

Alison Rushton

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/1492331/alison-rushton-publications-by-year.pdf>

Version: 2024-04-29

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
201	Development of a clinical prediction model to inform clinical decision making for classification of patients with sciatica, based on their clinical characteristics, in the Greek health system: protocol for a prospective predictive exploratory study.. <i>BMJ Open</i> , 2022 , 12, e052119	3	
200	Assessing moderate-to-vigorous physical activity in hip and knee osteoarthritis using accelerometers: Implications of different patterns and cut-points for health and well-being.. <i>Journal of Sports Sciences</i> , 2022 , 1-8	3.6	1
199	Physical prognostic factors predicting outcome following anterior cruciate ligament reconstruction: A systematic review and narrative synthesis.. <i>Physical Therapy in Sport</i> , 2022 , 53, 115-142	3	
198	Exploring the barriers and facilitators to non-medical prescribing experienced by pharmacists and physiotherapists, using focus groups.. <i>BMC Health Services Research</i> , 2022 , 22, 223	2.9	1
197	Evaluating measures of quality of life in adult scoliosis: a systematic review and narrative synthesis.. <i>Spine Deformity</i> , 2022 , 1	2	
196	Analysis of landing performance and ankle injury in elite British artistic gymnastics using a modified drop land task: A longitudinal observational study.. <i>Physical Therapy in Sport</i> , 2022 , 55, 61-69	3	0
195	How is recovery defined and measured in patients with low back pain? Protocol for a mixed study systematic review.. <i>BMJ Open</i> , 2022 , 12, e061475	3	
194	Classification criteria for cervical radiculopathy: An international e-Delphi study. <i>Musculoskeletal Science and Practice</i> , 2022 , 61, 102596	2.4	0
193	Which biopsychosocial factors are associated with the development of chronic musculoskeletal pain? Protocol for an umbrella review of systematic reviews. <i>BMJ Open</i> , 2021 , 11, e053941	3	0
192	The influence of spinal position on imaging findings: an observational study of thoracolumbar spine upright MRI in elite gymnasts. <i>European Spine Journal</i> , 2021 , 1	2.7	0
191	Prognostic factors for outcome following lumbar spine fusion surgery: a systematic review and narrative synthesis. <i>European Spine Journal</i> , 2021 , 31, 623	2.7	0
190	Accreditation of advanced clinical practice of musculoskeletal physiotherapy in England: a qualitative two-phase study to inform implementation. <i>Physiotherapy</i> , 2021 , 113, 217-244	3	0
189	The effectiveness of manual therapy applied to craniomandibular structures in the treatment of temporomandibular disorders: protocol for a systematic review. <i>Systematic Reviews</i> , 2021 , 10, 70	3	1
188	The podium illusion: a phenomenological study of the influence of social support on well-being and performance in elite para swimmers. <i>BMC Sports Science, Medicine and Rehabilitation</i> , 2021 , 13, 42	2.4	0
187	Are neuromuscular adaptations present in people with recurrent spinal pain during a period of remission? a systematic review. <i>PLoS ONE</i> , 2021 , 16, e0249220	3.7	3
186	Exploring expectations and perceptions of different manual therapy techniques in chronic low back pain: a qualitative study. <i>BMC Musculoskeletal Disorders</i> , 2021 , 22, 444	2.8	1
185	Association of the British Athletic Muscle Injury Classification and anatomic location with return to full training and reinjury following hamstring injury in elite football. <i>BMJ Open Sport and Exercise Medicine</i> , 2021 , 7, e001010	3.4	3

184	The experiences and perceived health benefits of individuals with a disability participating in sport: A systematic review and narrative synthesis. <i>Disability and Health Journal</i> , 2021 , 101164	4.2	2
