#	Article	IF	Citations
1	Diagnostic value of platelet indices in infected nonunion: a retrospective study. Journal of Orthopaedic Surgery and Research, 2022, 17, 200.	2.3	3
2	What Is the Most Reliable Classification System to Assess Tibial Pilon Fractures?. Journal of Foot and Ankle Surgery, 2020, 59, 48-52.	1.0	4
3	Pulsed electromagnetic field (PEMF): A potential adjuvant treatment for infected nonunion. Medical Hypotheses, 2020, 136, 109506.	1.5	9
4	<p>Plasma Fibrinogen as a Diagnostic Marker of Infection in Patients with Nonunions</p> . Infection and Drug Resistance, 2020, Volume 13, 4003-4008.	2.7	5
5	Coating the plate with antibiotic cement to treat early infection after fracture fixation with retention of the implants: a technical note. BMC Musculoskeletal Disorders, 2018, 19, 360.	1.9	11
6	The association between platelet indices and deep surgical site infection after open induction internal fixation for traumatic limb fractures. Infection and Drug Resistance, 2018, Volume 11, 2533-2538.	2.7	10
7	Chronic kidney disease can increase the risk of preoperative deep vein thrombosis in middle-aged and elderly patients with hip fractures. Clinical Interventions in Aging, 2018, Volume 13, 1669-1674.	2.9	11
8	Outcomes of cement beads and cement spacers in the treatment of bone defects associated with post-traumatic osteomyelitis. BMC Musculoskeletal Disorders, 2017, 18, 256.	1.9	20
9	Antibiotic-impregnated cement spacer as definitive management for osteomyelitis. BMC Musculoskeletal Disorders, 2015, 16, 254.	1.9	18
10	Locking plate as a definitive external fixator for treating tibial fractures with compromised soft tissue envelop. Archives of Orthopaedic and Trauma Surgery, 2014, 134, 383-388.	2.4	24
11	Early application of pulsed electromagnetic field in the treatment of postoperative delayed union of long-bone fractures: a prospective randomized controlled study. BMC Musculoskeletal Disorders, 2013, 14, 35.	1.9	74
