#	Article	IF	Citations
1	Continuity and Discontinuity of Behavioral Inhibition and Exuberance: Psychophysiological and Behavioral Influences across the First Four Years of Life. Child Development, 2001, 72, 1-21.	3.0	776
2	The role of emotion regulation in children's early academic success. Journal of School Psychology, 2007, 45, 3-19.	2.9	627
3	Self-regulatory processes in early personality development: A multilevel approach to the study of childhood social withdrawal and aggression. Development and Psychopathology, 2002, 14, 477-498.	2.3	429
4	The Development of Self-Control of Emotion: Intrinsic and Extrinsic Influences. Motivation and Emotion, 2003, 27, 7-26.	1.3	359
5	Emotionality, emotion regulation, and preschoolers' social adaptation. Development and Psychopathology, 1995, 7, 49-62.	2.3	323
6	Cardiac vagal tone indices of temperamental reactivity and behavioral regulation in young children. Developmental Psychobiology, 1997, 31, 125-135.	1.6	318
7	Physiological and behavioral regulation in two-year-old children with aggressive/destructive behavior problems. Journal of Abnormal Child Psychology, 2000, 28, 103-118.	3 . 5	316
8	Infant and parent factors associated with early maternal sensitivity: A caregiver-attachment systems approach., 2007, 30, 114-126.		297
9	Cardiac vagal regulation differentiates among children at risk for behavior problems. Biological Psychology, 2007, 74, 144-153.	2.2	286
10	Cardiac vagal regulation across the preschool period: Stability, continuity, and implications for childhood adjustment. Developmental Psychobiology, 2004, 45, 101-112.	1.6	284
11	Family stress and parental responses to children's negative emotions: Tests of the spillover, crossover, and compensatory hypotheses Journal of Family Psychology, 2009, 23, 671-679.	1.3	284
12	Profiles of externalizing behavior problems for boys and girls across preschool: The roles of emotion regulation and inattention Developmental Psychology, 2006, 42, 913-928.	1.6	280
13	Infants' Vagal Regulation in the Still-Face Paradigm Is Related to Dyadic Coordination of Mother-Infant Interaction Developmental Psychology, 2004, 40, 1068-1080.	1.6	275
14	Predicting Change in Parenting Stress Across Early Childhood: Child and Maternal Factors. Journal of Abnormal Child Psychology, 2007, 35, 251-263.	3 . 5	256
15	The double-edged sword: Emotional regulation for children at risk. Development and Psychopathology, 1996, 8, 163-182.	2.3	252
16	Regulatory Contributors to Children's Kindergarten Achievement. Early Education and Development, 2003, 14, 101-120.	2.6	252
17	A longitudinal study of language acquisition in autistic and down syndrome children. Journal of Autism and Developmental Disorders, 1990, 20, 1-21.	2.7	246
18	Mother–Infant Vagal Regulation in the Faceâ€Toâ€Face Stillâ€Face Paradigm Is Moderated by Maternal Sensitivity. Child Development, 2009, 80, 209-223.	3.0	211

#	Article	IF	Citations
19	Reassessing Emotion Regulation. Child Development Perspectives, 2008, 2, 124-131.	3.9	201
20	Individual differences in trajectories of emotion regulation processes: The effects of maternal depressive symptomatology and children's physiological regulation Developmental Psychology, 2008, 44, 1110-1123.	1.6	198
21	Frustration in Infancy: Implications for Emotion Regulation, Physiological Processes, and Temperament. Infancy, 2002, 3, 175-197.	1.6	174
22	Parent Involvement and Student Academic Performance: A Multiple Mediational Analysis. Journal of Prevention and Intervention in the Community, 2010, 38, 183-197.	0.7	169
23	Parenting Stress, Parental Reactions, and Externalizing Behavior From Ages 4 to 10. Journal of Marriage and Family, 2015, 77, 388-406.	2.6	169
24	Predicting Stability and Change in Toddler Behavior Problems: Contributions of Maternal Behavior and Child Gender Developmental Psychology, 2004, 40, 29-42.	1.6	149
25	Predicting Kindergarten Peer Social Status from Toddler and Preschool Problem Behavior. Journal of Abnormal Child Psychology, 2004, 32, 409-423.	3.5	134
26	Moderate vagal withdrawal in 3.5â€yearâ€old children is associated with optimal performance on executive function tasks. Developmental Psychobiology, 2010, 52, 603-608.	1.6	132
