

Michael Haslam

List of Publications by Citations

Source: <https://exaly.com/author-pdf/1549677/michael-haslam-publications-by-citations.pdf>

Version: 2024-04-29

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

61

#	Paper	IF	Citations
61	Primate archaeology. <i>Nature</i> , 2009 , 460, 339-44	50.4	207
60	The decomposition of starch grains in soils: implications for archaeological residue analyses. <i>Journal of Archaeological Science</i> , 2004 , 31, 1715-1734	2.9	162
59	Out of Africa: new hypotheses and evidence for the dispersal of Homo sapiens along the Indian Ocean rim. <i>Annals of Human Biology</i> , 2010 , 37, 288-311	1.7	121
58	Wild monkeys flake stone tools. <i>Nature</i> , 2016 , 539, 85-88	50.4	106
57	Population increase and environmental deterioration correspond with microlithic innovations in South Asia ca. 35,000 years ago. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2009 , 106, 12261-6	11.5	100
56	Documenting contamination in ancient starch laboratories. <i>Journal of Archaeological Science</i> , 2014 , 49, 90-104	2.9	99
55	Use of stone hammer tools and anvils by bearded capuchin monkeys over time and space: construction of an archeological record of tool use. <i>Journal of Archaeological Science</i> , 2013 , 40, 3222-3232 ^{2,9}	2.9	91
54	The oldest and longest enduring microlithic sequence in India: 35 000 years of modern human occupation and change at the Jwalapuram Locality 9 rockshelter. <i>Antiquity</i> , 2009 , 83, 326-348	1	84
53	Use-wear patterns on wild macaque stone tools reveal their behavioural history. <i>PLoS ONE</i> , 2013 , 8, e72872	2.9	79
52	Towards a prehistory of primates. <i>Antiquity</i> , 2012 , 86, 299-315	1	73
51	Geochemical fingerprinting of the widespread Toba tephra using biotite compositions. <i>Quaternary International</i> , 2011 , 246, 97-104	2	68
50	Tool use as adaptation. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2013 , 368, 20120408	5.8	58
49	'Captivity bias' in animal tool use and its implications for the evolution of hominin technology. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2013 , 368, 20120421	5.8	56
48	Experimental examination of animal trampling effects on artifact movement in dry and water saturated substrates: a test case from South India. <i>Journal of Archaeological Science</i> , 2010 , 37, 3010-3021 ^{2,9}	2.9	56
47	Late Acheulean hominins at the Marine Isotope Stage 6/5e transition in north-central India. <i>Quaternary Research</i> , 2011 , 75, 670-682	1.9	53
46	Pre-Columbian monkey tools. <i>Current Biology</i> , 2016 , 26, R521-R522	6.3	42
45	The 74 ka Toba super-eruption and southern Indian hominins: archaeology, lithic technology and environments at Jwalapuram Locality 3. <i>Journal of Archaeological Science</i> , 2010 , 37, 3370-3384	2.9	40

44	Comment on Environmental impact of the 73ka Toba super-eruption in South Asia by M.A.J. Williams, S.H. Ambrose, S. van der Kaars, C. Ruehlemann, U. Chattopadhyaya, J. Pal and P.R. Chauhan [Palaeogeography, Palaeoclimatology, Palaeoecology 284 (2009) 295-314]. <i>Palaeogeography, Palaeoclimatology, Palaeoecology</i> , 2010 , 296, 199-203	2.9	36
43	Quantifying traces of tool use: a novel morphometric analysis of damage patterns on percussive tools. <i>PLoS ONE</i> , 2014 , 9, e113856	3.7	36
42	Potential misidentification of in situ archaeological tool-residues: starch and conidia. <i>Journal of Archaeological Science</i> , 2006 , 33, 114-121	2.9	33
41	Archaeological excavation of wild macaque stone tools. <i>Journal of Human Evolution</i> , 2016 , 96, 134-8	3.1	29
40	Wild capuchin monkeys adjust stone tools according to changing nut properties. <i>Scientific Reports</i> , 2016 , 6, 33089	4.9	26
39	A southern Indian Middle Palaeolithic occupation surface sealed by the 74 ka Toba eruption: Further evidence from Jwalapuram Locality 22. <i>Quaternary International</i> , 2012 , 258, 148-164	2	26
38	Primate archaeology evolves. <i>Nature Ecology and Evolution</i> , 2017 , 1, 1431-1437	12.3	25
37	Three thousand years of wild capuchin stone tool use. <i>Nature Ecology and Evolution</i> , 2019 , 3, 1034-1038	12.3	24
36	Technological Response of Wild Macaques () to Anthropogenic Change. <i>International Journal of Primatology</i> , 2017 , 38, 872-880	2	24
35	Uncovering a landscape buried by the super-eruption of Toba, 74,000 years ago: A multi-proxy environmental reconstruction of landscape heterogeneity in the Jurreru Valley, south India. <i>Quaternary International</i> , 2012 , 258, 135-147	2	23
34	Analysis of sea almond (<i>Terminalia catappa</i>) cracking sites used by wild Burmese long-tailed macaques (<i>Macaca fascicularis aurea</i>). <i>American Journal of Primatology</i> , 2017 , 79, e22629	2.5	21
33	Distance-decay effect in stone tool transport by wild chimpanzees. <i>Proceedings of the Royal Society B: Biological Sciences</i> , 2016 , 283,	4.4	20
32	Analysis of wild macaque stone tools used to crack oil palm nuts. <i>Royal Society Open Science</i> , 2018 , 5, 171904	3.3	19
31	An archaeology of the instant?: Action and narrative in microscopic archaeological residue analyses. <i>Journal of Social Archaeology</i> , 2006 , 6, 402-424	1.3	17
30	On the tool use behavior of the bonobo-chimpanzee last common ancestor, and the origins of hominine stone tool use. <i>American Journal of Primatology</i> , 2014 , 76, 910-8	2.5	15
29	Dhaba: An initial report on an Acheulean, Middle Palaeolithic and microlithic locality in the Middle Son Valley, north-central India. <i>Quaternary International</i> , 2012 , 258, 191-199	2	14
28	Revisiting Panda 100, the first archaeological chimpanzee nut-cracking site. <i>Journal of Human Evolution</i> , 2018 , 124, 117-139	3.1	14
27	Stone anvil damage by wild bearded capuchins (<i>Sapajus libidinosus</i>) during pounding tool use: a field experiment. <i>PLoS ONE</i> , 2014 , 9, e111273	3.7	12

