1	Facial attractiveness: evolutionary based research. Philosophical Transactions of the Royal Society B: Biological Sciences, 2011, 366, 1638-1659.	1.8	668
2	Facial appearance affects voting decisions. Evolution and Human Behavior, 2007, 28, 18-27.	1.4	358
3	Partnership status and the temporal context of relationships influence human female preferences for sexual dimorphism in male face shape. Proceedings of the Royal Society B: Biological Sciences, 2002, 269, 1095-1100.	1.2	356
4	Manipulations of fundamental and formant frequencies influence the attractiveness of human male voices. Animal Behaviour, 2005, 69, 561-568.	0.8	331
5	Menstrual cycle, trait estrogen level, and masculinity preferences in the human voice. Hormones and Behavior, 2006, 49, 215-222.	1.0	308
6	Symmetry, sexual dimorphism in facial proportions and male facial attractiveness. Proceedings of the Royal Society B: Biological Sciences, 2001, 268, 1617-1623.	1.2	307
7	Facial appearance is a cue to oestrogen levels in women. Proceedings of the Royal Society B: Biological Sciences, 2006, 273, 135-140.	1.2	290
8	Facial symmetry and judgements of apparent health. Evolution and Human Behavior, 2001, 22, 417-429.	1.4	276
9	Female condition influences preferences for sexual dimorphism in faces of male humans (Homo) Tj ETQq1 1 0.784314 rgBT /Overlock 10	0.3	259
10	Commitment to relationships and preferences for femininity and apparent health in faces are strongest on days of the menstrual cycle when progesterone level is high. Hormones and Behavior, 2005, 48, 283-290.	1.0	239
11	Facial correlates of sociosexuality. Evolution and Human Behavior, 2008, 29, 211-218.	1.4	238
12	The health of a nation predicts their mate preferences: cross-cultural variation in women's preferences for masculinized male faces. Proceedings of the Royal Society B: Biological Sciences, 2010, 277, 2405-2410.	1.2	237
13	Correlated preferences for facial masculinity and ideal or actual partner's masculinity. Proceedings of the Royal Society B: Biological Sciences, 2006, 273, 1355-1360.	1.2	222
14	When Facial Attractiveness is Only Skin Deep. Perception, 2004, 33, 569-576.	0.5	215
15	Raised salivary testosterone in women is associated with increased attraction to masculine faces. Hormones and Behavior, 2007, 52, 156-161.	1.0	212
16	The Psychological Science Accelerator: Advancing Psychology Through a Distributed Collaborative Network. Advances in Methods and Practices in Psychological Science, 2018, 1, 501-515.	5.4	203
17	Female facial attractiveness increases during the fertile phase of the menstrual cycle. Proceedings of the Royal Society B: Biological Sciences, 2004, 271, S270-2.	1.2	202
18	Menstrual cycle, pregnancy and oral contraceptive use alter attraction to apparent health in faces. Proceedings of the Royal Society B: Biological Sciences, 2005, 272, 347-354.	1.2	183

#	ARTICLE	IF	CITATIONS
19	Sex-contingent face after-effects suggest distinct neural populations code male and female faces. Proceedings of the Royal Society B: Biological Sciences, 2005, 272, 2283-2287.	1.2	182
20	Preferences for masculinity in male bodies change across the menstrual cycle. Hormones and Behavior, 2007, 51, 633-639.	1.0	177
21	Effects of Menstrual Cycle Phase on Face Preferences. Archives of Sexual Behavior, 2008, 37, 78-84.	1.2	173
22	The Role of Femininity and Averageness of Voice Pitch in Aesthetic Judgments of Women's Voices. Perception, 2008, 37, 615-623.	0.5	166
23	A domain-specific opposite-sex bias in human preferences for manipulated voice pitch. Animal Behaviour, 2010, 79, 57-62.	0.8	165
24	MHC-heterozygosity and human facial attractiveness. Evolution and Human Behavior, 2005, 26, 213-226.	1.4	163
25	Correlated preferences for men's facial and vocal masculinity. Evolution and Human Behavior, 2008, 29, 233-241.	1.4	159
26	Sexual Selection on Human Faces and Voices. Journal of Sex Research, 2012, 49, 227-243.	1.6	159
27	Vocal indicators of body size in men and women: a meta-analysis. Animal Behaviour, 2014, 95, 89-99.	0.8	158
28	Social Perception of Facial Resemblance in Humans. Archives of Sexual Behavior, 2008, 37, 64-77.	1.2	157
29	Partner characteristics associated with masculinity, health and maturity in male faces. Personality and Individual Differences, 2007, 43, 1161-1173.	1.6	156
30	Facial cues of dominance modulate the short-term gaze-cuing effect in human observers. Proceedings of the Royal Society B: Biological Sciences, 2010, 277, 617-624.	1.2	156
