , 2022, 25, 388-395.	1.1	4
34	Professionalsâ€™ experiences and attitudes toward use of Traditional Chinese Medicine in hospice palliative inpatient care units: A multicenter survey in Taiwan. <i>Integrative Medicine Research</i> , 2021, 10, 100642.	1.8	3
35	Physical and psychological symptoms and signs in dying digestive tract cancer patients: the East Asian collaborative cross-cultural study to Elucidate the Dying process (EASED). <i>Supportive Care in Cancer</i> , 2021, 29, 3603-3612.	2.2	3
36	Medical care needs for patients receiving home healthcare in Taiwan: Do gender and income matter?. <i>PLoS ONE</i> , 2021, 16, e0247622.	2.5	3

#	ARTICLE	IF	CITATIONS
37	Factors related to spiritual well-being in the last days of life in three East Asian countries: An international multicenter prospective cohort study. <i>Palliative Medicine</i> , 2021, 35, 1564-1577.	3.1	3
38	Association between Anti-Psychotic Drugs Use and Hip Fractures in Patients with Dementia: A Nationwide Population-Based Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 8118.	2.6	3
39	Reliability and Validity of the Traditional Chinese Version of the Advance Care Planning Engagement Survey: A Pilot Evaluation in Taiwanese Outpatients. <i>Journal of Palliative Care</i> , 2022, 37, 273-279.	1.0	3
40	Differences between dedicated and not dedicated hospice physicians in symptoms and signs improvement among advanced cancer patients. <i>Medicine (United States)</i> , 2021, 100, e26915.	1.0	2
41	Association between the amount of artificial hydration and quality of dying among terminally ill patients with cancer: The East Asian Collaborative Cross-Cultural Study to Elucidate the Dying Process. <i>Cancer</i> , 2022, 128, 1699-1708.	4.1	2
42	Exploring the Impact of Different Types of Do-Not-Resuscitate Consent on End-of-Life Treatments among Patients with Advanced Kidney Disease: An Observational Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 8194.	2.6	1
43	Comparison of Objective Prognostic Score and Palliative Prognostic Score performance in inpatients with advanced cancer in Japan and Korea. <i>Palliative and Supportive Care</i> , 0, , 1-9.	1.0	1