27	Neural plasticity and development in the first two years of life: Evidence from cognitive and socioemotional domains of research. Development and Psychopathology, 1994, 6, 677-696.	2.3	128
28	The role of frontal activation in the regulation and dysregulation of social behavior during the preschool years. Development and Psychopathology, 1996, 8, 89-102.	2.3	119
29	An Integrative Conceptual Model of Parental Racial/Ethnic and Emotion Socialization and Links to Children's Socialâ€Emotional Development Among African American Families. Child Development Perspectives, 2017, 11, 16-22.	3.9	119
30	Developmental origins of early antisocial behavior. Development and Psychopathology, 2009, 21, 1095-1109.	2.3	118
31	Gene–Environment Contributions to the Development of Infant Vagal Reactivity: The Interaction of Dopamine and Maternal Sensitivity. Child Development, 2008, 79, 1377-1394.	3.0	113
32	Longitudinal Associations Between the Quality of Mother–Infant Interactions and Brain Development Across Infancy. Child Development, 2016, 87, 1159-1174.	3.0	110
33	Predicting cardiac vagal regulation in early childhood from maternal–child relationship quality during toddlerhood. Developmental Psychobiology, 2008, 50, 751-766.	1.6	105
34	Testing a developmental cascade model of emotional and social competence and early peer acceptance. Development and Psychopathology, 2010, 22, 737-748.	2.3	101
35	African American and European American Mothers' Beliefs About Negative Emotions and Emotion Socialization Practices. Parenting, 2012, 12, 22-41.	1.4	99
36	Profiles of Disruptive Behavior Across Early Childhood: Contributions of Frustration Reactivity, Physiological Regulation, and Maternal Behavior. Child Development, 2008, 79, 1357-1376.	3.0	94

#	Article	IF	Citations
37	Temperament and externalizing behavior: Social preference and perceived acceptance as protective factors Developmental Psychology, 2008, 44, 957-968.	1.6	90
38	Do aggressive/destructive toddlers lack concern for others? Behavioral and physiological indicators of empathic responding in 2-year-old children. Development and Psychopathology, 2003, 15, 55-71.	2.3	87
39	Biological, behavioral, and relational levels of resilience in the context of risk for early childhood behavior problems. Development and Psychopathology, 2007, 19, 675-700.	2.3	86
40	Antecedents of Maternal Sensitivity During Distressing Tasks: Integrating Attachment, Social Information Processing, and Psychobiological Perspectives. Child Development, 2015, 86, 94-111.	3.0	84
41	Mothers' responses to children's negative emotions and child emotion regulation: The moderating role of vagal suppression. Developmental Psychobiology, 2012, 54, 503-513.	1.6	82
42	Cardiac Vagal Regulation and Early Peer Status. Child Development, 2007, 78, 264-278.	3.0	79
43	Parental ADHD Symptomology and Ineffective Parenting: The Connecting Link of Home Chaos. Parenting, 2010, 10, 119-135.	1.4	79
44	Sustained attention development during the toddlerhood to preschool period: associations with toddlers' emotion regulation strategies and maternal behaviour. Infant and Child Development, 2011, 20, 389-408.	1.5	79
45	Identifying developmental cascades among differentiated dimensions of social competence and emotion regulation Developmental Psychology, 2015, 51, 1062-1073.	1.6	75
46	The effect of acute exercise on cognitive performance in children with and without ADHD. Journal of Sport and Health Science, 2015, 4, 97-104.	6.5	75
47	Does imitation facilitate the acquisition of grammar? Evidence from a study of autistic, Down's syndrome and normal children. Journal of Child Language, 1990, 17, 591-606.	1.2	72
48	Maternal behaviour and children's early emotion regulation skills differentially predict development of children's reactive control and later effortful control. Infant and Child Development, 2010, 19, 333-353.	1.5	69
49	A biopsychosocial perspective on parenting and developmental psychopathology. Development and Psychopathology, 2013, 25, 1399-1414.	2.3	66
50	Emotion regulation and executive functioning in early development: Integrated mechanisms of control supporting adaptive functioning, 2010,, 37-57.		64
51	Diets Rich in Fruits and Vegetables Are Associated with Lower Cardiovascular Disease Risk in Adolescents. Nutrients, 2018, 10, 136.	4.1	62