31	Kin recognition signals in adult faces. Vision Research, 2009, 49, 38-43.	0.7	153
32	Symmetry Is Related to Sexual Dimorphism in Faces: Data Across Culture and Species. PLoS ONE, 2008, 3, e2106.	1.1	148
33	No Compelling Evidence that Preferences for Facial Masculinity Track Changes in Women's Hormonal Status. Psychological Science, 2018, 29, 996-1005.	1.8	145
34	Visual adaptation to masculine and feminine faces influences generalized preferences and perceptions of trustworthiness. Evolution and Human Behavior, 2006, 27, 381-389.	1.4	134
35	Human preferences for facial masculinity change with relationship type and environmental harshness. Behavioral Ecology and Sociobiology, 2007, 61, 967-973.	0.6	133
36	Salience of emotional displays of danger and contagion in faces is enhanced when progesterone levels are raised. Hormones and Behavior, 2007, 51, 202-206.	1.0	130

#	Article	IF	Citations
37	Social transmission of face preferences among humans. Proceedings of the Royal Society B: Biological Sciences, 2007, 274, 899-903.	1.2	129
38	Exposure to visual cues of pathogen contagion changes preferences for masculinity and symmetry in opposite-sex faces. Proceedings of the Royal Society B: Biological Sciences, 2011, 278, 2032-2039.	1.2	126
39	Integrating Gaze Direction and Expression in Preferences for Attractive Faces. Psychological Science, 2006, 17, 588-591.	1.8	123
40	Women's attractiveness judgments of self-resembling faces change across the menstrual cycle. Hormones and Behavior, 2005, 47, 379-383.	1.0	116
41	The voice and face of woman: One ornament that signals quality?. Evolution and Human Behavior, 2005, 26, 398-408.	1.4	115
42	Men report stronger attraction to femininity in women's faces when their testosterone levels are high. Hormones and Behavior, 2008, 54, 703-708.	1.0	111
43	Evidence against perceptual bias views for symmetry preferences in human faces. Proceedings of the Royal Society B: Biological Sciences, 2003, 270, 1759-1763.	1.2	105
44	Are attractive men's faces masculine or feminine? The importance of controlling confounds in face stimuli.. Journal of Experimental Psychology: Human Perception and Performance, 2010, 36, 751-758.	0.7	105
45	Category contingent aftereffects for faces of different races, ages and species. Cognition, 2008, 106, 1537-1547.	1.1	101
46	Preferences for symmetry in faces change across the menstrual cycle. Biological Psychology, 2007, 76, 209-216.	1.1	100
47	A flicker paradigm for inducing change blindness reveals alcohol and cannabis information processing biases in social users. Addiction, 2003, 98, 235-244.	1.7	99
48	Concordant preferences for opposite–sex signals? Human pheromones and facial characteristics. Proceedings of the Royal Society B: Biological Sciences, 2004, 271, 635-640.	1.2	98
49	Preferences for variation in masculinity in real male faces change across the menstrual cycle: Women prefer more masculine faces when they are more fertile. Personality and Individual Differences, 2008, 45, 478-482.	1.6	98
50	Individual differences in dominance perception: Dominant men are less sensitive to facial cues of male dominance. Personality and Individual Differences, 2010, 49, 967-971.	1.6	97
51	Human preference for masculinity differs according to context in faces, bodies, voices, and smell. Behavioral Ecology, 2011, 22, 862-868.	1.0	95
52	Women's preferences for masculinity in male faces are predicted by pathogen disgust, but not by moral or sexual disgust. Evolution and Human Behavior, 2010, 31, 69-74.	1.4	92
53	General sexual desire, but not desire for uncommitted sexual relationships, tracks changes in women's hormonal status. Psychoneuroendocrinology, 2018, 88, 153-157.	1.3	91
54	Integrating cues of social interest and voice pitch in men's preferences for women's voices. Biology Letters, 2008, 4, 192-194.	1.0	90

#	Article	IF	Citations
55	Taller men are less sensitive to cues of dominance in other men. Behavioral Ecology, 2010, 21, 943-947.	1.0	90
56	Dissociating averageness and attractiveness: Attractive faces are not always average.. Journal of Experimental Psychology: Human Perception and Performance, 2007, 33, 1420-1430.	0.7	87
57	The relationship between shape symmetry and perceived skin condition in male facial attractiveness. Evolution and Human Behavior, 2004, 25, 24-30.	1.4	86
58	Maternal tendencies in women are associated with estrogen levels and facial femininity. Hormones and Behavior, 2012, 61, 12-16.	1.0	85
