#	Article	IF	CITATIONS
1	Daily supplementation of a multiple micronutrient powder improves folate but not thiamine, riboflavin, or vitamin B12 status among young Laotian children: a randomized controlled trial. European Journal of Nutrition, 2022, 61, 3423-3435.	1.8	2
2	Plasma and Nail Zinc Concentrations, But Not Hair Zinc, Respond Positively to Two Different Forms of Preventive Zinc Supplementation in Young Laotian Children: a Randomized Controlled Trial. Biological Trace Element Research, 2021, 199, 442-452.	1.9	9
3	Comprehensive Nutrient Gap Assessment (CONGA): A method for identifying the public health significance of nutrient gaps. Nutrition Reviews, 2021, 79, 4-15.	2.6	10
4	Micronutrient gaps during the complementary feeding period in 6 countries in Eastern and Southern Africa: a Comprehensive Nutrient Gap Assessment. Nutrition Reviews, 2021, 79, 16-25.	2.6	33
5	Micronutrient gaps during the complementary feeding period in South Asia:ÂA Comprehensive Nutrient Gap Assessment. Nutrition Reviews, 2021, 79, 26-34.	2.6	34
6	Effects of therapeutic zinc supplementation for diarrhea and two preventive zinc supplementation regimens on the incidence and duration of diarrhea and acute respiratory tract infections in rural Laotian children: A randomized controlled trial. Journal of Global Health, 2020, 10, 010424.	1.2	16
7	Daily Preventive Zinc Supplementation Decreases Lymphocyte and Eosinophil Concentrations in Rural Laotian Children from Communities with a High Prevalence of Zinc Deficiency: Results of a Randomized Controlled Trial. Journal of Nutrition, 2020, 150, 2204-2213.	1.3	11
8	Hemoglobins F, A 2 , and E levels in Laotian children aged 6â€23 months with Hb E disorders: Effect of age, sex, and thalassemia types. International Journal of Laboratory Hematology, 2020, 42, 277-283.	0.7	6
9	Impact of Daily Preventive Zinc or Therapeutic Zinc Supplementation for Diarrhea on Plasma Biomarkers of Environmental Enteric Dysfunction among Rural Laotian Children: A Randomized Controlled Trial. American Journal of Tropical Medicine and Hygiene, 2020, 102, 415-426.	0.6	8
10	Impact of Different Strategies for Delivering Supplemental Zinc on Selected Fecal Markers of Environmental Enteric Dysfunction among Young Laotian Children: A Randomized Controlled Trial. American Journal of Tropical Medicine and Hygiene, 2020, 103, 1416-1426.	0.6	4
11	Iron status and inherited haemoglobin disorders modify the effects of micronutrient powders on linear growth and morbidity among young Lao children in a double-blind randomised trial. British Journal of Nutrition, 2019, 122, 895-909.	1.2	6
12	Effects of Daily Zinc, Daily Multiple Micronutrient Powder, or Therapeutic Zinc Supplementation for Diarrhea Prevention on Physical Growth, Anemia, and Micronutrient Status in Rural Laotian Children: A Randomized Controlled Trial. Journal of Pediatrics, 2019, 207, 80-89.e2.	0.9	35
13	Impact of Two Forms of Daily Preventive Zinc or Therapeutic Zinc Supplementation for Diarrhea on Hair Cortisol Concentrations Among Rural Laotian Children: A Randomized Controlled Trial. Nutrients, 2019, 11, 47.	1.7	8
14	Comparison of haemoglobin assessments by HemoCue and two automated haematology analysers in young Laotian children. Journal of Clinical Pathology, 2018, 71, 532-538.	1.0	38
15	First Field Test of an Innovative, Wider Tape to Measure Mid-Upper Arm Circumference in Young Laotian Children. Food and Nutrition Bulletin, 2018, 39, 28-38.	0.5	2
16	Comparison of two forms of daily preventive zinc supplementation versus therapeutic zinc supplementation for diarrhea on young children's physical growth and risk of infection: study design and rationale for a randomized controlled trial. BMC Nutrition, 2018, 4, 39.	0.6	21
