#	ARTICLE	IF	CITATIONS
1	Systematic reviews are rarely used to inform study design - a systematic review and meta-analysis. <i>Journal of Clinical Epidemiology</i> , 2022, 145, 1-13.	2.4	14
2	Exercise-Based Real-time Telerehabilitation for Older Adult Patients Recently Discharged After Transcatheter Aortic Valve Implantation: Mixed Methods Feasibility Study. <i>JMIR Rehabilitation and Assistive Technologies</i> , 2022, 9, e34819.	1.1	6
3	Perspectives on Participation in a Feasibility Study on Exercise-Based Cardiac Telerehabilitation After Transcatheter Aortic Valve Implantation: Qualitative Interview Study Among Patients and Health Professionals. <i>JMIR Formative Research</i> , 2022, 6, e35365.	0.7	5
4	Evidence-Based Research Series-Paper 2 : Using an Evidence-Based Research approach before a new study is conducted to ensure value. <i>Journal of Clinical Epidemiology</i> , 2021, 129, 158-166.	2.4	42
5	Evidence-Based Research Series-Paper 3: Using an Evidence-Based Research approach to place your results into context after the study is performed to ensure usefulness of the conclusion. <i>Journal of Clinical Epidemiology</i> , 2021, 129, 167-171.	2.4	27
6	Multidimensional frailty and its determinants among acutely admitted older people: a cross-sectional study using the Tilburg Frailty Indicator. <i>European Geriatric Medicine</i> , 2021, 12, 151-160.	1.2	6
7	Effects of gait adaptability training on falls and fall-related fractures in older adults: a systematic review and meta-analysis. <i>Age and Ageing</i> , 2021, 50, 1914-1924.	0.7	20
8	Patients' experiences following acute admission due to COPD exacerbation. A qualitative interview study. <i>International Emergency Nursing</i> , 2021, 58, 101054.	0.6	4
9	Treatment of urinary incontinence in overweight women by a multidisciplinary lifestyle intervention. <i>Archives of Gynecology and Obstetrics</i> , 2020, 301, 525-532.	0.8	6
10	Perspectives of patients and health professionals on important factors influencing rehabilitation following acute pulmonary embolism: A multi-method study. <i>Thrombosis Research</i> , 2020, 196, 283-290.	0.8	3
11	The perspectives of health professionals in Denmark on physical exercise and nutritional interventions for acutely admitted frail older people during and after hospitalisation. <i>Health and Social Care in the Community</i> , 2020, 28, 2140-2149.	0.7	7
12	A cohort study of the effects of multidisciplinary in-patient primary care in older adults. <i>European Geriatric Medicine</i> , 2020, 11, 677-684.	1.2	1
13	The prediction of readmission and mortality by the domains and components of the Tilburg Frailty Indicator (TFI). <i>Archives of Gerontology and Geriatrics</i> , 2020, 89, 104077.	1.4	10
14	Translation, validation and test-retest reliability of the VISA-G patient-reported outcome tool into Danish (VISA-G.DK). <i>PeerJ</i> , 2020, 8, e8724.	0.9	12
15	Health-related quality of life at hospital discharge as a predictor for 6-month unplanned readmission and all-cause mortality of acutely admitted older medical patients. <i>Quality of Life Research</i> , 2019, 28, 3015-3024.	1.5	18
16	Coping with everyday life and physical activity in the aftermath of an acute pulmonary embolism: A qualitative study exploring patients' perceptions and coping strategies. <i>Thrombosis Research</i> , 2019, 182, 185-191.	0.8	29
17	Associations and predictions of readmission or death in acutely admitted older medical patients using self-reported frailty and functional measures. A Danish cohort study. <i>Archives of Gerontology and Geriatrics</i> , 2018, 76, 65-72.	1.4	21
18	Foot exercises and foot orthoses are more effective than knee focused exercises in individuals with patellofemoral pain. <i>Journal of Science and Medicine in Sport</i> , 2018, 21, 10-15.	0.6	24

#	ARTICLE	IF	CITATIONS
19	Factors affecting patient and nursing staff adherence to an integrated physical activity and nutritional intervention targeting functional decline on an acute medical ward: a qualitative study. Patient Preference and Adherence, 2018, Volume 12, 1425-1435.	0.8	7
20	Very Low Levels of Physical Activity in Older Patients During Hospitalization at an Acute Geriatric Ward: A Prospective Cohort Study. Journal of Aging and Physical Activity, 2015, 23, 542-549.	0.5	63
21	The experience of daily life of acutely admitted frail elderly patients one week after discharge from the hospital. International Journal of Qualitative Studies on Health and Well-being, 2015, 10, 27370.	0.6	68
22	Content validation of the Tilburg Frailty Indicator from the perspective of frail elderly. A qualitative explorative study. Archives of Gerontology and Geriatrics, 2015, 61, 392-399.	1.4	20
23	Community-dwelling frail elderly people's experience of daily life: a qualitative systematic review protocol. JBI Database of Systematic Reviews and Implementation Reports, 2015, 13, 97-104.	1.7	1
24	Short and long-term effects of supervised versus unsupervised exercise training on health-related quality of life and functional outcomes following lung cancer surgery – A randomized controlled trial. Lung Cancer, 2014, 83, 102-108.	0.9	64
25	Danish version of the Tilburg Frailty Indicator – Translation, cross-cultural adaption and validity pretest by cognitive interviewing. Archives of Gerontology and Geriatrics, 2014, 59, 32-38.	1.4	43
26	Is a computer-based measurement method superior to a recommended manual method by the ROHO Group to assess pressure in the sitting position?. Australian Occupational Therapy Journal, 2013, 60, 350-355.	0.6	0
27	Exercise therapy and custom-made insoles are effective in patients with excessive pronation and chronic foot pain – A randomized controlled trial. Foot, 2013, 23, 22-28.	0.4	17
