Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
9	Reciprocal changes in gene expression profiles of cocultured breast epithelial cells and primary fibroblasts. <i>International Journal of Cancer</i> , 2009 , 125, 2767-77	7.5	46
8	Transcriptional profile of fibroblasts obtained from the primary site, lymph node and bone marrow of breast cancer patients. <i>Genetics and Molecular Biology</i> , 2014 , 37, 480-9	2	28
7	Influence of the interaction between nodal fibroblast and breast cancer cells on gene expression. <i>Tumor Biology</i> , 2011 , 32, 145-57	2.9	18
6	Ras activation is associated with vitamin D receptor mRNA instability in HC11 mammary cells. <i>Journal of Steroid Biochemistry and Molecular Biology</i> , 2004 , 92, 89-95	5.1	16
5	Specific upregulation of RHOA and RAC1 in cancer-associated fibroblasts found at primary tumor and lymph node metastatic sites in breast cancer. <i>Tumor Biology</i> , 2015 , 36, 9589-97	2.9	15
4	Altered of apoptotic markers of both extrinsic and intrinsic pathways induced by hepatitis C virus infection in peripheral blood mononuclear cells. <i>Virology Journal</i> , 2012 , 9, 314	6.1	7
3	Overhauling CAR T Cells to Improve Efficacy, Safety and Cost. <i>Cancers</i> , 2020 , 12,	6.6	6
2	Abstract 186: RHOA, RAC1 and PAK1 evaluation in paired stromal fibroblasts of breast cancer primary and of lymph node metastasis: Importance of these biomarkers in lymph node invasion 2014 ,		2
1	Using Ultra-Deep miRNA sequencing for identification of possible new biomarkers in endometriosis patients. <i>FASEB Journal</i> , 2013 , 27, lb152	0.9
