#	ARTICLE	IF	CITATIONS
1	Alterations of insular dynamic functional connectivity and psychological characteristics in unmedicated bipolar depression patients with a recent suicide attempt. <i>Psychological Medicine</i> , 2023, 53, 3837-3848.	4.5	2
2	Abnormal dynamic functional connectivity of hippocampal subregions associated with working memory impairment in melancholic depression. <i>Psychological Medicine</i> , 2023, 53, 2923-2935.	4.5	16
3	Shared and specific patterns of dynamic functional connectivity variability of striato-cortical circuitry in unmedicated bipolar and major depressive disorders. <i>Psychological Medicine</i> , 2022, 52, 747-756.	4.5	21
4	Inflammation is correlated with abnormal functional connectivity in unmedicated bipolar depression: an independent component analysis study of resting-state fMRI. <i>Psychological Medicine</i> , 2022, 52, 3431-3441.	4.5	8
5	Correlations between facial emotion processing and biochemical abnormalities in untreated adolescent patients with major depressive disorder: A proton magnetic resonance spectroscopy study. <i>Journal of Affective Disorders</i> , 2022, 296, 408-417.	4.1	4
6	Associations between executive function impairment and biochemical abnormalities in depressed adolescents with non-suicidal self-injury. <i>Journal of Affective Disorders</i> , 2022, 298, 492-499.	4.1	7
7	Reduced myelin density in unmedicated major depressive disorder: An inhomogeneous magnetization transfer MRI study. <i>Journal of Affective Disorders</i> , 2022, 300, 114-120.	4.1	6
8	Childhood trauma history is linked to abnormal brain metabolism of non-medicated adult patients with major depressive disorder. <i>Journal of Affective Disorders</i> , 2022, 302, 101-109.	4.1	10
9	Association between resting-state functional connectivity of amygdala subregions and peripheral pro-inflammation cytokines levels in bipolar disorder. <i>Brain Imaging and Behavior</i> , 2022, 16, 1614-1626.	2.1	5
10	Thyroid hormones disturbances, cognitive deficits and abnormal dynamic functional connectivity variability of the amygdala in unmedicated bipolar disorder. <i>Journal of Psychiatric Research</i> , 2022, 150, 282-291.	3.1	4
11	Shared and specific characteristics of regional cerebral blood flow and functional connectivity in unmedicated bipolar and major depressive disorders. <i>Journal of Affective Disorders</i> , 2022, 309, 77-84.	4.1	4
12	Similarities and differences in working memory and neurometabolism of obsessive-compulsive disorder and major depressive disorder. <i>Journal of Affective Disorders</i> , 2022, 311, 556-564.	4.1	2
13	Structural and functional brain alterations in anorexia nervosa: A multimodal meta-analysis of neuroimaging studies. <i>Human Brain Mapping</i> , 2021, 42, 5154-5169.	3.6	33
14	Large-scale network abnormality in bipolar disorder: A multimodal meta-analysis of resting-state functional and structural magnetic resonance imaging studies. <i>Journal of Affective Disorders</i> , 2021, 292, 9-20.	4.1	32
15	Common and distinct patterns of intrinsic brain activity alterations in major depression and bipolar disorder: voxel-based meta-analysis. <i>Translational Psychiatry</i> , 2020, 10, 353.	4.8	158
16	Inflammation is associated with decreased functional connectivity of insula in unmedicated bipolar disorder. <i>Brain, Behavior, and Immunity</i> , 2020, 89, 615-622.	4.1	32