183	Expert consensus on the important chronic non-specific neck pain motor control and segmental exercise and dosage variables: An international e-Delphi study. <i>PLoS ONE</i> , 2021 , 16, e0253523	3.7	4
182	Cross-sectional UK survey of advanced practice physiotherapy: characteristics and perceptions of existing roles. <i>International Journal of Therapy and Rehabilitation</i> , 2021 , 28, 1-14	0.4	
181	Measures of central sensitization and their measurement properties in musculoskeletal trauma: A systematic review. <i>European Journal of Pain</i> , 2021 , 25, 71-87	3.7	5
180	Lumbosacral injuries in elite Paralympic athletes with limb deficiency: a retrospective analysis of patient records. <i>BMJ Open Sport and Exercise Medicine</i> , 2021 , 7, e001001	3.4	0
179	Physical Functioning in Adolescents with Idiopathic Scoliosis: A Systematic Review of Outcome Measures and Their Measurement Properties. <i>Spine</i> , 2021 , 46, E985-E997	3.3	1
178	Measures of trunk muscle strength and their measurement properties: a protocol for a systematic review and narrative synthesis of clinical measures. <i>BMJ Open</i> , 2021 , 11, e041499	3	0
177	A Delphi study to explore and gain consensus regarding the most important barriers and facilitators affecting physiotherapist and pharmacist non-medical prescribing. <i>PLoS ONE</i> , 2021 , 16, e0246273	2.7	4
176	Utilising the perspectives of patients with lower-limb osteoarthritis on prescribed physical activity to develop a theoretically informed physiotherapy intervention. <i>BMC Musculoskeletal Disorders</i> , 2021 , 22, 155	2.8	2
175	Experiences of telehealth e-mentoring within postgraduate musculoskeletal physical therapy education in the UK and Canada: a protocol for parallel mixed-methods studies and cross-cultural comparison. <i>BMJ Open</i> , 2021 , 11, e042602	3	2
174	MRI findings of tibialis anterior friction syndrome: a mimic of tibial stress injury. <i>Skeletal Radiology</i> , 2021 , 50, 2007-2011	2.7	
173	MRI features of ERSA (exercise-related signal abnormality) lesions in professional soccer players. <i>Skeletal Radiology</i> , 2021 , 1	2.7	0
172	A systematic review and meta-analysis of measurement properties of objective structured clinical examinations used in physical therapy licensure and a structured review of licensure practices in countries with well-developed regulation systems. <i>PLoS ONE</i> , 2021 , 16, e0255696	3.7	0
171	Neck pain with radiculopathy: A systematic review of classification systems. <i>Musculoskeletal Science and Practice</i> , 2021 , 54, 102389	2.4	1
170	Prediction of walking ability following posterior decompression for lumbar spinal stenosis. <i>European Spine Journal</i> , 2021 , 30, 3307-3318	2.7	2
169	Evaluating measures of quality of life in adult scoliosis: a protocol for a systematic review and narrative synthesis. <i>Systematic Reviews</i> , 2021 , 10, 259	3	1
168	Outcomes evaluating quality of life and their measurement properties in early-onset scoliosis: protocol for a systematic review. <i>BMJ Open</i> , 2021 , 11, e048956	3	1
167	Telehealth e-mentoring in postgraduate musculoskeletal physiotherapy education: A mixed methods case study. <i>Musculoskeletal Science and Practice</i> , 2021 , 56, 102448	2.4	0

166	The effect of short-term exercise prehabilitation on skeletal muscle protein synthesis and atrophy during bed rest in older men. <i>Journal of Cachexia, Sarcopenia and Muscle</i> , 2021 , 12, 52-69	10.3	8
165	Content validity of Scoliosis Research Society questionnaire-22 revised (SRS-22r) for adolescents with idiopathic scoliosis: protocol for a qualitative study exploring patient's and practitioner's perspectives.. <i>BMJ Open</i> , 2021 , 11, e053911	3	
