

# James S Krause

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/1499403/james-s-krause-publications-by-year.pdf>

**Version:** 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

165  
papers

3,947  
citations

#	Paper	IF	Citations
165	Psychological morbidity following spinal cord injury and among those without spinal cord injury: the impact of chronic centralized and neuropathic pain.. <i>Spinal Cord</i> , <b>2022</b> ,	2.7	1
164	The Perceived Role of Healthcare Providers and Systems in the Development of Secondary Health Conditions among Adults with Spinal Cord Injury. <i>Disabilities</i> , <b>2022</b> , 2, 280-292		
163	Assistive devices and future fall-related injuries among ambulatory adults with spinal cord injury: a prospective cohort study. <i>Spinal Cord</i> , <b>2021</b> , 59, 747-752	2.7	
162	Twenty-Five-Year Cross-sequential Analysis of Self-reported Problems: Findings From 5 Cohorts From the Spinal Cord Injury Longitudinal Aging Study. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2021</b> , 102, 888-894	2.8	2
161	Emergency Department Visits, Related Hospitalizations, and Reasons for Emergency Department Utilization After Traumatic Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2021</b> ,	2.8	1
160	Opioid Use Among Individuals With Spinal Cord Injury: Prevalence Estimates Based on State Prescription Drug Monitoring Program Data. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2021</b> , 102, 828-834	2.8	4
159	Meeting Proceedings for SCI 2020: Launching a Decade of Disruption in Spinal Cord Injury Research. <i>Journal of Neurotrauma</i> , <b>2021</b> , 38, 1251-1266	5.4	4
158	The association between secondary health conditions and indirect costs after spinal cord injury. <i>Spinal Cord</i> , <b>2021</b> , 59, 306-310	2.7	3
157	Differences in functional improvement based on history of substance abuse and pain severity following spinal cord injury. <i>Substance Abuse</i> , <b>2021</b> , 1-6	3.8	
156	Barriers and Facilitators to Employment: A Comparison of Participants With Multiple Sclerosis and Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2021</b> , 102, 1556-1561	2.8	0
155	Mental health, pain, and sleep factors associated with subjective cognitive difficulties in individuals with spinal cord injury. <i>Rehabilitation Psychology</i> , <b>2021</b> , 66, 248-256	2.7	1
154	Estimation of indirect costs based on employment and earnings changes after spinal cord injury: an observational study. <i>Spinal Cord</i> , <b>2020</b> , 58, 908-913	2.7	6
153	Trends in nonroutine physician visits and hospitalizations: findings among five cohorts from the Spinal Cord Injury Longitudinal Aging Study. <i>Spinal Cord</i> , <b>2020</b> , 58, 658-666	2.7	1
152	Vocational interests in individuals with multiple sclerosis. <i>Journal of Vocational Rehabilitation</i> , <b>2020</b> , 53, 219-225	0.8	
151	Job considerations among individuals with multiple sclerosis. <i>Journal of Vocational Rehabilitation</i> , <b>2020</b> , 53, 241-248	0.8	
150	Association of Secondary Health Conditions With Future Chronic Health Conditions Among Persons With Traumatic Spinal Cord Injury. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2020</b> , 26, 283-289	1.5	2
149	Associations Between Doing Planned Exercise and Probable Major Depressive Disorder in Individuals Following Spinal Cord Injury. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2020</b> , 26, 11-20	1.5	

