#	Paper	IF	Citations
103	Elderly people's definitions of quality of life. <i>Social Science and Medicine</i> , 1995 , 41, 1439-46	5.1	368
102	Definitions of quality of life: a taxonomy. <i>Journal of Advanced Nursing</i> , 1995 , 22, 502-8	3.1	206
101	Evaluating complex interventions in end of life care: the MORECare statement on good practice generated by a synthesis of transparent expert consultations and systematic reviews. <i>BMC Medicine</i> , 2013 , 11, 111	11.4	196
100	Measurement of breathlessness in advanced disease: a systematic review. <i>Respiratory Medicine</i> , 2007 , 101, 399-410	4.6	187
99	Is a specialist breathlessness service more effective and cost-effective for patients with advanced cancer and their carers than standard care? Findings of a mixed-method randomised controlled trial. <i>BMC Medicine</i> , 2014 , 12, 194	11.4	120
98	Effect of ambulatory oxygen on quality of life for patients with fibrotic lung disease (AmbOx): a prospective, open-label, mixed-method, crossover randomised controlled trial. <i>Lancet Respiratory Medicine</i> , 2018 , 6, 759-770	35.1	92
97	Using mixed methods to develop and evaluate complex interventions in palliative care research. <i>Palliative Medicine</i> , 2011 , 25, 748-57	5.5	74
96	Researching breathlessness in palliative care: consensus statement of the National Cancer Research Institute Palliative Care Breathlessness Subgroup. <i>Palliative Medicine</i> , 2009 , 23, 213-27	5.5	71
95	The impact of a breathlessness intervention service (BIS) on the lives of patients with intractable dyspnea: a qualitative phase 1 study. <i>Palliative and Supportive Care</i> , 2006 , 4, 287-93	2.5	69
94	The clinical and cost effectiveness of a Breathlessness Intervention Service for patients with advanced non-malignant disease and their informal carers: mixed findings of a mixed method randomised controlled trial. <i>Trials</i> , 2016 , 17, 185	2.8	66
93	Caregiver Bereavement Outcome: Relationship with Hospice at Home, Satisfaction with Care, and Home Death. <i>Journal of Palliative Care</i> , 2004 , 20, 69-77	1.8	66
92	Death and the Oldest Old: Attitudes and Preferences for End-of-Life Care--Qualitative Research within a Population-Based Cohort Study. <i>PLoS ONE</i> , 2016 , 11, e0150686	3.7	62
91	Holistic services for people with advanced disease and chronic breathlessness: a systematic review and meta-analysis. <i>Thorax</i> , 2019 , 74, 270-281	7.3	61
90	Changes in life satisfaction over a two and a half year period among very elderly people living in London. <i>Social Science and Medicine</i> , 1993 , 36, 641-55	5.1	60
89	Life satisfaction and associations with social network and support variables in three samples of elderly people. <i>International Journal of Geriatric Psychiatry</i> , 1991 , 6, 549-566	3.9	57
88	Perspectives of patients, family caregivers and physicians about the use of opioids for refractory dyspnea in advanced chronic obstructive pulmonary disease. <i>Cmaj</i> , 2012 , 184, E497-504	3.5	56
87	The influence of patient and carer age in access to palliative care services. <i>Age and Ageing</i> , 2006 , 35, 267-73		52

86	Use of services in old age: data from three surveys of elderly people. <i>Social Science and Medicine</i> , 1991 , 33, 689-700	5.1	52
85	Barriers to effective communication across the primary/secondary interface: examples from the ovarian cancer patient journey (a qualitative study). <i>European Journal of Cancer Care</i> , 2005 , 14, 359-66	2.4	51
84	Using opioids to treat dyspnea in advanced COPD: attitudes and experiences of family physicians and respiratory therapists. <i>Canadian Family Physician</i> , 2012 , 58, e401-7	0.9	49
83	The oldest old in the last year of life: population-based findings from Cambridge city over-75s cohort study participants aged 85 and older at death. <i>Journal of the American Geriatrics Society</i> , 2010 , 58, 1-11	5.6	39
