#	Article	IF	CITATIONS
1	Systematic review of involving patients in the planning and development of health care. BMJ: British Medical Journal, 2002, 325, 1263-1263.	2.4	717
2	Impact of centralising acute stroke services in English metropolitan areas on mortality and length of hospital stay: difference-in-differences analysis. BMJ, The, 2014, 349, g4757-g4757.	3.0	178
3	Patients or partners? Case studies of user involvement in the planning and delivery of adult mental health services in London. Social Science and Medicine, 2004, 58, 1973-1984.	1.8	153
4	The role of embedded research in quality improvement: a narrative review. BMJ Quality and Safety, 2017, 26, 70-80.	1.8	143
5	Moving improvement research closer to practice: the Researcher-in-Residence model: TableÂ1. BMJ Quality and Safety, 2014, 23, 801-805.	1.8	138
6	On Being a Good Listener: Setting Priorities for Applied Health Services Research. Milbank Quarterly, 2003, 81, 363-388.	2.1	125
7	Process and impact of mergers of NHS trusts: multicentre case study and management cost analysis. BMJ: British Medical Journal, 2002, 325, 246-246.	2.4	117
8	Changing organisations: a study of the context and processes of mergers of health care providers in England. Social Science and Medicine, 2005, 60, 119-130.	1.8	117
9	To what extent are women free to choose where to give birth? How discourses of risk, blame and responsibility influence birth place decisions. Health, Risk and Society, 2014, 16, 51-67.	0.9	113
10	Remote management of covid-19 using home pulse oximetry and virtual ward support. BMJ, The, 2021, 372, n677.	3.0	113
11	Investigating the use of patient involvement and patient experience in quality improvement in Norway: rhetoric or reality?. BMC Health Services Research, 2013, 13, 206.	0.9	95
12	Mortality and morbidity meetings: an untapped resource for improving the governance of patient safety?. BMJ Quality and Safety, 2012, 21, 576-585.	1.8	89
13	Remote home monitoring (virtual wards) for confirmed or suspected COVID-19 patients: a rapid systematic review. EClinicalMedicine, 2021, 37, 100965.	3.2	83
14	Challenges, solutions and future directions in the evaluation of service innovations in health care and public health. Health Services and Delivery Research, 2016, 4, 1-136.	1.4	83
15	Effects of Centralizing Acute Stroke Services on Stroke Care Provision in Two Large Metropolitan Areas in England. Stroke, 2015, 46, 2244-2251.	1.0	69
16	Lessons for major system change: centralization of stroke services in two metropolitan areas of England. Journal of Health Services Research and Policy, 2016, 21, 156-165.	0.8	68
17	Impact and sustainability of centralising acute stroke services in English metropolitan areas: retrospective analysis of hospital episode statistics and stroke national audit data. BMJ: British Medical Journal, 2019, 364, l1.	2.4	66
18	How do hospital boards govern for quality improvement? A mixed methods study of 15 organisations in England. BMJ Quality and Safety, 2017, 26, 978-986.	1.8	60

#	Article	IF	CITATIONS
19	New approaches to evaluating complex health and care systems. BMJ, The, 2016, 352, i154.	3.0	58
20	Talking about quality: exploring how â€~quality' is conceptualized in European hospitals and healthcare systems. BMC Health Services Research, 2014, 14, 478.	0.9	54
21	The implementation of remote home monitoring models during the COVID-19 pandemic in England. EClinicalMedicine, 2021, 34, 100799.	3.2	50
22	Implementing changes to hospital services: Factors influencing the process and â€results' of reconfiguration. Health Policy, 2012, 104, 128-135.	1.4	49
23	Developing a â€~critical' approach to patient and public involvement in patient safety in the NHS: learning lessons from other parts of the public sector?. Health Expectations, 2012, 15, 424-432.	1.1	49
24	Explaining outcomes in major system change: a qualitative study of implementing centralised acute stroke services in two large metropolitan regions in England. Implementation Science, 2015, 11, 80.	2.5	49
25	Ethnicity and use of acute psychiatric beds: One-day survey in North and South Thames regions. British Journal of Psychiatry, 1997, 171, 238-241.	1.7	47
26	Addressing the challenges of knowledge co-production in quality improvement: learning from the implementation of the researcher-in-residence model. BMJ Quality and Safety, 2019, 28, 67-73.	1.8	47
27	Factors that influence career progression among postdoctoral clinical academics: a scoping review of the literature. BMJ Open, 2016, 6, e013523.	0.8	43
28	A longitudinal, multi-level comparative study of quality and safety in European hospitals: the QUASER study protocol. BMC Health Services Research, 2011, 11, 285.	0.9	41
29	Evidence use in decision-making on introducing innovations: a systematic scoping review with stakeholder feedback. Implementation Science, 2017, 12, 145.	2.5	41
30	The international spread of Academic Health Science Centres: A scoping review and the case of policy transfer to England. Health Policy, 2014, 117, 382-391.	1.4	37
31	Innovations in major system reconfiguration in England: a study of the effectiveness, acceptability and processes of implementation of two models of stroke care. Implementation Science, 2013, 8, 5.	2.5	36
