#	ARTICLE	IF	CITATIONS
1	Global drivers of avian haemosporidian infections vary across zoogeographical regions. <i>Global Ecology and Biogeography</i> , 2021, 30, 2393-2406.	5.8	42
2	Avian haemosporidian prevalence and its relationship to host traits in Western Tennessee. <i>Journal of Ornithology</i> , 2020, 161, 995-1010.	1.1	4
3	Temporal changes in abundance exhibit less spatial structure than abundance itself in North American birds. <i>Journal of Ornithology</i> , 2019, 160, 37-47.	1.1	1
4	Avian host composition, local speciation and dispersal drive the regional assembly of avian malaria parasites in South American birds. <i>Molecular Ecology</i> , 2019, 28, 2681-2693.	3.9	54
5	Bird Tissues from Museum Collections are Reliable for Assessing Avian Haemosporidian Diversity. <i>Journal of Parasitology</i> , 2019, 105, 446.	0.7	9
6	Bird Tissues from Museum Collections Are Reliable for Assessing Avian Haemosporidian Diversity. <i>Journal of Parasitology</i> , 2019, 105, 446-453.	0.7	1
7	Neotropical Migrants Exhibit Variable Body-Size Changes Over Time and Space. <i>Northeastern Naturalist</i> , 2017, 24, 82-96.	0.3	5
8	Heterogeneous changes in avian body size across and within species. <i>Journal of Ornithology</i> , 2017, 158, 39-52.	1.1	10
9	Prevalence of avian haemosporidian parasites is positively related to the abundance of host species at multiple sites within a region. <i>Parasitology Research</i> , 2017, 116, 73-80.	1.6	30
10	Avian haemosporidian prevalence and its relationship to host life histories in eastern Tennessee. <i>Journal of Ornithology</i> , 2016, 157, 533-548.	1.1	36
11	The checkered history of checkerboard distributions: reply. <i>Ecology</i> , 2015, 96, 3388-3389.	3.2	8
12	Local host specialization, host-switching, and dispersal shape the regional distributions of avian haemosporidian parasites. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2015, 112, 11294-11299.	7.1	75
13	The checkered history of checkerboard distributions. <i>Ecology</i> , 2013, 94, 2403-2414.	3.2	63
14	Binary matrices and checkerboard distributions of birds in the Bismarck Archipelago. <i>Journal of Biogeography</i> , 2011, 38, 2373-2383.	3.0	20
