#	ARTICLE	IF	CITATIONS
1	Effectiveness of Cholinesterase Inhibitors and Memantine for Treating Dementia: Evidence Review for a Clinical Practice Guideline. <i>Annals of Internal Medicine</i> , 2008, 148, 379.	3.9	655
2	The Canadian Longitudinal Study on Aging (CLSA). <i>Canadian Journal on Aging</i> , 2009, 28, 221-229.	1.1	402
3	Inter-rater and test-retest reliability of quality assessments by novice student raters using the Jadad and Newcastle-Ottawa Scales. <i>BMJ Open</i> , 2012, 2, e001368.	1.9	137
4	No clear choice between Newcastle-Ottawa Scale and Appraisal Tool for Cross-Sectional Studies to assess methodological quality in cross-sectional studies of health-related quality of life and breast cancer. <i>Journal of Clinical Epidemiology</i> , 2020, 120, 94-103.	5.0	126
5	The association between antibiotic use in infancy and childhood overweight or obesity: a systematic review and meta-analysis. <i>Obesity Reviews</i> , 2018, 19, 1463-1475.	6.5	61
6	The Effect of Religion and Spirituality on Cognitive Function: A Systematic Review. <i>Gerontologist</i> , The, 2019, 59, e76-e85.	3.9	43
7	A hybrid qualitative method for pretesting questionnaires: The example of a questionnaire to caregivers of Alzheimer disease patients. <i>Research in Nursing and Health</i> , 2005, 28, 419-430.	1.6	25
8	Biobehavioral Aspects of the COVID-19 Pandemic: A Review. <i>Psychosomatic Medicine</i> , 2021, 83, 309-321.	2.0	21
9	Social support availability is positively associated with memory in persons aged 45-85 years: A cross-sectional analysis of the Canadian Longitudinal Study on Aging. <i>Archives of Gerontology and Geriatrics</i> , 2020, 86, 103962.	3.0	17
10	Health Utility Scores in Alzheimer's Disease: Differences Based on Calculation With American and Canadian Preference Weights. <i>Value in Health</i> , 2014, 17, 77-83.	0.3	16
11	Social support and cognitive function in middle- and older-aged adults: descriptive analysis of CLSA tracking data. <i>European Journal of Public Health</i> , 2019, 29, 1084-1089.	0.3	16
12	Identifying the components of clinical vignettes describing Alzheimer's disease or other dementias: a scoping review. <i>BMC Medical Informatics and Decision Making</i> , 2015, 15, 54.	3.0	14
13	Considerations for an Individual-Level Population Notification System for Pandemic Response: A Review and Prototype. <i>Journal of Medical Internet Research</i> , 2020, 22, e19930.	4.3	14
14	A comparison of health utility scores calculated using United Kingdom and Canadian preference weights in persons with Alzheimer's disease and their caregivers. <i>Health and Quality of Life Outcomes</i> , 2016, 14, 105.	2.4	13
15	Attending Religious Services and Its Relationship with Coronary Heart Disease and Related Risk Factors in Older Adults: A Qualitative Study of Church Pastors' and Parishioners' Perspectives. <i>Journal of Religion and Health</i> , 2014, 53, 1770-1785.	1.7	12
16	Association between functional social support and cognitive function in middle-aged and older adults: a protocol for a systematic review. <i>BMJ Open</i> , 2020, 10, e037301.	1.9	11
17	A pharmacoeconomic evaluation of cholinesterase inhibitors and memantine for the treatment of Alzheimer's disease. <i>Expert Opinion on Pharmacotherapy</i> , 2018, 19, 1245-1259.	1.8	10
18	Surgery versus collagen for female stress urinary incontinence: economic assessment in Ontario and Quebec. <i>Canadian Journal of Urology</i> , 2003, 10, 1934-44.	0.0	10

#	ARTICLE	IF	CITATIONS
19	Measuring health-related quality-of-life for Alzheimer's disease using the general public. <i>Quality of Life Research</i> , 2012, 21, 593-601.	3.1	9
20	The role of epidemiologists in SARS-CoV-2 and COVID-19 research. <i>Public Health</i> , 2021, 190, e3-e4.	2.9	8
21	Efficacy of telehealth in integrated chronic disease management for older, multimorbid adults with heart failure: A systematic review. <i>International Journal of Medical Informatics</i> , 2022, 162, 104756.	3.3	8