32	A systematic literature review of operational research methods for modelling patient flow and outcomes within community healthcare and other settings. Health Systems, 2018, 7, 29-50.	0.9	34
33	Using institutional theory to analyse hospital responses to external demands for finance and quality in five European countries. Journal of Health Services Research and Policy, 2016, 21, 109-117.	0.8	33
34	Prospects for comparing European hospitals in terms of quality and safety: lessons from a comparative study in five countries. International Journal for Quality in Health Care, 2013, 25, 1-7.	0.9	32
35	One to one specialling and sitters in acute care hospitals: A scoping review. International Journal of Nursing Studies, 2018, 84, 61-77.	2.5	32
36	Patients' Experiences of Cancer Diagnosis as a Result of an Emergency Presentation: A Qualitative Study. PLoS ONE, 2015, 10, e0135027.	1.1	30

#	Article	IF	CITATIONS
37	Building capacity to use and undertake research in health organisations: a survey of training needs and priorities among staff. BMJ Open, 2016, 6, e012557.	0.8	29
38	Drink, illicit drugs and unsafe sex in women. Addiction, 1999, 94, 1209-1218.	1.7	27
39	How organisations contribute to improving the quality of healthcare. BMJ: British Medical Journal, 2019, 365, 11773.	2.4	27
40	From health technology assessment to research on the organisation and delivery of health services: addressing the balance. Health Policy, 2003, 63, 155-165.	1.4	25
41	Mixed methods evaluation of the Getting it Right First Time programme - improvements to NHS orthopaedic care in England: study protocol. BMC Health Services Research, 2017, 17, 71.	0.9	25
42	Patient, carer and public involvement in major system change in acute stroke services: The construction of value. Health Expectations, 2018, 21, 685-692.	1.1	25
43	How are patients with rare diseases and their carers in the UK impacted by the way care is coordinated? An exploratory qualitative interview study. Orphanet Journal of Rare Diseases, 2021, 16, 76.	1.2	25
44	Explaining organisational responses to a board-level quality improvement intervention: findings from an evaluation in six providers in the English National Health Service. BMJ Quality and Safety, 2019, 28, 198-204.	1.8	24
45	The clinical academic workforce of the future: a cross-sectional study of factors influencing career decision-making among clinical PhD students at two research-intensive UK universities. BMJ Open, 2017, 7, e016823.	0.8	23
46	Cost-Effectiveness of a National Initiative to Improve Hand Hygiene Compliance Using the Outcome of Healthcare Associated Staphylococcus aureus Bacteraemia. PLoS ONE, 2016, 11, e0148190.	1.1	23
47	Defining Coordinated Care for People with Rare Conditions: A Scoping Review. International Journal of Integrated Care, 2020, 20, 14.	0.1	23
48	No Way Out: The Delayed Discharge of Elderly Mentally III Acute and Assessment Patients in North and South Thames Regions. Age and Ageing, 1996, 25, 268-272.	0.7	22
49	Determinants of unsafe sex in women. International Journal of STD and AIDS, 2000, 11, 777-783.	0.5	22
50	Health services research: building capacity to meet the needs of the health care system. Journal of Health Services Research and Policy, 2017, 22, 243-249.	0.8	22
51	Centralising specialist cancer surgery services in England: survey of factors that matter to patients and carers and health professionals. BMC Cancer, 2018, 18, 226.	1.1	21
52	Codifying knowledge to improve patient safety: A qualitative study of practice-based interventions. Social Science and Medicine, 2014, 113, 169-176.	1.8	20
53	Investigating healthcare IT innovations: a "conceptual blending―approach. Journal of Health Organization and Management, 2015, 29, 1131-1148.	0.6	20
54	Challenging Bed Behaviours: The use of Acute Psychiatric Beds in an Inner-London District Health Authority. Journal of Mental Health, 1992, 1, 335-341.	1.0	18

#	Article	IF	CITATIONS
55	Use of acute psychiatric beds: a point prevalence survey in North and South Thames regions. Journal of Public Health, 1996, 18, 207-216.	1.0	18
56	Communicable disease outbreaks involving more than one country: systems approach to evaluating the response. BMJ: British Medical Journal, 2001, 323, 861-863.	2.4	18
57	Detection and response to a meningococcal disease outbreak following a youth football tournament with teams from four European countries. International Journal of Hygiene and Environmental Health, 2002, 205, 291-296.	2.1	18
58	Reorganising specialist cancer surgery for the twenty-first century: a mixed methods evaluation (RESPECT-21). Implementation Science, 2016, 11, 155.	2.5	18
59	The role of organizational and professional cultures in medication safety: a scoping review of the literature. International Journal for Quality in Health Care, 2019, 31, G146-G157.	0.9	18
60	The use of patient feedback by hospital boards of directors: a qualitative study of two NHS hospitals in England. BMJ Quality and Safety, 2018, 27, 103-109.	1.8	17
61	Evaluation of reconfigurations of acute stroke services in different regions of England and lessons for implementation: a mixed-methods study. Health Services and Delivery Research, 2019, 7, 1-250.	1.4	17
