#	ARTICLE	IF	CITATIONS
1	Session-Specific Effects on Suicidality in Group Therapy: No Evidence for Contagion. <i>Archives of Suicide Research</i> , 2023, 27, 540-553.	1.2	4
2	Therapists'™ Thought-Action Fusion Beliefs Predict Utilization of Exposure in Obsessive-Compulsive Disorder. <i>Behavior Therapy</i> , 2022, 53, 23-33.	1.3	4
3	Unrealistic pessimism and obsessive-compulsive symptoms during the COVID-19 pandemic: Two longitudinal studies. <i>British Journal of Clinical Psychology</i> , 2022, 61, 816-835.	1.7	3
4	Efficacy of metacognitive training for depression as add-on intervention for patients with depression in acute intensive psychiatric inpatient care: A randomized controlled trial. <i>Clinical Psychology and Psychotherapy</i> , 2022, 29, 1542-1555.	1.4	3
5	Exposure and Response Prevention in Virtual Reality for Patients with Contamination-Related Obsessive-Compulsive Disorder: a Case Series. <i>Psychiatric Quarterly</i> , 2022, 93, 861-882.	1.1	5
6	Anger and aggressiveness in obsessive-compulsive disorder (OCD) and the mediating role of responsibility, non-acceptance of emotions, and social desirability. <i>European Archives of Psychiatry and Clinical Neuroscience</i> , 2021, 271, 1179-1191.	1.8	11
7	Die Rolle von Verhaltensexperimenten in der Behandlung von Zwangsstörungen: Ein Update zur effektiven Gestaltung und Durchführung in der Praxis. <i>Verhaltenstherapie</i> , 2021, 31, 40-49.	0.3	1
8	Obsessive-compulsive disorder during COVID-19: Turning a problem into an opportunity?. <i>Journal of Anxiety Disorders</i> , 2021, 77, 1023-29.	1.5	74
9	Side effects of the metacognitive training for depression compared to a cognitive remediation training in patients with depression. <i>Scientific Reports</i> , 2021, 11, 7861.	1.6	5
10	Predictors of trajectories of obsessive-compulsive symptoms during the COVID-19 pandemic in the general population in Germany. <i>Translational Psychiatry</i> , 2021, 11, 323.	2.4	17
11	Do implicit measures improve suicide risk prediction? An 18-month prospective study using different tasks. <i>Suicide and Life-Threatening Behavior</i> , 2021, 51, 993-1004.	0.9	0
12	Aggressiveness in patients with obsessive-compulsive disorder as assessed by the Implicit Relational Assessment Procedure. <i>Journal of Contextual Behavioral Science</i> , 2021, 21, 176-186.	1.3	2
13	Metacognitive Training for Obsessive-Compulsive Disorder: A randomized controlled trial. <i>Journal of Obsessive-Compulsive and Related Disorders</i> , 2021, 30, 100647.	0.7	7
14	Impaired test performance yet spared neurocognitive functioning in individuals with obsessive-compulsive disorder: the role of performance mediators. <i>Cognitive Neuropsychiatry</i> , 2021, 26, 1-14.	0.7	0
15	When a nightmare comes true: Change in obsessive-compulsive disorder over the first months of the COVID-19 pandemic. <i>Journal of Anxiety Disorders</i> , 2021, 84, 102493.	1.5	9
16	Negative self-conscious emotions in women with borderline personality disorder as assessed by an Implicit Association Test.. <i>Personality Disorders: Theory, Research, and Treatment</i> , 2021, 12, 456-465.	1.0	7
17	Session-specific effects of the Metacognitive Training for Obsessive-Compulsive Disorder (MCT-OCD). <i>Psychotherapy Research</i> , 2020, 30, 474-486.	1.1	8
18	Implicitly measured aggressiveness self-concepts in women with borderline personality disorder as assessed by an Implicit Association Test. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2020, 66, 101513.	0.6	4

#	ARTICLE	IF	CITATIONS
19	Association Splitting for Obsessive-Compulsive Disorder: A Systematic Review. <i>Current Psychiatry Research and Reviews</i> , 2020, 15, 248-260.	0.1	1
20	The rates of co-occurring behavioural addictions in treatment-seeking individuals with obsessive-compulsive disorder: a preliminary report. <i>International Journal of Psychiatry in Clinical Practice</i> , 2020, 24, 173-175.	1.2	6
21	The Metacognitive Training for obsessive-compulsive disorder: A pilot study. <i>Current Psychology</i> , 2020, , 1.	1.7	8
22	Self-esteem mediates the relationship between perfectionism and obsessive-compulsive symptoms. <i>Personality and Individual Differences</i> , 2020, 167, 110239.	1.6	10
23	Session-specific effects of the Metacognitive Group Training for Obsessive-Compulsive Disorder: significant results for thought control. <i>Scientific Reports</i> , 2020, 10, 17816.	1.6	9