59	To which world regions does the valence–dominance model of social perception apply?. Nature Human Behaviour, 2021, 5, 159-169.	6.2	85
60	The perception of attractiveness and trustworthiness in male faces affects hypothetical voting decisions differently in wartime and peacetime scenarios. Quarterly Journal of Experimental Psychology, 2012, 65, 2018-2032.	0.6	84
61	Circum-menopausal effects on women's judgements of facial attractiveness. Biology Letters, 2009, 5, 62-64.	1.0	83
62	Social influence in human face preference: men and women are influenced more for long-term than short-term attractiveness decisions. Evolution and Human Behavior, 2008, 29, 140-146.	1.4	81
63	Self-rated attractiveness predicts individual differences in women's preferences for masculine men's voices. Personality and Individual Differences, 2008, 45, 451-456.	1.6	81
64	Sleep-Related Attentional Bias in Good, Moderate, and Poor (Primary Insomnia) Sleepers.. Journal of Abnormal Psychology, 2005, 114, 249-258.	2.0	80
65	Sex-contingent face aftereffects depend on perceptual category rather than structural encoding. Cognition, 2008, 107, 353-365.	1.1	78
66	MHC-assortative facial preferences in humans. Biology Letters, 2005, 1, 400-403.	1.0	75
67	Symmetry and sexual dimorphism in human faces: interrelated preferences suggest both signal quality. Behavioral Ecology, 2008, 19, 902-908.	1.0	74
68	Sex-Dimorphic Face Shape Preference in Heterosexual and Homosexual Men and Women. Archives of Sexual Behavior, 2010, 39, 1289-1296.	1.2	70
69	Oral contraceptive use in women changes preferences for male facial masculinity and is associated with partner facial masculinity. Psychoneuroendocrinology, 2013, 38, 1777-1785.	1.3	70
70	Experimental evidence that women speak in a higher voice pitch to men they find attractive. Journal of Evolutionary Psychology, 2011, 9, 57-67.	1.4	68
71	Women's preferences for masculinity in male faces are highest during reproductive age range and lower around puberty and post-menopause. Psychoneuroendocrinology, 2010, 35, 912-920.	1.3	67
72	Ovulation, Sex Hormones, and Women's Mating Psychology. Trends in Cognitive Sciences, 2019, 23, 51-62.	4.0	67

#	ARTICLE	IF	CITATIONS
73	Facial masculinity is related to perceived age but not perceived health. Evolution and Human Behavior, 2005, 26, 417-431.	1.4	65
74	Cues to the sex ratio of the local population influence women's preferences for facial symmetry. Animal Behaviour, 2012, 83, 545-553.	0.8	65
75	Further evidence for regional variation in women's masculinity preferences. Proceedings of the Royal Society B: Biological Sciences, 2011, 278, 813-814.	1.2	64
76	Faking it: deliberately altered voice pitch and vocal attractiveness. Animal Behaviour, 2013, 85, 127-136.	0.8	63
77	The role of symmetry in attraction to average faces. Perception & Psychophysics, 2007, 69, 1273-1277.	2.3	62
78	Social learning and human mate preferences: a potential mechanism for generating and maintaining between-population diversity in attraction. Philosophical Transactions of the Royal Society B: Biological Sciences, 2011, 366, 366-375.	1.8	62
79	Sex drive is positively associated with women's preferences for sexual dimorphism in men's and women's faces. Personality and Individual Differences, 2008, 44, 161-170.	1.6	59
80	Pathogen disgust predicts women's preferences for masculinity in men's voices, faces, and bodies. Behavioral Ecology, 2013, 24, 373-379.	1.0	59
81	Sensation seeking and men's face preferences. Evolution and Human Behavior, 2007, 28, 439-446.	1.4	58
82	Voice parameters predict sex-specific body morphology in men and women. Animal Behaviour, 2016, 112, 13-22.	0.8	58
83	The many faces of research on face perception. Philosophical Transactions of the Royal Society B: Biological Sciences, 2011, 366, 1634-1637.	1.8	57
84	Hormonal correlates of pathogen disgust: testing the compensatory prophylaxis hypothesis. Evolution and Human Behavior, 2018, 39, 166-169.	1.4	57
85	Alcohol consumption increases attractiveness ratings of opposite-sex faces: a possible third route to risky sex. Addiction, 2003, 98, 1069-1075.	1.7	55
86	Attraction independent of detection suggests special mechanisms for symmetry preferences in human face perception. Proceedings of the Royal Society B: Biological Sciences, 2006, 273, 3093-3099.	1.2	55
87	Variation in facial masculinity and symmetry preferences across the menstrual cycle is moderated by relationship context. Psychoneuroendocrinology, 2012, 37, 999-1008.	1.3	55