52	A longitudinal assessment of the relation between executive function and theory of mind at 3, 4, and 5 years. Cognitive Development, 2015, 33, 40-55.	1.3	60
53	Pathways by which mothers' physiological arousal and regulation while caregiving predict sensitivity to infant distress Journal of Family Psychology, 2016, 30, 769-779.	1.3	59
54	Maternal socialization of child emotion and adolescent adjustment: Indirect effects through emotion regulation Developmental Psychology, 2020, 56, 541-552.	1.6	59

#	Article	IF	CITATIONS
55	Attention and executive functioning in infancy: Links to childhood executive function and reading achievement. Developmental Science, 2019, 22, e12824.	2.4	56
56	The indirect effects of maternal emotion socialization on friendship quality in middle childhood Developmental Psychology, 2014, 50, 566-576.	1.6	54
57	Contributions of child's physiology and maternal behavior to children's trajectories of temperamental reactivity Developmental Psychology, 2010, 46, 1089-1102.	1.6	52
58	Childhood self-regulation as a mechanism through which early overcontrolling parenting is associated with adjustment in preadolescence Developmental Psychology, 2018, 54, 1542-1554.	1.6	52
59	Longitudinal associations between children's understanding of emotions and theory of mind. Cognition and Emotion, 2011, 25, 1074-1086.	2.0	51
60	<scp>E</scp> uropeanâ€ <scp>A</scp> merican and <scp>A</scp> fricanâ€ <scp>A</scp> merican Mothers' Emotion Socialization Practices Relate Differently to Their Children's Academic and Socialâ€emotional Competence. Social Development, 2013, 22, 485-498.	1.3	51
61	A transactional analysis of the relation between maternal sensitivity and child vagal regulation Developmental Psychology, 2014, 50, 784-793.	1.6	51
62	Preschoolâ€aged children's understanding of gratitude: Relations with emotion and mental state knowledge. British Journal of Developmental Psychology, 2013, 31, 42-56.	1.7	49
63	Developmental Dynamics of Emotion and Cognition Processes in Preschoolers. Child Development, 2013, 84, 346-360.	3.0	47
64	Indirect Effects of Maternal Sensitivity on Infant Emotion Regulation Behaviors: The Role of Vagal Withdrawal. Infancy, 2016, 21, 128-153.	1.6	47
65	Predicting emotional and social competence during early childhood from toddler risk and maternal behavior. Development and Psychopathology, 2010, 22, 119-132.	2.3	45
66	Cognitive and Emotional Processes as Predictors of a Successful Transition Into School. Early Education and Development, 2017, 28, 1-20.	2.6	44
67	Pathways from maternal effortful control to child self-regulation: The role of maternal emotional support Journal of Family Psychology, 2017, 31, 170-180.	1.3	44
68	Self-regulation as a predictor of patterns of change in externalizing behaviors from infancy to adolescence. Development and Psychopathology, 2018, 30, 497-510.	2.3	44
69	Trajectories of internalizing symptoms across childhood: The roles of biological self-regulation and maternal psychopathology. Development and Psychopathology, 2014, 26, 1353-1368.	2.3	41
70	Commentary: Conceptual and Methodological Challenges to the Study of Emotion Regulation and Psychopathology. Journal of Psychopathology and Behavioral Assessment, 2010, 32, 92-95.	1.2	40
71	The role of persistence at preschool age in academic skills at kindergarten. European Journal of Psychology of Education, 2013, 28, 1495-1503.	2.6	40
72	The relation between maternal emotional support and child physiological regulation across the preschool years. Developmental Psychobiology, 2013, 55, 382-394.	1.6	39

#	Article	IF	Citations
73	Developmental Cascade and Transactional Associations Among Biological and Behavioral Indicators of Temperament and Maternal Behavior. Child Development, 2018, 89, 1735-1751.	3.0	39
74	Latent profile and cluster analysis of infant temperament: Comparisons across person-centered approaches Developmental Psychology, 2017, 53, 1811-1825.	1.6	39
75	The Relation of Maternal Behavior and Attachment Security to Toddlers' Emotions and Emotion Regulation. Research in Human Development, 2006, 3, 21-31.	1.3	35
76	The interactive roles of parenting, emotion regulation and executive functioning in moral reasoning during middle childhood. Cognition and Emotion, 2013, 27, 1460-1468.	2.0	35
