| #  | Article                                                                                                                                                                                                                                           | IF   | CITATIONS |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------|
| 1  | A Rapidly Selfâ€Healing Host–Guest Supramolecular Hydrogel with High Mechanical Strength and Excellent Biocompatibility. Angewandte Chemie - International Edition, 2018, 57, 9008-9012.                                                          | 13.8 | 149       |
| 2  | miR-195-5p Suppresses the Proliferation, Migration, and Invasion of Oral Squamous Cell Carcinoma by Targeting TRIM14. BioMed Research International, 2017, 2017, 1-13.                                                                            | 1.9  | 62        |
| 3  | Wet-adhesive, haemostatic and antimicrobial bilayered composite nanosheets for sealing and healing soft-tissue bleeding wounds. Biomaterials, 2020, 252, 120018.                                                                                  | 11.4 | 62        |
| 4  | A Rapidly Selfâ€Healing Host–Guest Supramolecular Hydrogel with High Mechanical Strength and Excellent Biocompatibility. Angewandte Chemie, 2018, 130, 9146-9150.                                                                                 | 2.0  | 36        |
| 5  | Knocking-down of CREPT prohibits the progression of oral squamous cell carcinoma and suppresses cyclin D1 and c-Myc expression. PLoS ONE, 2017, 12, e0174309.                                                                                     | 2.5  | 21        |
| 6  | $$ $$ $$ $$ $$ $$ $$ $$ $$                                                                                                                                                                                                                        | 2.4  | 11        |
| 7  | Nomogram predicting long-term overall survival and cancer-specific survival of lip carcinoma patients based on the SEER database. Medicine (United States), 2019, 98, e16727.                                                                     | 1.0  | 7         |
| 8  | Implantation of radioactive particles into the cranial base and orbital apex with the use of a magnetic resonance imaging–based surgical navigation system. Oral Surgery, Oral Medicine, Oral Pathology and Oral Radiology, 2013, 116, e473-e477. | 0.4  | 5         |
| 9  | Computer-Aided Design and Three-Dimensional–Printed Surgical Templates for Second-Stage<br>Mandibular Reconstruction. Journal of Craniofacial Surgery, 2018, 29, 2101-2105.                                                                       | 0.7  | 3         |
| 10 | Elevated CREPT Expression Enhances the Progression of Salivary Gland Adenoid Cystic Carcinoma. Journal of Hard Tissue Biology, 2021, 30, 273-282.                                                                                                 | 0.4  | 1         |
| 11 | Corrigendum to "miR-195-5p Suppresses the Proliferation, Migration, and Invasion of Oral Squamous<br>Cell Carcinoma by Targeting TRIM14― BioMed Research International, 2022, 2022, 1-2.                                                          | 1.9  | 0         |
