

Qun Wang

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/1403512/qun-wang-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

115
papers

2,025

#	Paper	IF	Citations
115	Transcriptome-wide analysis of cellular immune response stimulated by nuclear input of different down syndrome cell adhesion molecule intracellular domains.. <i>Developmental and Comparative Immunology</i> , 2022 , 130, 104350	3.2	
114	A novel ML protein functions as a pattern recognition protein in antibacterial responses in Eriocheir sinensis. <i>Developmental and Comparative Immunology</i> , 2022 , 127, 104310	3.2	0
113	Suppressed COP9 signalosome 5 promotes hemocyte proliferation through Cyclin E in the early G1 phase to defend against bacterial infection in crab.. <i>FASEB Journal</i> , 2022 , 36, e22321	0.9	
112	Immunological functional differentiation of two transmembrane variants of Dscam in Chinese mitten crab. <i>Developmental and Comparative Immunology</i> , 2021 , 128, 104313	3.2	0
111	FADD regulates antibacterial immune responses via the immune deficiency signaling pathway in the Chinese mitten crab. <i>Developmental and Comparative Immunology</i> , 2021 , 128, 104326	3.2	0
110	Recent progress in the research of exosomes and Dscam regulated crab antiviral immunity. <i>Developmental and Comparative Immunology</i> , 2021 , 116, 103925	3.2	1
109	Distinct vitellogenin domains differentially regulate immunological outcomes in invertebrates. <i>Journal of Biological Chemistry</i> , 2021 , 296, 100060	5.4	1
108	An ancient interleukin-16-like molecule regulates hemocyte proliferation via integrin β in invertebrates. <i>Journal of Biological Chemistry</i> , 2021 , 297, 100943	5.4	4
107	Down Syndrome Cell Adhesion Molecule Triggers Membrane-to-Nucleus Signaling-Regulated Hemocyte Proliferation against Bacterial Infection in Invertebrates. <i>Journal of Immunology</i> , 2021 , 207, 2265-2277	5.3	2
106	Leptin is involved in acrosome reaction by facilitating activation of MAPK cascades in the Chinese mitten crab, Eriocheir sinensis. <i>Animal Biology</i> , 2020 , 70, 81-95	0.7	
105	Persistent Polyfunctional Chimeric Antigen Receptor T Cells That Target Glypican 3 Eliminate Orthotopic Hepatocellular Carcinomas in Mice. <i>Gastroenterology</i> , 2020 , 158, 2250-2265.e20	13.3	45
104	Vitellogenin receptor expression in ovaries controls innate immunity in the Chinese mitten crab (Eriocheir sinensis) by regulating vitellogenin accumulation in the hemolymph. <i>Fish and Shellfish Immunology</i> , 2020 , 107, 480-489	4.3	1
103	Bacteria-induced IMD-Relish-AMPs pathway activation in Chinese mitten crab. <i>Fish and Shellfish Immunology</i> , 2020 , 106, 866-875	4.3	3
102	A class B scavenger receptor mediates antimicrobial peptide secretion and phagocytosis in Chinese mitten crab (Eriocheir sinensis). <i>Developmental and Comparative Immunology</i> , 2020 , 103, 103496	3.2	6
101	B52 promotes alternative splicing of Dscam in Chinese mitten crab, Eriocheir sinensis. <i>Fish and Shellfish Immunology</i> , 2019 , 87, 460-469	4.3	6
100	Iron regulatory protein is involved in the immune defense of the Chinese mitten crab Eriocheir sinensis. <i>Fish and Shellfish Immunology</i> , 2019 , 89, 632-640	4.3	2
99	A Frizzled-Like Cysteine-Rich Domain in Glypican-3 Mediates Wnt Binding and Regulates Hepatocellular Carcinoma Tumor Growth in Mice. <i>Hepatology</i> , 2019 , 70, 1231-1245	11.2	48

