#	ARTICLE	IF	CITATIONS
1	The congenitally bicuspid aortic valve. American Journal of Cardiology, 1970, 26, 72-83.	0.7	881
2	Frequency by Decades of Unicuspid, Bicuspid, and Tricuspid Aortic Valves in Adults Having Isolated Aortic Valve Replacement for Aortic Stenosis, With or Without Associated Aortic Regurgitation. Circulation, 2005, 111, 920-925.	1.6	833
3	Sarcoidosis of the heart. American Journal of Medicine, 1977, 63, 86-108.	0.6	763
4	The heart in systemic lupus erythematosus and the changes induced in it by corticosteroid therapy. American Journal of Medicine, 1975, 58, 243-264.	0.6	646
5	Aortic dissection: Anatomy, consequences, and causes. American Heart Journal, 1981, 101, 195-214.	1.2	498
6	Major anomalies of coronary arterial origin seen in adulthood. American Heart Journal, 1986, 111, 941-963.	1.2	490
7	Idiopathic dilated Cardiomyopathy: Analysis of 152 necropsy patients. American Journal of Cardiology, 1987, 60, 1340-1355.	0.7	459
8	Clinical Outcome and Phenotypic Expression in <i>LAMP2</i> Cardiomyopathy. JAMA - Journal of the American Medical Association, 2009, 301, 1253.	3.8	297
9	Cardiac amyloidosis causing cardiac dysfunction: Analysis of 54 necropsy patients. American Journal of Cardiology, 1983, 52, 137-146.	0.7	294
10	Dissection of the aorta associated with congenital malformation of the aortic valve. Journal of the American College of Cardiology, 1991, 17, 712-716.	1.2	260
11	Ankylosing Spondylitis and Aortic Regurgitation. Circulation, 1973, 48, 1014-1027.	1.6	249
12	The spectrum of cardiovascular disease in the Marfan syndrome: A clinico-morphologic study of 18 necropsy patients and comparison to 151 previously reported necropsy patients. American Heart Journal, 1982, 104, 115-135.	1.2	245
13	Quantitative analysis of amounts of coronary arterial narrowing in cocaine addicts. American Journal of Cardiology, 1990, 65, 303-308.	0.7	220
14	Cardiac disease in patients with mucopolysaccharidosis: presentation, diagnosis and management. Journal of Inherited Metabolic Disease, 2011, 34, 1183-1197.	1.7	217
15	Quantitation of coronary arterial narrowing at necropsy in sudden coronary death. American Journal of Cardiology, 1979, 44, 39-45.	0.7	213
16	Cardiovascular features of homozygous familial hypercholesterolemia: Analysis of 16 patients. American Journal of Cardiology, 1984, 54, 20-30.	0.7	212
17	Cardiac ultrastructural changes induced by daunorubicin therapy. Cancer, 1973, 32, 771-788.	2.0	209
18	The Structure of the Aortic Valve in Clinically Isolated Aortic Stenosis. Circulation, 1970, 42, 91-97.	1.6	194

#	ARTICLE	IF	CITATIONS
19	The senile cardiac calcification syndrome. American Journal of Cardiology, 1986, 58, 572-574.	0.7	191
20	The heart in acute leukemia A study of 420 autopsy cases. American Journal of Cardiology, 1968, 21, 388-412.	0.7	184
21	Coronary arterial disease in systemic lupus erythematosus. American Journal of Medicine, 1981, 70, 775-781.	0.6	183
22	Right-sided valvular infective endocarditis. American Journal of Medicine, 1972, 53, 7-19.	0.6	181
23	Frequency of rupture of the left ventricular free wall or ventricular septum among necropsy cases of fatal acute myocardial infarction since introduction of coronary care units. American Journal of Cardiology, 1989, 63, 906-911.	0.7	177
24	Serial electrocardiographic changes in idiopathic dilated cardiomyopathy confirmed at necropsy. American Journal of Cardiology, 1988, 62, 276-283.	0.7	174
25	Quantitative measurement of normal and excessive (cor adiposum) subepicardial adipose tissue, its clinical significance, and its effect on electrocardiographic QRS voltage. American Journal of Cardiology, 1995, 76, 414-418.	0.7	165
26	The extramural and intramural coronary arteries in juvenile diabetes mellitus. American Journal of Medicine, 1978, 64, 221-230.	0.6	159
27	Effects of percutaneous transluminal coronary angioplasty on atherosclerotic plaques and relation of plaque composition and arterial size to outcome. American Journal of Cardiology, 1988, 62, 41-50.	0.7	155
