| #  | ARTICLE                                                                                                                                                                                                                                               | IF  | CITATIONS |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Covered versus uncovered self-expandable metal stent for palliation of primary malignant extrahepatic biliary strictures: a randomized multicenter study. <i>Gastrointestinal Endoscopy</i> , 2018, 88, 283-291.e3.                                   | 1.0 | 70        |
| 2  | First-line endoscopic treatment with OTSC in patients with high-risk non-variceal upper gastrointestinal bleeding: preliminary experience in 40 cases. <i>Surgical Endoscopy and Other Interventional Techniques</i> , 2016, 30, 2026-2029.           | 2.4 | 63        |
| 3  | Endoscopic management of patients with post-surgical leaks involving the gastrointestinal tract: A large case series. <i>United European Gastroenterology Journal</i> , 2016, 4, 770-777.                                                             | 3.8 | 34        |
| 4  | i-Scan high-definition white light endoscopy and colorectal polyps: prediction of histology, interobserver and intraobserver agreement. <i>International Journal of Colorectal Disease</i> , 2013, 28, 399-406.                                       | 2.2 | 30        |
| 5  | First-line endoscopic treatment with over-the-scope clips in patients with either upper or lower gastrointestinal bleeding: a multicenter study. <i>Endoscopy International Open</i> , 2018, 06, E1317-E1321.                                         | 1.8 | 26        |
| 6  | Fully Covered Self-Expanding Metal Stents for Refractory Anastomotic Colorectal Strictures. <i>Surgical Endoscopy and Other Interventional Techniques</i> , 2015, 29, 1175-1178.                                                                      | 2.4 | 25        |
| 7  | Endoscopic repair of post-surgical gastrointestinal complications. <i>Digestive and Liver Disease</i> , 2013, 45, 879-885.                                                                                                                            | 0.9 | 23        |
| 8  | Alternative endoscopic treatment of Zenker's diverticulum: a case series (with video). <i>Gastrointestinal Endoscopy</i> , 2014, 79, 168-170.                                                                                                         | 1.0 | 23        |
| 9  | Bowel preparation with polyethylene glycol electrolyte solution: Optimizing the splitting regimen. <i>Digestive and Liver Disease</i> , 2012, 44, 576-579.                                                                                            | 0.9 | 20        |
| 10 | Influence of K-ras status and anti-tumour treatments on complications due to colorectal self-expandable metallic stents: A retrospective multicentre study. <i>Digestive and Liver Disease</i> , 2014, 46, 561-567.                                   | 0.9 | 16        |
| 11 | Endoscopic submucosal dissection: Italian national survey on current practices, training and outcomes. <i>Digestive and Liver Disease</i> , 2020, 52, 64-71.                                                                                          | 0.9 | 16        |
| 12 | Pancreatic duct stenting for the duration of ERCP only does not prevent pancreatitis after accidental pancreatic duct cannulation: a prospective randomized trial. <i>Surgical Endoscopy and Other Interventional Techniques</i> , 2013, 27, 569-574. | 2.4 | 15        |
| 13 | Endoscopic Submucosal Dissection of Gastric Neoplastic Lesions: An Italian, Multicenter Study. <i>Journal of Clinical Medicine</i> , 2020, 9, 737.                                                                                                    | 2.4 | 14        |
| 14 | Over-the-scope clip vs epinephrine with clip for first-line hemostasis in non-variceal upper gastrointestinal bleeding: a propensity score match analysis. <i>Endoscopy International Open</i> , 2020, 08, E50-E58.                                   | 1.8 | 14        |
| 15 | Drug rash with eosinophilia and systemic signs syndrome in a patient with multiple sclerosis. <i>Clinical Therapeutics</i> , 2009, 31, 580-584.                                                                                                       | 2.5 | 10        |
| 16 | Colonic Postpolypectomy Bleeding Is Related to Polyp Size and Heparin Use. <i>Clinical Endoscopy</i> , 2017, 50, 287-292.                                                                                                                             | 1.5 | 9         |
| 17 | Over-the-scope clip closure for treatment of post-pancreaticogastrostomy pancreatic fistula: A case series. <i>Digestive Endoscopy</i> , 2017, 29, 602-607.                                                                                           | 2.3 | 8         |
| 18 | Zenker diverticulectomy: first report of robot-assisted transaxillary approach. <i>Journal of Robotic Surgery</i> , 2015, 9, 75-78.                                                                                                                   | 1.8 | 7         |

| #  | ARTICLE                                                                                                                                                                                                          | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Alternative management of anastomotic colorectal strictures: our experience with fully covered self-expanding metal stents. <i>Surgical Endoscopy and Other Interventional Techniques</i> , 2013, 27, 4752-4753. | 2.4 | 5         |
| 20 | Successful treatment of diffuse esophageal papillomatosis with balloon-assisted radiofrequency ablation in a patient with Goltz syndrome. <i>Endoscopy</i> , 2014, 46, E404-E405.                                | 1.8 | 5         |
| 21 | Endoscopic treatment of a large post-surgical fistula using combined fibrin glue spray and vicryl mesh. <i>Digestive and Liver Disease</i> , 2012, 44, 85-86.                                                    | 0.9 | 3         |
| 22 | A rare case of biliary tract stenosis caused by intraductal varices diagnosed by single-operator per-oral cholangioscopy. <i>Gastrointestinal Endoscopy</i> , 2016, 84, 1052-1053.                               | 1.0 | 2         |
| 23 | Underwater endoscopic submucosal dissection of an obstructing giant colonic lipoma. <i>Endoscopy</i> , 2020, 52, E90-E91.                                                                                        | 1.8 | 2         |
| 24 | Covered metal stent as a rescue therapy for impacted Dormia basket in the biliary tract. <i>Turkish Journal of Gastroenterology</i> , 2019, 30, 305-306.                                                         | 1.1 | 2         |
| 25 | Effective endoscopic holmium laser lithotripsy in the treatment of a large impacted gallstone in the duodenum. <i>Endoscopy</i> , 2015, 47, E485-E485.                                                           | 1.8 | 1         |
| 26 | Over-the-scope clip in postoperative pancreatic fistula. <i>Gastrointestinal Endoscopy</i> , 2017, 85, 260-261.                                                                                                  | 1.0 | 1         |
| 27 | Endoscopic treatment of Zenker's diverticulum: do we always need endoclips?. <i>Gastrointestinal Endoscopy</i> , 2013, 78, 556.                                                                                  | 1.0 | 0         |
| 28 | A bleeding rectosigmoid mass in a 41-year-old woman. <i>Turkish Journal of Gastroenterology</i> , 2016, 27, 298-300.                                                                                             | 1.1 | 0         |
| 29 | Unusual Applications of Metal Stents in Gastrointestinal Tract. , 2017, , 83-101.                                                                                                                                |     | 0         |