98	High-Quality Genome Assembly of Reveals Its Unique Genome Evolution. <i>Frontiers in Genetics</i> , 2019 , 10, 1340	4.5	14
97	Deleted in azoospermia-associated protein 2 regulates innate immunity by stimulating Hippo signaling in crab. <i>Journal of Biological Chemistry</i> , 2019 , 294, 14704-14716	5.4	12
96	Transcriptome-wide analysis of immune responses in Eriocheir sinensis hemocytes after challenge with different microbial derivatives. <i>Developmental and Comparative Immunology</i> , 2019 , 101, 103457	3.2	3
95	EsGPCR89 regulates cerebral antimicrobial peptides through hemocytes in Eriocheir sinensis. <i>Fish and Shellfish Immunology</i> , 2019 , 95, 151-162	4.3	3
94	Alternatively spliced down syndrome cell adhesion molecule (Dscam) controls innate immunity in crab. <i>Journal of Biological Chemistry</i> , 2019 , 294, 16440-16450	5.4	19
93	Rab7 controls innate immunity by regulating phagocytosis and antimicrobial peptide expression in Chinese mitten crab. <i>Fish and Shellfish Immunology</i> , 2019 , 95, 259-267	4.3	6
92	NEDD8-conjugated Cullin4 positive regulates antimicrobial peptides expression in Eriocheir sinensis. <i>Fish and Shellfish Immunology</i> , 2019 , 84, 1041-1049	4.3	1
91	JAK/STAT signalling regulates antimicrobial activities in Eriocheir sinensis. <i>Fish and Shellfish Immunology</i> , 2019 , 84, 491-501	4.3	8
90	Characterization of the Es-DDX52 involved in the spermatogonial mitosis and spermatid differentiation in Chinese mitten crab (Eriocheir sinensis). <i>Gene</i> , 2018 , 646, 106-119	3.8	5
89	Pathogen-Specific Binding Soluble Down Syndrome Cell Adhesion Molecule (Dscam) Regulates Phagocytosis Membrane-Bound Dscam in Crab. <i>Frontiers in Immunology</i> , 2018 , 9, 801	8.4	34
88	Expression pattern and functional analysis of the two RING box protein RBX in spermatogenesis of Chinese mitten crab Eriocheir sinensis. <i>Gene</i> , 2018 , 668, 237-245	3.8	1
87	Fatty acid binding protein regulate antimicrobial function via Toll signaling in Chinese mitten crab. <i>Fish and Shellfish Immunology</i> , 2017 , 63, 9-17	4.3	6
86	A core component of the CUL4 ubiquitin ligase complexes, DDB1, regulates spermatogenesis in the Chinese mitten crab, Eriocheir sinensis. <i>Gene</i> , 2017 , 601, 11-20	3.8	3
85	A class B scavenger receptor from Eriocheir sinensis (EsSR-B1) restricts bacteria proliferation by promoting phagocytosis. <i>Fish and Shellfish Immunology</i> , 2017 , 70, 426-436	4.3	16
84	Vitellogenin regulates antimicrobial responses in Chinese mitten crab, Eriocheir sinensis. <i>Fish and Shellfish Immunology</i> , 2017 , 69, 6-14	4.3	10
83	GSK3βs involved in the spermatogenesis of the Chinese mitten crab Eriocheir sinensis H. Milne Edwards, 1853. <i>Crustaceana</i> , 2016 , 89, 559-581	0.4	2
82	Molecular cloning and characterization of p38 gene in the Chinese Mitten Crab, Eriocheir sinensis. <i>Aquaculture Research</i> , 2016 , 47, 1353-1363	1.9	8
81	Lipopolysaccharide and beta-1, 3-glucan binding protein (LGBP) stimulates prophenoloxidase activating system in Chinese mitten crab (Eriocheir sinensis). <i>Developmental and Comparative Immunology</i> , 2016 , 61, 70-9	3.2	18