24	Cortisol, DHEA and DHEA-S during exposure therapy in patients with obsessive-compulsive disorder – secretion patterns and prediction of treatment response. <i>Psychiatry Research</i> , 2020, 291, 113288.	1.7	4
25	Metacognitive Training for Depression: Feasibility, safety and acceptability of two new treatment modules to reduce suicidality. <i>Clinical Psychology and Psychotherapy</i> , 2020, 28, 669-681.	1.4	5
26	Unguided Internet-based cognitive-behavioral therapy for obsessive-compulsive disorder: A randomized controlled trial. <i>Depression and Anxiety</i> , 2020, 37, 1208-1220.	2.0	17
27	Long-term effects of mindfulness-based cognitive therapy in patients with obsessive-compulsive disorder and residual symptoms after cognitive behavioral therapy: Twelve-month follow-up of a randomized controlled trial. <i>Psychiatry Research</i> , 2020, 291, 113119.	1.7	14
28	Metacognitive Training for Obsessive-Compulsive Disorder: a study protocol for a randomized controlled trial. <i>BMC Psychiatry</i> , 2020, 20, 350.	1.1	10
29	Prenatal sex hormones and finger length: Digit ratio (2D:4D) as a biological marker of early developmental processes in patients with obsessive-compulsive disorder (OCD). <i>Journal of Obsessive-Compulsive and Related Disorders</i> , 2020, 25, 100525.	0.7	1
30	Advice weighting as a novel measure for belief flexibility in people with psychotic-like experiences. <i>Schizophrenia Research</i> , 2020, 216, 129-137.	1.1	9
31	Brief Web-Based Intervention for Depression: Randomized Controlled Trial on Behavioral Activation. <i>Journal of Medical Internet Research</i> , 2020, 22, e15312.	2.1	15
32	It can't hurt, right? Adverse effects of psychotherapy in patients with depression. <i>European Archives of Psychiatry and Clinical Neuroscience</i> , 2019, 269, 577-586.	1.8	41
33	Phobie – and other reasons why clinicians do not apply exposure with response prevention in patients with obsessive-compulsive disorder. <i>Cognitive Behaviour Therapy</i> , 2019, 48, 162-176.	1.9	36
34	Treatments used for obsessive-compulsive disorder – An international perspective. <i>Human Psychopharmacology</i> , 2019, 34, e2686.	0.7	26
35	Dysfunctional beliefs in patients with obsessive-compulsive disorder and depression as assessed with the Beliefs Questionnaire (BQ). <i>Psychiatry Research</i> , 2019, 272, 265-274.	1.7	17
36	Mindfulness-based cognitive therapy (MBCT) in patients with obsessive-compulsive disorder (OCD) and residual symptoms after cognitive behavioral therapy (CBT): a randomized controlled trial. <i>European Archives of Psychiatry and Clinical Neuroscience</i> , 2019, 269, 223-233.	1.8	49

#	ARTICLE	IF	CITATIONS
37	We cannot change the past, but we can change its meaning. A randomized controlled trial on the effects of self-help imagery rescripting on depression. <i>Behaviour Research and Therapy</i> , 2018, 104, 74-83.	1.6	30
38	“Association splitting” versus cognitive remediation in obsessive-compulsive disorder: A randomized controlled trial. <i>Journal of Anxiety Disorders</i> , 2018, 56, 17-25.	1.5	10
39	Letter to the Editor: Metacognitive training and metacognitive therapy. A reply to Lora Capobianco and Adrian Wells. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2018, 59, 162-163.	0.6	7
40	New wine in an old bottle? Evaluation of myMCT as an integrative bibliotherapy for obsessive-compulsive disorder. <i>Journal of Obsessive-Compulsive and Related Disorders</i> , 2018, 16, 88-97.	0.7	10
41	Obsessive-Compulsive Disorder is Characterized by a Lack of Adaptive Coping Rather than an Excess of Maladaptive Coping. <i>Cognitive Therapy and Research</i> , 2018, 42, 650-660.	1.2	22
42	If it is absurd, then why do you do it? The richer the obsessional experience, the more compelling the compulsion. <i>Clinical Psychology and Psychotherapy</i> , 2018, 25, 210-216.	1.4	16
43	Long-term efficacy of Metacognitive Training for Depression (D-MCT): A randomized controlled trial. <i>British Journal of Clinical Psychology</i> , 2018, 58, 245-259.	1.7	25
44	Course and stability of cognitive and metacognitive beliefs in depression. <i>Depression and Anxiety</i> , 2018, 35, 1239-1246.	2.0	33