148	Psychological factors and risk of mortality after spinal cord injury. <i>Journal of Spinal Cord Medicine</i> , <b>2020</b> , 43, 667-675	1.9	4
147	Employment status, hours working, and gainful earnings after spinal cord injury: relationship with pain, prescription medications for pain, and nonprescription opioid use. <i>Spinal Cord</i> , <b>2020</b> , 58, 275-283	2.7	4
146	Importance of intangible and tangible job considerations among participants with spinal cord injury: Factor analysis and scale development. <i>Journal of Vocational Rehabilitation</i> , <b>2020</b> , 53, 67-75	0.8	1
145	Gainful employment and earnings among those with spinal cord injury and multiple sclerosis. <i>Journal of Vocational Rehabilitation</i> , <b>2020</b> , 52, 19-28	0.8	1
144	The association between participation and quality of life indicators with hospitalizations in ambulatory adults with spinal cord injury. <i>Spinal Cord</i> , <b>2020</b> , 58, 1150-1157	2.7	0
143	Behavioral Factors and Unintentional Injuries After Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2020</b> , 101, 412-417	2.8	2
142	Differential Odds of Employment and Estimation of Earnings Among Those With Spinal Cord Injury. <i>Rehabilitation Counseling Bulletin</i> , <b>2020</b> , 63, 67-78	1	4
141	Employment, health outcomes, and life satisfaction after spinal cord injury: comparison of veterans and nonveterans. <i>Spinal Cord</i> , <b>2020</b> , 58, 3-10	2.7	2
140	Concentration of Costs Among High Utilizers of Health Care Services Over the First 10 Years After Spinal Cord Injury Rehabilitation: A Population-based Study. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2019</b> , 100, 938-944	2.8	10
139	A prospective study of health behaviors and risk of all-cause and cause-specific mortality after spinal cord injury. <i>Spinal Cord</i> , <b>2019</b> , 57, 933-941	2.7	8
138	Health factors and spinal cord injury: a prospective study of risk of cause-specific mortality. <i>Spinal Cord</i> , <b>2019</b> , 57, 594-602	2.7	11
137	Prevalence of chronic health conditions and hospital utilization in adults with spinal cord injury: an analysis of self-report and South Carolina administrative billing data. <i>Spinal Cord</i> , <b>2019</b> , 57, 33-40	2.7	9
136	Employment and Job Benefits Among Those With Spinal Cord Dysfunction: A Comparison of People With Spinal Cord Injury and Multiple Sclerosis. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2019</b> , 100, 1932-1938	2.8	2
135	RESENHA DE MACHADO DE ASSIS EM PERSPECTIVA: FICÇÃO, HISTÓRIA E MANIFESTAÇÕES SOCIAIS, EDITADO POR JURACY ASSMANN SARAIVA E REGINA ZILBERMAN. <i>Machado De Assis Em Linha</i> , <b>2019</b> , 12, 87-93	0	
134	Health-related behaviors and multiple chronic health conditions among persons with traumatic spinal cord injury. <i>Spinal Cord</i> , <b>2019</b> , 57, 367-371	2.7	1
133	Employment and Gainful Earnings Among Those With Multiple Sclerosis. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2019</b> , 100, 931-937.e1	2.8	8
132	Polypharmacy and adverse drug events among propensity score-matched privately insured persons with and without spinal cord injury. <i>Spinal Cord</i> , <b>2018</b> , 56, 591-597	2.7	15
131	Dose and Duration of Opioid Use in Propensity Score-Matched, Privately Insured Opioid Users With and Without Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2018</b> , 99, 855-861	2.8	15

