#	ARTICLE	IF	CITATIONS
1	Application of "suction-guided stapling" during uniportal thoroscopic major lung resection. <i>General Thoracic and Cardiovascular Surgery</i> , 2022, 70, 204-205.	0.9	4
2	Differentiation between staple line granuloma and recurrence after sublobar resection for primary lung cancer. <i>Journal of Thoracic Disease</i> , 2022, 14, 26-35.	1.4	1
3	Preoperative Simulation of Thoroscopic Segmentectomy. <i>Annals of Thoracic Surgery</i> , 2022, , .	1.3	1
4	Regeneration of emphysematous lungs using gelatin sheets that release basic fibroblast growth factor. <i>Surgery Today</i> , 2022, , 1.	1.5	2
5	Novel thoroscopic segmentectomy combining preoperative three-dimensional image simulation and intravenous administration of indocyanine green. <i>Interactive Cardiovascular and Thoracic Surgery</i> , 2022, 35, .	1.1	3
6	En bloc resection of the left upper lobe and the anterior basal segment of the lower lobe via a uniportal thoroscopic approach for a dense fissure. , 2022, 2022, .		0
7	Infrared thoroscopic pulmonary segmentectomy with intravenous indocyanine green administration using preoperative simulation. <i>European Journal of Cardio-thoracic Surgery</i> , 2022, 61, 1443-1445.	1.4	2
8	Invited commentary on: The usefulness of the nomogram to predict tumor spread through air spaces (STAS) in patients with clinical stage I non-small cell lung cancer preoperatively. <i>European Journal of Cardio-thoracic Surgery</i> , 2022, , .	1.4	0
9	Uniportal thoroscopic right anterior basal (S8) segmentectomy using unidirectional dissection. , 2021, 2021, .		4
10	Critical Bleeding from the Stapled Stump of the Pulmonary Artery. <i>Kitakanto Medical Journal</i> , 2021, 71, 143-145.	0.0	0
11	Safety and feasibility of uniportal video-assisted thoroscopic uncommon segmentectomy. <i>Journal of Thoracic Disease</i> , 2021, 13, 3001-3009.	1.4	10
12	Risk stratification model for patients with stage I invasive lung adenocarcinoma based on clinical and pathological predictors. <i>Translational Lung Cancer Research</i> , 2021, 10, 2205-2217.	2.8	6
13	A prospective comparative study of thoroscopic transareolar and uniportal approaches for young male patients with primary spontaneous pneumothorax. <i>General Thoracic and Cardiovascular Surgery</i> , 2021, 69, 1414-1420.	0.9	1
14	The learning curve of thoroscopic surgery in a single surgeon and successful implementation of uniportal approach. <i>Journal of Thoracic Disease</i> , 2021, 13, 4063-4071.	1.4	2
15	Uniport vs. multiport video-assisted thoroscopic surgery for anatomical lung resection" which is less invasive?. <i>Journal of Thoracic Disease</i> , 2021, 13, 244-251.	1.4	16
16	Carinal resection and reconstruction: now and in the future. <i>Translational Lung Cancer Research</i> , 2021, 10, 4039-4042.	2.8	5
17	Prognostic significance of postoperative longitudinal change of serum carcinoembryonic antigen level in patients with stage I lung adenocarcinoma completely resected by single-port video-assisted thoracic surgery: a retrospective study. <i>Translational Lung Cancer Research</i> , 2021, 10, 3983-3994.	2.8	1
18	Uniportal thoroscopic apical (S1) segmentectomy of the right upper lobe via an anterior approach. , 2021, 2021, .		3

#	ARTICLE	IF	CITATIONS
19	Uniportal thoracoscopic lateral and posterior (S9+10) segmentectomy using a modified intersegmental tunneling procedure. , 2021, 2021, .		0
20	Uniportal thoracoscopic anterior and lingular (S3+4+5) segmentectomy of the left upper lobe using intravenous indocyanine green. , 2021, 2021, .		0
21	Comparison of stapler and electrocautery for division of the intersegmental plane in lung segmentectomy. Journal of Thoracic Disease, 2021, 13, 6331-6342.	1.4	3
22	Feasibility of thoracoscopic pulmonary bullectomy using a transareolar approach for treatment of primary spontaneous pneumothorax. Journal of Thoracic Disease, 2020, 12, 5794-5801.	1.4	3
23	Uniportal thoracoscopic upper division segmentectomy of left upper lobe using a unidirectional anterior approach. , 2020, 2020, .		5