164	Consensus on the exercise and dosage variables of an exercise training programme for chronic non-specific neck pain: protocol for an international e-Delphi study. <i>BMJ Open</i> , 2020 , 10, e037656	3	5
163	Reliability of temporal summation, thermal and pressure pain thresholds in a healthy cohort and musculoskeletal trauma population. <i>PLoS ONE</i> , 2020 , 15, e0233521	3.7	8
162	Identifying, Prioritizing and Visually Mapping Barriers to Injury Care in Rwanda: A Multi-disciplinary Stakeholder Exercise. <i>World Journal of Surgery</i> , 2020 , 44, 2903-2918	3.3	7
161	Clinical indicators to identify neuropathic pain in low back-related leg pain: protocol for a modified Delphi study. <i>BMJ Open</i> , 2020 , 10, e033547	3	4
160	Effectiveness and optimal dosage of exercise training for chronic non-specific neck pain: A systematic review with a narrative synthesis. <i>PLoS ONE</i> , 2020 , 15, e0234511	3.7	8
159	Independent prescribing by advanced physiotherapists for patients with low back pain in primary care: A feasibility trial with an embedded qualitative component. <i>PLoS ONE</i> , 2020 , 15, e0229792	3.7	3
158	Thoracic adverse events following spinal manipulative therapy: a systematic review and narrative synthesis. <i>Journal of Manual and Manipulative Therapy</i> , 2020 , 28, 275-286	1.6	2
157	Injury surveillance in elite Paralympic athletes with limb deficiency: a retrospective analysis of upper quadrant injuries. <i>BMC Sports Science, Medicine and Rehabilitation</i> , 2020 , 12, 36	2.4	2
156	Physical prognostic factors predicting outcome following anterior cruciate ligament reconstruction: protocol for a systematic review. <i>BMJ Open</i> , 2020 , 10, e033429	3	2
155	Perceptions of low back pain in elite gymnastics: A multi-disciplinary qualitative focus group study. <i>Physical Therapy in Sport</i> , 2020 , 44, 33-40	3	2
154	Practicability of lower extremity functional performance tests and their measurement properties in elite athletes: protocol for a systematic review. <i>BMJ Open</i> , 2020 , 10, e042975	3	1
153	Thoracic thrust joint manipulation: An international survey of current practice and knowledge in IFOMPT member countries. <i>Musculoskeletal Science and Practice</i> , 2020 , 50, 102251	2.4	2
152	Patient journey following lumbar spinal fusion surgery (FuJourn): A multicentre exploration of the immediate post-operative period using qualitative patient diaries. <i>PLoS ONE</i> , 2020 , 15, e0241931	3.7	3
151	The Extent of Pain Is Associated With Signs of Central Sensitization in Patients With Hip Osteoarthritis. <i>Pain Practice</i> , 2020 , 20, 277-288	3	13
150	Clinical course of pain and disability following primary lumbar discectomy: systematic review and meta-analysis. <i>European Spine Journal</i> , 2020 , 29, 1660-1670	2.7	4
149	Variability of neck and trunk movement during single- and dual-task gait in people with chronic neck pain. <i>Clinical Biomechanics</i> , 2020 , 72, 31-36	2.2	8

148	Does gender and ankle injury history affect weightbearing dorsiflexion in elite artistic gymnasts?. <i>Physical Therapy in Sport</i> , 2020 , 42, 46-52	3	4
147	Lived experiences of social support in Paralympic swimmers: A protocol for a qualitative study. <i>BMJ Open</i> , 2020 , 10, e039953	3	3
146	Clinical effectiveness of manipulation and mobilisation interventions for the treatment of non-specific neck pain: protocol for a systematic review and meta-analysis. <i>BMJ Open</i> , 2020 , 10, e037783 ³		3
145	Eccentric exercise and delayed onset muscle soreness reduce the variability of active cervical movements. <i>Journal of Biomechanics</i> , 2020 , 111, 109962	2.9	2
144	Experiences and perceived health benefits of individuals with a disability participating in sport: A systematic review protocol. <i>BMJ Open</i> , 2020 , 10, e038214	3	0
