

Julie A Y Cichero

List of Publications by Citations

Source: <https://exaly.com/author-pdf/1264454/julie-a-y-cichero-publications-by-citations.pdf>

Version: 2024-04-23

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
52	Development of International Terminology and Definitions for Texture-Modified Foods and Thickened Fluids Used in Dysphagia Management: The IDDSI Framework. <i>Dysphagia</i> , 2017 , 32, 293-314	3.7	325
51	The influence of food texture and liquid consistency modification on swallowing physiology and function: a systematic review. <i>Dysphagia</i> , 2015 , 30, 2-26	3.7	280
50	The Need for International Terminology and Definitions for Texture-Modified Foods and Thickened Liquids Used in Dysphagia Management: Foundations of a Global Initiative. <i>Current Physical Medicine and Rehabilitation Reports</i> , 2013 , 1, 280-291	0.7	198
49	Thickening agents used for dysphagia management: effect on bioavailability of water, medication and feelings of satiety. <i>Nutrition Journal</i> , 2013 , 12, 54	4.3	127
48	Physiological factors related to aspiration risk: a systematic review. <i>Dysphagia</i> , 2014 , 29, 295-304	3.7	83
47	How thick is thick? Multicenter study of the rheological and material property characteristics of mealtime fluids and videofluoroscopy fluids. <i>Dysphagia</i> , 2000 , 15, 188-200	3.7	82
46	Gastrointestinal digestion of dairy and soy proteins in infant formulas: An in vitro study. <i>Food Research International</i> , 2015 , 76, 348-358	7	78
45	Triaging dysphagia: nurse screening for dysphagia in an acute hospital. <i>Journal of Clinical Nursing</i> , 2009 , 18, 1649-59	3.2	75
44	Acoustic signature of the normal swallow: characterization by age, gender, and bolus volume. <i>Annals of Otology, Rhinology and Laryngology</i> , 2002 , 111, 623-32	2.1	74
43	Rheological characterisation of food thickeners marketed in Australia in various media for the management of dysphagia. I: Water and cordial. <i>Journal of Food Engineering</i> , 2007 , 79, 69-82	6	69
42	A comprehensive review on in vitro digestion of infant formula. <i>Food Research International</i> , 2015 , 76, 373-386	7	67
41	Detection of swallowing sounds: methodology revisited. <i>Dysphagia</i> , 2002 , 17, 40-9	3.7	65
40	Definition, prevalence and burden of oropharyngeal dysphagia: a serious problem among older adults worldwide and the impact on prognosis and hospital resources. <i>Nestle Nutrition Institute Workshop Series</i> , 2012 , 72, 1-11	1.9	60
39	Age-Related Changes to Eating and Swallowing Impact Frailty: Aspiration, Choking Risk, Modified Food Texture and Autonomy of Choice. <i>Geriatrics (Switzerland)</i> , 2018 , 3,	2.2	52
38	The physiologic cause of swallowing sounds: answers from heart sounds and vocal tract acoustics. <i>Dysphagia</i> , 1998 , 13, 39-52	3.7	49
37	Rheological characterisation of food thickeners marketed in Australia in various media for the management of dysphagia. II. Milk as a dispersing medium. <i>Journal of Food Engineering</i> , 2008 , 84, 553-562	6	49
36	Rheological characterization of food thickeners marketed in Australia in various media for the management of dysphagia. III. Fruit juice as a dispersing medium. <i>Journal of Food Engineering</i> , 2008 , 86, 604-615	6	48

