

Andrea Lavagno

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/1280888/andrea-lavagno-publications-by-year.pdf>

Version: 2024-04-24

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

11
papers

#	Paper	IF	Citations
11	Quark deconfinement and the duration of short gamma-ray bursts. <i>Physical Review D</i> , 2016 , 93,	4.9	24
10	The scenario of two families of compact stars. <i>European Physical Journal A</i> , 2016 , 52, 1	2.5	65
9	Delta isobars in neutron stars. <i>EPJ Web of Conferences</i> , 2015 , 95, 01011	0.3	3
8	Can very compact and very massive neutron stars both exist?. <i>Physical Review D</i> , 2014 , 89,	4.9	102
7	Early appearance of Λ isobars in neutron stars. <i>Physical Review C</i> , 2014 , 90,	2.7	118
6	Nonextensive statistical effects in the quark-gluon plasma formation at relativistic heavy-ion collisions energies. <i>Open Physics</i> , 2012 , 10,	1.3	49
5	Kaon production at finite temperature and baryon density in an effective relativistic mean field model. <i>Hyperfine Interactions</i> , 2012 , 210, 123-126	0.8	
4	Kaon production at finite temperature and baryon density in an effective relativistic mean field model 2011 , 273-276		
3	Softening of the equation of state of matter at large densities and temperatures: chiral-symmetry restoration versus quark deconfinement. <i>Physical Review Letters</i> , 2007 , 99, 242301	7.4	36
2	Burning of a Hadronic Star into a Quark or a Hybrid Star. <i>Astrophysical Journal</i> , 2007 , 659, 1519-1535	4.7	70
1	From quark stars to hybrid stars. <i>Physics Letters, Section B: Nuclear, Elementary Particle and High-Energy Physics</i> , 2001 , 511, 229-234	4.2	30