82	Contributions of a hand-held fan to self-management of chronic breathlessness. <i>European Respiratory Journal</i> , 2017 , 50,	13.6	38
81	Place of death and end-of-life transitions experienced by very old people with differing cognitive status: retrospective analysis of a prospective population-based cohort aged 85 and over. <i>Palliative Medicine</i> , 2014 , 28, 220-33	5.5	38
80	Associations with social networks, social support, health status and psychiatric morbidity in three samples of elderly people. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 1991 , 26, 115-26	4.5	38
79	Defining patients as palliative: hospital doctors' versus general practitioners' perceptions. <i>Palliative Medicine</i> , 2002 , 16, 247-50	5.5	37
78	Health beliefs: a cultural division?. <i>Journal of Advanced Nursing</i> , 1992 , 17, 1447-54	3.1	37
77	Support needs of patients with COPD: a systematic literature search and narrative review. <i>International Journal of COPD</i> , 2018 , 13, 1021-1035	3	36
76	Use of the modified Borg scale and numerical rating scale to measure chronic breathlessness: a pooled data analysis. <i>European Respiratory Journal</i> , 2016 , 47, 1861-4	13.6	35
75	Quality of life measures (EORTC QLQ-C30 and SF-36) as predictors of survival in palliative colorectal and lung cancer patients. <i>Palliative and Supportive Care</i> , 2009 , 7, 289-97	2.5	35
74	The feasibility of a single-blinded fast-track pragmatic randomised controlled trial of a complex intervention for breathlessness in advanced disease. <i>BMC Palliative Care</i> , 2009 , 8, 9	3	35
73	Study protocol: Phase III single-blinded fast-track pragmatic randomised controlled trial of a complex intervention for breathlessness in advanced disease. <i>Trials</i> , 2011 , 12, 130	2.8	34
72	Team midwifery: the views and job satisfaction of midwives. <i>Midwifery</i> , 1998 , 14, 214-24	2.8	32
71	Results of a pilot investigation into a complex intervention for breathlessness in advanced chronic obstructive pulmonary disease (COPD): brief report. <i>Palliative and Supportive Care</i> , 2010 , 8, 143-9	2.5	30
70	Six key topics informal carers of patients with breathlessness in advanced disease want to learn about and why: MRC phase I study to inform an educational intervention. <i>PLoS ONE</i> , 2017 , 12, e0177081	3.7	29
69	ASSOCIATIONS WITH CHANGES IN LIFE SATISFACTION AMONG THREE SAMPLES OF ELDERLY PEOPLE LIVING AT HOME 1996 , 11, 1077-1087		28

68	The need to research refractory breathlessness. <i>European Respiratory Journal</i> , 2016 , 47, 342-3	13.6	27
67	Mixed methods research in the development and evaluation of complex interventions in palliative and end-of-life care: report on the MORECare consensus exercise. <i>Journal of Palliative Medicine</i> , 2013 , 16, 1550-60	2.2	27
66	The TEAM Approach to Improving Oncology Outcomes by Incorporating Palliative Care in Practice. <i>Journal of Oncology Practice</i> , 2017 , 13, 557-566	3.1	26
65	Changes in network composition among the very old living in inner London. <i>Journal of Cross-Cultural Gerontology</i> , 1995 , 10, 331-47	2	24
64	Delivering palliative care in an acute hospital setting: views of referrers and specialist providers. <i>Journal of Pain and Symptom Management</i> , 2009 , 38, 327-40	4.8	23
63	Place of death for the 'oldest old': > or =85-year-olds in the CC75C population-based cohort. <i>British Journal of General Practice</i> , 2010 , 60, 171-9	1.6	23
62	Continuity of care in maternity services: women's views of one team midwifery scheme. <i>Midwifery</i> , 2000 , 16, 35-47	2.8	23
61	Dying comfortably in very old age with or without dementia in different care settings - a representative "older old" population study. <i>BMC Geriatrics</i> , 2017 , 17, 222	4.1	19