45	Metacognitive Training for Depression (D-MCT) reduces false memories in depression. A randomized controlled trial. <i>European Psychiatry</i> , 2018, 53, 46-51.	0.1	9
46	A randomized controlled trial of a transdiagnostic Internet intervention for individuals with panic and phobias “One size fits all. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2017, 54, 17-24.	0.6	25
47	Implicit aggressiveness in patients with obsessive-compulsive disorder as assessed by an Implicit Association Test. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2017, 55, 106-112.	0.6	6
48	Investigation of implicit avoidance of displacement-related stimuli in offspring of trauma exposed, forcibly-displaced individuals. <i>Journal of Anxiety Disorders</i> , 2017, 47, 21-28.	1.5	1
49	Does impairment in neuropsychological tests equal neuropsychological impairment in obsessive-compulsive disorder (OCD)? Momentary influences, testing attitude, and motivation are related to neuropsychological performance in OCD. <i>Journal of Obsessive-Compulsive and Related Disorders</i> , 2017, 14, 99-105.	0.7	14
50	Patients’ perspectives on treatment with Metacognitive Training for Depression (D-MCT): Results on acceptability. <i>Journal of Affective Disorders</i> , 2017, 221, 17-24.	2.0	28
51	Cognitive and Metacognitive Mechanisms of Change in Metacognitive Training for Depression. <i>Scientific Reports</i> , 2017, 7, 3449.	1.6	32
52	Are we exaggerating neuropsychological impairment in depression? Reopening a closed chapter. <i>Expert Review of Neurotherapeutics</i> , 2017, 17, 839-846.	1.4	29
53	Performance in a blocked versus randomized emotional Stroop task in an aged, early traumatized group with and without posttraumatic stress symptoms. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2017, 54, 35-43.	0.6	5
54	Age effect on autobiographical memory specificity: A study on autobiographical memory specificity in elderly survivors of childhood trauma. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2017, 54, 247-253.	0.6	13

#	ARTICLE	IF	CITATIONS
55	Association Splitting: A randomized controlled trial of a new method to reduce craving among inpatients with alcohol dependence. <i>Psychiatry Research</i> , 2016, 238, 310-317.	1.7	5
56	Autobiographical memory in adult offspring of traumatized parents with and without posttraumatic stress symptoms. <i>Psychiatry Research</i> , 2016, 242, 311-314.	1.7	3
57	Efficacy of Metacognitive Training for Depression: A Randomized Controlled Trial. <i>Psychotherapy and Psychosomatics</i> , 2016, 85, 231-234.	4.0	39
58	Emotion recognition in depression: An investigation of performance and response confidence in adult female patients with depression. <i>Psychiatry Research</i> , 2016, 242, 226-232.	1.7	27
59	Mental Health in Offspring of Traumatized Refugees with and without Posttraumatic Stress Disorder. <i>Stress and Health</i> , 2016, 32, 367-373.	1.4	7
60	Versorgung Zwangserkrankter mit kognitiver Verhaltenstherapie als Behandlungsmethode erster Wahl. <i>Verhaltenstherapie</i> , 2015, 25, 183-190.	0.3	16
61	Depression, not PTSD, is associated with attentional biases for emotional visual cues in early traumatized individuals with PTSD. <i>Frontiers in Psychology</i> , 2015, 5, 1474.	1.1	10
62	Investigation of automatic avoidance in displaced individuals with chronic Posttraumatic Stress Disorder (PTSD). <i>Psychiatry Research</i> , 2015, 228, 887-893.	1.7	10
63	Mood-congruent memory in depression – The influence of personal relevance and emotional context. <i>Psychiatry Research</i> , 2014, 215, 606-613.	1.7	18
64	Further evidence for biased semantic networks in obsessive-compulsive disorder (OCD): When knives are no longer associated with buttering bread but only with stabbing people. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2014, 45, 427-434.	0.6	13
65	Impact of emotionality on memory and meta-memory in schizophrenia using video sequences. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2013, 44, 77-83.	0.6	33
66	Neuropsychological functioning in posttraumatic stress disorder following forced displacement in older adults and their offspring. <i>Psychiatry Research</i> , 2013, 210, 584-589.	1.7	10
67	Subjective well-being, but not subjective mental functioning shows positive associations with neuropsychological performance in schizophrenia-spectrum disorders. <i>Comprehensive Psychiatry</i> , 2013, 54, 824-830.	1.5	4