80	The E3 Ubiquitin Ligase CRL4 Regulates Proliferation and Progression Through Meiosis in Chinese Mitten Crab <i>Eriocheir sinensis</i> . <i>Biology of Reproduction</i> , 2016 , 94, 65	3.9	6
79	A single CRD C-type lectin from <i>Eriocheir sinensis</i> (EsLecB) with microbial-binding, antibacterial prophenoloxidase activation and hem-encapsulation activities. <i>Fish and Shellfish Immunology</i> , 2016 , 50, 175-90	4.3	27
78	Characterisation of a novel Type I crustin involved in antibacterial and antifungal responses in the red claw crayfish, <i>Cherax quadricarinatus</i> . <i>Fish and Shellfish Immunology</i> , 2016 , 48, 30-8	4.3	23
77	Characterization and expression analysis of serpins in the Chinese mitten crab <i>Eriocheir sinensis</i> . <i>Gene</i> , 2016 , 575, 632-40	3.8	10
76	Role of transglutaminase in immune defense against bacterial pathogens via regulation of antimicrobial peptides. <i>Developmental and Comparative Immunology</i> , 2016 , 55, 39-50	3.2	14
75	Antimicrobial functions of EsLecH, a C-type lectin, via JNK pathway in the Chinese mitten crab, <i>Eriocheir sinensis</i> . <i>Developmental and Comparative Immunology</i> , 2016 , 61, 225-35	3.2	37
74	Molecular characterization and sub-cellular distribution of JNK and JIP4 protein kinases in spermatogenesis and acrosome reaction of the Chinese mitten crab <i>Eriocheir sinensis</i> H. Milne Edwards, 1853 (Crustacea: Brachyura: Varunidae). <i>Journal of Crustacean Biology</i> , 2016 , 36, 684-694	0.8	4
73	Morphological alterations of all stages of spermatogenesis and acrosome reaction in Chinese mitten crab <i>Eriocheir sinensis</i> . <i>Cell and Tissue Research</i> , 2015 , 360, 401-12	4.2	22
72	ERK is involved in the process of acrosome reaction in vitro of the Chinese mitten crab, <i>Eriocheir sinensis</i> . <i>Marine Biotechnology</i> , 2015 , 17, 305-16	3.4	11
71	A novel <i>Eriocheir sinensis</i> primary hemocyte culture technique and its immunoreactivity after pathogen stimulation. <i>Aquaculture</i> , 2015 , 446, 140-147	4.4	17
70	Profiling microRNAs in the testis during sexual maturation stages in <i>Eriocheir sinensis</i> . <i>Animal Reproduction Science</i> , 2015 , 162, 52-61	2.1	15
69	Antimicrobial activity of a novel hypervariable immunoglobulin domain-containing receptor Dscam in <i>Cherax quadricarinatus</i> . <i>Fish and Shellfish Immunology</i> , 2015 , 47, 766-76	4.3	12
68	Identification of ADAM10 and ADAM17 with potential roles in the spermatogenesis of the Chinese mitten crab, <i>Eriocheir sinensis</i> . <i>Gene</i> , 2015 , 562, 117-27	3.8	10
67	FOXL2 down-regulates vitellogenin expression at mature stage in <i>Eriocheir sinensis</i> . <i>Bioscience Reports</i> , 2015 , 35,	4.1	16
66	Fatty acid binding protein FABP3 from Chinese mitten crab <i>Eriocheir sinensis</i> participates in antimicrobial responses. <i>Fish and Shellfish Immunology</i> , 2015 , 43, 264-74	4.3	13
65	P38 participates in spermatogenesis and acrosome reaction prior to fertilization in Chinese mitten crab <i>Eriocheir sinensis</i> . <i>Gene</i> , 2015 , 559, 103-11	3.8	20
64	A Catalog of Proteins Expressed in the AG Secreted Fluid during the Mature Phase of the Chinese Mitten Crabs (<i>Eriocheir sinensis</i>). <i>PLoS ONE</i> , 2015 , 10, e0136266	3.7	2
63	Characterization and expression of DDX6 during gametogenesis in the Chinese mitten crab <i>Eriocheir sinensis</i> . <i>Genetics and Molecular Research</i> , 2015 , 14, 4420-37	1.2	4

