#	ARTICLE	IF	CITATIONS
1	Involuntariness of job changes is related to less satisfaction with occupational development in long-term breast cancer survivors. <i>Journal of Cancer Survivorship</i> , 2022, 16, 397-407.	1.5	5
2	Participative development and evaluation of a communication skills training program for oncologists patient perspectives on training content and teaching methods. <i>Supportive Care in Cancer</i> , 2022, 30, 1957-1966.	1.0	7
3	Prevalence and determinants of anxiety and depression in long-term breast cancer survivors. <i>BMC Psychiatry</i> , 2022, 22, 101.	1.1	36
4	Enablement of nursing home residents in infection prevention during general practitioner visits: A qualitative study. <i>PLoS ONE</i> , 2022, 17, e0266502.	1.1	0
5	Questions and emotional expressions from patients and companions while participating in multidisciplinary tumor conferences in breast and gynecological cancer centers. <i>Patient Education and Counseling</i> , 2022, 105, 2058-2066.	1.0	4
6	Patient participation in multidisciplinary tumor conferences in breast and gynecological cancer care: How patient-centered is the communication?. <i>Psycho-Oncology</i> , 2022, 31, 1597-1606.	1.0	3
7	Health literacy, mental disorders and fear of progression and their association with a need for psycho-oncological care over the course of a breast cancer treatment. <i>Psychology, Health and Medicine</i> , 2021, 26, 818-831.	1.3	12
8	Opportunities and limitations of shared decision making in multidisciplinary tumor conferences with patient participation A qualitative interview study with providers. <i>Patient Education and Counseling</i> , 2021, 104, 792-799.	1.0	13
9	No evidence to support the impact of migration background on treatment response rates and cancer survival: a retrospective matched-pair analysis in Germany. <i>BMC Cancer</i> , 2021, 21, 526.	1.1	3
10	Is patient participation in multidisciplinary tumor conferences associated with their fear of progression?. <i>Psycho-Oncology</i> , 2021, 30, 1572-1581.	1.0	0
11	Individual courses and determinants of fear of cancer recurrence in long-term breast cancer survivors with and without recurrence. <i>Supportive Care in Cancer</i> , 2021, 29, 7647-7657.	1.0	6
12	Decision-Making in Multidisciplinary Tumor Boards in Breast Cancer Care An Observational Study. <i>Journal of Multidisciplinary Healthcare</i> , 2021, Volume 14, 1275-1284.	1.1	5
13	Response to Occupational rehabilitation of male breast cancer patients: Return patterns, motives, experiences, and implications A qualitative study. <i>European Journal of Cancer Care</i> , 2021, 30, e13471.	0.7	1
14	Safety Performance of Healthcare Professionals: Validation and Use of the Adapted Workplace Health and Safety Instrument. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 7816.	1.2	5
15	Conflicting demands, coping, and adjustment: A grounded theory to understand rehabilitation processes in long-term breast cancer survivors. <i>Psycho-Oncology</i> , 2021, 30, 1957-1964.	1.0	9
16	Patient participation in multidisciplinary tumor conferences: How is it implemented? What is the patients role? What are patients experiences?. <i>Cancer Medicine</i> , 2021, 10, 6714-6724.	1.3	7
17	Is patient participation in multidisciplinary tumour conferences associated with their information needs? A multicentre prospective observational study. <i>BMJ Open</i> , 2021, 11, e049199.	0.8	1
18	Occupational rehabilitation of male breast cancer patients: Return patterns, motives, experiences, and implications A qualitative study. <i>European Journal of Cancer Care</i> , 2021, 30, e13402.	0.7	9

#	ARTICLE	IF	CITATIONS
19	Development and testing of the situational judgement test to measure safety performance of healthcare professionals: An explorative cross-sectional study. <i>Nursing Open</i> , 2021, , .	1.1	3
20	Organizational Health Literacy in a Hospital – Insights on the Patients’ Perspective. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 12646.	1.2	7