28	Acute Severe Mitral Regurgitation Secondary to Ruptured Chordae Tendineae. Circulation, 1966, 33, 58-70.	1.6	153
29	The carcinoid syndrome: Comparison of 21 necropsy subjects with carcinoid heart disease to 15 necropsy subjects without carcinoid heart disease. American Journal of Medicine, 1985, 79, 339-354.	0.6	150
30	Clinical, electrocardiographic and morphologic features of massive fatty deposits (xanthomatous) Tj ETQq 0 0 rgBT /Overlock 10 Tf 5	1.2	149
31	Detailed anatomy of the normally functioning aortic valve in hearts of normal and increased weight. American Journal of Cardiology, 1985, 55, 454-461.	0.7	139
32	Morphologic findings in saphenous veins used as coronary arterial bypass conduits for longer than 1 year: Necropsy analysis of 53 patients, 123 saphenous veins, and 1865 five-millimeter segments of veins. American Heart Journal, 1990, 119, 1164-1184.	1.2	132
33	Morphologic comparison of frequency and types of acute lesions in the major epicardial coronary arteries in unstable angina pectoris, sudden coronary death and acute myocardial infarction. Journal of the American College of Cardiology, 1991, 18, 801-808.	1.2	130
34	Congenitally bicuspid aortic valve causing severe, pure aortic regurgitation without superimposed infective endocarditis. American Journal of Cardiology, 1981, 47, 206-209.	0.7	117
35	Pseudoaneurysm of the left ventricle. American Journal of Medicine, 1967, 43, 639-644.	0.6	116
36	The heart in the Hurler syndrome. American Journal of Cardiology, 1976, 38, 487-501.	0.7	108

#	ARTICLE	IF	CITATIONS
37	Sudden coronary death: Relation of amount and distribution of coronary narrowing at necropsy to previous symptoms of myocardial ischemia, left ventricular scarring and heart weight. American Journal of Cardiology, 1984, 54, 65-73.	0.7	108
38	Vitamin D and the Supravalvar Aortic Stenosis Syndrome. Circulation, 1966, 34, 77-86.	1.6	106
39	Open issues in transcatheter aortic valve implantation. Part 2: procedural issues and outcomes after transcatheter aortic valve implantation. European Heart Journal, 2014, 35, 2639-2654.	1.0	105
40	Congenital Aortic Stenosis Resulting From a Unicommisural Valve. Circulation, 1971, 44, 272-280.	1.6	103
41	Morphometric analysis of the composition of coronary arterial plaques in isolated unstable angina pectoris with pain at rest. American Journal of Cardiology, 1990, 66, 562-567.	0.7	103
42	Rupture of the left ventricular free wall during acute myocardial infarction: Analysis of 138 necropsy patients and comparison with 50 necropsy patients with acute myocardial infarction without rupture. American Journal of Cardiology, 1988, 62, 847-859.	0.7	100
43	Open issues in transcatheter aortic valve implantation. Part 1: patient selection and treatment strategy for transcatheter aortic valve implantation. European Heart Journal, 2014, 35, 2627-2638.	1.0	96
44	Aortic Dissection with the Entrance Tear in the Descending Thoracic Aorta Analysis of 40 Necropsy Patients. Annals of Surgery, 1991, 213, 356-368.	2.1	95
45	The heart in massive (more than 300 pounds or 136 kilograms) obesity: Analysis of 12 patients studied at necropsy. American Journal of Cardiology, 1984, 54, 1087-1091.	0.7	92
46	Rupture of a left ventricular papillary muscle during acute myocardial infarction: Analysis of 22 necropsy patients. Journal of the American College of Cardiology, 1986, 8, 558-565.	1.2	92
47	Aortic valve atresia: A new classification based on necropsy study of 73 cases. American Journal of Cardiology, 1976, 37, 753-756.	0.7	91
48	Electrocardiographic observations in severe aortic valve stenosis: Correlative necropsy study to clinical, hemodynamic, and ECG variables demonstrating relation of 12-lead QRS amplitude to peak systolic transaortic pressure gradient. American Heart Journal, 1982, 103, 210-221.	1.2	89