88	Facial Cues to Perceived Height Influence Leadership Choices in Simulated War and Peace Contexts. Evolutionary Psychology, 2013, 11, 89-103.	0.6	54
89	Correlated Male Preferences for Femininity in Female Faces and Voices. Evolutionary Psychology, 2010, 8, 447-461.	0.6	52
90	Attractiveness qualifies the effect of observation on trusting behavior in an economic game. Evolution and Human Behavior, 2009, 30, 393-397.	1.4	51

#	ARTICLE	IF	CITATIONS
91	Face and voice attractiveness judgments change during adolescence. Evolution and Human Behavior, 2009, 30, 398-408.	1.4	51
92	Social users of alcohol and cannabis who detect substance-related changes in a change blindness paradigm report higher levels of use than those detecting substance-neutral changes. Psychopharmacology, 2002, 165, 93-96.	1.5	50
93	Kin recognition: evidence that humans can perceive both positive and negative relatedness. Journal of Evolutionary Biology, 2012, 25, 1472-1478.	0.8	50
94	Evidence for adaptive design in human gaze preference. Proceedings of the Royal Society B: Biological Sciences, 2008, 275, 63-69.	1.2	49
95	Body Odor Quality Predicts Behavioral Attractiveness in Humans. Archives of Sexual Behavior, 2011, 40, 1111-1117.	1.2	48
96	Relationship satisfaction and outcome in women who meet their partner while using oral contraception. Proceedings of the Royal Society B: Biological Sciences, 2012, 279, 1430-1436.	1.2	48
97	No evidence that facial attractiveness, femininity, averageness, or coloration are cues to susceptibility to infectious illnesses in a university sample of young adult women. Evolution and Human Behavior, 2019, 40, 156-159.	1.4	48
98	Women's own voice pitch predicts their preferences for masculinity in men's voices. Behavioral Ecology, 2010, 21, 767-772.	1.0	47
99	Variation in perceptions of physical dominance and trustworthiness predicts individual differences in the effect of relationship context on women's preferences for masculine pitch in men's voices. British Journal of Psychology, 2011, 102, 37-48.	1.2	47
100	Waist–hip ratio predicts women's preferences for masculine male faces, but not perceptions of men's trustworthiness. Personality and Individual Differences, 2009, 47, 476-480.	1.6	46
101	Looking Like a Leader–Facial Shape Predicts Perceived Height and Leadership Ability. PLoS ONE, 2013, 8, e80957.	1.1	46
102	A longitudinal analysis of women's salivary testosterone and intrasexual competitiveness. Psychoneuroendocrinology, 2016, 64, 117-122.	1.3	45
103	Cultural differences in preferences for facial coloration. Evolution and Human Behavior, 2018, 39, 154-159.	1.4	45
104	Women's physical and psychological condition independently predict their preference for apparent health in faces. Evolution and Human Behavior, 2005, 26, 451-457.	1.4	44
105	Perceived facial adiposity conveys information about women's health. British Journal of Psychology, 2013, 104, 235-248.	1.2	44
106	Opposite-sex siblings decrease attraction, but not prosocial attributions, to self-resembling opposite-sex faces. Proceedings of the National Academy of Sciences of the United States of America, 2011, 108, 11710-11714.	3.3	43
107	Illness in childhood predicts face preferences in adulthood. Evolution and Human Behavior, 2013, 34, 384-389.	1.4	42
108	Partner Choice, Relationship Satisfaction, and Oral Contraception. Psychological Science, 2014, 25, 1497-1503.	1.8	42

#	Article	IF	Citations
109	Symmetric faces are a sign of successful cognitive aging. Evolution and Human Behavior, 2009, 30, 429-437.	1.4	41
110	Face aftereffects suggest interdependent processing of expression and sex and of expression and race. Visual Cognition, 2010, 18, 255-274.	0.9	41
111	Facial coloration tracks changes in women's estradiol. Psychoneuroendocrinology, 2015, 56, 29-34.	1.3	41
112	Perceptions of facial dominance, trustworthiness and attractiveness predict managerial pay awards in experimental tasks. Leadership Quarterly, 2015, 26, 1005-1016.	3.6	41
113	The reward value of infant facial cuteness tracks within-subject changes in women's salivary testosterone. Hormones and Behavior, 2015, 67, 54-59.	1.0	41
114	Women's self-perceived health and attractiveness predict their male vocal masculinity preferences in different directions across short- and long-term relationship contexts. Behavioral Ecology and Sociobiology, 2012, 66, 413-418.	0.6	40
115	Integrating Gaze Direction and Sexual Dimorphism of Face Shape When Perceiving the Dominance of Others. Perception, 2009, 38, 1275-1283.	0.5	39