130	A longitudinal study of self-reported spasticity among individuals with chronic spinal cord injury. <i>Spinal Cord</i> , <b>2018</b> , 56, 218-225	2.7	12
129	Changes in psychotropic prescription medication use and their relationship with mortality among people with traumatic spinal cord injury. <i>Spinal Cord</i> , <b>2018</b> , 56, 680-686	2.7	8
128	Changes in alcohol use after the onset of spinal cord injury. <i>Journal of Spinal Cord Medicine</i> , <b>2018</b> , 41, 230-237	1.9	3
127	Quality employment outcomes after multiple sclerosis: A comparison of participants from a specialty hospital and the National MS Society. <i>Journal of Vocational Rehabilitation</i> , <b>2018</b> , 48, 177-186	0.8	7
126	Measuring the interference of pain on daily life in persons with spinal cord injury: A Rasch-validated subset of items from the Brief Pain Inventory interference scale. <i>Australian Occupational Therapy Journal</i> , <b>2018</b> , 65, 405-411	1.7	3
125	A latent structural analysis of health behaviors among people living with spinal cord injury. <i>Spinal Cord</i> , <b>2018</b> , 56, 265-273	2.7	1
124	Perceptions of policies and programs and their impact in supporting employment among individuals with spinal cord injury. <i>Journal of Vocational Rehabilitation</i> , <b>2018</b> , 48, 403-415	0.8	2
123	Personality, High-Risk Behaviors, and Elevated Risk of Unintentional Deaths Related to Drug Poisoning Among Individuals With Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2018</b> , 99, 1941-1948	2.8	9
122	Disclosing disability in the employment setting: Perspectives from workers with multiple sclerosis. <i>Journal of Vocational Rehabilitation</i> , <b>2017</b> , 47, 175-184	0.8	12
121	Pain Intensity, Interference, and Medication Use After Spinal Cord Injury: Association With Risk of Mortality After Controlling for Socioeconomic and Other Health Factors. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2017</b> , 98, 2464-2470	2.8	17
120	Risk of Pain Medication Misuse After Spinal Cord Injury: The Role of Substance Use, Personality, and Depression. <i>Journal of Pain</i> , <b>2017</b> , 18, 166-177	5.2	27
119	Depressive symptomatology after spinal cord injury: A multi-center investigation of multiple racial-ethnic groups. <i>Journal of Spinal Cord Medicine</i> , <b>2017</b> , 40, 85-92	1.9	4
118	Geographic Variation in Outpatient Health Care Service Utilization After Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2017</b> , 98, 341-346	2.8	11
117	Vocational interests by gender and race 10 years after spinal cord injury. <i>Rehabilitation Psychology</i> , <b>2017</b> , 62, 545-552	2.7	1
116	Latent Structural Analysis of Health Outcomes in People Living With Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2017</b> , 98, 2457-2463	2.8	1
115	Molecular Changes in Sub-lesional Muscle Following Acute Phase of Spinal Cord Injury. <i>Neurochemical Research</i> , <b>2016</b> , 41, 44-52	4.6	7
114	Comparison of Rates of Hospitalization and Emergency Department Visits Using Self-Report and South Carolina Administrative Billing Data Among a Population-Based Cohort With Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2016</b> , 97, 1481-1486	2.8	11
113	The Impact of Health Behaviors and Health Management on Employment After SCI: Physical Health and Functioning. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2016</b> , 22, 39-48	1.5	7