143	Diagnostic utility of patient history, clinical examination and screening tool data to identify neuropathic pain in low back related leg pain: a systematic review and narrative synthesis. <i>BMC Musculoskeletal Disorders</i> , 2020 , 21, 532	2.8	5
142	Diagnostic accuracy of MRI for identifying posterior element bone stress injury in athletes with low back pain: a systematic review and narrative synthesis. <i>BMJ Open Sport and Exercise Medicine</i> , 2020 , 6, e000764	3.4	
141	Clinical indicators to identify neuropathic pain in low back related leg pain: a modified Delphi study. <i>BMC Musculoskeletal Disorders</i> , 2020 , 21, 601	2.8	1
140	Video-assisted thoracoscopic lobectomy: which patients require postoperative physiotherapy?. <i>Physiotherapy</i> , 2020 , 106, 87-93	3	3
139	Outcome measures evaluating physical functioning and their measurement properties in adolescent idiopathic scoliosis: a protocol for a systematic review. <i>BMJ Open</i> , 2020 , 10, e034286	3	8
138	Clinical reasoning framework for thoracic spine exercise prescription in sport: a systematic review and narrative synthesis. <i>BMJ Open Sport and Exercise Medicine</i> , 2020 , 6, e000713	3.4	4
137	Independent prescribing by advanced physiotherapists for patients with low back pain in primary care: A feasibility trial with an embedded qualitative component 2020 , 15, e0229792		
136	Independent prescribing by advanced physiotherapists for patients with low back pain in primary care: A feasibility trial with an embedded qualitative component 2020 , 15, e0229792		
135	Independent prescribing by advanced physiotherapists for patients with low back pain in primary care: A feasibility trial with an embedded qualitative component 2020 , 15, e0229792		
134	Independent prescribing by advanced physiotherapists for patients with low back pain in primary care: A feasibility trial with an embedded qualitative component 2020 , 15, e0229792		
133	Independent prescribing by advanced physiotherapists for patients with low back pain in primary care: A feasibility trial with an embedded qualitative component 2020 , 15, e0229792		
132	Independent prescribing by advanced physiotherapists for patients with low back pain in primary care: A feasibility trial with an embedded qualitative component 2020 , 15, e0229792		
131	Effectiveness and optimal dosage of exercise training for chronic non-specific neck pain: A systematic review with a narrative synthesis 2020 , 15, e0234511		

130	Effectiveness and optimal dosage of exercise training for chronic non-specific neck pain: A systematic review with a narrative synthesis 2020 , 15, e0234511		
129	Effectiveness and optimal dosage of exercise training for chronic non-specific neck pain: A systematic review with a narrative synthesis 2020 , 15, e0234511		
128	Effectiveness and optimal dosage of exercise training for chronic non-specific neck pain: A systematic review with a narrative synthesis 2020 , 15, e0234511		
127	Patient journey following lumbar spinal fusion surgery (FuJourn): A multicentre exploration of the immediate post-operative period using qualitative patient diaries 2020 , 15, e0241931		
126	Patient journey following lumbar spinal fusion surgery (FuJourn): A multicentre exploration of the immediate post-operative period using qualitative patient diaries 2020 , 15, e0241931		
125	Patient journey following lumbar spinal fusion surgery (FuJourn): A multicentre exploration of the immediate post-operative period using qualitative patient diaries 2020 , 15, e0241931		
124	Patient journey following lumbar spinal fusion surgery (FuJourn): A multicentre exploration of the immediate post-operative period using qualitative patient diaries 2020 , 15, e0241931		
123	Exploring taught masters education for healthcare practitioners: a systematic review of literature. <i>BMC Medical Education</i> , 2019 , 19, 340	3.3	8