62	Caspase-mediated apoptosis in crustaceans: cloning and functional characterization of EsCaspase-3-like protein from Eriocheir. <i>Fish and Shellfish Immunology</i> , 2014 , 41, 625-32	4.3	28
61	Identification and characterization of Tube in the Chinese mitten crab Eriocheir sinensis. <i>Gene</i> , 2014 , 541, 41-50	3.8	10
60	Genetic diversity based on SSR analysis of the cultured snakehead fish, Channa argus, (Channidae) in China. <i>Genetics and Molecular Research</i> , 2014 , 13, 8046-54	1.2	4
59	Involvement of the single Cul4 gene of Chinese mitten crab Eriocheir sinensis in spermatogenesis. <i>Gene</i> , 2014 , 536, 9-17	3.8	12
58	Characteristic of PGDS potential regulation role on spermatogenesis in the Chinese mitten crab Eriocheir sinensis. <i>Gene</i> , 2014 , 543, 244-52	3.8	3
57	Effects of dietary soybean lecithin on gonadal development and vitellogenin mRNA expression in the female redclaw crayfish Cherax quadricarinatus (von Martens) at first maturation. <i>Aquaculture Research</i> , 2013 , 44, 1167-1176	1.9	18
56	Two antibacterial C-type lectins from crustacean, Eriocheir sinensis, stimulated cellular encapsulation in vitro. <i>Developmental and Comparative Immunology</i> , 2013 , 41, 544-52	3.2	40
55	Characterization of Cherax quadricarinatus prohibitin and its potential role in spermatogenesis. <i>Gene</i> , 2013 , 519, 318-25	3.8	9
54	A novel C-type lectin from Eriocheir sinensis functions as a pattern recognition receptor with antibacterial activity. <i>Fish and Shellfish Immunology</i> , 2013 , 35, 1554-65	4.3	32
53	Identification of Channa species using the partial cytochrome c oxidase subunit I (COI) gene as a DNA barcoding marker. <i>Biochemical Systematics and Ecology</i> , 2013 , 51, 117-122	1.4	21
52	The complete mitochondrial genome of Channa argus, Channa maculata and hybrid snakehead fish [Channa maculata (?) [Channa argus (?)]. <i>Mitochondrial DNA</i> , 2013 , 24, 217-8		13
51	Two novel Toll genes (EsToll1 and EsToll2) from Eriocheir sinensis are differentially induced by lipopolysaccharide, peptidoglycan and zymosan. <i>Fish and Shellfish Immunology</i> , 2013 , 35, 1282-92	4.3	36
50	Cathepsin A protein from the accessory sex gland of the Chinese mitten crab (Eriocheir sinensis) plays a key role in spermatophore digestion. <i>Journal of Insect Physiology</i> , 2013 , 59, 953-60	2.4	13
49	Immunoglobulin superfamily protein Dscam exhibited molecular diversity by alternative splicing in hemocytes of crustacean, Eriocheir sinensis. <i>Fish and Shellfish Immunology</i> , 2013 , 35, 900-9	4.3	46
48	Cloning and tissue expression of hemocyanin gene in Cherax quadricarinatus during white spot syndrome virus infection. <i>Aquaculture</i> , 2013 , 410-411, 216-224	4.4	8
47	Molecular cloning and expression analysis of a dorsal homologue from Eriocheir sinensis. <i>Developmental and Comparative Immunology</i> , 2013 , 41, 723-7	3.2	13
46	Fatty acid binding proteins FABP9 and FABP10 participate in antibacterial responses in Chinese mitten crab, Eriocheir sinensis. <i>PLoS ONE</i> , 2013 , 8, e54053	3.7	23
45	Association of a hepatopancreas-specific C-type lectin with the antibacterial response of Eriocheir sinensis. <i>PLoS ONE</i> , 2013 , 8, e76132	3.7	36

