| # | ARTICLE | IF | CITATIONS |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1 | People living with moderate-to-severe COPD prefer improvement of daily symptoms over the improvement of exacerbations: a multicountry patient preference study. ERJ Open Research, 2022, 8, 00686-2021. | 2.6 | 3 |
| 2 | Development of an international template to support patient submissions in Health Technology Assessments. International Journal of Technology Assessment in Health Care, 2021, 37, e50. | 0.5 | 3 |
| 3 | How to integrate evidence from patient preference studies into health technology assessment: a critical review and recommendations. International Journal of Technology Assessment in Health Care, 2021, 37, . | 0.5 | 7 |
| 4 | Gathering Structured Patient Insight to Drive the PRO Strategy in COPD: Patient-Centric Drug Development from Theory to Practice. Advances in Therapy, 2020, 37, 17-26. | 2.9 | 15 |
| 5 | Patient Preferences in the Medical Product Lifecycle. Patient, 2020, 13, 7-10. | 2.7 | 8 |
| 6 | Assessing physician preferences on future therapeutic options and diagnostic practices in non-alcoholic steatohepatitis. JHEP Reports, 2020, 2, 100081. | 4.9 | 4 |
| 7 | Identification of Patient Needs and Preferences in Pigmented Villonodular Synovitis (PVNS) Using a Qualitative Online Bulletin Board Study. Advances in Therapy, 2020, 37, 2813-2828. | 2.9 | 2 |
| 8 | <p>Impact of cough and mucus on COPD patients: primary insights from an exploratory study with an Online Patient Community</p>. International Journal of COPD, 2019, Volume 14, 1365-1376. | 2.3 | 14 |
| 9 | Evaluating Patient Experiences in Dry Eye Disease Through Social Media Listening Research. Ophthalmology and Therapy, 2019, 8, 407-420. | 2.3 | 39 |
| 10 | The Patient Perspectives on Future Therapeutic Options in NASH and Patient Needs. Frontiers in Medicine, 2019, 6, 61. | 2.6 | 26 |
| 11 | Patient Preference Studies During Early Drug Development: Aligning Stakeholders to Ensure Development Plans Meet Patient Needs. Frontiers in Medicine, 2019, 6, 82. | 2.6 | 31 |
| 12 | Patient Needs, Perceptions, and Attitudinal Drivers Associated with Obesity: A Qualitative Online Bulletin Board Study. Advances in Therapy, 2019, 36, 842-857. | 2.9 | 8 |
| 13 | Patients' perspectives on COPD: findings from a social media listening study. ERJ Open Research, 2019, 5, 00128-2018. | 2.6 | 37 |
| 14 | Defining the needs and preferences of patients with dry eye disease. BMJ Open Ophthalmology, 2019, 4, e000315. | 1.6 | 9 |
| 15 | Comparing the needs and preferences of patients with moderate and severe dry eye symptoms across four countries. BMJ Open Ophthalmology, 2019, 4, e000360. | 1.6 | 11 |
| 16 | Understanding Patient Preferences and Unmet Needs in Non-alcoholic Steatohepatitis (NASH): Insights from a Qualitative Online Bulletin Board Study. Advances in Therapy, 2019, 36, 478-491. | 2.9 | 29 |
| 17 | PP47 Defining The Needs And Preferences Of Patients With Dry Eye Disease. International Journal of Technology Assessment in Health Care, 2018, 34, 83-84. | 0.5 | 2 |
| 18 | The Role of Patients inMarket Access. , 2018, , 267-288. | | 3 |

| # | ARTICLE | IF | CITATIONS |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Giving Patientsâ€™ Preferences a Voice in Medical Treatment Life Cycle: The PREFER Publicâ€“Private Project. <i>Patient</i> , 2017, 10, 263-266. | 2.7 | 96 |
| 20 | VP161 Identification Of Needs Of Pigmented Villonodular Synovitis Patients Using Online Bulletin Board. <i>International Journal of Technology Assessment in Health Care</i> , 2017, 33, 222-223. | 0.5 | 3 |
| 21 | Beta-amino acid derivatives as orally active non-peptide fibrinogen receptor antagonists. <i>Bioorganic and Medicinal Chemistry Letters</i> , 1997, 7, 727-732. | 2.2 | 16 |
| 22 | Inhibition of platelet GPIIb/IIIa in an ex vivo model of hyperacute xenograft rejection does not prolong cardiac survival time. <i>Xenotransplantation</i> , 1996, 3, 43-52. | 2.8 | 13 |
| 23 | Therapeutic potential of potassium channel openers in peripheral vascular disease and asthma. <i>Cardiovascular Drugs and Therapy</i> , 1993, 7, 555-563. | 2.6 | 19 |
| 24 | The Effects of Two Synthetic Glycoprotein II b/III a Antagonists, Ro 43-8857 and L-700,462, on Platelet Aggregation and Bleeding in Guinea-Pigs and Dogs: Evidence that Ro 43-8857 Is Orally Active. <i>Thrombosis and Haemostasis</i> , 1993, 70, 838-847. | 3.4 | 34 |
| 25 | Moving together: K ⁺ channel openers and ATP-sensitive K ⁺ channels. <i>Trends in Pharmacological Sciences</i> , 1989, 10, 431-435. | 8.7 | 289 |
| 26 | PN 200110, a Calcium Antagonist with High Potency and Selectivity for Vascular Smooth Muscle. <i>Annals of the New York Academy of Sciences</i> , 1988, 522, 304-305. | 3.8 | 6 |
| 27 | The pharmacology of potassium channels and their therapeutic potential. <i>Trends in Pharmacological Sciences</i> , 1988, 9, 21-28. | 8.7 | 568 |
| 28 | Cardiovascular effects of apamin and BRL 34915 in rats and rabbits. <i>British Journal of Pharmacology</i> , 1988, 93, 121-131. | 5.4 | 49 |
| 29 | Antiâ€“vasoconstrictor effects of the K ⁺ channel opener cromakalim on the rabbit aortaâ€“ comparison with the calcium antagonist isradipine. <i>British Journal of Pharmacology</i> , 1988, 95, 741-752. | 5.4 | 86 |
