

Sebastian Bergrath

List of Publications by Citations

Source: <https://exaly.com/author-pdf/142361/sebastian-bergrath-publications-by-citations.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
22	Feasibility of prehospital teleconsultation in acute stroke--a pilot study in clinical routine. <i>PLoS ONE</i> , 2012 , 7, e36796	3.7	76
21	Technical and organisational feasibility of a multifunctional telemedicine system in an emergency medical service - an observational study. <i>Journal of Telemedicine and Telecare</i> , 2011 , 17, 371-7	6.8	63
20	Implementation phase of a multicentre prehospital telemedicine system to support paramedics: feasibility and possible limitations. <i>Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine</i> , 2013 , 21, 54	3.6	49
19	Comparison of physician staffed emergency teams with paramedic teams assisted by telemedicine--a randomized, controlled simulation study. <i>Resuscitation</i> , 2013 , 84, 85-92	4	47
18	Cortisol and alpha-amylase as stress response indicators during pre-hospital emergency medicine training with repetitive high-fidelity simulation and scenarios with standardized patients. <i>Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine</i> , 2015 , 23, 31	3.6	36
17	Improved technical performance of a multifunctional prehospital telemedicine system between the research phase and the routine use phase - an observational study. <i>Journal of Telemedicine and Telecare</i> , 2017 , 23, 402-409	6.8	35
16	Teleconsultation in pre-hospital emergency medical services: real-time telemedical support in a prospective controlled simulation study. <i>Resuscitation</i> , 2012 , 83, 626-32	4	28
15	Treatment of Acute Coronary Syndrome by Telemedically Supported Paramedics Compared With Physician-Based Treatment: A Prospective, Interventional, Multicenter Trial. <i>Journal of Medical Internet Research</i> , 2016 , 18, e314	7.6	21
14	Blood pressure management and guideline adherence in hypertensive emergencies and urgencies: A comparison between telemedically supported and conventional out-of-hospital care. <i>Journal of Clinical Hypertension</i> , 2017 , 19, 704-712	2.3	20
13	Prehospital digital photography and automated image transmission in an emergency medical service - an ancillary retrospective analysis of a prospective controlled trial. <i>Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine</i> , 2013 , 21, 3	3.6	20
12	Telemedical support for prehospital Emergency Medical Service (TEMS trial): study protocol for a randomized controlled trial. <i>Trials</i> , 2017 , 18, 43	2.8	17
11	Is paper-based documentation in an emergency medical service adequate for retrospective scientific analysis? An evaluation of a physician-run service. <i>Emergency Medicine Journal</i> , 2011 , 28, 320-4	1.5	17
10	Utilization, Safety, and Technical Performance of a Telemedicine System for Prehospital Emergency Care: Observational Study. <i>Journal of Medical Internet Research</i> , 2019 , 21, e14907	7.6	15
9	Quality of analgesia in physician-operated telemedical prehospital emergency care is comparable to physician-based prehospital care - a retrospective longitudinal study. <i>Scientific Reports</i> , 2017 , 7, 1536	4.9	9
8	Comparison of manually triggered ventilation and bag-valve-mask ventilation during cardiopulmonary resuscitation in a manikin model. <i>Resuscitation</i> , 2012 , 83, 488-93	4	7
7	Comparing the diagnostic concordance of tele-EMS and on-site-EMS physicians in emergency medical services: a retrospective cohort study. <i>Scientific Reports</i> , 2020 , 10, 17982	4.9	5
6	Guideline adherence in acute coronary syndromes between telemedically supported paramedics and conventional on-scene physician care: A longitudinal pre-post intervention cohort study. <i>Health Informatics Journal</i> , 2019 , 25, 1528-1537	3	3

5	Implementation of a full-scale prehospital telemedicine system: evaluation of the process and systemic effects in a pre-post intervention study. <i>BMJ Open</i> , 2021 , 11, e041942	3	3
4	Characteristics and Unexpected COVID-19 Diagnoses in Resuscitation Room Patients during the COVID-19 Outbreak-A Retrospective Case Series. <i>BioMed Research International</i> , 2020 , 2020, 2721381	3	2
3	Suspected seizure-survival of a lethal dose of the rodenticide alpha-chloralose. <i>Der Anaesthetist</i> , 2019 , 68, 843-847	2.2	0
2	Short-term outcome and characteristics of critical care for nontrauma patients in the emergency department. <i>Der Anaesthetist</i> , 2021 , 1	2.2	0
1	Impact of the COVID-19 pandemic on emergency medical resources : An observational multicenter study including all hospitals in a major urban center of the Rhein-Ruhr metropolitan region. <i>Der Anaesthetist</i> , 2021 , 1	2.2	0