44	Comparative transcriptome analysis of the accessory sex gland and testis from the Chinese mitten crab (<i>Eriocheir sinensis</i>). <i>PLoS ONE</i> , 2013 , 8, e53915	3.7	49
43	A double WAP domain-containing protein Es-DWD1 from <i>Eriocheir sinensis</i> exhibits antimicrobial and proteinase inhibitory activities. <i>PLoS ONE</i> , 2013 , 8, e73563	3.7	24
42	Characterization of the vasa gene in the Chinese mitten crab <i>Eriocheir sinensis</i> : a germ line molecular marker. <i>Journal of Insect Physiology</i> , 2012 , 58, 960-5	2.4	18
41	Two novel short C-type lectin from Chinese mitten crab, <i>Eriocheir sinensis</i> , are induced in response to LPS challenged. <i>Fish and Shellfish Immunology</i> , 2012 , 33, 1149-58	4.3	36
40	Reproductive function of Selenoprotein M in Chinese mitten crabs (<i>Eriocheir sinensis</i>). <i>Peptides</i> , 2012 , 34, 168-76	3.8	12
39	Effects of white spot syndrome virus infection on immuno-enzyme activities and ultrastructure in gills of <i>Cherax quadricarinatus</i> . <i>Fish and Shellfish Immunology</i> , 2012 , 32, 645-50	4.3	37
38	Characterization of heat shock protein 70 in the red claw crayfish (<i>Cherax quadricarinatus</i>): evidence for its role in regulating spermatogenesis. <i>Gene</i> , 2012 , 492, 138-47	3.8	22
37	Expression characteristics of the SUMOylation genes SUMO-1 and Ubc9 in the developing testis and ovary of Chinese mitten crab, <i>Eriocheir sinensis</i> . <i>Gene</i> , 2012 , 501, 135-43	3.8	14
36	Transcriptome profiling of testis during sexual maturation stages in <i>Eriocheir sinensis</i> using Illumina sequencing. <i>PLoS ONE</i> , 2012 , 7, e33735	3.7	66
35	Expression characteristics of two ubiquitin/ribosomal fusion protein genes in the developing testis, accessory gonad and ovary of Chinese mitten crab, <i>Eriocheir sinensis</i> . <i>Molecular Biology Reports</i> , 2012 , 39, 6683-92	2.8	19
34	Genetic diversity in three redclaw crayfish (<i>Cherax quadricarinatus</i> , von Martens) lines developed in culture in China. <i>Aquaculture Research</i> , 2012 , 43, 75-83	1.9	5
33	Large-scale isolation of microsatellites from Chinese Mitten Crab <i>Eriocheir sinensis</i> via a Solexa Genomic Survey. <i>International Journal of Molecular Sciences</i> , 2012 , 13, 16333-45	6.3	10
32	Molecular cloning, characterization and expression analysis of two apoptosis genes, caspase and nm23, involved in the antibacterial response in Chinese mitten crab, <i>Eriocheir sinensis</i> . <i>Fish and Shellfish Immunology</i> , 2011 , 30, 263-72	4.3	28
31	Molecular cloning, characterization and expression analysis of macrophage migration inhibitory protein (MIF) in Chinese mitten crab, <i>Eriocheir sinensis</i> . <i>Fish and Shellfish Immunology</i> , 2011 , 30, 324-9	4.3	16
30	Molecular cloning, characterization and expression analysis of cathepsin A gene in Chinese mitten crab, <i>Eriocheir sinensis</i> . <i>Peptides</i> , 2011 , 32, 518-25	3.8	19
29	A transcriptome analysis of mitten crab testes (<i>Eriocheir sinensis</i>). <i>Genetics and Molecular Biology</i> , 2011 , 34, 136-41	2	34
28	A novel TCTP gene from the crustacean <i>Eriocheir sinensis</i> : possible role involving metallic Cu ²⁺ stress. <i>Biological Bulletin</i> , 2011 , 221, 290-9	1.5	7
27	Cloning, characterization, expression, and copper sensitivity of the metallothionein-1 gene in the Chinese mitten crab, <i>Eriocheir sinensis</i> . <i>Molecular Biology Reports</i> , 2011 , 38, 2383-93	2.8	17