60	Assessing carer needs in chronic obstructive pulmonary disease. <i>Chronic Respiratory Disease</i> , 2018 , 15, 26-35	3	18
59	Strategies designed to help healthcare professionals to recruit participants to research studies. <i>The Cochrane Library</i> , 2016 , 2016,	5.2	17
58	The Effects of a Video Intervention on Posthospitalization Pulmonary Rehabilitation Uptake. A Randomized Controlled Trial. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2020 , 201, 1517-1524	10.2	16
57	Carers and breathlessness. <i>Current Opinion in Supportive and Palliative Care</i> , 2017 , 11, 165-173	2.6	16
56	Ambulatory oxygen in fibrotic lung disease (AmbOx): study protocol for a randomised controlled trial. <i>Trials</i> , 2017 , 18, 201	2.8	16
55	Sharing news of a lung cancer diagnosis with adult family members and friends: a qualitative study to inform a supportive intervention. <i>Patient Education and Counseling</i> , 2016 , 99, 378-385	3.1	15
54	Fast-track trials in palliative care: an alternative randomized controlled trial design. <i>Journal of Palliative Medicine</i> , 2009 , 12, 213	2.2	15
53	The experience of using the SEIQoL-DW with patients with advanced chronic obstructive pulmonary disease (COPD): issues of process and outcome. <i>Quality of Life Research</i> , 2010 , 19, 619-29	3.7	14
52	Developing a breathlessness intervention service for patients with palliative and supportive care needs, irrespective of diagnosis. <i>Journal of Palliative Care</i> , 2011 , 27, 28-36	1.8	14
51	Associations between the psychological health of patients and carers in advanced COPD. <i>International Journal of COPD</i> , 2017 , 12, 2813-2821	3	13

50	Associations with Changes in Level of Functional Ability. Results from a Follow-up Survey at Two and a Half Years of People Aged 85 Years and Over at Baseline Interview. <i>Ageing and Society</i> , 1994 , 14, 53-73	1.7	13
49	What Are the Key Elements of Educational Interventions for Lay Carers of Patients With Advanced Disease? A Systematic Literature Search and Narrative Review of Structural Components, Processes and Modes of Delivery. <i>Journal of Pain and Symptom Management</i> , 2016 , 52, 117-130.e27	4.8	12
48	General practitioners' and district nurses' views of hospital at home for palliative care. <i>Palliative Medicine</i> , 2002 , 16, 251-4	5.5	11
47	Clinicians' Views of Educational Interventions for Carers of Patients With Breathlessness Due to Advanced Disease: Findings From an Online Survey. <i>Journal of Pain and Symptom Management</i> , 2017 , 53, 265-271	4.8	10
46	Changes in network composition among older people living in inner London and Essex. <i>Health and Place</i> , 1995 , 1, 149-166	4.6	10
45	The Health and Well-being of Jewish People Aged 65 to 85 Years Living at Home in the East End of London. <i>Ageing and Society</i> , 1993 , 13, 213-244	1.7	10
44	Psychiatric morbidity among people aged 85+ in 1987. A follow-up study at two and a half years: Associations with changes in psychiatric morbidity. <i>International Journal of Geriatric Psychiatry</i> , 1992 , 7, 307-321	3.9	10
43	Enabling patients with advanced chronic obstructive pulmonary disease to identify and express their support needs to health care professionals: A qualitative study to develop a tool. <i>Palliative Medicine</i> , 2019 , 33, 663-675	5.5	8
42	Experiences of Pulmonary Rehabilitation in People Living with Chronic Obstructive Pulmonary Disease and Frailty. A Qualitative Interview Study. <i>Annals of the American Thoracic Society</i> , 2020 , 17, 1213-1221	4.7	8
41	Association of Descriptors of Breathlessness With Diagnosis and Self-Reported Severity of Breathlessness in Patients With Advanced Chronic Obstructive Pulmonary Disease or Cancer. <i>Journal of Pain and Symptom Management</i> , 2016 , 52, 259-64	4.8	8
