#	Paper	IF	Citations
25	Development and Psychometric Testing of a Knowledge Instrument on Incontinence-Associated Dermatitis for Clinicians: The Know-IAD.. <i>Journal of Wound, Ostomy and Continence Nursing</i> , 2022 , 49, 70-77	1.7	2
24	Efficacy of a heel offloading boot in reducing heel pressure injuries in patients in Australian intensive care units: A single-blinded randomised controlled trial.. <i>Intensive and Critical Care Nursing</i> , 2022 , 103205	3.1	
23	Clinician Knowledge of Incontinence-Associated Dermatitis: A Multisite Survey of Healthcare Professionals in Acute and Subacute Settings.. <i>Journal of Wound, Ostomy and Continence Nursing</i> , 2022 , 49, 159-167	1.7	
22	The costs, health outcomes and cost-effectiveness of interventions for the prevention and treatment of incontinence-associated dermatitis: A systematic review.. <i>International Journal of Nursing Studies</i> , 2022 , 129, 104216	5.8	
21	Device-related pressure ulcers: SECURE prevention. Second edition. <i>Journal of Wound Care</i> , 2022 , 31, S1-S72	2.2	1
20	Implementing best available evidence into practice for incontinence-associated dermatitis in Australia: A multisite multimethod study protocol. <i>Journal of Tissue Viability</i> , 2021 , 30, 67-77	3.2	3
19	Prevalence, associated factors and outcomes of pressure injuries in adult intensive care unit patients: the DecubiCUs study. <i>Intensive Care Medicine</i> , 2021 , 47, 160-169	14.5	27
18	Device-related pressure injuries in adult intensive care unit patients: An Australian and New Zealand point prevalence study. <i>Australian Critical Care</i> , 2021 , 34, 561-568	2.9	1
17	Understanding Skin Failure: A Scoping Review. <i>Advances in Skin and Wound Care</i> , 2021 , 34, 542-550	1.5	3
16	Protecting prone positioned patients from facial pressure ulcers using prophylactic dressings: A timely biomechanical analysis in the context of the COVID-19 pandemic. <i>International Wound Journal</i> , 2020 , 17, 1595-1606	2.6	24
15	Device-related pressure ulcers: SECURE prevention. <i>Journal of Wound Care</i> , 2020 , 29, S1-S52	2.2	67
14	Pressure injury prevention for COVID-19 patients in a prone position. <i>Wound Practice and Research</i> , 2020 , 28,	0.5	3
13	Maintaining skin health and integrity for staff wearing personal protective equipment for prolonged periods: a practical tip sheet. <i>Wound Practice and Research</i> , 2020 , 28,	0.5	5
12	Systemwide Practice Change Program to Combat Hospital-Acquired Pressure Injuries: Translating Knowledge Into Practice. <i>Journal of Nursing Care Quality</i> , 2020 , 35, 51-57	1.7	7
11	The incidence and prevalence of medical device-related pressure ulcers in intensive care: a systematic review. <i>Journal of Wound Care</i> , 2019 , 28, 512-521	2.2	31
10	Costs and consequences of an intervention-based program to reduce hospital-acquired pressure injuries in one health district in Australia. <i>Australian Health Review</i> , 2019 , 43, 516-525	1.8	4
9	A qualitative study of the thoughts and experiences of hospital nurses providing pressure injury prevention and management. <i>Collegian</i> , 2019 , 26, 95-102	1.6	3

8	Getting lower leg ulcer evidence into primary health care nursing practice: a case study. <i>Wound Practice and Research</i> , 2019 , 27, 78-85	0.5	0
7	Evaluation of a fluidised positioner to reduce occipital pressure injuries in intensive care patients: A pilot study. <i>International Wound Journal</i> , 2019 , 16, 424-432	2.6	7
6	Knowledge and Attitudes of Nurses Toward Pressure Injury Prevention: A Cross-Sectional Multisite Study. <i>Journal of Wound, Ostomy and Continence Nursing</i> , 2018 , 45, 233-237	1.7	25
5	Incontinence, Incontinence-Associated Dermatitis, and Pressure Injuries in a Health District in Australia: A Mixed-Methods Study. <i>Journal of Wound, Ostomy and Continence Nursing</i> , 2018 , 45, 349-355	1.7	18
4	Hospital-acquired pressure injuries: Are they accurately reported? A prospective descriptive study in a large tertiary hospital in Australia. <i>Journal of Tissue Viability</i> , 2018 , 27, 203-210	3.2	13
3	Cultivating Incontinence-associated Dermatitis Prevention Practices in an Australian Local Health District: A Quasi-experimental Study. <i>Ostomy - Wound Management</i> , 2018 , 64, 16-28		5
2	Cultivating Incontinence-associated Dermatitis Prevention Practices in an Australian Local Health District: A Quasi-experimental Study. <i>Ostomy - Wound Management</i> , 2018 , 64, 16-28		
1	Medical device-related pressure injuries: An exploratory descriptive study in an acute tertiary hospital in Australia. <i>Journal of Tissue Viability</i> , 2017 , 26, 246-253	3.2	39