49	True left ventricular aneurysm and healed myocardial infarction. American Journal of Cardiology, 1980, 46, 754-763.	0.7	83
50	Operative therapy of coronary arterial aneurysm. American Journal of Cardiology, 1999, 83, 1290-1293.	0.7	78
51	â€œMitral stenosisâ€-secondary to combined â€œmassiveâ€-mitral anular calcific deposits and small, hypertrophied left ventricles. American Journal of Medicine, 1978, 64, 371-376.	0.6	77
52	Comparison in women versus men of composition of atherosclerotic plaques in native coronary arteries and in saphenous veins used as aortocoronary conduits. Journal of the American College of Cardiology, 1993, 21, 1312-1318.	1.2	77
53	Gaucher's Disease of the Lung Causing Severe Pulmonary Hypertension with Associated Acute Recurrent Pericarditis. Circulation, 1967, 35, 783-789.	1.6	76
54	Composition of atherosclerotic plaques in coronary arteries in women <40 years of age with fatal coronary artery disease and implications for plaque reversibility. American Journal of Cardiology, 1991, 67, 1223-1227.	0.7	76

#	ARTICLE	IF	CITATIONS
55	Advanced Heart Failure With Preserved Systolic Function in Nonobstructive Hypertrophic Cardiomyopathy. <i>Circulation: Heart Failure</i> , 2014, 7, 967-975.	1.6	71
56	Cardiac Sarcoidosis. <i>Chest</i> , 1980, 77, 423-428.	0.4	70
57	Quantitative comparison of extent of coronary narrowing and size of healed myocardial infarct in 33 necropsy patients with clinically recognized and in 28 with clinically unrecognized (â€œsilentâ€œ) previous acute myocardial infarction. <i>American Journal of Cardiology</i> , 1982, 50, 677-681.	0.7	68
58	Qualitative and quantitative comparison of amounts of narrowing by atherosclerotic plaques in the major epicardial coronary arteries at necropsy in sudden coronary death, transmural acute myocardial infarction, transmural healed myocardial infarction and unstable angina pectoris. <i>American Journal of Cardiology</i> , 1989, 64, 324-328.	0.7	68
59	Clinicopathologic features of hypertrophic cardiomyopathy managed by cardiac transplantation. <i>American Journal of Cardiology</i> , 1993, 72, 434-440.	0.7	68
60	Myocardial biopsy: A useful diagnostic procedure or only a research tool?. <i>American Journal of Cardiology</i> , 1978, 41, 965-967.	0.7	67
61	Acquired ventricular septal defect during acute myocardial infarction: Analysis of 38 unoperated necropsy patients and comparison with 50 unoperated necropsy patients without rupture. <i>American Journal of Cardiology</i> , 1988, 62, 8-19.	0.7	66
62	Healed left-sided infective endocarditis: A clinicopathologic study of 59 patients. <i>American Journal of Cardiology</i> , 1977, 40, 876-888.	0.7	64
63	Coronary artery disease in the hurler syndrome. <i>American Journal of Cardiology</i> , 1981, 47, 649-653.	0.7	63
64	Significance of Late Gadolinium Enhancement at Right Ventricular Attachment to Ventricular Septum in Patients With Hypertrophic Cardiomyopathy. <i>American Journal of Cardiology</i> , 2015, 116, 436-441.	0.7	62
65	International consensus statement on nomenclature and classification of the congenital bicuspid aortic valve and its aortopathy, for clinical, surgical, interventional and research purposes. <i>European Journal of Cardio-thoracic Surgery</i> , 2021, 60, 448-476.	0.6	61
66	Quantification of coronary arterial narrowing in clinically-isolated unstable angina pectoris. <i>American Journal of Medicine</i> , 1979, 67, 792-799.	0.6	59
67	Juxtaductal aortic coarctation. <i>American Journal of Cardiology</i> , 1983, 51, 537-551.	0.7	58
68	Comparison of coronary and myocardial morphologic findings in patients with and without thrombolytic therapy during fatal first acute myocardial infarction. <i>American Journal of Cardiology</i> , 1990, 66, 904-909.	0.7	57
69	Mechanisms of severe mitral regurgitation in mitral valve prolapse determined from analysis of operatively excised valves. <i>American Heart Journal</i> , 1987, 113, 1316-1323.	1.2	56