40	Are within-person Numerical Rating Scale (NRS) ratings of breathlessness 'on average' valid in advanced disease for patients and for patients' informal carers?. <i>BMJ Open Respiratory Research</i> , 2017 , 4, e000235	5.6	8
39	Caregivers' perceived adequacy of support in end-stage lung disease: results of a population survey. <i>BMC Pulmonary Medicine</i> , 2011 , 11, 55	3.5	8
38	Outcome of anxiety and depression at two and a half years after baseline interview: associations with changes in psychiatric morbidity among three samples of elderly people living at home 1996 , 11, 119-129		8
37	Sharing bad news of a lung cancer diagnosis: understanding through communication privacy management theory. <i>Psycho-Oncology</i> , 2016 , 25, 913-8	3.9	8
36	Who are the consistently high users of health and social services? A follow-up study two and a half years later of people aged 85+ at baseline. <i>Health and Social Care in the Community</i> , 2007 , 1, 277-287	2.6	7
35	Does the carer support needs assessment tool cover the established support needs of carers of patients with chronic obstructive pulmonary disease? A systematic literature search and narrative review. <i>Palliative Medicine</i> , 2020 , 34, 1305-1315	5.5	7
34	Predicting outcomes following holistic breathlessness services: A pooled analysis of individual patient data. <i>Palliative Medicine</i> , 2019 , 33, 462-466	5.5	7
33	Do patients and carers agree on symptom burden in advanced COPD?. <i>International Journal of COPD</i> , 2018 , 13, 969-977	3	7

32	Recommendations for services for people living with chronic breathlessness in advanced disease: Results of a transparent expert consultation. <i>Chronic Respiratory Disease</i> , 2019 , 16, 1479973118816448	3	6
31	Working with team midwifery: health visitors' views of one team midwifery scheme. <i>Journal of Advanced Nursing</i> , 1998 , 27, 546-52	3.1	6
30	Supporting informal carers51-69		6
29	Cost-effectiveness of ambulatory oxygen in improving quality of life in fibrotic lung disease: preliminary evidence from the AmbOx Trial. <i>European Respiratory Journal</i> , 2020 , 55,	13.6	5
28	Comparison of respiratory health-related quality of life in patients with intractable breathlessness due to advanced cancer or advanced COPD. <i>BMJ Supportive and Palliative Care</i> , 2016 , 6, 105-8	2.2	5
27	Support Needs Approach for Patients (SNAP) tool: a validation study. <i>BMJ Open</i> , 2019 , 9, e032028	3	5
26	Non-pharmacological interventions for breathlessness in people with cancer. <i>Expert Review of Quality of Life in Cancer Care</i> , 2018 , 1-15		5
25	The experience of transitions in care in very old age: implications for general practice. <i>Family Practice</i> , 2019 , 36, 778-784	1.9	4
24	When Frail Older People Relocate in Very Old Age, Who Makes the Decision?. <i>Innovation in Aging</i> , 2019 , 3, igz030	0.1	4
23	Internet-delivered guided self-help acceptance and commitment therapy for family carers of people with dementia (iACT4CARERS): a feasibility study. <i>Aging and Mental Health</i> , 2021 , 1-9	3.5	4
22	COPD discharge bundle and pulmonary rehabilitation referral and uptake following hospitalisation for acute exacerbation of COPD. <i>Thorax</i> , 2021 ,	7.3	4
21	PREPAREDNESS TO CARE IN ADVANCED COPD: HOW PREPARED ARE INFORMAL CARERS OF PATIENTS WITH ADVANCED COPD AND WHAT ARE THEIR SUPPORT NEEDS? BASELINE DATA FROM AN ONGOING LONGITUDINAL STUDY. <i>BMJ Supportive and Palliative Care</i> , 2014 , 4, A8.3-A9	2.2	3
20	Holistic services for people with advanced disease and chronic or refractory breathlessness: a mixed-methods evidence synthesis. <i>Health Services and Delivery Research</i> , 2019 , 7, 1-104	1.5	3
19	The impact of providing end-of-life care during a pandemic on the mental health and wellbeing of health and social care staff: Systematic review and meta-synthesis. <i>Social Science and Medicine</i> , 2021 , 287, 114397	5.1	2