26	Complex processing of prickly pear cactus (<i>Opuntia</i> sp.) by free-ranging long-tailed macaques: preliminary analysis for hierarchical organisation. <i>Primates</i> , 2016 , 57, 141-7	1.7	11
25	Toba supereruption: age and impact on East African ecosystems. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2013 , 110, E3047	11.5	11
24	Cryptotephra from the 74 ka BP Toba super-eruption in the Billa Surgam caves, southern India. <i>Quaternary Science Reviews</i> , 2011 , 30, 1819-1824	3.9	11
23	Resource depletion through primate stone technology. <i>ELife</i> , 2017 , 6,	8.9	11
22	In Foote's Steps: The History, Significance and Recent Archaeological Investigation of the Billa Surgam Caves in Southern India. <i>South Asian Studies</i> , 2010 , 26, 1-19	0.1	10
21	Stone tool transport by wild Burmese long-tailed macaques (<i>Macaca fascicularis aurea</i>). <i>Journal of Archaeological Science: Reports</i> , 2016 , 7, 408-413	0.7	9
20	Nasal probe and toothpick tool use by a wild female bearded capuchin (<i>Sapajus libidinosus</i>). <i>Primates</i> , 2015 , 56, 211-4	1.7	9
19	Blind tests in microscopic residue analysis: comments on Wadley et al. (2004). <i>Journal of Archaeological Science</i> , 2007 , 34, 997-1000	2.9	9
18	A Lang Park mystery: Analysis of remains from a 19th century burial in Brisbane, Queensland. <i>Australian Archaeology</i> , 2003 , 56, 1-7	0.8	9
17	Hearts and minds: Public archaeology and the Queensland school curriculum. <i>Australian Archaeology</i> , 2005 , 61, 71-79	0.8	8
16	Cashew Nut Positioning during Stone Tool Use by Wild Bearded Capuchin Monkeys (<i>Sapajus libidinosus</i>). <i>Folia Primatologica</i> , 2016 , 87, 392-397	1.2	6
15	Prevalence of tool behaviour is associated with pelage phenotype in intraspecific hybrid long-tailed macaques (<i>Macaca fascicularis aurea</i> [M. f. <i>fascicularis</i>]). <i>Behaviour</i> , 2019 , 156, 1083-1125	1.4	6
14	Wild sea otter mussel pounding leaves archaeological traces. <i>Scientific Reports</i> , 2019 , 9, 4417	4.9	4
13	Extending material cognition to primate tool use. <i>Quaternary International</i> , 2016 , 405, 70-77	2	3
12	Climate effects of the 74 ka Toba super-eruption: Multiple interpretive errors in a high-precision $^{40}\text{Ar}/^{39}\text{Ar}$ age for the Young Toba Tuff and dating of ultra-distal tephra by D. Mark, et al.. <i>Quaternary Geochronology</i> , 2014 , 21, 104-105	2.7	3
11	How bearded capuchin monkeys (<i>Sapajus libidinosus</i>) prepare to use a stone to crack nuts. <i>American Journal of Primatology</i> , 2019 , 81, e22958	2.5	2
10	Adult and juvenile bearded capuchin monkeys handle stone hammers differently during nut-cracking. <i>American Journal of Primatology</i> , 2020 , 82, e23156	2.5	2
9	The Use of Flaked Stone Artifacts in Palau, Western Micronesia. <i>Asian Perspectives</i> , 2009 , 47, 405-428	0.4	2

8	TA 30 - Archaeological Science Under a Microscope : Studies in Residue and Ancient DNA Analysis in Honour of Thomas H. Loy 2009 ,	1
7	Food hardness and stone tool weight in wild primate nut-cracking	1
6	Recognizing Culture in Wild Primate Tool Use. <i>Interdisciplinary Evolution Research</i> , 2018 , 199-209	1
5	Evolutionary biology: Dating chimpanzees. <i>Nature</i> , 2014 , 508, 322-3	50.4 0
4	DNA recovery from wild chimpanzee tools. <i>PLoS ONE</i> , 2018 , 13, e0189657	3.7
3	Backfill. <i>Australian Archaeology</i> , 2005 , 60, 67-72	0.8
2	L'archéologie, le singe et l'outil. <i>Pour la science Fr</i> , 2019 , N° 499 - mai, 48-55	0
1	Stone Tools 2022 , 6723-6733