68	Attentional bias for affective visual stimuli in posttraumatic stress disorder and the role of depression. <i>Psychiatry Research</i> , 2013, 207, 73-79.	1.7	11
69	(Meta)cognitive beliefs in posttraumatic stress disorder following forced displacement at the end of the Second World War in older adults and their offspring. <i>Cognitive Neuropsychiatry</i> , 2013, 18, 452-462.	0.7	15
70	Risk Recognition and Sensation Seeking in Revictimization and Posttraumatic Stress Disorder. <i>Behavior Modification</i> , 2013, 37, 39-61.	1.1	9
71	Assessing the Boundaries of Symptom Over-Reporting Using the Structured Inventory of Malingered Symptomatology in a Clinical Schizophrenia Sample: Its Relation to Symptomatology and Neurocognitive Dysfunctions. <i>Journal of Experimental Psychopathology</i> , 2013, 4, 64-77.	0.4	17
72	Religiosity, Magical Ideation, and Paranormal Beliefs in Anxiety Disorders and Obsessive-Compulsive Disorder. <i>Journal of Nervous and Mental Disease</i> , 2012, 200, 876-884.	0.5	10

#	ARTICLE	IF	CITATIONS
73	The effect of practice on the recall of salient information in obsessive-compulsive disorder. <i>Psychiatry Research</i> , 2012, 198, 89-93.	1.7	7
74	Effects of Obsessive-Compulsive Symptoms on Neuropsychological Test Performance: Complicating an Already Complicated Story. <i>Clinical Neuropsychologist</i> , 2012, 26, 31-44.	1.5	39
75	Veridical and false memory for scenic material in posttraumatic stress disorder. <i>Consciousness and Cognition</i> , 2012, 21, 80-89.	0.8	16
76	Good news for allegedly bad studies. Assessment of psychometric properties may help to elucidate deception in online studies on OCD. <i>Journal of Obsessive-Compulsive and Related Disorders</i> , 2012, 1, 331-335.	0.7	19
77	Investigating the Corrective Effect of Forewarning on Memory and Meta-Memory Deficits in Schizophrenia Patients. <i>Journal of Experimental Psychopathology</i> , 2012, 3, 673-687.	0.4	7
78	Heart rate variability in response to affective scenes in posttraumatic stress disorder. <i>Biological Psychology</i> , 2011, 88, 215-222.	1.1	116
79	Knock, and it will be opened to you? An evaluation of meridian-tapping in Obsessive-compulsive disorder (OCD). <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2011, 42, 81-88.	0.6	26
80	Larger than life: Overestimation of object size is moderated by personal relevance in obsessive-compulsive disorder. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2011, 42, 481-487.	0.6	4
81	Was Freud partly right on obsessive-compulsive disorder (OCD)? Investigation of latent aggression in OCD. <i>Psychiatry Research</i> , 2011, 187, 180-184.	1.7	46
82	What happened to the voices? A fine-grained analysis of how hallucinations and delusions change under psychiatric treatment. <i>Psychiatry Research</i> , 2011, 188, 13-17.	1.7	33
83	Are patients with obsessive-compulsive disorder generally more doubtful? Doubt is warranted!. <i>Psychiatry Research</i> , 2011, 189, 265-269.	1.7	12
84	The Attention Training Technique as an Attempt to Decrease Intrusive Thoughts in Obsessive-Compulsive Disorder (OCD): From Cognitive Theory to Practice and Back. <i>Journal of Contemporary Psychotherapy</i> , 2011, 41, 135-143.	0.7	20
85	Further evidence for the efficacy of association splitting as a self-help technique for reducing obsessive thoughts. <i>Depression and Anxiety</i> , 2011, 28, 574-581.	2.0	33
86	Generic and Illness-Specific Quality of Life in Obsessive-Compulsive Disorder. <i>Behavioural and Cognitive Psychotherapy</i> , 2010, 38, 417-436.	0.9	41
87	Intergenerational transmission of biased information processing in posttraumatic stress disorder (PTSD) following displacement after World War II. <i>Journal of Anxiety Disorders</i> , 2010, 24, 953-957.	1.5	23
88	Negative priming (cognitive inhibition) in obsessive-compulsive disorder (OCD). <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2010, 41, 1-5.	0.6	17
89	Characteristics and organization of the worst moment of trauma memories in posttraumatic stress disorder. <i>Behaviour Research and Therapy</i> , 2010, 48, 680-685.	1.6	54
90	How to treat the untreated: effectiveness of a self-help metacognitive training program (myMCT) for obsessive-compulsive disorder. <i>Dialogues in Clinical Neuroscience</i> , 2010, 12, 209-220.	1.8	91