22	Support for a tax increase to provide unrestricted access to an Alzheimer's disease medication: a survey of the general public in Canada. <i>BMC Health Services Research</i> , 2009, 9, 246.	2.2	7
23	Can the general public use vignettes to discriminate between Alzheimer's disease health states?. <i>BMC Geriatrics</i> , 2016, 16, 36.	2.7	7
24	Female specialists were more likely to respond to a postal questionnaire about drug treatments for Alzheimer disease. <i>Journal of Clinical Epidemiology</i> , 2004, 57, 620-623.	5.0	6
25	Caregivers' willingness-to-pay for Alzheimer's disease medications in Canada. <i>Dementia</i> , 2015, 14, 63-79.	2.0	6
26	Does being a retired or employed caregiver affect the association between behaviours in Alzheimer's disease and caregivers' health-related quality-of-life?. <i>BMC Research Notes</i> , 2017, 10, 766.	1.4	5
27	Development of Clinical Vignettes to Describe Alzheimer's Disease Health States: A Qualitative Study. <i>PLoS ONE</i> , 2016, 11, e0162422.	2.5	5
28	A Computer-Assisted Personal Interview App in Research Electronic Data Capture for Administering Time Trade-off Surveys (REDCap): Development and Pretest. <i>JMIR Formative Research</i> , 2018, 2, e3.	1.4	5
29	The Association Between Adverse Childhood Experiences and Late-Life Cognition: A Systematic Review of Cross-Sectional and Case-Control Studies. <i>Gerontologist</i> , 2023, 63, 1087-1103.	3.9	5
30	Physicians' Efficacy Requirements for Prescribing Medications to Persons with Alzheimer's Disease. <i>Canadian Journal on Aging</i> , 2007, 26, 139-148.	1.1	4
31	Perceived susceptibility to developing cancer and mammography screening behaviour: a cross-sectional analysis of Alberta's Tomorrow Project. <i>Public Health</i> , 2019, 177, 135-142.	2.9	4
32	Subtypes of social support availability are not differentially associated with memory: a cross-sectional analysis of the Comprehensive Cohort of the Canadian Longitudinal Study on Aging. <i>Aging, Neuropsychology, and Cognition</i> , 2022, , 1-16.	1.3	4
33	A survey of physician efficacy requirements to plan clinical trials. <i>Pharmacoepidemiology and Drug Safety</i> , 2002, 11, 677-685.	1.9	3
34	How Does the Canadian General Public Rate Moderate Alzheimer's Disease?. <i>Journal of Aging Research</i> , 2011, 2011, 1-8.	0.9	3
35	Perceived susceptibility to developing cancer and screening for colorectal and prostate cancer: A longitudinal analysis of Alberta's Tomorrow Project. <i>Journal of Medical Screening</i> , 2021, 28, 148-157.	2.3	2
36	Exploring the association between religious participation and memory in middle- and older-aged adults in the Canadian Longitudinal Study on Aging. <i>Aging, Neuropsychology, and Cognition</i> , 2023, 30, 106-123.	1.3	2

#	ARTICLE	IF	CITATIONS
37	Examining the association between the COVID-19 pandemic and self-harm death counts in four Canadian provinces. <i>Psychiatry Research</i> , 2022, 310, 114433.	3.3	2
38	The association between religiosity, spirituality, and breast cancer screening: A cross-sectional analysis of Alberta's Tomorrow Project. <i>Preventive Medicine Reports</i> , 2022, 26, 101726.	1.8	2
39	Caregiver Acceptance of Adverse Effects and Use of Cholinesterase Inhibitors in Alzheimer's Disease. <i>Canadian Journal on Aging</i> , 2007, 26, 205-212.	1.1	1
40	The Association between Religious Participation and Executive Function in Middle- and Older-aged Adults: A Cross-Sectional Analysis of the Canadian Longitudinal Study on Aging. <i>International Journal for the Psychology of Religion</i> , The, 0, , 1-16.	2.1	1
41	Is your religious involvement helping your mind? The link between religious involvement and cognitive function from the perspectives of Christian pastors and parishioners. <i>Journal of Religion, Spirituality and Aging</i> , 0, , 1-18.	0.7	0