26	Molecular cloning and tissue expression of the fatty acid-binding protein (Es-FABP9) gene in the reproduction seasons of Chinese mitten crab, <i>Eriocheir sinensis</i> . <i>Molecular Biology Reports</i> , 2011 , 38, 5169-77	2.8	14
25	Caspase and nm23: apoptosis genes linked to the antibacterial response of the Chinese mitten crab. <i>Bioengineered Bugs</i> , 2011 , 2, 174-7		2
24	A novel DDX5 gene in the freshwater crayfish <i>Cherax quadricarinatus</i> is highly expressed during ontogenesis and spermatogenesis. <i>Genetics and Molecular Research</i> , 2011 , 10, 3963-75	1.2	9
23	Biochemical changes during vitellogenesis in the red claw crayfish, <i>Cherax quadricarinatus</i> (von Martens). <i>Aquaculture Research</i> , 2010 , 41, e446	1.9	9
22	The effect of dietary zinc supplementation on the growth, hepatopancreas fatty acid composition and gene expression in the Chinese mitten crab, <i>Eriocheir sinensis</i> (H. Milne-Edwards) (Decapoda: Grapsidae). <i>Aquaculture Research</i> , 2010 , 41, e828-e837	1.9	13
21	Isolation and characterization of fifteen microsatellite loci from the redclaw crayfish, <i>Cherax quadricarinatus</i> . <i>Aquatic Living Resources</i> , 2010 , 23, 231-234	1.5	3
20	Differentially Expressed Genes During Accessory Sex Gland Seasonal Development in <i>Eriocheir sinensis</i> . <i>Journal of Crustacean Biology</i> , 2010 , 30, 93-100	0.8	6
19	Accessory Sex Gland Proteins Affect Spermatophore Digestion Rate and Spermatozoa Acrosin Activity in <i>Eriocheir sinensis</i> . <i>Journal of Crustacean Biology</i> , 2010 , 30, 435-440	0.8	12
18	Molecular cloning, characterization, expression and activity analysis of cathepsin L in Chinese mitten crab, <i>Eriocheir sinensis</i> . <i>Fish and Shellfish Immunology</i> , 2010 , 29, 1010-8	4.3	41
17	Molecular cloning, characterization and expression analysis of cathepsin C gene involved in the antibacterial response in Chinese mitten crab, <i>Eriocheir sinensis</i> . <i>Developmental and Comparative Immunology</i> , 2010 , 34, 1170-4	3.2	12
16	Assembly of 500,000 inter-specific catfish expressed sequence tags and large scale gene-associated marker development for whole genome association studies. <i>Genome Biology</i> , 2010 , 11, R8	18.3	79
15	Molecular cloning and tissue expression of the fatty acid-binding protein (Es-FABP) gene in female Chinese mitten crab (<i>Eriocheir sinensis</i>). <i>BMC Molecular Biology</i> , 2010 , 11, 71	4.5	30
14	Molecular cloning and gene expression analysis of the leptin receptor in the Chinese mitten crab <i>Eriocheir sinensis</i> . <i>PLoS ONE</i> , 2010 , 5, e11175	3.7	16
13	Identification of proteins from the accessory sex gland of <i>Eriocheir sinensis</i> by two-dimensional electrophoresis and mass spectrometry. <i>Invertebrate Reproduction and Development</i> , 2009 , 53, 145-153	0.7	1
12	Seasonal bioconcentration of heavy metals in <i>Onchidium struma</i> (Gastropoda: Pulmonata) from Chongming Island, the Yangtze Estuary, China. <i>Journal of Environmental Sciences</i> , 2009 , 21, 255-62	6.4	24
11	Analysis and comparison of a set of expressed sequence tags of the parthenogenetic water flea <i>Daphnia carinata</i> . <i>Molecular Genetics and Genomics</i> , 2009 , 282, 197-203	3.1	8
10	Functional annotation and analysis of expressed sequence tags from the hepatopancreas of mitten crab (<i>Eriocheir sinensis</i>). <i>Marine Biotechnology</i> , 2009 , 11, 317-26	3.4	62
9	Toxic effects of copper on antioxidative and metabolic enzymes of the marine gastropod, <i>Onchidium struma</i> . <i>Archives of Environmental Contamination and Toxicology</i> , 2009 , 56, 776-84	3.2	21

8	Chasing relationships between nutrition and reproduction: A comparative transcriptome analysis of hepatopancreas and testis from <i>Eriocheir sinensis</i> . <i>Comparative Biochemistry and Physiology Part D: Genomics and Proteomics</i> , 2009 , 4, 227-34	2	25
7	Discovery of immune-related genes in Chinese mitten crab (<i>Eriocheir sinensis</i>) by expressed sequence tag analysis of haemocytes. <i>Aquaculture</i> , 2009 , 287, 297-303	4-4	45
6	Biochemical compositions and digestive enzyme activities during the embryonic development of prawn, <i>Macrobrachium rosenbergii</i> . <i>Aquaculture</i> , 2006 , 253, 573-582	4-4	34
5	Characterization of a NK-lysin antimicrobial peptide gene from channel catfish. <i>Fish and Shellfish Immunology</i> , 2006 , 20, 419-26	4-3	63
4	NK-lysin of channel catfish: gene triplication, sequence variation, and expression analysis. <i>Molecular Immunology</i> , 2006 , 43, 1676-86	4-3	62
3	Genomic organization, gene duplication, and expression analysis of interleukin-1beta in channel catfish (<i>Ictalurus punctatus</i>). <i>Molecular Immunology</i> , 2006 , 43, 1653-64	4-3	65
2	Features of an intersex Chinese mitten crab, <i>Eriocheir Japonica Sinensis</i> (Decapoda, Brachyura). <i>Crustaceana</i> , 2005 , 78, 371-377	0-4	7
1	Nutritional Requirement of the Chinese Mitten-handed Crab <i>Eriocheir sinensis</i> Juvenile for Arginine and Lysine. <i>Journal of the World Aquaculture Society</i> , 2005 , 36, 515-520	2-5	11