122	Neck pain in South Africa: An overview of the prevalence, assessment and management for the contemporary clinician. <i>South African Journal of Physiotherapy</i> , 2019 , 75, 1332	1.3	2
121	Variation in the spatial distribution of erector spinae activity during a lumbar endurance task in people with low back pain. <i>Journal of Anatomy</i> , 2019 , 234, 532-542	2.9	20
120	Variability of the helical axis during active cervical movements in people with chronic neck pain. <i>Clinical Biomechanics</i> , 2019 , 62, 50-57	2.2	12
119	Perceptions about the implementation of physiotherapist prescribing in Australia: a national survey of Australian physiotherapists. <i>BMJ Open</i> , 2019 , 9, e024991	3	2
118	Perceptions of Australian physiotherapy students about the potential implementation of physiotherapist prescribing in Australia: a national survey. <i>BMJ Open</i> , 2019 , 9, e026327	3	1
117	Lack of Exercise-Induced Hypoalgesia to Repetitive Back Movement in People with Chronic Low Back Pain. <i>Pain Practice</i> , 2019 , 19, 740-750	3	11
116	A cluster randomised, double-blind pilot and feasibility trial of an active behavioural physiotherapy intervention for acute whiplash-associated disorder (WAD)II. <i>PLoS ONE</i> , 2019 , 14, e0215803	3.7	5
115	Shear wave elastography investigation of multifidus stiffness in individuals with low back pain. <i>Journal of Electromyography and Kinesiology</i> , 2019 , 47, 19-24	2.5	13
114	Independent prescribing by advanced physiotherapists for patients with low back pain in primary care: protocol for a feasibility trial with an embedded qualitative component. <i>BMJ Open</i> , 2019 , 9, e027745	2.5	2
113	Measures of central sensitisation and their measurement properties in the adult musculoskeletal trauma population: a protocol for a systematic review and data synthesis. <i>BMJ Open</i> , 2019 , 9, e023204	3	4

112	Effectiveness and optimal dosage of resistance training for chronic non-specific neck pain: a protocol for a systematic review with a qualitative synthesis and meta-analysis. <i>BMJ Open</i> , 2019 , 9, e0253158	3.58	6
111	Pain and disability after first-time spinal fusion for lumbar degenerative disorders: a systematic review and meta-analysis. <i>European Spine Journal</i> , 2019 , 28, 696-709	2.7	17
110	Non-medical prescribing in the United Kingdom National Health Service: A systematic policy review. <i>PLoS ONE</i> , 2019 , 14, e0214630	3.7	20
109	Evaluation of the clinical effectiveness of a work-based mentoring programme to develop clinical reasoning on patient outcome: A stepped wedge cluster randomised controlled trial. <i>PLoS ONE</i> , 2019 , 14, e0220110	3.7	5
108	Effectiveness of behaviour change techniques in physiotherapy interventions to promote physical activity adherence in lower limb osteoarthritis patients: A systematic review. <i>PLoS ONE</i> , 2019 , 14, e0219482	2.7	27
107	High-Density Electromyography Provides New Insights into the Flexion Relaxation Phenomenon in Individuals with Low Back Pain. <i>Scientific Reports</i> , 2019 , 9, 15938	4.9	11
106	Thoracic spine mobility, an essential link in upper limb kinetic chains in athletes: A systematic review. <i>Translational Sports Medicine</i> , 2019 , 2, 301-315	1.3	3
105	INVESTIGATION OF OPTIMAL LUMBAR SPINE POSTURE DURING A SIMULATED LANDING TASK IN ELITE GYMNASTS. <i>International Journal of Sports Physical Therapy</i> , 2019 , 14, 65-73	1.4	1
104	INVESTIGATION OF OPTIMAL LUMBAR SPINE POSTURE DURING A SIMULATED LANDING TASK IN ELITE GYMNASTS. <i>International Journal of Sports Physical Therapy</i> , 2019 , 14, 65-73	1.4	3
103	Diagnostic utility of patient history, clinical examination and screening tool data to identify neuropathic pain in low back-related leg pain: protocol for a systematic review. <i>BMJ Open</i> , 2019 , 9, e033187	3.87	1