18	Therapeutic thoracentesis symptoms and activity: a qualitative study. <i>BMJ Supportive and Palliative Care</i> , 2021 ,	2.2	2
17	ENABLING PATIENT-CENTRED CARE IN ADVANCED COPD: IDENTIFYING CARE AND SUPPORT NEEDS. <i>BMJ Supportive and Palliative Care</i> , 2015 , 5, 114.1-114	2.2	1
16	Therapists' perceptions and acceptability of providing internet-delivered guided self-help acceptance and commitment therapy (ACT) for family carers of people with dementia (iACT4CARERS): a qualitative study. <i>The Cognitive Behaviour Therapist</i> , 2021 , 14,	2.9	1
15	Integrating Home-Based Exercise Training with a Hospital at Home Service for Patients Hospitalised with Acute Exacerbations of COPD: Developing the Model Using Accelerated Experience-Based Co-Design. <i>International Journal of COPD</i> , 2021 , 16, 1035-1049	3	1

14	Occupational therapy interventions for adult informal carers and implications for intervention design, delivery and evaluation: A systematic review. <i>British Journal of Occupational Therapy</i> , 0308022622110792 ¹		
13	Understanding how the Support Needs Approach for Patients (SNAP) enables identification, expression and discussion of patient support needs: A qualitative study. <i>Chronic Illness</i> , 2021, 17423953211047840		
12	Supportive and palliative care of adults with respiratory problems experiencing structural vulnerability from homelessness, prison or other criminal justice system involvement. <i>Current Opinion in Supportive and Palliative Care</i> , 2020, 14, 197-205	2.6	○
11	Face and content validity of the Carer Support Needs Assessment Tool (CSNAT), and feasibility of the CSNAT intervention, for carers of patients with chronic obstructive pulmonary disease. <i>Chronic Illness</i> , 2021, 1742395321999433	1.4	○
10	Communicating uncertainty: contrasting the communication experiences of patients with advanced COPD and incurable lung cancer. <i>Family Practice</i> , 2021, 38, 637-643	1.9	○
9	Internet-delivered guided self-help Acceptance and Commitment Therapy for family carers of people with dementia (iACT4CARERS): a qualitative study of carer views and acceptability.. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2022, 17, 2066255	2	○
8	Commentary: Palliative care for people with non-malignant respiratory disease and their carers: a review of the current evidence. <i>Journal of Research in Nursing</i> , 2019, 24, 431-432	0.9	
7	Quality of life measures (EORTC QLQ-C30 and SF-36) as predictors of survival in palliative colorectal and lung cancer patients - ERRATUM. <i>Palliative and Supportive Care</i> , 2009, 7, 533-533	2.5	
6	Implementation of a complex intervention to improve care for patients whose situations are clinically uncertain in hospital settings: A multi-method study using normalisation process theory. <i>PLoS ONE</i> , 2020, 15, e0239181	3.7	
5	'I'm fine!': Assertions of lack of support need among patients with chronic obstructive pulmonary disease: A mixed-methods study. <i>Chronic Illness</i> , 2021, 17423953211000386	1.4	
4	Implementation of a complex intervention to improve care for patients whose situations are clinically uncertain in hospital settings: A multi-method study using normalisation process theory 2020, 15, e0239181		
3	Implementation of a complex intervention to improve care for patients whose situations are clinically uncertain in hospital settings: A multi-method study using normalisation process theory 2020, 15, e0239181		
2	Implementation of a complex intervention to improve care for patients whose situations are clinically uncertain in hospital settings: A multi-method study using normalisation process theory 2020, 15, e0239181		
1	Implementation of a complex intervention to improve care for patients whose situations are clinically uncertain in hospital settings: A multi-method study using normalisation process theory 2020, 15, e0239181