62	The potential role of cost-utility analysis in the decision to implement major system change in acute stroke services in metropolitan areas in England. Health Research Policy and Systems, 2018, 16, 23.	1.1	16
63	Does the National Health Service want Hospital-at-Home?. Journal of the Royal Society of Medicine, 1997, 90, 212-215.	1.1	15
64	Knowledge management infrastructure to support quality improvement: A qualitative study of maternity services in four European hospitals. Health Policy, 2020, 124, 205-215.	1.4	15
65	Patients' experiences of, and engagement with, remote home monitoring services for COVIDâ€19 patients: A rapid mixedâ€methods study. Health Expectations, 2022, 25, 2386-2404.	1.1	15
66	The role of professional communities in governing patient safety. Journal of Health Organization and Management, 2013, 27, 527-543.	0.6	14
67	Governing patient safety: lessons learned from a mixed methods evaluation of implementing a ward-level medication safety scorecard in two English NHS hospitals. BMJ Quality and Safety, 2014, 23, 136-146.	1.8	14
68	How Do Pregnancy and Birth Experiences Influence Planned Place of Birth in Future Pregnancies? Findings from a Longitudinal, Narrative Study. Birth, 2015, 42, 141-148.	1.1	14
69	The impact of remote home monitoring of people with COVID-19 using pulse oximetry: A national population and observational study. EClinicalMedicine, 2022, 45, 101318.	3.2	14
70	Translating research on quality improvement in five European countries into a reflective guide for hospital leaders: the â€`QUASER Hospital Guide'. International Journal for Quality in Health Care, 2019, 31, G87-G96.	0.9	13
71	Development of models of care coordination for rare conditions: a qualitative study. Orphanet Journal of Rare Diseases, 2022, 17, 49.	1.2	13
72	The contribution of political skill to the implementation of health services change: a systematic review and narrative synthesis. BMC Health Services Research, 2021, 21, 260.	0.9	12

#	Article	IF	CITATIONS
73	Homelessness and the use of acute psychiatric beds: findings from a oneâ€day survey of adult acute and lowâ€level secure psychiatric patients in North and South Thames regions. Health and Social Care in the Community, 1999, 7, 140-147.	0.7	11
74	The Influence of Health Needs Assessment on Health Care Decision-Making in London Health Authorities. Journal of Health Services Research and Policy, 1999, 4, 90-95.	0.8	11
75	Patient experience of centralized acute stroke care pathways. Health Expectations, 2018, 21, 909-918.	1.1	11
76	Variation in quality of acute stroke care by day and time of admission: prospective cohort study of weekday and weekend centralised hyperacute stroke unit care and non-centralised services. BMJ Open, 2019, 9, e025366.	0.8	11
77	Implementing major system change in specialist cancer surgery: The role of provider networks. Journal of Health Services Research and Policy, 2021, 26, 4-11.	0.8	11
78	The role of professional elites in healthcare governance: Exploring the work of the medical director. Social Science and Medicine, 2021, 277, 113882.	1.8	11
79	Factors that Influence the Way Communities Respond to Proposals for Major Changes to Local Emergency Services: A Qualitative Study. PLoS ONE, 2015, 10, e0120766.	1.1	10
80	Assessing the impact of delayed discharge on acute care. Nursing Standard (Royal College of Nursing) Tj ETQqO	0 0 _{.0} rgBT /0	Dverlock 10 T
81	Empowerment or rhetoric? Investigating the role of NHS Foundation Trust governors in the governance of patient safety. Health Policy, 2013, 111, 301-310.	1.4	9
82	Study protocol: DEcisions in health Care to Introduce or Diffuse innovations using Evidence (DECIDE). Implementation Science, 2015, 11, 48.	2.5	9
83	Healthcare leadership with political astuteness (HeLPA): a qualitative study of how service leaders understand and mediate the informal †power and politics' of major health system change. BMC Health Services Research, 2018, 18, 918.	0.9	9
84	The impact of post-hospital remote monitoring of COVID-19 patients using pulse oximetry: A national observational study using hospital activity data. EClinicalMedicine, 2022, 48, 101441.	3.2	9
85	Explaining the health divide in Germany: Contribution of major causes of death to the difference in life expectancy at birt between east and west. Zeitschrift Fur Gesundheitswissenschaften, 1996, 4, 214-224.	0.8	8
86	Analysing barriers to service improvement using a multiâ€level theory of innovation: the case of glaucoma outpatient clinics. Sociology of Health and Illness, 2018, 40, 654-669.	1.1	8
87	A Qualitative Study of the Influences on Clinical Academic Physicians' Postdoctoral Career Decision Making. Academic Medicine, 2018, 93, 1686-1693.	0.8	8
88	The relationship between external and local governance systems: the case of Health Care Associated Infections and medication errors in one NHS trust. BMJ Quality and Safety, 2010, 19, e45-e45.	1.8	7
89	Clinical academics' postdoctoral career development. BMJ, The, 2015, 351, h6945.	3.0	6
90	Qualitative process evaluation of the Perioperative Quality Improvement Programme (PQIP): study protocol. BMJ Open, 2019, 9, e030214.	0.8	6