24	Dorsal (S2) segmentectomy of right upper lobe via a uniportal approach using near infrared imaging and indocyanine green administration. , 2020, 2020, .		1
25	Pleural Talcoma Mimicking Pleural Recurrence of Ovarian Cancer:. Kitakanto Medical Journal, 2020, 70, 95-97.	0.0	1
26	Removal of an endobronchial lipoma via uniportal thoracoscopic right basal segmentectomy. Surgical Case Reports, 2020, 6, 212.	0.6	1
27	Pulmonary Metastases from a Tracheal Adenoid Cystic Carcinoma 14 Years after Resection. Kitakanto Medical Journal, 2020, 70, 267-269.	0.0	1
28	En bloc lymphadenectomy of the right thorax via a uniportal thoracoscopic approach. , 2020, 2020, .		1
29	Coughing-induced Pulmonary Barotrauma after Pulmonary Lobectomy. Kitakanto Medical Journal, 2020, 70, 355-357.	0.0	0
30	Uniportal anterior segmentectomy (S3) of the left upper lobe. , 2020, 2020, .		1
31	Percutaneous aspiration of vegetation from tricuspid valve infective endocarditis. , 2020, 2020, .		3
32	High-Pressure Carbon Monoxide and Oxygen Mixture is Effective for Lung Preservation. International Journal of Molecular Sciences, 2019, 20, 2719.	4.1	5
33	Y-shaped catheter improves carbon dioxide clearance during apnoeic oxygenation in tracheal surgery. European Journal of Cardio-thoracic Surgery, 2019, 56, 393-399.	1.4	0
34	Lymphatic invasion is a cause of local recurrence after wedge resection of primary lung cancer. General Thoracic and Cardiovascular Surgery, 2019, 67, 861-866.	0.9	8
35	Anomalous right upper lobe pulmonary veins draining posterior to the pulmonary artery. General Thoracic and Cardiovascular Surgery, 2019, 67, 901-903.	0.9	8
36	Algorithm-based troubleshooting to manage bleeding during thoracoscopic anatomic pulmonary resection. Journal of Thoracic Disease, 2019, 11, 4544-4550.	1.4	11

#	ARTICLE	IF	CITATIONS
37	A Successful Case of Thoracoscopic Right Lower Lobectomy with Bronchoplasty for Primary Lung Cancer. Kitakanto Medical Journal, 2019, 69, 249-254.	0.0	0
38	Double-barreled bronchoplasty for a carcinoid tumor with a rare variation of displaced bronchus. Journal of Thoracic Disease, 2018, 10, E707-E709.	1.4	1
39	MCL-1 expression of non-small cell lung cancer as a prognostic factor and MCL-1 as a promising target for gene therapy.. Journal of Clinical Oncology, 2018, 36, e24236-e24236.	1.6	5
40	Spontaneous torsion of the right upper lung lobe: a case report. Surgical Case Reports, 2017, 3, 37.	0.6	5
41	Customized Adjuvant Chemotherapy Based on Biomarker Examination May Improve Survival of Patients Completely Resected for Non-small-cell Lung Cancer. Anticancer Research, 2017, 37, 2501-2507.	1.1	14
42	Follow-up of asymptomatic adult diaphragmatic hernia: should patients with this condition undergo immediate operation? A report of two cases. Surgical Case Reports, 2016, 2, 95.	0.6	8
43	Correlation among the biomarkers for oral anti-cancer agents in lung adenocarcinoma.. Journal of Clinical Oncology, 2016, 34, e20015-e20015.	1.6	0
44	Verification of biomarkers in predicting drug sensitivity with in vitro 3D drug sensitivity test in non-small cell lung cancer.. Journal of Clinical Oncology, 2016, 34, 11602-11602.	1.6	0
45	Pulmonary rehabilitation during induction chemoradiotherapy for lung cancer improves pulmonary function. Journal of Thoracic and Cardiovascular Surgery, 2015, 149, 569-573.	0.8	41
46	Prognostic factors in patients after lobectomy for p-T1aN0M0 adenocarcinoma. European Journal of Cardio-thoracic Surgery, 2012, 41, 603-606.	1.4	13
47	Bronchoplastic Operation Using a Continuous Anastomosis for Mucous Gland Adenoma. Annals of Thoracic Surgery, 2011, 92, 2272-2274.	1.3	3
48	A New Application for the Heart Positioner in Operations for Mediastinal Tumors. Annals of Thoracic Surgery, 2010, 90, 2063-2064.	1.3	4
49	Uniportal thoracoscopic lateral and posterior basal segmentectomy using intersegmental tunneling: Comparison with multiportal approach. Asian Journal of Endoscopic Surgery, 0, , .	0.9	0