112	Impact of Health Behaviors and Health Management on Employment After SCI: Psychological Health and Health Management. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2016</b> , 22, 111-120	1.5	3
111	Social isolation after spinal cord injury: Indicators from the Longitudinal Aging Study. <i>Rehabilitation Psychology</i> , <b>2016</b> , 61, 408-416	2.7	12
110	Risk and Protective Factors for Cause-Specific Mortality After Spinal Cord Injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2016</b> , 97, 1669-78	2.8	42
109	Preinjury cigarette smoking among those with traumatic spinal cord injury. <i>Rehabilitation Psychology</i> , <b>2015</b> , 60, 322-7	2.7	1
108	Changes in cigarette smoking after traumatic spinal cord injury. <i>Rehabilitation Psychology</i> , <b>2015</b> , 60, 379-87	2.7	0
107	Emergency room visits and hospitalizations among participants with spinal cord injury. <i>NeuroRehabilitation</i> , <b>2015</b> , 36, 313-21	2	6
106	Racial-ethnic variations in paid and unpaid caregiving: Findings among persons with traumatic spinal cord injury. <i>Disability and Health Journal</i> , <b>2015</b> , 8, 527-34	4.2	6
105	Lifetime prevalence of chronic health conditions among persons with spinal cord injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2015</b> , 96, 673-9	2.8	47
104	It's All of the Above: Benefits of Working for Individuals with Spinal Cord Injury. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2015</b> , 21, 1-9	1.5	33
103	SCI Longitudinal Aging Study: 40 Years of Research. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2015</b> , 21, 189-200	1.5	23
102	Injuries and Falls in an Aging Cohort with Spinal Cord Injury: SCI Aging Study. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2015</b> , 21, 201-7	1.5	9
101	Impact of Marital Status on 20-Year Subjective Well-being Trajectories. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2015</b> , 21, 208-17	1.5	12
100	Longitudinal analysis of hospitalization after spinal cord injury: variation based on race and ethnicity. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2014</b> , 95, 2158-66	2.8	18
99	Suicide mortality after spinal cord injury in the United States: injury cohorts analysis. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2014</b> , 95, 230-5	2.8	42
98	Poster 407 Chronic Health Conditions among Persons with Spinal Cord Injury. <i>PM and R</i> , <b>2014</b> , 6, S328	2.2	
97	Accelerated death rate in population-based cohort of persons with traumatic brain injury. <i>Journal of Head Trauma Rehabilitation</i> , <b>2014</b> , 29, E8-E19	3	21
96	Injury perceptions, hope for recovery, and psychological status after spinal cord injury. <i>Rehabilitation Psychology</i> , <b>2014</b> , 59, 176-82	2.7	14
95	Risk behaviors related to cigarette smoking among persons with spinal cord injury. <i>Nicotine and Tobacco Research</i> , <b>2014</b> , 16, 224-30	4.9	6

94	Stability of vocational interests after recent spinal cord injury. <i>Rehabilitation Psychology</i> , <b>2014</b> , 59, 321-82.7	7
93	Unmet expectations of adjustment and depressive symptoms among people with chronic traumatic spinal cord injury. <i>Rehabilitation Psychology</i> , <b>2014</b> , 59, 313-20	2.7 3
92	Household income and subjective well-being after spinal cord injury: a longitudinal study. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2014</b> , 20, 40-7	1.5 8
91	Allostatic load and spinal cord injury: review of existing research and preliminary data. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2014</b> , 20, 137-46	1.5 5
90	Cardiometabolic changes and disparities among persons with spinal cord injury: a 17-year cohort study. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2014</b> , 20, 96-104	1.5 10
89	Risk of death after hospital discharge with traumatic spinal cord injury: a population-based analysis, 1998-2009. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2013</b> , 94, 1054-61	2.8 22
88	Oxidative stress, DNA damage, and the telomeric complex as therapeutic targets in acute neurodegeneration. <i>Neurochemistry International</i> , <b>2013</b> , 62, 764-75	4.4 116
87	Changes in hospitalization, physician visits, and self-reported fitness after spinal cord injury: a cross-sequential analysis of age, years since injury, and age at injury onset. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2013</b> , 94, 32-7	2.8 5
86	Ambulation and complications related to assistive devices after spinal cord injury. <i>Journal of Spinal Cord Medicine</i> , <b>2013</b> , 36, 652-9	1.9 18
85	A comparison of health behaviors between African Americans with spinal cord injury and those in the general population. <i>NeuroRehabilitation</i> , <b>2013</b> , 33, 449-56	2 4
84	Risk of Fall-Related Injuries among Ambulatory Participants with Spinal Cord Injury. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2013</b> , 19, 259-66	1.5 20
83	Gender, race, pain, and subjective well-being of adults with spinal cord injury. <i>Journal of Health Care for the Poor and Underserved</i> , <b>2013</b> , 24, 1257-65	1.4 5
82	Theoretical Risk and Prevention Model for Secondary Health Conditions and Mortality After SCI: 15 Years of Research. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2013</b> , 19, 15-24	1.5 17
81	Behavioral factors related to fatigue among persons with spinal cord injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2012</b> , 93, 313-8	2.8 19
80	Prediction of postinjury employment and percentage of time worked after spinal cord injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2012</b> , 93, 373-5	2.8 21
79	Stability of vocational interests after recent spinal cord injury: comparisons related to sex and race. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2012</b> , 93, 588-96	2.8 7
78	Association of race, socioeconomic status, and health care access with pressure ulcers after spinal cord injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2012</b> , 93, 972-7	2.8 39
77	Gainful employment and risk of mortality after spinal cord injury: effects beyond that of demographic, injury and socioeconomic factors. <i>Spinal Cord</i> , <b>2012</b> , 50, 784-8	2.7 38