77	Adult Attachment States of Mind: Measurement Invariance Across Ethnicity and Associations With Maternal Sensitivity. Child Development, 2014, 85, 1019-1035.	3.0	35
78	Broad implications for respiratory sinus arrhythmia development: Associations with childhood symptoms of psychopathology in a community sample. Developmental Psychobiology, 2015, 57, 120-130.	1.6	35
79	The Infant Crying Questionnaire: Initial factor structure and validation. , 2012, 35, 876-883.		33
80	Low parental tolerance for infant crying: an underlying factor in infant sleep problems?. Journal of Sleep Research, 2016, 25, 501-507.	3.2	33
81	Life Events, Sibling Warmth, and Youths' Adjustment. Journal of Marriage and Family, 2011, 73, 902-912.	2.6	31
82	Measures of frontal functioning and the emergence of inhibitory control processes at 10 months of age. Developmental Cognitive Neuroscience, 2012, 2, 235-243.	4.0	31
83	Beyond the Bayley: Neurocognitive Assessments of Development During Infancy and Toddlerhood. Developmental Neuropsychology, 2019, 44, 220-247.	1.4	31
84	Maternal behavior predicts infant neurophysiological and behavioral attention processes in the first year Developmental Psychology, 2017, 53, 13-27.	1.6	30
85	Temperamental vulnerability to emotion dysregulation and risk for mental and physical health challenges. Development and Psychopathology, 2019, 31, 957-970.	2.3	30
86	Differentiating Processes of Control and Understanding in the Early Development of Emotion and Cognition. Social Development, 2012, 21, 1-20.	1.3	28
87	Maternal sensitivity and infant response to frustration: The moderating role of EEG asymmetry. , 2014 , 37 , 523 - 535 .		28
88	Changes in frontal EEG coherence across infancy predict cognitive abilities at age 3: The mediating role of attentional control Developmental Psychology, 2016, 52, 1341-1352.	1.6	28
89	EEG power and coherence during preschoolers' performance of an executive function battery. Developmental Psychobiology, 2011, 53, 771-784.	1.6	26
90	Neural plasticity and the development of attention: Intrinsic and extrinsic influences. Development and Psychopathology, 2015, 27, 443-457.	2.3	26

#	Article	IF	Citations
91	Neurophysiological correlates of attention behavior in early infancy: Implications for emotion regulation during early childhood. Journal of Experimental Child Psychology, 2016, 142, 245-261.	1.4	26
92	Maternal physiological dysregulation while parenting poses risk for infant attachment disorganization and behavior problems. Development and Psychopathology, 2017, 29, 245-257.	2.3	26
93	Commonality between executive functioning and effortful control related to adjustment. Journal of Applied Developmental Psychology, 2019, 60, 47-55.	1.7	26
94	Shyness and Vocabulary: The Roles of Executive Functioning and Home Environmental Stimulation. Merrill-Palmer Quarterly, 2011, 57, 105-128.	0.5	24
95	Maternal emotional support but not cognitive support during problem-solving predicts increases in cognitive flexibility in early childhood. International Journal of Behavioral Development, 2019, 43, 12-23.	2.4	24
96	Attentional fluctuations in preschoolers: Direct and indirect relations with task accuracy, academic readiness, and school performance. Journal of Experimental Child Psychology, 2018, 167, 388-403.	1.4	23
97	Measuring preschool learning engagement in the laboratory. Journal of Experimental Child Psychology, 2018, 167, 93-116.	1.4	23
98	Electroencephalogram and heart rate measures of working memory at 5 and 10 months of age Developmental Psychology, 2012, 48, 907-917.	1.6	21
99	Infant negative affect and maternal interactive behavior during the still-face procedure: the moderating role of adult attachment states of mind. Attachment and Human Development, 2014, 16, 149-173.	2.1	21
100	Externalizing Problems in Two-Year-Olds: Implications for Patterns of Social Behavior and Peers' Responses to Aggression. Early Education and Development, 1999, 10, 267-288.	2.6	19
101	Fearful Inhibition, Inhibitory Control, and Maternal Negative Behaviors During Toddlerhood Predict Internalizing Problems at Age 6. Journal of Abnormal Child Psychology, 2018, 46, 1665-1675.	3.5	17