102	Are neuromuscular adaptations present in people with recurrent spinal pain during a period of remission? A protocol for a systematic review. <i>BMJ Open</i> , 2019 , 9, e033276	3	3
101	The effect of chronic, non-specific low back pain on superficial lumbar muscle activity: a protocol for a systematic review and meta-analysis. <i>BMJ Open</i> , 2019 , 9, e029850	3	7
100	Predictors of pain reduction following manual therapy in patients with temporomandibular disorders: a protocol for a prospective observational study. <i>BMJ Open</i> , 2019 , 9, e032113	3	1
99	Barriers and facilitators to recommended physical activity in lower-limb osteoarthritis: protocol for a qualitative study exploring patients and physiotherapist perspectives using the theoretical domains framework and behaviour change taxonomy. <i>BMJ Open</i> , 2019 , 9, e029199	3	1
98	Patient journey following lumbar discectomy surgery: protocol for a single-centre qualitative analysis of the patient rehabilitation experience (DiscJourn). <i>BMJ Open</i> , 2019 , 9, e025814	3	1
97	Pragmatic cluster randomised double-blind pilot and feasibility trial of an active behavioural physiotherapy intervention for acute non-specific neck pain: a mixed-methods protocol. <i>BMJ Open</i> , 2019 , 9, e029795	3	3
96	People With Low Back Pain Display a Different Distribution of Erector Spinae Activity During a Singular Mono-Planar Lifting Task. <i>Frontiers in Sports and Active Living</i> , 2019 , 1, 65	2.3	5
95	Effectiveness of prehabilitation for patients undergoing orthopaedic surgery: protocol for a systematic review and meta-analysis. <i>BMJ Open</i> , 2019 , 9, e031119	3	3

94	Management of thoracic spine pain and dysfunction: A survey of clinical practice in the UK. <i>Musculoskeletal Science and Practice</i> , 2019 , 39, 58-66	2.4	6
93	Patient journey following lumbar spinal fusion surgery (LSFS): protocol for a multicentre qualitative analysis of the patient rehabilitation experience (FuJourn). <i>BMJ Open</i> , 2018 , 8, e020710	3	8
92	Does the intensity of daily walking matter for protecting against the development of a slow gait speed in people with or at high risk of knee osteoarthritis? An observational study. <i>Osteoarthritis and Cartilage</i> , 2018 , 26, 1181-1189	6.2	6
91	Development of a screening tool to predict the risk of chronic pain and disability following musculoskeletal trauma: protocol for a prospective observational study in the United Kingdom. <i>BMJ Open</i> , 2018 , 8, e017876	3	9
90	Risk factors and short-term outcomes of postoperative pulmonary complications after VATS lobectomy. <i>Journal of Cardiothoracic Surgery</i> , 2018 , 13, 28	1.6	45
89	Views and perceptions of Australian physiotherapists and physiotherapy students about the potential implementation of physiotherapist prescribing in Australia: a survey protocol. <i>BMC Health Services Research</i> , 2018 , 18, 472	2.9	6
88	What is the effect of prolonged sitting and physical activity on thoracic spine mobility? An observational study of young adults in a UK university setting. <i>BMJ Open</i> , 2018 , 8, e019371	3	12
87	Clinical and cost-effectiveness of non-medical prescribing: A systematic review of randomised controlled trials. <i>PLoS ONE</i> , 2018 , 13, e0193286	3.7	15
86	Thoracic dysfunction in whiplash associated disorders: A systematic review. <i>PLoS ONE</i> , 2018 , 13, e0194235	3.7	10
85	Effect of a combined programme of dietary restriction and physical activity on the physical function and body composition of obese middle-aged and older adults with knee OA (DRPA): protocol for a feasibility study. <i>BMJ Open</i> , 2018 , 8, e021051	3	
84	Care home resident and staff perceptions of the acceptability of nutrition intervention trial procedures: a qualitative study embedded within a cluster randomised feasibility trial. <i>BMJ Open</i> , 2018 , 8, e022307	3	1