76	Stability of predictors of mortality after spinal cord injury. <i>Spinal Cord</i> , <b>2012</b> , 50, 281-4	2.7	6
75	Socioeconomic and behavioral risk factors for mortality: do risk factors observed after spinal cord injury parallel those from the general USA population?. <i>Spinal Cord</i> , <b>2012</b> , 50, 609-13	2.7	24
74	Natural course of life changes after spinal cord injury: a 35-year longitudinal study. <i>Spinal Cord</i> , <b>2012</b> , 50, 227-31	2.7	27
73	Association between reliance on devices and people for walking and ability to walk community distances among persons with spinal cord injury. <i>Journal of Spinal Cord Medicine</i> , <b>2012</b> , 35, 156-61	1.9	16
72	Spinal cord injury and aging: challenges and recommendations for future research. <i>American Journal of Physical Medicine and Rehabilitation</i> , <b>2012</b> , 91, 80-93	2.6	77
71	Do Risk Factors for Mortality after Spinal Cord Injury Parallel those from the General USA Population?. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2012</b> , 18, 113-117	1.5	4
70	Racial Disparities in Depression and Life Satisfaction After Spinal Cord Injury: A Mediation Model. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2012</b> , 18, 232-240	1.5	4
69	Confirmatory factor analysis of the Patient Health Questionnaire-9: a study of the participants from the spinal cord injury model systems. <i>PM and R</i> , <b>2011</b> , 3, 533-40; quiz 540	2.2	15
68	Racial Disparities in Poverty Status among Families of Individuals with Spinal Cord Injury. <i>Poverty &amp; Public Policy</i> , <b>2011</b> , 3, 105-115	0.7	2
67	Income and risk of mortality after spinal cord injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2011</b> , 92, 339-45	2.8	43
66	A longitudinal study of depression from 1 to 5 years after spinal cord injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2011</b> , 92, 411-8	2.8	122
65	The influence of secondary conditions on job acquisition and retention in adults with spinal cord injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2011</b> , 92, 425-32	2.8	26
64	Vocational interests after recent spinal cord injury: comparisons related to sex and race. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2011</b> , 92, 626-31	2.8	15
63	The relationship between prescription medication use and ability to ambulate distances after spinal cord injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2011</b> , 92, 1246-9	2.8	17
62	Health, secondary conditions, and life expectancy after spinal cord injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2011</b> , 92, 1770-5	2.8	80
61	Changes in Employment Status and Earnings After Spinal Cord Injury: A Pilot Comparison From Pre to Post Injury. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2011</b> , 16, 74-79	1.5	6
60	Prediction of somatic and non-somatic depressive symptoms between inpatient rehabilitation and follow-up. <i>Spinal Cord</i> , <b>2010</b> , 48, 239-44	2.7	15
59	Delayed entry into employment after spinal cord injury: factors related to time to first job. <i>Spinal Cord</i> , <b>2010</b> , 48, 487-91	2.7	41