35	Adjustment of Food Textural Properties for Elderly Patients. <i>Journal of Texture Studies</i> , 2016 , 47, 277-283	3.6	47
34	Thickened fluids and water absorption in rats and humans. <i>Dysphagia</i> , 2007 , 22, 193-203	3.7	43
33	Which one of these is not like the others? An inter-hospital study of the viscosity of thickened fluids. <i>Journal of Speech, Language, and Hearing Research</i> , 2000 , 43, 537-47	2.8	42
32	Crushed tablets: does the administration of food vehicles and thickened fluids to aid medication swallowing alter drug release?. <i>Journal of Pharmacy and Pharmaceutical Sciences</i> , 2014 , 17, 207-19	3.4	39
31	Dosage form modification and oral drug delivery in older people. <i>Advanced Drug Delivery Reviews</i> , 2018 , 135, 75-84	18.5	35
30	Liquid barium is not representative of infant formula: characterisation of rheological and material properties. <i>Dysphagia</i> , 2011 , 26, 264-71	3.7	35
29	Thickened milk for the management of feeding and swallowing issues in infants: a call for interdisciplinary professional guidelines. <i>Journal of Human Lactation</i> , 2013 , 29, 132-5	2.6	23
28	Evaluation of the uptake of the Australian standardized terminology and definitions for texture modified foods and fluids. <i>International Journal of Speech-Language Pathology</i> , 2012 , 14, 214-25	2.1	22
27	The International Dysphagia Diet Standardisation Initiative (IDDSI) framework: the Kempen pilot. <i>British Journal of Neuroscience Nursing</i> , 2017 , 13, S18-S26	0.1	21
26	Prevalence of swallowing difficulties and medication modification in customers of community pharmacists. <i>Journal of Pharmacy Practice and Research</i> , 2015 , 45, 18-23	0.7	21
25	Unlocking opportunities in food design for infants, children, and the elderly: Understanding milestones in chewing and swallowing across the lifespan for new innovations. <i>Journal of Texture Studies</i> , 2017 , 48, 271-279	3.6	20
24	Oral medication delivery in impaired swallowing: thickening liquid medications for safe swallowing alters dissolution characteristics. <i>Drug Development and Industrial Pharmacy</i> , 2016 , 42, 1537-44	3.6	17
23	A spoonful of sugar helps the medicine go down? A review of strategies for making pills easier to swallow. <i>Patient Preference and Adherence</i> , 2018 , 12, 1337-1346	2.4	17
22	Release of updated International Dysphagia Diet Standardisation Initiative Framework (IDDSI 2.0). <i>Journal of Texture Studies</i> , 2020 , 51, 195-196	3.6	17
21	Implications of changing the amount of thickener in thickened infant formula for infants with dysphagia. <i>Dysphagia</i> , 2014 , 29, 432-7	3.7	16
20	In vitro lipolysis of dairy and soy based infant formula. <i>Food Research International</i> , 2018 , 106, 696-705	7	15
19	A question of rheological control. <i>Dysphagia</i> , 2008 , 23, 199-201	3.7	13
18	Nurse experiences of medication administration to people with swallowing difficulties living in aged care facilities: a systematic review of qualitative evidence. <i>JBIC Database of Systematic Reviews and Implementation Reports</i> , 2018 , 16, 71-86	1.6	11

17	In vitro digestion of infant formulations with hydrolysed and non-hydrolysed proteins from dairy and soybean. <i>Food and Function</i> , 2016 , 7, 4908-4919	6.1	11
16	Evaluating chewing function: Expanding the dysphagia field using food oral processing and the IDDSI framework. <i>Journal of Texture Studies</i> , 2020 , 51, 56-66	3.6	9
15	Appropriateness of oral dosage form modification for aged care residents: a video-recorded observational study. <i>International Journal of Clinical Pharmacy</i> , 2020 , 42, 938-947	2.3	8
14	International Food for the Elderly Conference [Congratulatory] from the International Dysphagia Diet Standardisation Initiative. <i>Journal of Texture Studies</i> , 2016 , 47, 373-374	3.6	4
13	Viscosity Testing: Opening Pandora's Box. <i>Perspectives on Swallowing and Swallowing Disorders (Dysphagia)</i> , 2006 , 15, 2-8		4
12	Factors affecting Australian aged care facility workers in administering oral medication to residents with swallowing difficulties. <i>Research in Nursing and Health</i> , 2020 , 43, 419-430	2	3
11	Are Medication Swallowing Lubricants Suitable for Use in Dysphagia? Consistency, Viscosity, Texture, and Application of the International Dysphagia Diet Standardization Initiative (IDDSI) Framework. <i>Pharmaceutics</i> , 2020 , 12,	6.4	3
10	Fluid Testing Methods Recommended by IDDSI. <i>Dysphagia</i> , 2019 , 34, 716-717	3.7	3
9	Nurses' Experiences of medication administration to people with swallowing difficulties in aged care facilities: a systematic review protocol. <i>JBI Database of Systematic Reviews and Implementation Reports</i> , 2017 , 15, 932-941	1.6	2
8	Nutritional thickeners and their use in the acute setting. <i>British Journal of Nursing</i> , 2017 , 26, 140-142	0.7	1
7	Pharmacist, general practitioner, and nurse perceptions, experiences, and knowledge of medication dosage form modification. <i>Integrated Pharmacy Research & Practice</i> , 2013 , 1	4.4	1
6	Screening for aspiration risk. <i>Journal of Trauma and Acute Care Surgery</i> , 2012 , 73, 292-3; author reply 293	3.3	1
5	"A Day in the Life of the Fluid Bolus": An Introduction to Fluid Mechanics of the Oropharyngeal Phase of Swallowing with Particular Focus on Dysphagia. <i>Applied Rheology</i> , 2016 , 26,	1.2	1
4	Factors that affect health-care workers' practices of medication administration to aged care residents with swallowing difficulties: An Australia-wide survey study. <i>Australasian Journal on Ageing</i> , 2021 , 40, e79-e86	1.5	1
3	A Difficult Pill to Swallow: An Investigation of the Factors Associated with Medication Swallowing Difficulties. <i>Patient Preference and Adherence</i> , 2021 , 15, 29-40	2.4	1
2	Standardization of Dysphagia Diet Terminology across the Lifespan: An International Perspective. <i>Perspectives on Swallowing and Swallowing Disorders (Dysphagia)</i> , 2014 , 23, 166-172		0
1	Dysphagia management: Does structured training improve the validity and reliability of cervical auscultation?. <i>International Journal of Speech-Language Pathology</i> , 2021 , 1-11	2.1	0
