Amanda J Baxter

List of Publications by Year in Descending Order

Source: https://exaly.com/author-pdf/1532478/amanda-j-baxter-publications-by-year.pdf

Version: 2024-04-20

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
40	Review of services to inform clinical frameworks for adolescents and young adults with severe, persistent and complex mental illness. <i>Clinical Child Psychology and Psychiatry</i> , 2019 , 24, 503-528	2	5
39	Identifying characteristics and practices of multidisciplinary team reviews for patients with severe mental illness: a systematic review. <i>Australasian Psychiatry</i> , 2018 , 26, 267-275	1.7	5
38	Increased mortality among people with schizophrenia and other non-affective psychotic disorders in the community: A systematic review and meta-analysis. <i>Journal of Psychiatric Research</i> , 2018 , 102, 245-253	5.2	56
37	Assessing service use for mental health by Indigenous populations in Australia, Canada, New Zealand and the United States of America: a rapid review of population surveys. <i>Health Research Policy and Systems</i> , 2017 , 15, 67	3.7	16
36	Systematic reviews: inducting research students into scholarly conversations?. <i>Higher Education Research and Development</i> , 2017 , 36, 217-220	1.9	
35	Systematic review of interventions for Indigenous adults with mental and substance use disorders in Australia, Canada, New Zealand and the United States. <i>Australian and New Zealand Journal of Psychiatry</i> , 2016 , 50, 1040-1054	2.6	32
34	Excess Mortality from Mental, Neurological, and Substance Use Disorders in the Global Burden of Disease Study 2010 2016 , 41-65		17
33	The burden of mental, neurological, and substance use disorders in China and India: a systematic analysis of community representative epidemiological studies. <i>Lancet, The</i> , 2016 , 388, 376-389	40	174
32	Reducing excess mortality due to chronic disease in people with severe mental illness: meta-review of health interventions. <i>British Journal of Psychiatry</i> , 2016 , 208, 322-9	5.4	35
31	Prevalence of mental, neurological, and substance use disorders in China and India: a systematic analysis. <i>Lancet Psychiatry,the</i> , 2016 , 3, 832-41	23.3	60
30	Social correlates of mental, neurological, and substance use disorders in China and India: a review. <i>Lancet Psychiatry,the</i> , 2016 , 3, 882-99	23.3	27
29	The epidemiology and global burden of autism spectrum disorders. <i>Psychological Medicine</i> , 2015 , 45, 601-13	6.9	547
28	MalesUmental health disadvantage: An estimation of gender-specific changes in service utilisation for mental and substance use disorders in Australia. <i>Australian and New Zealand Journal of Psychiatry</i> , 2015 , 49, 821-32	2.6	53
27	Global, regional, and national incidence, prevalence, and years lived with disability for 301 acute and chronic diseases and injuries in 188 countries, 1990-2013: a systematic analysis for the Global Burden of Disease Study 2013. <i>Lancet, The</i> , 2015 , 386, 743-800	40	3802
26	Challenging the myth of an "epidemic" of common mental disorders: trends in the global prevalence of anxiety and depression between 1990 and 2010. <i>Depression and Anxiety</i> , 2014 , 31, 506-16	8.4	179
25	The global burden of anxiety disorders in 2010. Psychological Medicine, 2014, 44, 2363-74	6.9	315
24	The burden attributable to mental and substance use disorders as risk factors for suicide: findings from the Global Burden of Disease Study 2010. <i>PLoS ONE</i> , 2014 , 9, e91936	3.7	226

The Cost-effectiveness of Treatments for Anxiety Disorders 2014, 1256-1267 1 23 The regional distribution of anxiety disorders: implications for the Global Burden of Disease Study, 22 4.3 57 2010. International Journal of Methods in Psychiatric Research, 2014, 23, 422-38 The global epidemiology and burden of psychostimulant dependence: findings from the Global 21 4.9 114 Burden of Disease Study 2010. Drug and Alcohol Dependence, 2014, 137, 36-47 Global burden of disease attributable to mental and substance use disorders: findings from the 20 3619 40 Global Burden of Disease Study 2010. Lancet, The, 2013, 382, 1575-86 Global burden of disease attributable to illicit drug use and dependence: findings from the Global 19 40 551 Burden of Disease Study 2010. Lancet, The, 2013, 382, 1564-74 Global variation in the prevalence and incidence of major depressive disorder: a systematic review 18 6.9 617 of the epidemiological literature. Psychological Medicine, 2013, 43, 471-81 Estimating remission from untreated major depression: a systematic review and meta-analysis. 6.9 17 159 *Psychological Medicine*, **2013**, 43, 1569-85 Global prevalence of anxiety disorders: a systematic review and meta-regression. Psychological 16 6.9 650 Medicine, **2013**, 43, 897-910 How did we arrive at burden of disease estimates for mental and illicit drug use disorders in the 15 4.9 20 Global Burden of Disease Study 2010?. Current Opinion in Psychiatry, 2013, 26, 376-83 The contribution of major depression to the global burden of ischemic heart disease: a comparative 11.4 85 14 risk assessment. BMC Medicine, 2013, 11, 250 Global epidemiology of mental disorders: what are we missing?. PLoS ONE, 2013, 8, e65514 13 112 3.7 Common values in assessing health outcomes from disease and injury: disability weights 12 842 40 measurement study for the Global Burden of Disease Study 2010. Lancet, The, 2012, 380, 2129-43 Disability-adjusted life years (DALYs) for 291 diseases and injuries in 21 regions, 1990-2010: a 5768 11 40 systematic analysis for the Global Burden of Disease Study 2010. Lancet, The, 2012, 380, 2197-223 Years lived with disability (YLDs) for 1160 sequelae of 289 diseases and injuries 1990-2010: a 10 40 4971 systematic analysis for the Global Burden of Disease Study 2010. Lancet, The, 2012, 380, 2163-96 A comparative risk assessment of burden of disease and injury attributable to 67 risk factors and risk factor clusters in 21 regions, 1990-2010: a systematic analysis for the Global Burden of Disease 7625 9 40 Study 2010. Lancet, The, **2012**, 380, 2224-60 Health states for schizophrenia and bipolar disorder within the Global Burden of Disease 2010 8 24 Study. Population Health Metrics, 2012, 10, 16 Mental disorders as risk factors: assessing the evidence for the Global Burden of Disease Study. 11.4 19 BMC Medicine, 2011, 9, 134 A systematic review of the global distribution and availability of prevalence data for bipolar 6.6 66 disorder. Journal of Affective Disorders, 2011, 134, 1-13

5	Should global burden of disease estimates include depression as a risk factor for coronary heart disease?. <i>BMC Medicine</i> , 2011 , 9, 47	11.4	50
4	Factors Influencing Risk of Premature Mortality in Community Cases of Depression: A Meta-Analytic Review. <i>Epidemiology Research International</i> , 2011 , 2011, 1-12		13
3	A population-based study of Australian twins with melanoma suggests a strong genetic contribution to liability. <i>Journal of Investigative Dermatology</i> , 2009 , 129, 2211-9	4.3	23
2	The Queensland Study of Melanoma: environmental and genetic associations (Q-MEGA); study design, baseline characteristics, and repeatability of phenotype and sun exposure measures. <i>Twin Research and Human Genetics</i> , 2008 , 11, 183-96	2.2	38
1	Dietary patterns and metabolic syndromea review of epidemiologic evidence. <i>Asia Pacific Journal of Clinical Nutrition</i> , 2006 , 15, 134-42	1	103