70	Idiopathic panaortitis, supra-aortic arteritis, granulomatous myocarditis and pericarditis. <i>American Journal of Medicine</i> , 1966, 41, 453-461.	0.6	55
71	Usefulness of total 12-lead qrs voltage compared with other criteria for determining left ventricular hypertrophy in hypertrophic cardiomyopathy: analysis of 57 patients studied at necropsy. <i>American Journal of Medicine</i> , 1989, 87, 377-381.	0.6	55
72	Active infective endocarditis: A clinicopathologic analysis of 137 necropsy patients. <i>Current Problems in Cardiology</i> , 1976, 1, 1-75.	1.1	54

#	ARTICLE	IF	CITATIONS
73	The floating heart or the heart too fat to sink: Analysis of 55 necropsy patients. American Journal of Cardiology, 1983, 52, 1286-1289.	0.7	54
74	Combined mitral and aortic regurgitation in ankylosing spondylitis. American Journal of Medicine, 1974, 56, 237-243.	0.6	53
75	Severe atherosclerotic coronary artery disease, healed myocardial infarction and chronic congestive heart failure: analysis of 81 patients studied at necropsy. American Journal of Cardiology, 1986, 57, 44-50.	0.7	53
76	Amounts of coronary arterial narrowing by atherosclerotic plaque at necropsy in patients with lower extremity amputation. American Journal of Cardiology, 1992, 70, 1147-1151.	0.7	53
77	Quadrivalvular rheumatoid heart disease associated with left bundle branch block. American Journal of Medicine, 1967, 43, 922-929.	0.6	51
78	Quantification of coronary arterial narrowing and of left ventricular myocardial scarring in healed myocardial infarction with chronic, eventually fatal, congestive cardiac failure. American Journal of Medicine, 1980, 68, 831-838.	0.6	50
79	Mode of death, frequency of healed and acute myocardial infarction, number of major epicardial coronary arteries severely narrowed by atherosclerotic plaque, and heart weight in fatal atherosclerotic coronary artery disease: Analysis of 889 patients studied at necropsy. Journal of the American College of Cardiology, 1990, 15, 196-203.	1.2	50
80	Amount of narrowing by atherosclerotic plaque in 44 nonbypassed and 52 bypassed major epicardial coronary arteries in 32 necropsy patients who died within 1 month of aortocoronary bypass grafting. American Journal of Cardiology, 1980, 46, 956-962.	0.7	47
81	Myocarditis or acute myocardial infarction associated with interleukin-2 therapy for cancer. Cancer, 1990, 66, 1513-1516.	2.0	47
82	Syphilis as a Cause of Thoracic Aortic Aneurysm. American Journal of Cardiology, 2015, 116, 1298-1303.	0.7	47
83	International consensus statement on nomenclature and classification of the congenital bicuspid aortic valve and its aortopathy, for clinical, surgical, interventional and research purposes. Journal of Thoracic and Cardiovascular Surgery, 2021, 162, e383-e414.	0.4	47
84	Composition of atherosclerotic plaques in the four major epicardial coronary arteries in patients ≥ 90 years of age. American Journal of Cardiology, 1991, 67, 1228-1233.	0.7	45
85	Extravasated erythrocytes, iron, and fibrin in atherosclerotic plaques of coronary arteries in fatal coronary heart disease and their relation to luminal thrombus: Frequency and significance in 57 necropsy patients and in 2958 five mm segments of 224 major epicardial coronary arteries. American Heart Journal, 1983, 105, 788-797.	1.2	43
86	Relation of weights of operatively excised stenotic aortic valves to preoperative transvalvular peak systolic pressure gradients and to calculated aortic valve areas. Journal of the American College of Cardiology, 2004, 44, 1847-1855.	1.2	42
87	A Review of Spontaneous Closure of Ventricular Septal Defect. Baylor University Medical Center Proceedings, 2015, 28, 516-520.	0.2	41
88	Severe aortic regurgitation secondary to idiopathic aortitis. American Journal of Medicine, 1977, 63, 623-633.	0.6	40
89	Plaque Characterization of Atherosclerotic Coronary Arteries by Intravascular Ultrasound. Echocardiography, 1990, 7, 389-395.	0.3	40
