#	ARTICLE	IF	CITATIONS
1	Urine collection devices to reduce contamination in urine samples for diagnosis of uncomplicated UTI: a single-blind randomised controlled trial in primary care. <i>British Journal of General Practice</i> , 2022, 72, e225-e233.	1.4	8
2	The psychological journey of weight gain in psychosis. <i>Psychology and Psychotherapy: Theory, Research and Practice</i> , 2022, 95, 525-540.	2.5	10
3	Implementation of significant mental health service change: perceptions and concerns of a mental health workforce in the context of transformation. <i>Journal of Health Organization and Management</i> , 2022, 36, 66-78.	1.3	1
4	Women's information needs around urine testing for urinary tract infections: a qualitative study. <i>British Journal of General Practice</i> , 2022, 72, e244-e251.	1.4	2
5	Parents' concerns and beliefs about temperature measurement in children: a qualitative study. <i>BMC Family Practice</i> , 2021, 22, 9.	2.9	3
6	Mental healthcare clinician engagement with point of care testing; a qualitative study. <i>BMC Psychiatry</i> , 2021, 21, 73.	2.6	3
7	Urgent assessment and ongoing care for infection in community-dwelling older people: a qualitative study of patient experience. <i>BMJ Open</i> , 2021, 11, e043541.	1.9	1
8	How does reorganisation in child and adolescent mental health services affect access to services? An observational study of two services in England. <i>PLoS ONE</i> , 2021, 16, e0250691.	2.5	5
9	"You see the empty bed which means it's either a transplant or a death": a qualitative study exploring the impact of death in the haemodialysis community. <i>BMJ Open</i> , 2021, 11, e046537.	1.9	3
10	Exploring the public health potential of RED January, a social media campaign supporting physical activity in the community for mental health: A qualitative study. <i>Mental Health and Physical Activity</i> , 2021, 21, 100429.	1.8	2
11	Strategies to implement SARS-CoV-2 point-of-care testing into primary care settings: a qualitative secondary analysis guided by the Behaviour Change Wheel. <i>Implementation Science Communications</i> , 2021, 2, 139.	2.2	2
12	Attitudes to physical healthcare in severe mental illness; a patient and mental health clinician qualitative interview study. <i>BMC Family Practice</i> , 2020, 21, 243.	2.9	17
13	Effect of point of care blood testing on physical health check completion in mental health services: mixed-methods evaluation. <i>BJPsych Open</i> , 2020, 6, e127.	0.7	1
14	Point-of-care blood tests during home visits by out-of-hours primary care clinicians; a mixed methods evaluation of a service improvement. <i>BMJ Open</i> , 2020, 10, e033428.	1.9	11
15	Introducing a single point of access (SPA) to child and adolescent mental health services in England: a mixed-methods observational study. <i>BMC Health Services Research</i> , 2020, 20, 623.	2.2	8
16	Infection in older adults: a qualitative study of patient experience. <i>British Journal of General Practice</i> , 2020, 70, e312-e321.	1.4	1
17	Non-contact infrared versus axillary and tympanic thermometers in children attending primary care: a mixed-methods study of accuracy and acceptability. <i>British Journal of General Practice</i> , 2020, 70, e236-e244.	1.4	13
18	Non-contact infrared thermometers compared with current approaches in primary care for children aged 5 years and under: a method comparison study. <i>Health Technology Assessment</i> , 2020, 24, 1-28.	2.8	7

#	ARTICLE	IF	CITATIONS
19	Pre-analytical error for three point of care venous blood testing platforms in acute ambulatory settings: A mixed methods service evaluation. PLoS ONE, 2020, 15, e0228687.	2.5	3
20	Title is missing!. , 2020, 15, e0228687.		0
21	Title is missing!. , 2020, 15, e0228687.		0
22	Title is missing!. , 2020, 15, e0228687.		0
23	Title is missing!. , 2020, 15, e0228687.		0
24	Experiences of Ambulatory Care for Frail, Older People and Their Carers During Acute Illness: A Qualitative, Ethnographic Study. Journal of the American Medical Directors Association, 2019, 20, 1344-1347.	2.5	3
25	Understanding and evaluating new models of Child and Adolescent Mental Health Services in South-East England: a study protocol for an observational mixed-methods study. BMJ Open, 2018, 8, e024230.	1.9	7
26	Older people's experiences of falling and perceived risk of falls in the community: A narrative synthesis of qualitative research. International Journal of Older People Nursing, 2017, 12, e12151.	1.3	62
27	Blood pressure self-monitoring in pregnancy (BuMP) feasibility study; a qualitative analysis of women's experiences of self-monitoring. BMC Pregnancy and Childbirth, 2017, 17, 427.	2.4	53
28	Blood pressure self-monitoring in pregnancy: examining feasibility in a prospective cohort study. BMC Pregnancy and Childbirth, 2017, 17, 442.	2.4	55
29	Embedding new technologies in practice – a normalization process theory study of point of care testing. BMC Health Services Research, 2016, 16, 591.	2.2	28
30	“Sometimes we can't fix things” a qualitative study of health care professionals' perceptions of end of life care for patients with heart failure. BMC Palliative Care, 2016, 15, 3.	1.8	30
31	Unplanned admissions and the organisational management of heart failure: a multicentre ethnographic, qualitative study. BMJ Open, 2015, 5, e007522.	1.9	30