83	Physical prognostic factors predicting outcome following lumbar discectomy surgery: systematic review and narrative synthesis. <i>BMC Musculoskeletal Disorders</i> , 2018 , 19, 326	2.8	16
82	Knowledge and pre-thoracic spinal thrust manipulation examination: a survey of current practice in the UK. <i>Journal of Manual and Manipulative Therapy</i> , 2018 , 26, 301-309	1.6	3
81	Facilitators and barriers to non-medical prescribing - A systematic review and thematic synthesis. <i>PLoS ONE</i> , 2018 , 13, e0196471	3.7	37
80	Development and validation of two clinical prediction models to inform clinical decision-making for lumbar spinal fusion surgery for degenerative disorders and rehabilitation following surgery: protocol for a prospective observational study. <i>BMJ Open</i> , 2018 , 8, e021078	3	6
79	Return to play criteria after hamstring muscle injury in professional football: a Delphi consensus study. <i>British Journal of Sports Medicine</i> , 2017 , 51, 1221-1226	10.3	41
78	Adverse effects as a consequence of being the subject of orthopaedic manual therapy training, a worldwide retrospective survey. <i>Musculoskeletal Science and Practice</i> , 2017 , 29, 20-27	2.4	3
77	Patient and physiotherapist perceptions of rehabilitation following primary lumbar discectomy: a qualitative focus group study embedded within an external pilot and feasibility trial. <i>BMJ Open</i> , 2017 , 7, e015878	3	9

76	Effect of physical activity and dietary restriction interventions on weight loss and the musculoskeletal function of overweight and obese older adults with knee osteoarthritis: a systematic review and mixed method data synthesis. <i>BMJ Open</i> , 2017 , 7, e014537	3	45
75	Postoperative pulmonary complications and rehabilitation requirements following lobectomy: a propensity score matched study of patients undergoing video-assisted thoracoscopic surgery versus thoracotomy. <i>Interactive Cardiovascular and Thoracic Surgery</i> , 2017 , 24, 931-937	1.8	40
74	Barriers to and facilitators of independent non-medical prescribing in clinical practice: a mixed-methods systematic review. <i>Journal of Physiotherapy</i> , 2017 , 63, 221-234	2.9	22
73	Effectiveness of behavioural change techniques in physiotherapy interventions to promote physical activity adherence in patients with hip and knee osteoarthritis: a systematic review protocol. <i>BMJ Open</i> , 2017 , 7, e015833	3	9
72	Validity of the Digital Inclinometer and iPhone When Measuring Thoracic Spine Rotation. <i>Journal of Athletic Training</i> , 2017 , 52, 820-825	4	20
71	Barriers and facilitators of physical activity in knee and hip osteoarthritis: a systematic review of qualitative evidence. <i>BMJ Open</i> , 2017 , 7, e017042	3	79
70	Understanding why the thoracic region is the Cinderella Region of the Spine. <i>Manual Therapy</i> , 2016 , 21, 274-6		22
69	Natural course of pain and disability following primary lumbar discectomy: protocol for a systematic review and meta-analysis. <i>BMJ Open</i> , 2016 , 6, e010571	3	4
68	Thoracic dysfunction in whiplash-associated disorders: a systematic review and meta-analysis protocol. <i>Systematic Reviews</i> , 2016 , 5, 26	3	6
67	Pain and disability following first-time lumbar fusion surgery for degenerative disorders: a systematic review protocol. <i>Systematic Reviews</i> , 2016 , 5, 72	3	4
66	Acute Whiplash Injury Study (AWIS): a protocol for a cluster randomised pilot and feasibility trial of an Active Behavioural Physiotherapy Intervention in an insurance private setting. <i>BMJ Open</i> , 2016 , 6, e011336	3	4
65	S61 Risk factors and short-term outcomes of developing postoperative pulmonary complications after vats lobectomy. <i>Thorax</i> , 2016 , 71, A36-A37	7.3	0