90	Morphologic aspects of cardiac valve dysfunction. American Heart Journal, 1992, 123, 1610-1632.	1.2	40

#	ARTICLE	IF	CITATIONS
91	Comparison of Clinical and Morphologic Cardiac Findings in Patients Having Cardiac Transplantation for Ischemic Cardiomyopathy, Idiopathic Dilated Cardiomyopathy, and Dilated Hypertrophic Cardiomyopathy. <i>American Journal of Cardiology</i> , 1998, 81, 884-894.	0.7	40
92	Comparison of composition of atherosclerotic plaques in saphenous veins used as aortocoronary bypass conduits with plaques in native coronary arteries in the same men. <i>American Journal of Cardiology</i> , 1992, 70, 1380-1387.	0.7	39
93	Morphologic Features of Cardiac Sarcoidosis in Native Hearts of Patients Having Cardiac Transplantation. <i>American Journal of Cardiology</i> , 2014, 113, 706-712.	0.7	39
94	Relation of size of transmural acute myocardial infarct to mode of death, interval between infarction and death and frequency of coronary arterial thrombus. <i>American Journal of Cardiology</i> , 1986, 57, 1249-1254.	0.7	37
95	Heart transplantation for undiagnosed cardiac sarcoidosis. <i>American Journal of Cardiology</i> , 2002, 89, 1447-1450.	0.7	37
96	Comparison of Total 12-Lead QRS Voltage in a Variety of Cardiac Conditions and Its Usefulness in Predicting Increased Cardiac Mass. <i>American Journal of Cardiology</i> , 2013, 112, 904-909.	0.7	36
97	Relation of serum total cholesterol and triglyceride levels to the amount and extent of coronary arterial narrowing by atherosclerotic plaque in coronary heart disease. <i>American Journal of Medicine</i> , 1982, 73, 227-234.	0.6	34
98	Gross and Histological Features of Excised Portions of Posterior Mitral Leaflet in Patients Having Operative Repair of Mitral Valve Prolapse and Comments on the Concept of Missing (= Ruptured) Chordae Tendineae. <i>Journal of the American College of Cardiology</i> , 2014, 63, 1667-1674.	1.2	34
99	Morphologic Features of the Recipient Heart in Patients Having Cardiac Transplantation and Analysis of the Congruence or Incongruence Between the Clinical and Morphologic Diagnoses. <i>Medicine (United States)</i> , 2014, 93, 211-235.	0.4	34
100	Calcific Pulmonic Stenosis. <i>Circulation</i> , 1968, 37, 973-978.	1.6	33
101	Cardiac morphologic findings in patients with acute myocardial infarction treated with recombinant tissue plasminogen activator. <i>American Journal of Cardiology</i> , 1990, 65, 953-961.	0.7	33
102	Fatal rupture of both left ventricular free wall and ventricular septum (double rupture) during acute myocardial infarction: Analysis of seven patients studied at necropsy. <i>American Journal of Cardiology</i> , 1987, 60, 722-724.	0.7	32
103	Composition of atherosclerotic plaques in the epicardial coronary arteries in juvenile (Type I) diabetes mellitus. <i>American Journal of Cardiology</i> , 1992, 70, 1264-1268.	0.7	32
104	QRS voltage measurements in autopsied men free of cardiopulmonary disease: A basis for evaluating total QRS voltage as an index of left ventricular hypertrophy. <i>American Journal of Cardiology</i> , 1986, 58, 801-804.	0.7	31
105	The prepulseless phase of pulseless disease, or pulseless disease with pulses. <i>American Journal of Medicine</i> , 1969, 46, 313-324.	0.6	30
106	Electrocardiographic observations in clinically isolated, pure, chronic, severe aortic regurgitation: Analysis of 30 necropsy patients aged 19 to 65 years. <i>American Journal of Cardiology</i> , 1985, 55, 432-438.	0.7	30
107	Mitral valve annular calcium forming a complete circle or C-shaped configuration: Clinical and necropsy observations. <i>American Heart Journal</i> , 1981, 101, 619-621.	1.2	29
108	Comparison at necropsy by age group of amount and distribution of narrowing by atherosclerotic plaque in 2995 five-mm long segments of 240 major coronary arteries in 60 men aged 31 to 70 years with sudden coronary death. <i>American Heart Journal</i> , 1984, 108, 431-435.	1.2	29