102	Maternal behavior predicts neural underpinnings of inhibitory control in preschoolers. Developmental Psychobiology, 2018, 60, 692-706.	1.6	17
103	Reciprocal associations between executive function and academic achievement: A conceptual replication of Schmitt et al. (2017). Journal of Numerical Cognition, 2021, 7, 453-472.	1.2	17
104	Temperamental Anger and Positive Reactivity and the Development of Social Skills: Implications for Academic Competence During Preadolescence. Early Education and Development, 2018, 29, 747-761.	2.6	16
105	Modeling development of frontal electroencephalogram (EEG) asymmetry: Sex differences and links with temperament. Developmental Science, 2020, 23, e12891.	2.4	16
106	Further evidence of the limited role of candidate genes in relation to infant–mother attachment outcomes. Attachment and Human Development, 2017, 19, 76-105.	2.1	15
107	Infant frontal EEG asymmetry moderates the association between maternal behavior and toddler negative affectivity., 2019, 55, 88-99.		15
108	Cardiac vagal regulation in infancy predicts executive function and social competence in preschool: Indirect effects through language. Developmental Psychobiology, 2018, 60, 595-607.	1.6	13

#	Article	IF	CITATIONS
109	Mothers' Physiological and Affective Responding to Infant Distress: Unique Antecedents of Avoidant and Resistant Attachments. Child Development, 2019, 90, 489-505.	3.0	13
110	Associations between eating behaviors, diet quality and body mass index among adolescents. Eating Behaviors, 2020, 36, 101339.	2.0	13
111	EEG asymmetry at 10 months of age: Are temperament trait predictors different for boys and girls?. Developmental Psychobiology, 2014, 56, 1327-1340.	1.6	12
112	Executive Function Mediates the Association Between Toddler Negative Affectivity and Early Academic Achievement. Early Education and Development, 2018, 29, 641-654.	2.6	12
113	Behavioral performance and neural areas associated with memory processes contribute to math and reading achievement in 6-year-old children. Cognitive Development, 2018, 45, 141-151.	1.3	12
114	Emotion: Commentary: A Biopsychosocial Perspective on Maternal Psychopathology and the Development of Child Emotion Regulation. Journal of Personality Disorders, 2014, 28, 70-77.	1.4	11
115	Autonomic nervous system functioning in early childhood: Responses to cognitive and negatively valenced emotional challenges. Developmental Psychobiology, 2020, 62, 657-673.	1.6	11
116	Mothers' and Fathers' Reports of Their Supportive Responses to Their Children's Negative Emotions Over Time. Parenting, 2016, 16, 56-62.	1.4	10
117	Vagal Regulation of Cardiac Function in Early Childhood and Cardiovascular Risk in Adolescence. Psychosomatic Medicine, 2017, 79, 614-621.	2.0	10
118	Relations between early maternal sensitivity and toddler selfâ€regulation: Exploring variation by oxytocin and dopamine D2 receptor genes. Developmental Psychobiology, 2018, 60, 789-804.	1.6	10
119	Attentional Predictors of 5â€monthâ€olds' Performance on a Looking Aâ€notâ€B Task. Infant and Child Development, 2016, 25, 233-246.	1.5	9
120	Frontal EEG asymmetry moderates the associations between negative temperament and behavioral problems during childhood. Development and Psychopathology, 2021, 33, 1016-1025.	2.3	9
121	Mothers' and fathers' negative responsibility attributions and perceptions of children's problem behavior. Personal Relationships, 2013, 20, 719-727.	1.5	8
122	Childhood social preference and adolescent insulin resistance: Accounting for the indirect effects of obesity. Psychoneuroendocrinology, 2020, 113, 104557.	2.7	7
123	Heart Rate Dynamics During Acute Recovery From Maximal Aerobic Exercise in Young Adults. Frontiers in Physiology, 2021, 12, 627320.	2.8	7
124	Longitudinal associations between conflict monitoring and emergent academic skills: An eventâ€related potentials study. Developmental Psychobiology, 2019, 61, 495-512.	1.6	6
125	Early physiological regulation predicts the trajectory of externalizing behaviors across the preschool period. Developmental Psychobiology, 2014, 56, 1482-1491.	1.6	5
126	Getting to the heart of personality in early childhood: Cardiac electrophysiology and stability of temperament. Journal of Research in Personality, 2017, 67, 151-156.	1.7	3