58	Race-Ethnicity, Education, and Employment After Spinal Cord Injury. <i>Rehabilitation Counseling Bulletin</i> , <b>2010</b> , 53, 78-86	1	10
57	Factors associated with labor force participation after spinal cord injury. <i>Journal of Vocational Rehabilitation</i> , <b>2010</b> , 33, 89-99	0.8	23
56	Factor structure and predictive validity of somatic and nonsomatic symptoms from the patient health questionnaire-9: a longitudinal study after spinal cord injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2010</b> , 91, 1218-24	2.8	57
55	Posttraumatic stress disorder and spinal cord injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2010</b> , 91, 1182-7	2.8	31
54	Risk for subsequent injuries after spinal cord injury: a 10-year longitudinal analysis. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2010</b> , 91, 1741-6	2.8	17
53	A structural analysis of health outcomes after spinal cord injury. <i>Journal of Spinal Cord Medicine</i> , <b>2010</b> , 33, 22-32	1.9	19
52	The relationship of pressure ulcers, race, and socioeconomic conditions after spinal cord injury. <i>Journal of Spinal Cord Medicine</i> , <b>2010</b> , 33, 387-95	1.9	32
51	Risk and protective factors for mortality after spinal cord injury. <i>Future Neurology</i> , <b>2010</b> , 5, 757-764	1.5	1
50	Aging, Life Satisfaction, and Self-reported Problems Among Participants with Spinal Cord Injury. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2010</b> , 15, 34-40	1.5	9
49	Risk and Protective Factors for Secondary Conditions: A 15-Year Longitudinal Study. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2010</b> , 16, 22-29	1.5	11
48	Association of Health Services With Secondary Conditions: Use of a Population-Based Cohort of Persons With SCI in South Carolina. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2010</b> , 16, 30-39	1.5	6
47	Risk of Mortality and Life Expectancy After Spinal Cord Injury: The Role of Health Behaviors and Participation. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2010</b> , 16, 53-60	1.5	26
46	Personality and Behavioral Predictors of Pressure Ulcer History. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2010</b> , 16, 61-71	1.5	17
45	Aging, Life Satisfaction, and Self-reported Problems Among Participants with Spinal Cord Injury. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2010</b> , 15, 34-40	1.5	
44	Life Expectancy Estimates in the Life Care Plan: Accounting for Economic Factors <b>2010</b> , 9, 15		5
43	Coordinated Program of Research: Theoretical Risk Model, Literature, and Shared Methodology. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2010</b> , 16, 10-21	1.5	
42	Center for the Prevention of Secondary Conditions After Spinal Cord Injury: Background and Overview of Coordinated Activities. <i>Topics in Spinal Cord Injury Rehabilitation</i> , <b>2010</b> , 16, 1-9	1.5	
41	Obtaining Employment After Spinal Cord Injury: Relationship With Pre- and Postinjury Education. <i>Rehabilitation Counseling Bulletin</i> , <b>2009</b> , 53, 27-33	1	24

40	Disparities in subjective well-being, participation, and health after spinal cord injury: a 6-year longitudinal study. <i>NeuroRehabilitation</i> , <b>2009</b> , 24, 47-56	2	40
39	Pressure ulcer prevalence and barriers to treatment after spinal cord injury: comparisons of four groups based on race-ethnicity. <i>NeuroRehabilitation</i> , <b>2009</b> , 24, 57-66	2	38
38	Risk of mortality after spinal cord injury: relationship with social support, education, and income. <i>Spinal Cord</i> , <b>2009</b> , 47, 592-6	2.7	55
37	Risk of hospitalizations after spinal cord injury: relationship with biographical, injury, educational, and behavioral factors. <i>Spinal Cord</i> , <b>2009</b> , 47, 692-7	2.7	31
36	Behavioral risk factors of mortality after spinal cord injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2009</b> , 90, 95-101	2.8	61
35	Psychologic factors and risk of mortality after spinal cord injury. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2009</b> , 90, 628-33	2.8	30
34	Risk of mortality after spinal cord injury: an 8-year prospective study. <i>Archives of Physical Medicine and Rehabilitation</i> , <b>2009</b> , 90, 1708-15	2.8	69
33	Life satisfaction and self-reported problems after spinal cord injury: measurement of underlying dimensions. <i>Rehabilitation Psychology</i> , <b>2009</b> , 54, 343-50	2.7	21
